Once you have the materials to make your fermented oils mixture, you can add them to your container of food oils, and begin to ferment them, or use them to make a nice cheese mixture, to ferment and then to make solid as it matures with age. You can also use the materials to make a fermented bean mixture, or fermented barley, or fermented rice, or fermented millet, or fermented wheat mixture.

You can also use them to make a fermented brew mixture, as there will be many healthy molds and funguses kiddies in and among the dried out materials. Your health will improve, and by adding different spices, nuts, berries, root particles, ground up kiln dried pine cones that were green to begin with, and then fermented for a few months to a few years, in a brew mixture, then dried out, and ground up into a saw dust powder consistency, you can then have lots of crystals cages salts kiddies of various kinds help you to make a nice regroverative brew, to help you to regroverate your amoebes.

## Feeding Everybody In Our Bodies

You know, we need to eat foods to stay alive. We also need to feed all the living animals in our body, to help them to stay alive, so that they can help our health remain normal, from day to day. We also need to feed the amoebes all the foods and juices, salts kiddies, and the poopy liquids and pee liquids, and other liquids with other types of tinier salts kiddies in them, as well as other types of food kiddies, we haven't learned about, yet, but with all of them inside your tummy, you'll be able to feed every one who needs feeding, and then you'll be successful with your amoebe 'auto regroverate mode, on!' formula, so long as you have degunked your body of all the petro chemical oils, kerosene, diesel fuels, and other chemicals, the Lesbianists have been feeding you, from birth, in your diets, if you live in a society, where you are fed baby formula mixtures from Gerbers or Heinze, or any of the other baby foods manufacturers.

## Putting An End To The Global Menace Of The Lesbianists

We need to put an end to this practice by the Lesbianists of poisoning us with their petro chemical industry oils and tars salts kiddies, which they use to rot our teeth out, and cause tooth decay, and which they use to cause ulcers in people's tummies, and which they use to cause lots of unpleasant illnesses, and diseases in human beings, and in farm animals. These petro chemical salt kiddies, and formaldehyic salts kiddies, all harm our amobes living beings children, and all the other animals that live inside of us. One day, we will have a lot of people practicing my religion, sexaling, and making prayer statements so as to help us to erase the karmic markups we have, that keep us living under the tyranny of these Lesbianists, and in their societies, suffereing the daily poisonings that cut our lives short. When we have erased enough of our karmic markups with my religion's religious practice of sexaling to purify our selfs and others around us, and to clearify and erase our karmic markups, we will eventually be able to say good bye to the Lesbianists, and their practices of poisoning us, and causing us major headaches, or problems in our lives.

Changing Our Societies, And Our Universe, Forever

At that time, we will be able to say hello to a whole new way of life, and that will be the beginning of our new, thrilling, and excitingly challenging, one world, unified, planetary, global culture, and it will be the begining of our new, thrilling, and excitingly challenging, one universe, universal culture for all of the people in our universe, who we have been living in our universe together with, since we first came out, and began living here in my universe, a very long time ago. We have to start somewhere, and so here we are, now, begining to prepare the foundation for our long and prosperous journey ahead of us, as we clean up our universe, together with each other, and clearify and erase all of our karmic markups, and all of the karmic markups of all my children, and of all living beings who live with us, together with us, in my and our universe. We need to take responsibility for this clean up campaign of ours, as we are the only ones, besides my many worker, unionized children, who can use our brains, and use our sexaling organs, to produce purifying energies of all types, to help us clearify and erase all of our karmic markups, and all karmic markups, and karmic things and dings, of all of my animal children, and of all of my living beings children, and of all of my human children.

My kids have built underground cities, to help us to get started, in learning about the new ways of living together, and of sexaling together, for practicing my religion together with each other, so that we will be able to prepare ourselves, for our new global, unified society, and for our new, universal, united, civilization. We have a long ways to go, but we are starting now, with your efforts to correct this situation by eraseing the karmic markups and karmic things and dings, that have us living in this truly awful situation on this planet, in our universe, that we are now, curently living in. One day, when all the Lesbianists are either dead, or have surrendered to my kids, we will be able to gradually educate ourselves, and change our understanding about women and girls, and about men and boys, to understand the truth about women and girls, and about men and boys, and then we will begin our new and exciting journey into our future, together, with my religion at the basis of our new, unified society, universal culture, and universal civilization.

Donations To GOd

Why can't anyone donate any thing to me? I am GOd. So, how come no one can send me a penny in the mail, or a box of cookies, or a pair of socks, or something? I don't think I'm asking for too much, but I'm just curious about why no one can send me anything in the mail?

I don't get any phone calls. No one sends me any e-mail. No one tries to visit me. I have a religion, and I'm asking people to practice it. Now, how come no one can contact me?

I once said that I am in a monastic mode, and it is a cloistered monastic mode. That means, no one can be contacted out side of my monastery by any one inside the monastery, and no one can contact any one inside the monastery, by any one outside the monastery.

If there is no legitimate monastery business then no person will be allowed to contact me, or for that matter, any one else inside my monastery, who is leading a monastic life, with me.

Well, there is only me, right now, but maybe in the future, some one will be in my cloistered monastic discipline with me, helping me with my religious duties of doing my religious ceremonies, as I've mentioned about, before.

Monastic Mode

What does my 'monastic mode' mean? It means that I am here as GOD. You know, there is only me. I of course never sent any one, such as the Lesbianists claim. Why would I? I don't need any one to do the things I need to do. That's sheer idiocy to think I would have a son or daughter, and send them to do my business. That's absurd. You've been snookered into believeing all those hogwash tales, and now you don't know who I am, and you don't have the karma to believe in me, as a result of your following and believeing all those hogwash tales. My kids are everywhere, and they are doing their jobs.

Who Works For Me, Anyway?

Now, as I've been saying, I'm going to have you do your jobs, and that is to use your genitals, and to use your body, and to use your brains, and then participate in my religion, using your genitals and your body and your brain, and sexalate with each other, and purify your karma? Does that sound like a joke to you? If it does, you are very mistaken because it is not a joke in any way, and I am absolutely serious when I say that you are going to use your 'equipment' and I almost want to call it, your 'field' equipment, because you are armed with it, day and night, and you are going to use that equipment, to clearify and erase your karmic markups, and to purify my universe. Is that okay with you? I hope it sure the hell is, as a "NO SIR!" at this point, would be an unsatisfactory reply. Do you understand me? I hope so. You are going to jump ship, as I order you to, or be thrown over board, if you have a problem with that. I hope you understand.

Well, as far as I can figure it, no one realizes that I am GOD, so no one can donate money to me. If some one realizes that I am GOD, than for the first time, that person will be allowed to donate money to me. That person will be allowed to visit me, or call me on the phone, or donate money or food to me, or practice my religious ceremonies with me, if that person believes, and understands, and realizes, that I am GOD.

Right now, there is no one who realizes or understands that I am GOD. No one of course believes I am GOD. Never the less, I am GOD, and I am sitting here, waiting for donations, to help my ministry get started.

So, that is the reason that no one can get through to me, or donate money to me, or send me a postcard with some kind of message of cheer and support in it.

There doesn't seem to be any body who believes that I am GOD. Well, that isn't surprising. People do not have the karma to believe that I exist, is one way of looking at it. They have ignored my existence, and have not had any real thoughts about me that would link them to me, in my monastic mode.

What does that mean? It means, that no one remembers me, as the guy who created all of you. It also means, that I am in a religious mode, and no one understands that, or believes that I am in a religious mode. That is peculiar, since I am giving you a religion, one of my oldest, for you to practice, that will assist you in purifying your life, and that will assist you in eraseing and clearifying your karmic markups. That's very peculiar, but it is not that peculiar, as you do not have the karma to realize and understand that I am GOD. In any case, there will be no donations, no telegrams, and no phone calls or letters to me, so long as you do not realize, understand, and then of course, believe that I am GOD. Well, any way, so it goes.

## Obeying Orders

Now, I want all these people, killed. Hillary Clinton. Bill Clinton. Chelsea Clinton. Ted Kennedy. Al Gore. Tipper Gore. Harriet Gore. Cheryl Gore. Dave Gore. Bill Gore, and all people who call them selfs, Gore and pretend to be related to Al Gore, or to Tipper Gore. Mr. Al Gore has lots of friends, who are also Lesbianists, and I want them all killed. Oliver North. Monica Lewinsky. Eve Arden. Elizabeth Arden. Michael Jackson. George Bush Sr. and all other George Bushes. Do you understand what I mean? It means, that they are all Lesbianists and they are all going to die, and we are going to blow up Washington D.C., and destroy Capital Hill, and level that area, and make it sink beneath the waves of the Atlantic Ocean. That's how big a bomb I want you to make, with my fracturable rocks, to then blow that area out of the water, and make it sink below the waves of the Atlantic Ocean. You'll probably need more than one bomb.

Did you know that Washington, D.C. is lying on a fault line, deep down, and it is on an ocean shelf, that has the ocean under it, lapping at the earth, very far down. That means, that it is on a fault line, and it is on a shelf, that is hanging over the ocean's waters.

Now, if you hit Baltimore, and Maryland, and Northern Virginia, and Washington DC with a large enough bomb to blow Baltimore out of the ground, and level it, and with another bomb large enough to blow Washington DC out of the ground and level it, at the same time, and a few more bombs, large enough to blow Maryland, Virginia, and that whole metro area out of the earth, at the same time, you will sink the nation's capital, that is, Washington DC, below the ground, as it will break off the ledge that it sits on, and it will sink into the ocean, as the ledge crumbles below it. There will be water, from the Atlantic ocean, all the way out to West Virginia.

Now. I have every right to say that, and demand this, as it is a matter of self defense, as I know these motherfuckers are eating people, cannibalizing my kids, for their amusement, thrills, and fun, and they will continue to do that UNLESS THEY ARE STOPPPED! Do you understand that?

I hope so. I am going to see the whole of Washington DC and the area leveled, with Baltimore, and Northern Virginia, and Maryland, as well, and we are going to sink that area into the ocean, and make it disappear below the surface of the waters of the Atlantic. Now, that should be clear, shouldn't it.

This is not a joke. We will have to send a lot of my children to my Epcot Center, in the blasts that will occur, and in the after math of the blasts, but that is unavoidable.

We will have many people, drowning in the waters that come in from the ocean, and that stretch out to the hills of West Virginia, with only slight outcrops of land, hills, here and there, with a few people lying on top of them, blinded and in awful pain, but they will not live long, as they will not be able to survive for long, and they will pass on, die, and then they will transel to my Epcot Center, where they can get medical relief, medical treatment, therapy counseling, and rehabilitative therapies. That is what we will do to Washington DC and vicinity, so every one, please prepare for it, and get your pain medication in order, so you can take an over dose of pain pills, when your area is blown and shredded to bits, with one or more of my fracturable rocks bombs, as I've explained about.

## Every Politician In The World To Be Executed

Next, I want every politician in the world, canceled out. I want their passports for living on our planet, canceled. That means, I want you to kill each and every one of them. Not only do I want you to kill them, all, but I want you to kill every single one of their associates, around the world. They are all Lesbianists, except for a few of them. If you happen to kill one of the non Lesbianists policitians by mistake, that is okay. They have the option of surrendering to my children, available to them, and once they surrender, they will not be killed, by accident.

## Every Hollywood Actor And Actoress To Be Executed

After that, I want every Hollywood actor or actoress killed, and that includes all the actors and actoresses, around the world, and they must surrender to my kids, if they wish to not get killed. There are a lot of them, who are not Lesbianists, so those I've mentioned, who I've let you know are not Lesbianists, you can forget about them, and leave them alone. There are a lot more than thirteen billion Lesbianists living under the earth's surface, in underground cities. I did not realize there were so many. We need to kill them all, so we will, in time, unless they surrender. Is that clear, every body? I hope the answer is, "Yes, Sir!" as you had better not answer any other way, or you will get yourself on my shit list. Is that understood? Good. I am the boss of my universe, so if you do not like it, than jump overboard, now, sailor. Have you got that clear? Good.

## Jump Ship, Explained

What does 'jump overboard' mean? It means you are going to have severe problems with me, if you do not obey orders, and that there will be difficulty and jail time, ahead of you, if you continue to ignore my commands to you. It means there is going to be trouble, if you do not obey me. My kids are in charge of handling all the details on that, and it is not a joke.

## Fair Warning

We are not going to let these Lesbianists run their show, one more minute. We are going to put an end to them, and their activities, here on this planet, and every where else in my universe, and this is fair warning of that.

## Particle Remis Technology And Particle Dismiss Technology

As I said, once before, there is a technology called particle remis technology. There is also a technology called particle dismiss. They are the technologies that you can use to feed 2.3 billion Lesbianists down under the surface of this planet, and on every other planet that they are on.

## Dismend Technology And Remend Technology

It is easy to dismiss molecules, and to dismiss, or dismend all the beings who need to be dismended, and sent to my Epcot Centers. It is also easy to remend them, and then get them back into the foods that I need them to be a part of.

My kids keep track of every one who needs to be dismended, and then remended. That is a lot of work, keeping track of every one, but that allows us to dismend the living beings, and animals, that I can let off from duty, and from further service, and then send to my Epcot Centers for them to live in. I can then recall them to duty, and remend them, and then have them serve in an apple or an orange, or banana, or a brick. Do you think that is a joke? It is not a joke, and there is no joking allowed, on my shift. Do you got that? I hope so, because if you do not, you will have to learn how to swim a long ways, as it is going to be a long way from shore, after I ask you to jump over board, and I have sailors who practice, all the time, just to show the passengers how it is done, just in case. I will have you jump from ship, if you do not get along with me, and if you disagree with what I am doing, pretty soon, as we are departing, now, or just about now. That means, we are not going to play around, much longer, and we are going to set sail. That means, there are going to be a lot of people practicing my religion, pretty soon, as they will learn about it, and they will begin practicing it.

## Mentalcosis / Mentaltosis And Comatosis

Mentaltosis is the state of a vegetable, like a stalk of cellery, or a plumb, or an orange. Comatosis is the state of complete awareness of self and others. Comatosis is not brain dead, i.e., more or less, mentaltosis, with no real significant brain activities occuring, other than the ones that keep you alive, and vegetative, and you do not need assistance to remain and function in a state of mentaltosis, and the Lesbianists know it. You are severely brainally handicapped, and when you come out of it, eventually, after you have your karma fully completed for being mentaltosically ill, and after it is then time to get on to something else, you will be very brainally handicapped, and you'll be an extremely retarded person, with little to nearly no brain awareness going on about self and others, but able to walk, barely, and later, after many many lifetimes as a mentally retarded individual, you'll begin to be able to mumble a little, or babble a little, for umpteen lifetimes, as you begin to get your higher brain functions, back, which takes a very long time to work out, and many many lifetimes to work out, karmically.

Comatosis is like a hit on the head, and when you wake up, your faculties are not all working, and you may not be able to speak, or move, or talk to your friends, but mentally, you are all there.

Mentaltosis is like a train ran over your brain, and every other nervous system in your body, nearly, and you are completely unable to think, or do any thing else, and you are reduced to a mere pumping heart patient, with not much else going for you, except you are breathing, and technically, you are alive. You can sit there for a million years, or a million or so life times, before you begin to come out of it, and then reveal your disorder of severe mental disorganization, mental disfunction, and mental retardation. There is a big difference between a bonk on the head, and a train running over it, and the rest of your body. Coma patients are fully aware of what is going on around them, and they may not be able to speak, but they are there, and they can twitch a finger, now and then, or flex a toe, or raise their tummy up a tiny bit, to pass gas, usually, and relieve the bloating sensation they are experiencing in their tummy, and in their intestines, or colon. They may be able to grasp your hand, and fully hold on to it, and not let go, for hours, if they have the strength for it. This horrible torture the Lesbianists are perpetrating on comatosic patients, needs to end, now. Person responsible for continuance of hospital policies, despite our informing them of the truth regarding this, are to be shot and killed, and sent to my Epcot Center, if they interfere with the removal of the life support and life support assitive devices, that are plugged into the comatosic patients mouth, or nose, or other orifice of their body, or any part of their body. If some one refuses to cooperate, you are to throw them out of their hospital unit, and give them a good whack on the head. Come back in a few days, and then disconnnect their life support assisitive pumps, and tubes, and so forth, and shoot them in the brain with three 'fivers', as I've explained about, and then send them on their way to my Epcot Center. That is an order. Now do it.

I want you to pull the plugs on all the GI's and civilians who are on a breathing assistance machine, and life support assistance equipment, and I want you to send them all to my Epcot Center, where they can get treatment, and therapy, and then get themselves ready for being born, again, as a fine and a healthy, tummy baby to a tummy mommy, and to tummy daddies. You had better comply, if you know what is good for you, as my kids are now keeping track of your records on this account, and you are not going to do very well, if you do not follow orders. Is that clear. I will not have any insubordination of duty on my watch, and that means, you had better learn to follow orders, or you will be asked to jump over board, and then go for a very long swim to shore.

## Michael Jackson

Michael Jackson is the biggest joke in the world. He is a white boy, and he pretends to be related to Janet Jackson, a black woman, partially, and they pretend to be related, and he is as white as an elbow macaroni, or a white goose. He is not a black person, though he does have some black ancestry, but he is a primarily white person, and he pretends to have bleached his skin color, which is a crock of shit. Now, I want you to kill that mother fucker, as well as Sylvestor Stallon, and Arnold Schwarznegar, Clint Eastwood, Morgan Freeman, Kirk Douglas, Matt Damon, Robert De Niro, Anthony Hopkins, Gary Busey, and their Lesbianists' buddies.

## Retractions

Mr. Jerry Springer is not a Lesbianist. I was mistaken about him, as he was already killed by them, in a previous lifetime, as he developed a desire to bad mouth them, and they didn't like him, and they kicked him out of their group, and they killed him, with their murderous torture routines. Penelope Cruz is not a Lesbianist, but she was, but they killed her, and tortured her, and she is off the list. Angelica Huston is not a  Lesbianist. She was, but they killed her, after torturing her. She is a popular and prominent person, and if she hasn't been abducted yet, by the Lesbianists who will feed her to my abominant kids, like they did to Steve Irwin, and Jeff Corwin, then they will be gettting around to it, not too long from now, as they like to feed her to the abominant kids of mine, just as they do Bill Gates, and lots of other, former Lesbianists. None of the Baldwin brothers are Lesbianists, either, as they were already kicked out, and killed by them, and then grievously tortured by them. They continue to be main attractions for feeding to my abominant kids. Jack Nicholson is not a Lesbianist, now, either, but he was. Ben Affleck is not a Lesbianist, as he was also kicked out of their organization, after they tortured and killed him. Charley Sheen is not one, either, but he was. Martin Sheen is not a Lesbianist, but he works for them, and he was one, before they kicked him out, after they tortured him, and killed him, in a previous lifetime. Michael Douglas is no longer a Lesbianist, either, as they killed him, after their brutal torturing of him. He is up for being abducted, and for being fed to the abominant kids of mine, as he is a prominent person, and Kirk Douglas enjoys watching him get eaten up, and Kirk Douglas will laugh his guts out, as he watches Michael Douglas get tortured by the Lesbianists, which Kirk Douglas is a confirmed member of. Cher Bonno is not a Lesbianist, as I was mistaken in memory, though she was a leader for a while with Oliver North, she was killed by them, after being tortured, because she was getting "soft". Sunny Bonno was a Lesbianist, as well, but he was also killed after being tortured, officially kicking him out of the members league of Lesbianists. Sunny Bonno was captured, and abducted, and a body double was placed on a coroner's table, and Cher Bonno knew that the body double who was dead, who looked like Sunny Bonno, was not Sunny Bonno. The Lesbianists subsequently fed Sunny Bonno, after they captured him off the ski slopes, to my abominant kids. Elizabeth Taylor was thrown out of the corp of Lesbianists, after they heinously tortured her, and murdered her, and the Lesbianists have her slated, scheduled, after they find a way to abduct her, for feeding her to my abominant kids. Dennis Miller is not a Lesbianist. Though he was one, after torturing him, and sushi-izing him, please see my notes on that, the Lesbianist's sushi-izing of Dennis Miller eventually killed him.

It's hard to keep track of some people, as to whether or not they are currently Lesbianists. Others, are not so hard to keep track of, and I want all of those mentioned, killed, immediately.

## On Praying, Fucking, Sucking And So Forth

You are rewarded for praying Nam Myeo Ho Ren Ge Kyeo. You are also rewarded for fucking, sucking, tounging, licking, fingering, dicking or massaging your dick against a woman's bun bun, or inside of her butt hole, where there are lots of sensitivities buttons that get her clicking and eroteming and orgasming, or against her titties to get her eroteming and orgasming, and so on, and for palming or massaging a pelvital button, or the love and joy stick, the dick, or a love button or love patch, igniter switch, or whatever nerve sending touch sensitive love joy button there is embedded into your body, in the pelvis, groin, vagina, and in the musculatures of the groin, pelvis, and vagina, with the palm of your hand, and so on. You also get rewarded for throating a woman with your dick, as there are lots of love buttons in her mouth, and throat, lips, and so forth. Men also have love buttons in their lips, throats, tounges, mouths, butthole, and on their body, and those buttons also get clicking, and turning on and off, and sending sensitivities messages or signals, nerve pulses, up the eroteming nerval system and up the orgasming nerval system. You get rewarded for dicking men and boys in the throats, and in the buttholes, and their bodies, just as you get rewarded for dicking women. There is no discrimination in this area, and every one is equally rewarded for their meritorious acts of dicking others, women, girls, men, and boys.

Why are you rewarded for praying Nam Myo Ho Ren Ge Kyeo, and for dicking, fucking, and sucking, bumbeying, or moving your vaginal bumbey package against a woman's sexaling body parts to erotemize your self, and the woman, and for breasting your titties, i.e, rubbing your titties against or flopping them against and massaging them against a woman's butty butt or against her other sexaling body parts to get you and your friend sexually erogenized i.e., sexually stimulated, erotemized, and orgasming, and for other sexaling activities that help you and your friend and friends to produce purifying sexaling energies?

You are rewarded for your praying and for your fucking, sucking, dicking, and so forth, for helping to get every thing and every body going at the right pace in synch with every thing and every body else, for every body in my universe who is working for me, to keep them moving in harmony, perfectly meshed and in synch and in a timed persuasive mosture, with each other, so as to keep my universe standing up, strong, wholesome, robust, healthy, well, and fine. You are rewarded for praying as well as for sexaling, as you help move my children along as they do their work, as you pray and as you sexal and spray out energies from eroteming, from erotistically orgasming, and from sexually orgasmically convulsing, i.e., phlumetting, while you shatter out and spray out purifying energies in all directions, that will clearify and erase your karmic markups, and the karmic markups of others, all around you, for millions and more of miles, way out beyond where you are activiating and religialing, i.e., sexaling.

Your dicking, sucking, licking, titty massaging others, and so forth, will get wonderful and wholesome, GODLY, purifying energies shooting out of your bodies, and the energies shoot out at rates of speed that also help my universe to keep synchronized, and to move along at the right pace for it to be able to stand up and remain stable and solid, durile, strong, wholesome, pure, and a nice place to live in.

Every one who works for me, has a rate of speed they work at, a life pace, or life spin. We all have a pace of life. In some cities, it is fast and hustling. In some places, it is slow and whimsical. My kids work according to a rate of speed that is metered, and they keeps every one moving as best as they can, according to this metered pace. The metered synchronized pace that my children work at the rate of is one thirty seventh and one fifth, approximately, on the metronome.

If you help to push my kids along at that rate of speed, or a rate of speed that is close to it, as you pray at a metered synchronized pace and rate of speed, and as you fuck, suck, and so forth at a metered synchronized pace and rate of speed, then you are rewarded with angel dusts, or purifying energies faerie dusts that my kids daub on your head, and throw buckets loads of over your head and body and that they wash your insides out with and that they wash your body, inside and outside, with as they shower them all over you on the outside of your body, and all around in your body on the inside of you, which then help to clean you up and clearify your karmic markups, cleanse your karma, and purify your life, making you a shining, radiant, pure and holy being, though you may not notice at first, as we are too filthy, karmically speaking, to notice the changes, as our karma is too thick and mucky to allow us to feel the changes that are taking place in our karma and life.

I have a gradient scale for how close you keep people moving, and at what rate of speed you help to push them along, and as you help to push my kids along, so that they can do their work, you are rewarded, in accordance with my gradient scale, with more angel dusts or purifying energies for better preformance, and with less angel dusts for poorer or less effective performance. You have to do some thing that will help my kids move along at a metered pace, so that they can get their work done. Praying Nam Myeo Ho Ren Ge Kyeo sets off a time frame synch. A time frame synch is the metered click, click, click, of the metronome. This time frame synch or metered pace, that you achieve while praying, Nam Myeo Ho Ren Ge Kyeo, will help keep every one moving, at the right pace, if you pray it in a rythym and at a rate of speed that will synch up with a metronome at one thirty seventh and one fifth, approximately. Your efforts to help keep my kids working and moving at a consistent rate of speed, will get rewarded, thus for praying, Nam Myeo Ho Ren Ge Kyeo, you are rewarded, with purifying energies, that my kids dump on you.

Your efforts for fucking, sucking, licking, tounging, titty whipping or banging your titty nipple against the vagina of a woman or girl, dicking, fingering, palming, and so forth, all get rewarded, if you try to keep every thing in synch with the metered pace of the metronome at one thirty seventh and one fifth, approximately. The gradient scale also applies, of course, as you are fucking and sucking, etc., so the better the job you do of keeping your pace at one thirty seventh and one fifth, approximately, the higher your rewards will be. Your rewards are the same, more or less, for both praying and for fucking and sucking, and my kids sprinkle and dump angel dusts, purifying energies, on you as a reward. You also get markups that are meritorious, and you are rewarded with a better and happier life.

Further, when you are orgasming, and eroteming, or pushing out energies as you orgasm, and erotem, you will be pushing out energies that shoot out at consistent rates of speed. These rates of speeds of these energies are in concordance with our pace of life, they all perfectly mesh with the paces of life that my kids keep. The energies as they pass out, and push along through time and space, at synched up and consistent rates of speeds, all help to keep my kids moving along as they do their work and tasks, and they all help to keep our universe, standing up, strong, healthy, wholesome, well, and fine.

Chaos breaks the legs off the foundation to our universe, and our universe begins to creak and moan, as it begins to crumble, slide, twist, and tumble downwardsly. Making chaotic noises, and chaotic movements, detracts from the harmonics of our universe. Your breaking glasses, and breaking skulls, and legs, and arms, are also chaotic events producing, in most cases, and they will detract from the perfect synch up of our universe, as leg bones and arm bones, skulls, fingers and toes, begin to splinter, as you apply pressures to them, you get negative markups for your actions. A record is kept of every chaotic action you take, or make, and if you make enough chaos, in your lifetime, and in your following lifetimes, then you will suffer from your poor records of performance for keeping my universe standing up, wholesome, healthy, happy, and well.

Every scream you cause to be vocated or vocalized, is recorded, and the intensity of the scream, and yell, and crying out in pain, plus a lot of other factors involved, are all recorded by my kids, and you get negative marks for that kind of performance.

The love making oooohs, and aaaahhhs you cause to be vocated, are harmonic appeals of soothing restfullness to the spirit, and to the mind, are also graded, and you are graded on how well you can cause others to produce them, and your scores are kept, and if you are a lousy performer, with more negatives than positives, you'll end up with a lousy life, as a result, as you are rewarded in accordance for your positive performance, as well as for your negative performance.

Helping to keep all of my children working in harmony, and doing their jobs and tasks, at a metered pace, will be rewarded, not only with angel dusts, but also with a better life with more positive fortune, as you recieve positive points or merit points for your collaborating with my children, and working to support them, and more fun as your life becomes graced with more positive merits and as your rewards begin to pile up, and more good things begin to go on in your life.

If you sit on the side of your chair and have a pair of drum sticks, or are using a bongo drum, or calypso drum, with the long tube belly, or stack, a long barrel tubed drum, or if you sit at your drum set, or set up your electronic drum pads, and begin pounding away, in a syncopated manner, for your pleasure, just drumming away, with no notion in mind as to any thing other than achieving a nice rythym for you and your friends to listen to, if you happen to be with friends, your merit points will be near zero, and your efforts will not rate on my gradient scale, as your actions will not be in accordance with my program for a better universe for all people, and for my kids to live and work in.

If, however, you have the attitude, "I wish to support John's kids, and syncopate myself while I'm drumming, so as to be supportive of John's kids, to help John's kids work in a syncopated manner, doing all I can to support John's kids", then, your merit points as you drum, will go sky high, through the roof, and you'll get meritorious benefits for your efforts, or merit points, and good marks, for your efforts. It's like helping kindly old women, who are frail and in need of a helping hand and support, cross the street. If you act in a kindly and charitable manner to help support those around you, you get meritorious points for your efforts. These efforts of your's, however kindly, regrettably, though they are kindly efforts, are not the kinds of efforts that we need, my kids and me, need to keep my universe standing up, and moveing strongly. For efforts that support my kids work environment, and that lend a hand to them to help them to get their work done, your meritorious efforts marks will go through the roof, and you'll be blessed with angel dusts, i.e., purifying energies that help to clean up your karma, and erase and clearify your karmic markups, or marks that record your bad and cruel, or negative actions towards others, and towards your self. You can kill your self, and cause grief to others, as a result of your departure, to my Epcot Center, and that rates negative marks and negative points markings or markups for you.

When you try to do any thing, that will help to syncopate my children, and to make my children's working environement more syncopated, and rythmical, with your concentrated mind, and determination to make that a reality, in other words, a prayerful attitude in mind, hoping to make John's children's working environments syncopated, and rythmical, and in rythym with every one elses', i.e., all of my other kids' syncopated working environements, then with that attitude of hopefulness, or a prayerful attitude, than, you are rewarded for your efforts, and determination, and as you drum away, or pound and beat on your calypso drum, or on your metal Bahamian or Tinian, or Haitian, or Jamaican, drums, or on your dresser drawers, if your mom does not mind, as you pound away, keeping your mind set on your determination to keep all of my kids working in unison with each other, and helping them to keep in syncopated harmony, all in perfect flux, and perfectly meshed in timing, with every one else, as they work for me, then your rewards and positive points markups, will be very high, and you'll be rewarded by my children, with angel dusts that they daub on your forehead, and dump all over you, from their barrels they carry full of angel dusts, or purifying energies to clearify your markups from your karmic markup piles, kept inside of your body, kept in storage in the molecules.

If you listen to music that is syncopated to the timing of one thirty seventh and one fifth on the metronome, or closely syncopated to it, you will be rewarded for merely listening to it, and you'll receive faerie and angel dusts, purifying energies, as my kids daub them on your head, and spray them all over you, inside and out.

Your markups are inside the molecules inside your body, but they are also out side of your body, in every molecule, nearly, going way out to the very farthest edges of my universe. We will eventually get to all of them, and purify or clearify and erase all of your karmic markups, the notations and records that my kids keep on you, and on your activities, and eventually, we'll get them all, and your life will then be full of grace and happiness. It will be a long time before we get to all of them, as you and I and every one in my universe, have been here, and enormous length of time.

As you drum, or skip, or dance, or do areobics, in syncopation, with the attitude that you want to keep all of John's kids in step, and in synch, and in unison and harmonicly meshed and in perfect flux with each other, or perfectly meshing with each other, and every one else who works for me, whether you drum, skip, dance, or do areobics, it does not matter, if your mind is set and determined to help my kids, with your efforts, you will be rewarded for your efforts, no matter whether you skip, jump rope, dance, or areobically excercise.

As you sexalate, if you keep in your mind that you wish to keep all of John's kids in syncopated harmony, perfectly in flux, and in unison, just as when you are drumming, or skipping rope, or dancing, or playing basketball, or playing tennis, or badminton, or any sport, with your movements all timed, and in perfect syncopation, when you sexal with the right attitude to keep John's kids in synch, perfectly meshed in perfect accordance and flux, with each other, and with every one else, you will be rewarded grandurally, that is, grandly, or in a grand or very great manner.

## Excercising And Activiating To Music Timed To One Thirty Seventh On The Metronome

Music timed to one thirty seventh on the metronome, and one fifth, or as close to one thirty seventh on the metronome that you can get, is okay, and it will help you to dance, play tennis, play sports, do areobic excercises, and other types of activities, at that pace that we need to keep to help keep my kids working smoothly, and you'll be graded on your performance, and on your attitude while you are dancing, or excercising, and the more intently you concentrate and use your mental energies and mental control to stay in synch, and in step, the better will your scores be, and the higher your marks, and the greater your rewards of purifying angel dusts and purifying energies that my working and unionized kids will pour and spread all about you, inside and out, and all over you.

Sexaling itself is a religious act. Yes. That's true. But, if you sexalate with this powerful prayerful attitude, or hope in mind, with your determined mind, and your concentrated mind, as you sexalate, and help others to sexalate, and help others to erotem, orgasm, phlumett, and shatter off wonderful energies from orgasming, eroteming, and phlumetting, your positive points and merit marks, and many other types of scores my kids keep on your efforts and behavior, all of them will go higher than any one can see, way out beyond the furthest galaxy that you can possibly see from your bedroom window, with your telescope. They'll go out to the futhest edges of my current univerese, and even beyond the barrier walls, holding up our universe, that my kids put in, to keep our universe standing up, stable, strong, and durile or durable and with tensile integrity.

Any action for helping my kids do their work, syncopated, and in unison, and in harmony, will be rewarded, with angel dusts, and with positive marks and score points in your records that we keep on you and every one else in my universe. Your sexaling actions get rewarded, far more than any other activityating, as your sexaling actions are the most needed actions, to keep my universe, pure, durile, holy, sacred, free from negativities, healthy, wholesome, stable, and constantly in a state of improvementing.

Most people go around destroying things, and causing chaos. We, my kids and I, need people who are going to help improve the wonderfulness of our, my, yours, my kids, and all of my other kids, wether they work for me, or not, meaning, all of my guppies, who are like you, my relatively normal kids, as well as all of my abnormal kids, the abominants kids I've got, that go around thinking it is funny to eat people, and to pull them into their mouths, and crush them in miserable pain and agony, like my elephants abominants kids do to relatively normal human beings kids of mine.

## Fisting And Punching People With Your Clenched Hands And Crasping Or Clasped Knuckles

You all have been bad kids, all of my guppies, all of you who do not work for me and go around thinking, 'Oh, gee. Aren't I special.' My guppies are these minded people, who are arrogant, who talk back to their mama's and to their papa's, and to their relatives, and brothers and sisters, and to their friends in school, and to their teachers. Later in life, they become worse, and they talk back with their actions of being mean to each other. As my guppies grow older, and become older people, they start fisting others, and that means, punching people, hitting them with their clenched fists and hard knuckles, and hurting them when they pound on their face, or on their stomach, or on their body some where, and break bones, and tear muscles, and stretch ligaments with their pounding each other.

## Phlooching Out And Fisting The Vaginal Cavity, Rectal Cavity, And Mouthal Cavity

Fisting is a word used by some people to mean, to insert your hand into the vagina of a woman, and gay people, homosexually driven people, fist each other in the butt hole, if either men or women, or in the vagina, if women. Some people find it interesting to fist each other in the mouth, by sticking their fist inside the mouth of a person, pretending it is a dick or a dildoe. You need to phlooch out the neck muscles, and billow them up, or poof them up and out, and that will help them to gently relax, and then become expandable or stretchable, as when they relax, they will easily stretcth out, and there will be some give, or freedom of expandingness. The neck muscles then become easy to stretch and push on from the inside with out hurting the person. It then is easy to insert your fist into the throat, to massage the inside of the throat, and to use your hand, or fist, to tickle the igniters, and triggers that set off love buttons and bells, and whistles, that help women and men to erotem, orgasm, and phlumett.

Fisting by inserting your fist into the vagina of a woman, when it is relaxed, and after you've massaged if for many hours, and after it begins to billow out, or poof out, and then open wide, and then you can see inside of it, and from the entrance of the vagina, there is a clear gaping cavity, you can then insert your clenched fist hand into, to massage the inside of the vaginal cavity. Doing this is very nice, and is very exciting to do, to help women and girls to erotem, orgasm, and phlumett. You can phlooch out the butt hole, by massaging it, for several hours, and it will begin to poof out, and expand, and you'll see a nanny gate face on it, and that means, it will begin to look a little bit like a vulva, or the vagina of a woman or girl when at rest, or exposed between a woman's or girl's legs as she is sitting or relaxed with no panties on or with no or few clothes on and nothing covering her hips, pelvis, lower pelvis, pelvital ridge, crotch and groin, butt and butthole and lower back, there by exposing her butt and vagina. If you compare a vagina with a phlooched out butthole, you will see they resemble each other, slightly. There is no vaginal cleavage of course, around the butthole, but there is a slight resemblence between a phlooched out butt hole, and a vagina, or vulva, none the less.

## The Vagina And Vulva Compared To The 'Nanny Gated' Butthole

What is the difference between a vagina and a vulva? They are more or less the same, but the vagina includes lots of parts, inside as well as out side. The vulva is outside, basically, only, as far as I understand and remember these things, now. When you massage a butthole, long enough, it will begin to look like a vulva, or vaginal face. That's called the nanny gate, or on the male, the male butthole vagina, as I've spoken about it, before. On the woman, it is the female butthole vagina, a double 'immitation vagina' for the real one, as I've mentioned. Men's and women's buttholes are the same, and they both look like 'immitation vaginas' as I've also mentioned, after you phlooch out the butt hole of either the female or of the male. Once you phlooch out the butthole of a man or of a woman, it will poof out, and expand, and the butthole entrance and cavity will become relaxed, and easy to insert your clenched fist into, to then push up your fist into the butthole cavity, and massage it, once the person has cleaned out the butt hole cavity and once it is clear and free from debris matter, or food matter, and rotting food particles, and fleshy foods, or hamburger meat and so on. Phlooching out the vaginal caivity takes a little longer, but with patience, you can phlooch it out, and then fist, in this manner. If you phlooch out the butt hole, and rectal cavity, you can fist your male friends, and your female friends, and every one, once they have cleaned out their poop hole, and made it free from rotting debris, will enjoy mutual, and reciprocal, fisting. Fisting in this way, for sexaling, is alright. Fisting in the other way, for beating people up, is not nice, and you are given poor marks for your actions of nautyness, meaness, and cruelty towards others.

Over the long course of time, you all have been naughty at one time or another. I have many ways to fix you, and to retrain you, and to rehabilitate you, but you always go bad, and sour, again, as that is your main drive, or driving internal force in your lives.

## The Importance Of Kindlyness And Teamwork

Why have all of my guppie kids all gone south, or in other words, gone down the road towards unkindlyness? Because, as I've explained, you forgot what the Love Of GOD is. My religion will help people to understand what the Love Of GOD is, and that will help keep them on the correct path of kindly actions towards others, and it will help them to understand and remember that teamwork to help my working, unionized kids to keep our universe healthy, strong, durile, standing up, stable, a safe and happy place to live, and a wonderful place to live, is very important.

Doing things that support my kids working efforts, will be rewarded, and doing things that detract from the harmony and syncopation of the metered pace of my kids who are working, and that slows them down, and that causes dischordance, will not be favorably rewarded, and you'll become a female schmuck, or a male schmuck over the length of time, as you live on in my universe. A schmuck is an unlikeable person. Sexaling is the most important thing there is for us to do, other than feeding ourselves correctly to keep us healthy, and excercising, and leading a balanced, well regulated life, listening to your mama and to your papa. My religion is based on sexaling, as sexaling is the most holy and pure activity we can participate in, or do by ourselves.

All the bullshit propaganda of the Lesbianists, that Jesus said this, and that Buddha said this, and that God will save you if you do this, and so forth, is pure balooney, bullshit, and made up nonsense. I, GOD, will not do any thing for any body, unless you help me and my children to make this universe, a more kindly, and a more wonderful and prosperous universe for all of us. If you do, I will have my kids, bless you with angle dusts as they daub them on your forehead, and then pour barrels of angel dusts over you, as they dump barrels full over your head and body, for your extra good work, sexaling, in syncopation, with my kids working rythyms, and in rythym with their syncopations, flux, and their phenomenal elegance.

Phenomenal Elegance

What is phenomenal elegance? It is their keeping harmony with each other as they work and keep every thing in order, in my universe for me, GOD.

You can not escape from this reality of your good actions and your bad actions being recorded, as my kids keep records on every one, and we make certain every one is rewarded for their good actions, and we make certain that every one recieves as close to what they deserve, to help balance things out, in accordance with their markups, for their bad actions. If they are bad, they will not meet nice people, and they will meet naughty people, and not so nice things may begin to happen between them. If they are good, and if they try to help my kids, as I've explained about, they will get rewarded, and they will slowly begin to break away from keeping company with bad people, and they will gradually ascend to higher rankings or status, and then they will begin to lead a better life, and they will begin to escape from meeting with bad people, and the good kids' lives will become blessed by my kids, as my kids begin to sprinkle angel dusts on the good kids, and daub the heads of the good kids with purifying energies, and then dump purifying energies all over the bodies of the good kids who listen to their mama's and papa's, and sexal with them, and as they sexal with their mama's and papa's, and sisters and brothers, relatives, neighbors, and others, the good kids help my kids keep this universe running smoothly, in harmony, in flux, perfectly meshed, and in perfect syncopation. Mama's, papa's, sisters, brothers, relatives, neighbors, and others, all get their heads blessed with angel dusts, purifying energies, for their good actions along with the good kids, you, I hope, of course, too.

## Plurlbalescent / Plurablescent Nature Of Negative Punishments And Positive Rewards

This is very important for every body to understand. I have my working, unionized kids reward the good people, and I have my working, unionized kids keep records on every action of every one of you, and I have my kids make sure the bad kids, meet with what they deserve, or some thing close to it, which may not be too nice, most of the time, and I have my kids make sure that the good kids, all meet with what they deserve, or something close to it, and that is usually always something nice. It may sometimes not be something conspicuously nice, but it is nice, usually, or positive in nature, always. The bad kids will get rewarded by something that is negative in nature, always, usually, or plurlbalescent. What does plurlbalescent mean? It means, it might not be noticably negative, but it is still negative, in nature, in essence. This is a topic we can discuss, another time, or you can ask my kids for more information on it, when you go in and visit them, with your mama's and papa's, sisters and brothers, relatives, school teachers, principal, costodians, janitors, school workers, and others.

We have had too much chaos of late, and for quite some time, and it is now time to slow it, and bring it to a halt. We are going to produce positive harmonic concordances that will assist my kids as they work, and that will help them to stay working in harmony with each other, with your fucking, sucking, eroteming, orgasming, your shooting out of purifying energies as you orgasm, and erotem, and with the increase of the oooohs, and aaaahs, you help to produce, with your practice of my religion.

We have to bring an end to the moronic violence of the Lesbianists. If that requires a lot of my children, making lots of babies, and lots of energies, and percussive forces, when you set off a fracturable rock bomb, then that is what it will take, as you blow Washington DC and the Baltimore metro area off its ocean ledge, and into the Atlantic, with that fracturable rock bomb, if it is big enough. Yes, there will be lots of painful, ouches, and screams, and so forth, but it is trite, compared to the violence these idiots have been perpetrating, over the long span of time that they have been in my universe.

We have been here for a very long time. It is nearly impossible to figure out how long, other than with mathmatical computations. Our brains will burn out, if we try to figure it out in our heads. It does not matter how long we have been here. It does matter what we do while we are here. You are not going any where else, and you are all staying in my universe, so you will all drop your pants, and your dresses, remove your shoes, socks, clothes, underwares, panty hosees, and panties, disrobe, and begin helping others to make lots of ooohs, and aaaahs, and lots of eroteming and orgasming energies. That will be the begining of your getting into line with the rest of us, here in my universe, my kids who work for me. As you eroto with each other, you'll get graded on your performance, and you'll get paid by my kids, once you join our country, as I've explained about, before.

## Timed Persuasive Mosture

What is a timed persuasive mosture? It is just keeping every body in synch with each other, persuasively and accurately moving along, orderly, in an ordered fashion or manner, and with every body in rythm and syncopated with each other.

Mosture is a type of motus, or motion or fluidity of movement. The timed fluidity or fluidness of my kids working along in synch with each other, is critical to having every thing in my universe, standing up and sturdy, with every thing holding together, as it should be. Otherwise, if my kids and their work get out of synch, things can come crashing down, and things can come falling apart, and we do not want that.

This is a big universe, and we have a lot of people in it, my kids, and you wouldn't believe how many kids I have. Anyway, they all have to stay in syncopated, fluid motion, with their paces of life perfectly meshing with each other's paces of life, to accomplish their jobs and tasks, in an orderly, and in a fluid movement, harmoniously, and without delays.

The persuasiveness is accomplished with the help of your sexaling, and by your keeping pace, and synching your sexaling activities, and the movements involved in your sexaling activities, and by your spraying out your energies, as you erotem, orgasm, and phlumett. The persuasiveness is also accomplished by your keeping pace in unison with others while you are praying the syncopated phrase, Nam Myeo Ho Ren Ge Kyeo.

Every thing is timed, and so as you activiate, or carry out these activities of sexaling, eroteming, orgasming, phlumetting, as well as the movements involved in sexaling, and as you pray, your synching of your movements and sounds in time and in pace with the syncopated and metered metronome click, click, click, at the timed pace of one thirty seventh and one fifth, on the metronome, approximately, helps to persuasively move, or persuasively drive and push, every body about, and along, as they do their work for me, in their many syncopated paces of life, or life spins. I have many children working at different life spins, as I've mentioned before, and each group of them has a different pace of life, or time spin. Your activiating, as explained, helps drive them along, each at their own pace of life, or time spin, perfectly meshed with every other child of mine, also in his or her, and at his or her own particular time rate of speed, time spin, life spin, or, pace of life.

Every one and every thing must move along in perfect flux, or perfectly meshed with every body, and with every thing that is going on in my universe, on every possible level. There are many levels where activities are going on, and many people are working at different life spins. Every one, no matter what level they are on, and at no matter what life spin they are living at, must stay in flux, perfectly meshed and in perfect harmony, perfectly syncopated with every one, else.

You are rewarded for your helping to move my kids along, in perfect flux perfectly meshing with every one and with every thing that is going on in my universe, with your efforts at sexaling, and with your praying, as explained, earlier.

In our new society, which we will create, you will score earning points, and every thing you do, as you sexal, and so forth, and as you pray, is scored, and a record of your capabilities, or excellence, or lack of excellence, is kept. You are paid according to your work performance, as you sexal, activiate, pray, erotem, orgasm, and phlumett. Also, you are graded on how well you get along with others, and on how well you try to harmonize and then sexalate with others. You score earning points, accordingly, and you get paid, according to how well you perform.

## Keeping Every Thing And Everybody In Harmony And In Synch

Explaining how this works, how praying, fucking, sucking, dicking and hugging, etc., helps keep every thing in synch and in harmony and how your efforts are rewarded, is a tiny bit more complicated than my simple explanation, but that is it in a peanut shell.

For those Lesbianists hiding among you who do not wish to surrender, you Lesbianists will find we are not going to be acting kindly towards you. All of you Lesbianists, where ever you are in Washington DC, or hiding underground, or in Paris, or in Rome, Peking, and so forth, you will be dealt with harshly, as we need to put a stop to your activities, and a "maybe" is not acceptable in this case. We are not going to allow you to continue your chaotic, nonsensical, violent activities one moment longer, and we will blow you up flying high up into the sky, and off the ocean ledge down below you, in Washington DC, as we sink your Washington DC area into the ocean, along with all of Northern Virginia, and the ocean coastal area of Maryland and Baltimore, along with large parts of the states of Virginia and Maryland, out to West Virginia, as that area settles down into and below the waves of the Atlantic Ocean, after we bomb it with one or more of my fracturable rocks weapons for mass removal of Lesbianists from the face of the earth and from their hiding places under the surface of the earth. The Lesbianists in the Washington metro area and hiding under it, had all better surrender to my kids, or they will all get their pants and clothes blown off and shredded from their bodies, if they do not, as they are given a free ride out and up into the upper atmospheres of our planet, and then, beyond. All other Lesbianists had better surrender, too, or they risk getting a free ride out, as well.

## Deep Sea Ocean Trench Off The East Coast Of The United States

There is a trench that extends south wards from Washington DC, some times reaching 25 miles out in some places, and in other places, it reaches out to eight hundred miles from the shore. In the north, it reaches out in some places, 85 miles out to one hundred and twenty five miles out, to three hundred and fifty five miles out, to eight hundred miles out in some places, in the south.

It is fifteen miles deep when you go out forty five miles off the coast from Washington DC and from the Chesapeak Bay. The ledge bottom is found about three and one half miles down, and the mouth of the opening continues for ten miles, approximately, downwardsly, on the western side of the trench. The It has a gaping mouth, and it opens up and lets ocean water inland, under the continent, eighty five miles down below Washinton DC, three to six to eight miles wide, from top to bottom, from the underside of the top of the mouth, the bottom of the ledge, to the bottom of the mouth. From under the nation's capital, to the south, it travels to over eight hundred and eighty five miles. To the north, it travels three hundred and thirty five miles, to six hundred and fifty miles, to about nine hundred and fifty nine miles, inland under the continent, depending on where you wish to locate the edge of it under the continent, northwardsly. It travels to the west, inland, three hundred and thirty five miles, to just over eight hundred miles, depending on where you find the edge of it. It travels inland further westardsly, the further you travel north. It is slightly over one thousand and eight hundred miles from north to south, in total, as you'll discover, once you explode enough, and after you explode large enough fracturable rock bombs, over Northern Virginia, Maryland, Washington DC, Baltimore, covering the metro area vicinity.

The U.S. Navy, and the U.S. Coastguard know about the trench, or parts of it. They are not allowed to discuss it with anyone. No one is allowed out there, to research it as it is off limits to just about every one. Some navy personel of high rank, and coast guard personel of high rank, are allowed out to take soundings, every now and then, with their Lesbianists' staff members, and Lesbianists' personel in the Navy, and in the Coast Guard. The Soviets, at least, Boris Yeltzin, Vladmir Putin, Mikhael Gorbachev, and Zelda Gorbachev, know about it, and so do all the other Lesbianists. They can confirm it, if they wish to play ball with me, and if they wish to save their asses, after they decide to surrender to my children.

## The Shelfs Systems And Trenches Systems

The shelf estends to under Lexington Kentucky, at about ten miles below it. It is five miles up under Chatanooga Kentucky. It is five miles below Washington D.C., in some areas. It is three miles below Baltimore Maryland, in some parts of the city. It is eight miles up below Pittsburg, Pennsylvania. It is fifty five miles up below, or under, West Chesterfield, New York. It comes up to eighteen to thirty miles below McLean Virgina. It is eighty eight miles below Norfolk, and the mouth, downwardsly, is five to ten to fifteen miles wide open, in a downwardsly direction. It some areas, it can be found below Ohio, and under Indiana. It crosses under the West of Kentucky, and into the south of Illinoise, five to ten, to thirty miles. It is a variegated trench system. It extends to Tennissee, parts of North Carolina, Mississippi, Alabama, Georgia, South Carolina, and to under parts of Northern and Western Florida, and is open out and into the Gulf of Mexico. The whole area of Eastern U.S.A., is sitting on an open shelf, trench system, and there is water passing below it, and out into the gulf, in several areas, over to eighty five miles west of Corpus Cristi, Glen Garden, population eight hundred and fifty, which south of Galveston, and north of Corpus Cristi, between the two cities. There is a mouth eigty five miles south of Tampa Bay, Florida, in the Gulf of Mexico. There are several openings or mouths to the underground fault line system, and deep sea ocean trench system, and shelfs systems, and water is passing from the Atlantic to the Gulf of Mexico. There is also a trench system in the north, under Niagra, that extends southwards, several hundred miles, and it has many branches to it, and it extends into this system of shelfs, trenches, and under continental water flows.

## Side Bender Currents

What is a side bender? It is a current comeing out of the mouth of an opening, from under a continental shelf system, that allows waters to flow out. As the water flows out of the mouth, the outlet current of water, it flows very forcefully in an outwardsly direction, and it pushes the water out with great force, generally. If a submarine is traveling in the vicinity of a side bender, the submarine may get hit broadside, and that will often turn the submarine topsy turvy, and around facing the opposite direction it was traveling in, or another direction, not the one it was traveling in, most often. The crew will get swung about inside the submarine, and they will fly through the cabin, and pounce off the floor to the ceiling, and hit the ceiling, and then hit the sides of the corridor they were walking along in, and finally end up on the floor when the submarine rights itself, with its balast, and you'll get many sprained or stretched ligaments, and broken bones, arms, wrists, fingers, legs, knees, ankles, feet, toes, necks, backs, hips, spinal injuries, and other injuries. It can leave a crew of a submarine nearly one hundred percent, injured and in a ship's hospital, or a Navy or military hospital for recovery. Side benders are often called upwellings of currents by the Navy, but that is not generally the case as they are not upwellings, but they are side pushing currents, that come flowing out from under continental water flow openings, horizontally. There may be some upwards lift involved, if there is a reason, such as a mouth is angled at a slight sloping angle, as it releases the flowing waters out from its tube like cavity or hole.

Crew members and military passengers of Naval submarine vessels are generally told not to talk or discuss any thing about side benders with non Navy persons, and with persons unrelated to their ship or unrelated to their ships voyage, as the governments of the world, do not want any one to find out about side benders, and they do not want people, geologists, marine geologists, undersea deep sea ocean studies researchers, or others, to research and investigate side benders. It's a big secret, these side benders, and that's what the marines, and the navy personel are sworn to keep, or face a fireing squad, on insubordination, or on some trumped up charge of spreading naval secrets, acting as a foreign spy and receiving money, or something like that. Naval personel will generally obey orders, and not discuss side benders, or other 'secret' information, with any one, as they risk losing their job, and they might face a fireing squad, or a hanging patrol, sometimes called a marching platoon, or a hanging platoon, a group of soldiers commissioned to carry out orders to hang some one who is in the military. If you pay a naval officer or enlisted person, or other person with Naval submarine duty, such as some marines, and others, enough money, they may be willing to share some information on side benders, and information about what they know about side benders. Some persons who have had Naval submarine duty, may genuinely not know any thing, such as crew members who are never assigned to submarines that travel near side benders, on a regular basis. Some times family members of enlisted persons and of Naval officers, are allowed to travel on submarines, for fun and excitement, as a special reward for their papa's or mama's duty on a submarine. Some of these family members have also had some experience with side benders, such as those who have traveled on submarines along the Marianna's trench, or other trenches, not listed, neccessarily on global maps, but none the less, which are there, and that are near shelfs systems under sunken continental shelfs, or under sunken continents, but that eject streams of water, nonetheless.

Our maps and globes of the world are incorrect, the ones we buy through bookstores, or from map publishers, as nothing that would indicate sunken continents, large sunken islands, and related trenches, or other related features, are not going to be indicated on them. The Lesbianists do not want you to find out information that could provoke you into researching, under water features, that they do not want you to know about, as your fictious understanding they have taught you, of the surface of this planet, and its history, is bogus, and any thing that would conflict with that, is certainly not going to be indicated on a map they would publish, and the map will be wiped clean of all traces of any thing that conflicts with the 'global' history of the earth, as the Lesbianists teach it, in geology courses for high school students, and below, and above. The global geological history they teach must coincide with their fictious propaganda about Adam and Eve, and "Lucy" the ape woman, the supposed mother of all people living on this planet, and about this earth being only 9 billion years old, or thereabouts, which is a bold faced lie, and other such bullshit notions they have fed every one to swallow, and have forced them to accept, and that they force people to use as primal notions to base scientific research on. The geology of our planet is much more complex than the Lesbianists are letting on to, and there is much to learn about planetary geology, as these planets have been around a very long time, and many things have happened, over and over again to them, and many things have happened to our 'solar systems', and star formations, and star systems, that people need to know more about, to get a realisitic understanding of our universe, its history, and its many complexities. In time, we will learn much more about all these things, and you can attend courses that my children have set up for every one, to teach people about our universe. You need a day pass to visit, as I've explained about, before, and then you should swear in, and become a citizen of our country. We have yet to declare this planet ours, but in time, we will, once we have finished and put an end to the problems associated with the Lesbianists, all of their shenanigans, and their malarkying around. One day we will declare this planet ours, and my kids will take charge of everything, and they will appoint people to posts of duty, and to positions of responsibilities.

## Making A Large Swimming Pool

People should begin moving off and out of the area, around the Nation's capital, Virginia, Maryland, Pennsylvania, West Virginia, and North Carolina. We'll have a big swimming pool there, with lots of, mostly uninhabited, tiny islets, or hill tops and mountain tops, after all of the current residents die, and pass on and transel over to my Epcot Center, after one of our compatriots, or groups of them, detonate enough of my fracturable rock bombs. People will have to watch out for hungry sharks, after they swim inland, above the sunken landscape, looking for corpses to eat, and to scavenge, as lots of Lesbianists' corpses will come floating up from underground hangouts and cities of the Lesbianists, under those parts of the U.S., and from under the Gulf of Mexico, from under the sea floors of the Atlantic, from under the Niagra trench systems, and from under other trench systems in the Eastern U.S. This is not a joke, by the way.

## Stagnasis

Salts kiddies in stagnasis is when the salts kiddies are in their salts kiddies crystals cages, in a hibernative state, in perfect equilibrium, to keep them alive and well, for as long as possible. Salts kiddies crystals cages sciences help you to understand many things about how things work in nature. Please read over my notes on my bulletin board.

## Black Powder 'String' Fuses

Take a spool of sewing thread, and use Elmer's glue to coat the string, and run the string with a thin layer of Elmer's glue coated on it, through a bucket of black powder gun powder, which you can order in the mail, over the internet, or pick up at an antique musket or old style 'cap and ball' musket rifles and pistols retail stores.

Elmer's glue and gunpowder will combine to form a minor plastiques explosive, after the salts kiddies mix it up, eat each other up, pee and poop out lots of stuff that is highly explosive, as they get busy making babies, except when gunpowder is used in large quantities with

Elmer's glue, to form a major plastiques explosive. Benzine will help this along, with diesel fuels, as well, and with chlorine, we can see some major plastiques explosives in the making, as mama's and papa's begin making lots of children, as they begin mixing it up, and as they all begin pooping and peeing out body fluids that is food for others, that will contribute to the powerfulness and explosiveness of the mixture.

After you make your string fuse, and let it dry out for a couple of weeks, then coat a rag or muslim cloth in oil, or grease, or a mixture of turpentine, gasoline, diesel fuel, and grease, with benzine, and make a paste, and use that paste to coat a thin cloth, such as a muslim cloth, and then let that set and dry for a few days, and then wrap a few sets of 'string fuses' together in a bundle, and place them inside the cloth. It will become a very powerful explosive, in itself, the more gun powder you use with it.

Test it, to see how fast it burns once it is wrapped in a cloth coated with a mixture of grease and fuels. The thicker the grease, the slower it will burn. The thinner the grease mixture, by adding more turpentine, or benzine, or paint thinner, the more rapidly the fuse will burn. You will have a very powerful explosives cocktail, with this mixture, so be careful. You have to be very careful with what you combine, as you'll be bringing together very explosive elements, when you mix these fuels and liquids together with gun powder on a string.

A few string fuses, wrapped in a well soaked cloth, with a mixture of these liquids and the axel grease, will make a type of plastique explosive, that can be used as a shape charge, or a mouldable, or shapeable, explosive, that is good for blowing doors off hinges, such as at pharmacies, or banks, and for blowing locks on private homes' fences to pieces, such as can be found at the White House, at 1600 Pennsylvania Ave. Washington, D.C., at the entrances and exits gates of the White House where guards are on constant duty patroling the area for security purposes. An initial explosive, a detonated fracturable rocks bomb, small in size, may cause a concusive force to cause the guards to black out, and pass out, and then sleep for a while. Be very careful with the size of the bomb, as we do not want to level the homes and buildings surrounding the White House, or across from it in Layfayette Park. After you put them to sleep, with your initial blast, you can test the shape charge on the nearby fences, at the White House.

Black Powder 'Cap And Ball' Pistols

Most black powder cap and ball pistols and rifles, muskets, sellers and retail outlets can be found on the internet, and some gun shops carry black powder, as well as the detonating fireing caps, for black powder rifles, and pistols. Many of them do, and you can purchase the black powder and copper detonating, ignition caps, for useing in your cap and ball pistol, or musket, or other, more modern, hunting rifle, that allows you to use black powder, and detonating copper caps that slip on a small round fireing ignition nipple that is made out of steel, and has a hole in it, to allow the percussive explosives in the firing copper igniting cap to ignite on impact with the hammer on the weapon, when it slams down on it, and the flames from the igniting explosives mixture, glued to the inside of the firing copper cap, then ignite the black powder, that was rammed down the barrel, or packed and tamped down in a cylinder of a percusive black powder cap and ball pistol. The caps are fairly useless, unless you wish to add them to a fuel oils, chlorine formula, and let them sit in the fuel oils mixture, and that will help develop plastique, as well.

## Higher Temperatures Develop More Useful Energies For Making Babies

The copper in the cap will also allow for a higher temperature in burning, when the fuels mixture ferments after a few weeks. Magnesium in the cap as well, will also help to raise the burning temperature of the fuels mixture, and with some black powder added, and with some chlorine added, your plastiques recipe will become even more useful. These higher temperatures will help to produce energies that will be conducive to baby making among the fracturable, or rupturable, and percussive, rocks radiological salts kiddies. You can then add a handful or more of powderized amethysts, or turquoise, that you can purchase in bulk, on Ebay, for some small bulk quantities, and also emeralds are useful, as they all have fracturable rocks kiddies embedded in them, and fast asleep, in stagnasis.

## Zircon Diamonds, And Other "Radio Active" Gem Stones, Etc.

Zirconium is a mineral that they use for the fake diamonds they sell with the trade name, Zircon diamonds, or Zirconium diamonds. You can powderize them, and use them for a good amount of fracturable rocks explosives, large and fast family making, salts kiddies, for a 'nuclear' party, and a send off to the eastern coast of the United States, before it is blown off the coastal ledge it sits upon, and then sinks below the ocean waves, if you strike it hard enough, with one or more of my fracturable rocks babies making, "nuclear" salts kiddies bombs. You'll need a few handfuls of Zicon diamonds, powderized, to make a nice fracturable rocks, babies making bomb. You can mix turquoise, emeralds that are mined and sold in bulk quantities on Ebay, amethyst, and the other rocks that I've mentioned, along with powderized 'sand' from the beach. Argentina, and Venezuela, Baha, and Southern California are good places to collect useful sands, full of fracturable rocks, salts kiddies, that a geiger counter will detect, if it is a sensitive enough geiger counter.

## Geiger Counters And Their Usefulness

They are not too hard to build, but you will have to look in your Popular Mechanics magazines, for the details on how to build a "geiger counter". Some mining stores, and mining outfitters stores, may be a useful places to order or purchase a geiger counter, if you are on a family budget. You might find one on the cheap, on Ebay, that is still useable.

There are some kits available, if you look hard enough, to use to build your own geiger counter. A mining outfitters store, in South America, or in Central America, or in Utah, or in Nevada, may be able to help you locate a kit, to put together, if you go in there, and pretend you want to go out and look for interesting rocks, and you need some information on where to look for interesting rocks, so go to a mining outfitters store, or to a rock hounding club, or rock hounding retail store, for looking at beautiful stones that rock collectors, or rock hounds, have found, and made available at the store. Usually the store owner will have his or her suppliers, on name cards, and you can get in touch with them to get more information on where to look for interesting rocks to test with your geiger counter, since you are facinated by radioactive elements in rocks, and you are interested in finding some, for a collection you wish to start.

You might want to pick up some primer books, on minerals and rocks, gems, and gemstones, from Amazon online, or from a local book store, such as Barnes and Nobel book store, which has a few useful books on rocks, mineral rocks, gems, and gemstones, that you can find when you are out rock hounding. Desert Outfitters in Las Vegas, a miner's outfitters store, that also provides useful tools to rock collectors, such as rock hammers, and hand held pick hammers, for chipping away at rocks, to see what is under the surface of the rock, or under the peel of it, the outer layer, as well as terrain maps, and outfitting supplies, tents, and sleeping bags, and so forth, has these types of books, and lots of maps, and maybe they can help you find useful kits to purchase, to build yourself a geiger counter. They also sell geiger counters for about three hundred and fifty dollars or so. Sears used to sell Geiger Counters, and they still can order them for you, I think, through their catalogs. On Ebay, you can find many reasonably priced Geiger Counters. How well the geiger counters work, the ones people sell on Ebay, I can't say, so you'll have to talk with sellers, and see what they say about the geiger counters they are selling to others on Ebay, or read about them in old copies of popular mechanics, and in trade publications for the mining industry.

## Novice And Amateur 'Rock Hounding' Rock Collectors Clubs

On Sahara, east of Las Vegas Boulevard, there is a rock shop, which is about two and one half, or so, blocks down from the intersection, on the north side of the street, and they have information, as well as lots of primer books, on rocks, and on geiger counters, and where you can find them. They are well connected to the local rock and gem, minerals and gems finding, or rock hounding clubs. You can meet their members, and go out with them, on excursions, as they know where to find just about anything.

There are similar clubs in every major city, and in lots of smaller cities. Mining towns of course have lots of mining outfitters stores, and they probably have geiger counters for sale, so you can use it to find some very nice, fracturable rocks, along coastlines, or in ancient dry lakes and seas, sediments filled, rock hounding areas.

## Decontaminating Your Self With Ocean Salts

Acidic ocean salts in ocean water will help eat up the radiological kiddies that find their way into your bodies, and that make you feel ill. It might take several weeks for initial recovery, with you taking large amounts, several teaspoons or more, as much as you can handle, in your diet, every day, for up to three to eight years, to thirteen years, for severe contamination, and for full recovery. Other things, such as nutmeg, and oregano, in a salty tea brew, will also help you, and marijuana in the salty tea brew, will further help you. Berries can also be of great benefit for recovery from radiological salts kiddies contamination.

My kids have a recovery kit, that will help you recover from an overdose of radiological salts kiddies, after a major birthing event, and that kit will help you fully recover. You need to join our country, and swear in, and become a citizen, to be given one of these kits to help you for your recovery. They can provide you with information, of various kinds, once you swear in. They have you swear in as full time citizens, now, except in special cases.

## Ancient Dry Lakes

There are many ancient dry lakes, up north, in the colder areas, of Manitoba, and around the edges of wet lakes, you'll find areas that dried out, a long time ago, and you'll find interesting things in the sediments deposits under the surface soils of the earth, that have covered most areas, and that come in to our atmosphere, and then deposit themselves onto the surface of our planet, as they are blown in on the solar winds. A few feet of top soil may cover the dry lake areas, around the edges of these lakes, and the soils depths may reach to twelve feet, to fifty feet, to sixty or to eighty of more feet, in some areas.

Once you hit the sediments layers, around the edges of these lakes, outwards to eight to fifteen miles, to thirty miles or further, out to up to eight hundred miles, as in the case of Lake Erie, and that lakes region, the Great Lakes, that all use to be one large salt water sea, but is now, a fresh water set of lakes, you can begin looking for the radiological bullets of the previous catastrophes in my universe, that shot out radiological salts kiddies, into the sediments rocks of mineral stones, and sand. Gravels might contain some "radioactive" fracturable rocks, and you can tell which are the useful ones, with a geiger counter. There are still salt water lakes up in Manitoba, Lake Huron, and some others, that used to be part of Lake Erie, and all part of the Great Lakes, when they were a large, salt water sea, but which are now, no longer part of that lake region system of lakes, as fresh water now fills up the Great Lakes from under ground water systems of fresh water flows.

## Hydrolific Pressures From Water Falls

Hydrolific pressures, from water falls, primarily, help to erode and carve out and build the under continent open areas of water flows, that flow under the continents, and that dump their waters by traveling underground, in culvers, and channels, and in trenches systems, and then flowing out and into the oceans, resulting in side benders currents and flows.

## Underground Lakes

Hydraulisis is one type of water pressures. Hydrolific pressures are those pressures created by water beating down, steadily, as water falls from higher to lower places, creating underground holes, and large open underground cavities, and water holding vessels, aquafirs, and underground lakes in the underground rock layers. Lots of cities sit on top of such underground lakes, on the crust of the surface of the earth, or very near to them. The lakes are often ovular and rounded in shape, from top to bottom. Many former water falls, are now low lying, and flat, and there is no water fall on the river, except for minor, cascades, such as found in the Grand Canyon Rift Valley down the Colorado River, and out into the Baha area.

## Baha Mexico

Baha is a good place to go looking for interesting, "radio active", or radiological rocks, fracturable rocks with radiological salts kiddies sleeping soundly, embedded into other rocks, after colliding with them, in a hail of radiological rocks bullets, after a planet or a galaxy, or a large nebular star system, or a cluster of them, were detonated, by some fool with a huge and powerful, home made bomb. This happened, often, in the past, and still, today, it happens, now and then. Bits and pieces of the radiological rocks will come flying in, and then embed themselves into other rocks, as I've explained about, before. We've had so many catastrophes in my universe, that our ancient rocks, are peppered with radiological rocks that are embedded in them. Off the coast of Baha, is a good place to go diving, looking for rocks that were washed off shore, as waters flowed down the Colorado River, trinities of aeons ago, when this planet was still a young planet, maybe about one fifth the way through its infancy, after reforming, again, after its last major impact that shattered it to pieces, for the umpteenth kazillionth, plus more, time. This shattering and reforming, has been going on too long to count, and obviously, there is a large amount of mixturing going on, with debris from other star systems, galaxies, nebulas, and so forth, floating in, and becomeing part of our planets, all around and about, on solar winds. You'll find rocks on the inside of the Baha coast, and on the outside, as well, and along the Baha coasts. You might have to dig down thirty of fifty feet, to a few hundred feet to find them, maybe eight hundred feet, or sixteen hundred feet, or further, but you'll eventually find something useful with lots of radological bullets embedded in the rocks.

## Finding Good Rocks With 'Radiological' Salts Kiddies Bullets

You can find interesting rocks, also on high hilltops, such as in the

Andes, the Himalaya's, the Swiss Alps, high mountains in Austria, and in Germany, high hill tops and mountains in Iran, maybe in Afganistan, and the very high hill tops, that are generally old hills, in many countries. They will usually have, if they are very old hill tops, lots of rocks scattered about that are very old, and that have lots of fracturable 'radiological' salts kiddies 'bullets', from previous detonations around my universe, and other related kiddies in them, as well. You can also find them along ancient river beds, and along dried up desert gulley washes, in the valleys between the mountains, in areas where tall, old mountains exist. You might have to dig down into the underlying layers of rocks to find really ancient rocks loaded and peppered with ballistic radiological 'bullets', tiny fragments of radiological materials that went shooting out upon detonation of nuclear materials, elsewhere in my universe. Lava or basalt rocks, may also contain large numbers of radiological salts kiddies, and other types of kiddies related to radiological salts kiddies. Iron stone is a basalt rock, granites are also, and samples of them may be loaded with radiological salts kiddies, etc. Geiger counters will let you know if your sample rock material is pacted full and loaded with the tiny radiological 'bullets', or just partially loaded with them, depending on the response from the geiger counter. Many types of radiological materials, the bullets fragments, may not register on current day geiger counters, as they are not set to the correct radiological energies frequencies and currents settings to be able to detect them in the rocks. There are many types of radiological rocks in my universe, and current day geiger counters are set to pick up the currents and frequencies of the energies from only a few types of them, and there are thousands of types of radiological materials, so the older the rocks that you find, the more likely that the loads of radiological materials in them will be high in not only the types of radiological materials the geiger counter can detect, but also, in the types of radiological materials the geiger counters are not set to the frequencies and energies currents of. Such samples of rocks materials with large amounts of fracturable rocks, radiological 'bullets' inside of them, will yield massive explosive potentials, if you raise the heats energies of your explosives formula, to near solar temperatures, as I've mentioned about.

## Plastiques, Explosives, Radiological 'Bullets', 'Nuclear Detonations', And Decontaminating Yourself Of Radiological Salts Kiddies

Please see my web pages for information on making plastique, along with metals fragments, and high temperature burnoff minerals mixtures explosives to produce the energies needed to produce nuclear detonations. Field chemists and explosives experts should be consulted, as they will probably know more about the temperatures at which different metals and minerals burn at and they will be more helpful in providing you with accurate information on different alloys mixtures, and the temperatures they burn at, such as the new US Mint US dollar coins, that will burn at extremely high temperatures, at about one fifth to one third the temperatures of solar temperatures, when ground into fine dusts fragments, and then after fermenting them, and then mixing the fermented particles in with the petrol fuels, chlorine, and gun powder, etc., plastiques explosives formulas, as I've explained about, to some extent, in my notes on my Gurkian Age Gurkian Way bulletin board. Be very careful when testing, as you may find the results extremely hazardous. See my kids, for more information, as I've explained about, on my bulletin board. Ocean salt will help to decontaminate you of radiological salts kiddies. A two hundred pound man will need about three pounds of ocean salt on a daily basis, to live healthfully. To decontaminate yourself, you will need more than that, to properly get rid of the radiological salts kiddies in your bodies, after you've been working with radiological salts kiddies, and testing the explosives potentials, for some time. See my bulletin board for more information on the 'salts kiddies sciences' to help you to understand what is going on in so called, 'nuclear detonations'.

## Sledgehammering Continents And Land Areas Where Lesbianists Live, Hiding Below

Here are a few places to place some other fracturable rocks bombs on, to make them fall in, and collapse down onto the layers of rocks, below, and then puncture the ceilings of the cavernous cities the Lesbianists have made, down below those lower rocks layers. Topango in the South Pacific near the Marianas, the area midway between the Ryukyu Islands and Haha Jima, Chichi Jima, and Iwo Jima, where you will find a sunken continent, Wellington New Zealand, Peking, Falklands, Urals Mountains, Chile thirty miles north of Concepcion and eighty miles east of it, near the Argentina border, and the Kamchatka pennisula, which will split and collapse in the center of it, midway down the penninsula, if you hit it hard enough. Lesbianists will come floating up, if their bodies can fit between the tons of debris that will fall in on them, as you smash the land sites that sit on top of ocean shelfs, and on open lakes below the land, some miles down from the surface, in some cases, and further down, in other cases.

It may be hard or impossible to deliver a nice bomb below the ocean above or onto the top of the sunken continent below the ocean, between the Ryukyu Islands, or Okinawa, and the islands of Japan, called, Chichi Jima, Haha Jima, and Iwo Jima. If one can be delivered there, you'll crush the continent below the surface of the ocean, and that will cave in on the cities, there are more than one there, that are below the protected shelf layer of rocks, above the cities the Lesbianists have there, below the sunken continent, to live comfortably in. The other places aren't so hard to hit. It is just a matter of local interest, and urging of the people there, to take the correct action to help us to resolve this problem, of Lesbianists living below us, all around the globe, in their honey comb, bee hive like canival of cities.

A canival of cities, is a large collection of cities that is located in such a way as to make it easy to get from one place to another. They are conveneint for them to live in as they are well placed, and spread out evenly, using the full extent of the area, as efficiently as possible. The Lesbianists have a canival of cities under the lower rock shelf layers, that are above them, and that help to keep them protected, warm, dry for the most part, but not always, and that are conveniently located each one in a bee hive like, configuration, well placed, with a well designed, layout, with central cities, and with satelite cities. It is well designed and resembles in part, Melbourne Australia, which was laid out, planned and designed as a modern city. The Lesbianists of course, think Melbourne is puny compared to their accomplishments, and of course, with the technologies they had and have available to them, from time to time, they made good use of every inch of space they have available to them, under the lower hard rock, but leaky rock layers above them.

My kids have places and locations maps of all the best places to locate your home built fracturable rock bombs, and so please pick up the information from them, after you have sworn in, as citizens of our country. Also, please see my earlier notes on the sciences that support a correct understanding of radiological particals based fracturable rocks explosives and other helpful and useful explosives you'll need to set off the fracturable, also called, rupturable rocks bombs, i.e., the so called 'nuclear' detonations.

Topsoils

Did you know that nearly 99.9999+ percent of the earth's crust, or mantle, is formed from space debris that has floated in on the solar winds? It's true. Only about 0.000001 percent of the top soil is from local vegetation, globally speaking. The rest of the top soil comes in from above, blown in on the solar winds, as debris from other planets that have been destroyed, crushed, or blown to pieces by idiots with very large bombs, that demolished whole galaxies, or multiples of galaxies, in a few milliseconds, as the instant they blew up, they were so well made, or constructed, and so powerful, they instantly blew up the whole area of galaxies the planet was located amongst.

If for instance, you fill up one third of the large tourist attraction, the meteor crater in Arizona, with one of these fuels and rocks bombs, and ignite it, you'll disentegrate all of the Milky Way, and some what more than that, in one attempt, by my estimation, if the fracturable rocks bombs were made well enough with the fuels bombs, to burn at near or close to, solar temperatures, and if there were enough materials in the fracturable rocks, to get lots of mama's and papa's making lots of babies, relatives, and others. There are lots of different types of salts kiddies in fracturable rocks, and there are other types of kiddies, the radiological kiddies, which are sometimes, but maybe are not always, grouped with the fracturable rocks kiddies. There are many types of kiddies living in radiological rocks. When we send high heats waves energies, and other types of energies into the fracturable rocks, we can get many types of kiddies to begin making babies. If we get enough of the different types of kiddies to begin making babies, we will have one fine and dandy, explosive shower of baby making events. You can get further information on this topic from my kids, and if you tell your friends to check in with my kids, and to swear in, and become citizens of my and my kids' new country, along with other people who are swearing in, and becomeing citizens of our new country, my kids will make certain that every one is protected, and no one is caught outside, when the bombs go off, as my kids will tractor you and all the other citizens in, with my kids advanced teletransportation technologies, before any one can get hurt by the bomb or bombs blowing up, locally, or in their areas. That means, my worker unionized kids are very quick on getting people into the encapsulated living environment every one is living in, below the ground, that my kids built for every one to live in, until we get this problem straightened out, and until it is safely over with. People can continue to live in the encapsulated living environment, after it is over, as we are going to start a new economic and social system, and we are getting started, down below, where my kids are keeping the encapsulated living environment, well taken care of and well managed.

Later on, we'll worry about who comes out, and when, as we have plans for every one, to begin working inside the encapsulated living environment, which is very well designed, and bomb proof, of course. Once every one gets accustomed to the new way of living, in accordance with my religious principals, and in accordance with our new working and living programs, when people have saved up enough money, they can pool their money, and acquire a lease for land up above, on the surface, and then with more money, they can have nice places designed for them, and built for them, with your input and with your instructions. You will need to study designing homes, and layouts of homes, for large numbers of people, as you will be required to live in groups of people, as the old systems of living, one husband, one wife, and so forth, is out the window, and now we are going for group living, with many members to your groups. When you have got the maturity together to live in large groups, and to sexal with many people in large groups, then you will qualify, and then with lots of earned income, pooled together, you and the members in your group, can then move up and live on the surface, in your well designed home, which my kids will use their technologies to build for you.

This is how we are going to clean up our planet, and get started with a whole new system for living and working with each other, as GOD's children working and living together, begining here, and spreading, slowly, across and throughout my universe, as we bring others into our program, all across the universe, from end to end, from top to bottom, and from side to side, and in every nook and cranny of my universe. All of my kids, you, who I am speaking to, will learn to live and work together, supporting my worker unionized kids, in our new global, united, and universal society, we will begin to build, on this planet, first, and then later, every where else. I am the mother and father of all of you, and of all of my worker, unionized kids, as well, all of my kids who work for me, of course, and of all of my living beings, and of all of my animals. We are going to get this big family of ours, together, and we, the human beings, will begin to clean up our universe, by sexaling for a living, and with many other living by the points systems programs, and other projects. We will also begin to get our heads on straight with religious activitiating, in other words, by participating in religialing, in groups, or by oneself, in the encapsulated living environment, first.

As we move along, in time, we will develop our working strengths, and character, and some people will qualify, eventually, for working in my religious brigade, once they realize and understand who I am, i.e., GOD. Others, who do not give a darn about what I am doing, may do as they like, as long as they are citizens of our country, and as long as they enjoy what they are doing, and as long as they add to the welfare of all people in our society, universal wide, as we build it, larger and larger, for all of my children, no matter who they are. We will one day have all of my children, working for me, and if they do not like working for me, they still have to pay the fees for the resources they use, just as I have to, and that means, there is a charge for every thing we use, and it is detucted from our pay checks. Every one gets a pay check, if they work, and if they are disabled, they will get earnings to support them, for as long as they need to be supported, until they are regroverated, healthy, fit, mentally prepared, and willing and able to participate. Those who do not wish to participate, will work in jail cells, and prison cells, sexaling for a living, with animals, as I've mentioned before, and at carnival and entertainment centers and districts, we will eventually set up, first on and also inside of this planet, in 'encapsulated' carnival and entertainment parks, and later on and within, other planets.

We are going to have all my children working for me, eventually, as I've spoken about before, and in time, most people will wish to work, and when they are mentally prepared to work, they will enjoy their working, most likely, as sexaling for a living, is not a unwholesome way to earn a living, and it is a pure and holy way to earn a living, and a pure and holy way to spend our time, as part of our new working ethics environement. For more information on this, please see my worker, unionized kids, who handle the information hot lines, in our, and your, and their, as well, encapsulated, living environement, which they have built, maintain, and manage, for all of you, and which they are continuing to build and expand on, for the rest of you, who have not checked in with them, yet. My worker, unionized kids have their own places to live, inside of the molecules that are used in building your living environment, and in your bodies, and in the molecules outside your living environement, as well. They live in all of the molecules, all over my universe, and they work in them, as well. They have their own universes, that they live in, which are all contained with in the molecules in my universe. It is a little more complicated than that, and so see them for more information on it, if you are interested in learning more.

## Disintegrating The Milky Way

The Milky Way is made up of not one galaxy, but of several thousand, of different sizes. We don't have the technologies to see too clearly to distinguish the different galaxies that are within the borders of the Milky Way, nebular star system and nebular star cluster system, another way of saying that the Milky Way is a collection of many nebular star systems. Nebular star systems can be considered similar to galaxies, but maybe not always, as there are exceptions to every thing in most cases, any way. We are of course part of the Milky Way, I suppose you could say that, but we are far out on the outer fringes of it, and we are not any where near the center of it, and we have our own galaxy we are a part of, and it is not part of the Milky Way, so technically, we are not part of the Milky Way, although we might like to think we are, since it is an expansive set of star systems, and star clusters, nebular systems, and other types of solar bodies systems, and it covers over us, and beyond us, sort of over layering us. Be that as it may, we do not want to blow up or disintegrate the Milky Way, as we are in a way, part of it, or at least, we are encovered by it. Encover means to be covered over by something and encased within it, or to be encircled or surrounded by it.

Captain Off The Bridge.

## Lay Order Of People

I have no lay order of worshippers, who participate with me, in any thing, or in any way. Why? Because, that's like me, the captain of the ship, coming into a town of persons who I don't know, and then saying that I'm the authority over them. No one is going to listen to me, and no one should be expected to listen to me. I wouldn't attempt any such thing, and so as the captain of my ship, my religious order, I have no authority over lay persons. I have nothing to do with lay persons, what so ever. I will never have any thing to do with lay persons, unless they realize that I am GOD, and that I am the mother and father of all human beings, and all animals, and all living beings. No one is going to recognize me as GOD, for a long time, as no one has the karma to recognize and understand that I am GOD. Lay persons are free to do as they like, and I have no regulations concerning them, in my religious order. My children may have many regulations, for non religious order people, but I don't have any thing to do with that.

## Donations For The Sake Of My Ministry

The only thing is, that, as I said before, if a person recognizes and understands that I am GOD, and that I am the Mother and Father of all human beings, all animals, and all living beings, then they are free to donate cookies to me, or clothes, or wearables, socks, and scarfs, or coats, sweaters, or slacks, neckties, and so forth, cakes, or cupcakes, baked items, or financial contributions, or chairs, and furniture, beds, linens, tables, office furniture, phones, phone lines wiring, electrical wiring, plumbing items, housing items, for building up a house, paved drive ways, mason or rock walls, surrounding the property, or a set of dormitories, or a prayer sexaling room, or a prayer ceremonialing room, or a swimming pool, sauna, bath house, toilet facilities, bathing facilities, laundering facilities, a root cellar, a molds and funguses workshop, a brewery workshop, or any workshop for helping to educate others, the land to build these things on, or money, or whatever. If some one recognizes and understands that I am GOD, then it is perfectly alright, to donate any types of items, or any thing of value, that would assist my ministry to get up and get running. As yet, no one has understands or recognizes me as GOD, and that I am GOD, and the mother and father of all human beings, all animals, and all living beings, so as yet, I have not heard from one person, not a letter, or a phone call, other than an occasional wise cracking person, mischief maker, or a person or persons who are worried, and then complain to me, or rather, to my answering machine, typically, as I don't pick up the phone, now, as I had one person calling who was a bad kid of mine, and he was just looking for trouble, and since that, I just ignore all complaints, or wise crackers, or mischief makers, and so on.

## Nollicking Foolish People

Some people do not like me wearing my GOd cap, that is one of those specialty base ball caps, but with 'GOd' written across the front of it, and they might hate me, especially some South American or Central American Hispanic types, who have primitive and backwards religions and filled with local lore and ancient tales of demons, and goblins, and gooney bears, or ghostly ghouls, or other superstitious ideas and notions of things that go 'boo!' in the night, and try to scare or hurt people, as there are plenty of folklorish tales of such things, in primitive cultures, that thrive, even at the current time, nowadays, in large cities, even, and these types of people might want to kill me, and when they knock on my door, with their gun in their pocket, or in their hand, machete or knife behind their back, I just ignore them, and I don't even bother to get up from my work bench, i.e., my bed, to see who is knocking at the door, as I know already, they have nothing to do with my monastic order, and because they have nothing to do with my religious ministry, or with my setting up my religious ministry.

Just last night, some group of people droped by, and banged on my door, with the tip or barrel of a weapon, and it was rather hard sounding, and I just ignored them, and after a few minutes, or so, they went away, and they haven't come back, yet. I don't think they will, and even if they do, I don't think it will amount to any thing, as I may have occaisonal visitors or harrasment calls, now and then, but that's all they are, and I just won't allow my self to be bothered by them as they are unimportant, and my goof ball kids, are just too nutty to figure out that I am GOD, and that they are my kids. Nevertheless, these goof ball kids are here or there, and I get lots of compliments about my hat, and usually, if not always, the person giving me the compliment wishes to steal the hat from me, and then rob me, in any other way, he or she can, and then beat me up, if he or she can. Well, I can't let these types of things get to me, and I just ignore them, as I walk by them, and I don't reply or return any statements to them, except a polite, 'thank you' if they gave me a compliment about my hat, but that's about all, and I might mutter something, like, and well, so that's just another one of my goof ball kids, or something to that effect.

## Nollicking And Nollygaging

Nollicking means idiotic and foolish people who are wasting their time, for accomplishing nothing. It's like, nolly gaging, but nollygaging, is just wasting time, foolishly, and while you are nollygaging, you are looking for some way to make a profit, from your use of your time. Scanderously, you try to extort money from others, or force others to give you money, you do not have any right to.

That's nollygaging, as I can recall, at the moment.

## Goof Ball Kids, Their Mischievousness, And Maliciousness

Well, I have all kinds of kids, and many of them are malicious, if you give them a chance, so I just stay away from all of them, as I know most every one of my children, is malicious, from time to time, if given the chance, and I think that applies to all of them, regardless of their age, at some point in their life, they will commit crimes of one kind of another, against others, and not think much about it, except that, they just had to take care of that, as they wouldn't be happy, if they hadn't. Okay, so every one of my kids, at one time or another, will do goofey or goof ball things, and not think much about it. That's the way it is. There is nothing to be surprised about, as every one, and I don't care who they are, every one, does things they shouldn't do.

Me, personally, I get angry, and say nasty things, and make myself sound gruff, now and then, and maybe I shouldn't, but I just feel compelled to do that, when I have a righteous conviction that some one deserves my speaking up and telling them off. Well, you feel sorry about it, afterwards, if you hurt some one's feelings, but then that's the way it goes, and no one is perfect, so it's just. Let's try to live and let live, and live together in peace, and cut out the naughtyness, and stop the mischiefness, if we at all possibly can, and apologise if the opportunity presents itself. That's always the best way to handle things. Most people, after they kill someone, can't appologise, and young girls and boys, and older girls and boys, think nothing of killing people, or having some one killed, for them, and then of course, there is no way for any one to appologise to the dead person, since that person is in my Epcot Center. Well, we can't do too much about that, can we, but we can try to be kinder, and not kill as much as we feel we must to be happy.

## More Than Ninety Five (95) Percent Of The Homicides In The World, Some Times As High As Ninety Eight (98) Percent, Or Even Higher, Go Unreported, And Are Therefore, Not Investigated

It's too bad that we kill others, and torture others, but that's the way my goof ball kids live in my universe, and despite what people might wish to think, to the contrary, it happens every day, in every city, town, hamlet, county, district, or where ever. My goof ball kids are killing people, right and left, and there are just so many deaths, the police don't hear the ninety five (95) percent of them, or so, as they never learn about it. The percentage of homicides the police do not hear about, is perhaps just a little higher, but in any case, no one should be surprised, as that is how my goof ball kids get along with one and each other, and they have been getting along with one and each other, that way, for a very long time, already, so it will not stop, any time soon, and that's just the way things are, for now. The Lesbianists are responisible for just about eighty five percent of those homicides.

## Labrynthine Cities Below Us Where Lesbianists Live, And Laugh At All Of Us

The Lesbianists living below us, in their cavernous, labryinthine cities, that are below the hard rock layers, well below the oceans, and other bodies of water, far below the continents, go around, and mess with every one, and they play with people, and they think they have the right to amuse themselves by useing the citizens of this planet, any old way they like. They go around, and set up phoney wars, and they watch the citizens of each country, kill each other, on their commands. The Lesbianists enjoy playing these kinds of games, and they set up civilization after civilization, and they bring it along, and help to develop it, and when they get it to a high enough level, they feel a sense of accomplishment, and then they watch and amuse themselves as they destroy what they built up, and the people who are living, unawares of them. The Lesbianists think it is funny, that the Lesbianists feed the lies about our universe, and the lies about science, to every one, and the Lesbianists think they have the right to bafoonerize every person who comes into our world, as a tummy baby, who is on his or her way in, and in fifty to eighty or so years, is on his or her way out.

## Why Do Continents Sink? Why Do Land Masses Rise?

Load transference technologies, and partical transference technologies, redistribute the loads on the internal network of underground cities the Lesbianists live in, to keep them perfectly centered, when ever there is a major uplifting, or down plunging, of continental mass, rocks, and earth, that would cause continents to sink and continents or land masses to rise. Movements of 'earthen matter' or rocks and dirt is accomplished with load transference technologies, and other technologies, such as partical dismissive technologies, and partical remissive technologies. This way, a planet can move, inwardsly, as a continent sinks, after the underlying rock layers are washed away due to hydrolific pressures, and not destroy the underground labrythine cities. My kids also use the same technologies, and other technologies, for maintaining the integrity of their underground encapsulated living environment.

The sinking of the continent pushes downwardsly, and as it falls, it exerts high intensity pressures on the underlying layers of rocks, stones, pebbles, sands, sediments, clays, metals, minerals, and so forth. The pressures will normally push downwardsly, and outwardsly, and shifting of materials, occurs, and land masses rise, as a result. When you have an underground city, or collection of them ringing the planet, when the pressures occur, and when the materials begin to shift, you redistribute the materials, using advanced sophisticated technologies, that will shift the particals in the directions they need to move, and distribute them so that they will not interfere with the structural integrity of the undergound labrynthine, and perfectly, geometricly laid out city dwellings and living habitats. It's high tech stuff, and so if you don't understand how partical dismissive technologies work, or if you do not understand how partical remissive technologies work, you will have a hard time understanding how this is accomplished. There are other technologies, that also must be employed, to work in an integrated manner with the partical dismissive and partical remissive technologies. All of these technologies, working in an integrated manner, will perfectly redistribute all the particals of rocks, and so forth, that need to be redistributed. The technologies keep the ring of cities perfectly centered within the earth. If there is a need for downsizing of the interconnected labrinthine layout of cities, that is also accomplished with these technologies. Downsizing may occur for any number of reasons. I've briefly explained what can happen as comets and asteroids pass by our planet, at amazing speeds, and that we can lose some or part of our planet, mountains, terrain, and lakes full of water, with a pass by, by a solartoid, or planetary sun, as it wizzes by at a phenomenal speed. Once the planet restabilizes, the downsizeing process begins. Even though there may be continental shifts, of uprising and down plunging events, and large, cometary passbys, with the technologies that are available to the Lesbianists to use, on a 'for lease' option, the integrity of the underground labrynthine layout of cities, is kept in tact, as best as possible. The technologies that accomplish this for the Lesbianists, that keep their cities perfectly situated, are not on lease, any more, and they have lost their lease on the technologies that would allow them to keep their cities perfectly protected, and perfectly centered. Some areas may not be too livable, for them, as leaky ceilings cause waters to accumulate, below, and they must trudge through salty ocean water, knee deep, in places, and in other places, the water is too deep to allow them safe passage down one tube, or trammel system transportation pass through tube, to a city or to cities which were previously accessable.

## The Leases On Their Technologies Are Expiring

The leases on the technologies that they have been using, and that were assigned to them, after they swore in, and pledged to live on this planet, and pledged to sexal for a living have been expiring for some time, already, and will continue to expire for some time, to come. Because this was a newly formed planet, before they arrived, but after it recongealed, after it was shattered to pieces by a passing cometoid that ran smack into it, as I've explained about, or touched on, a couple of times, before, see my notes on the web, once the planet stabilized, and became a livable planet, they first needed to live underground, where they could live, and slowly over time, adjust to the types of solar radiations, and other factors that they would need to adjust to to be able to one day come out from down underneath the surface of the planet and begin to live above ground. The rock layers, land, and bodies of water above shielded them from potentially harmful radiation. The living area below, also had built in protection systems to help protect them from the radiative energies that could harm them. After they adjusted to the conditions of the planet, they could come out, and as they continued to sexal for a living, other technologies would allow them to build large cities, for them to habitate in, as they continued in the sexaling for a living program. The cities that my kids built for them, that my kids have the permissions to use for these programs, are now down under the rock layers, all crumpled up, or they have passed into the molten core, and have been spewed out, as basaltic lava, as the Lesbianists did not hold to their pledge, and they broke the law, and the maintenance of their above ground cities, was terminated. With continental uplifitings, and downplungings occuring, over the long period of time, they lost their cities, and now they have only the underground, initial landing zone area, dwellings and habitats, that have down sized, some what, since their initial landing for occupation of this planet, in the sexaling for a living program. They broke all the rules, and they developed their own sham governments on this planet, and they went about, causing mayhem and destruction, every opportunity they got.

The leases that they signed on to, and that were assigned to them, that they had on the initial landing zone technologies, as well as all their other leases, that were assigned to them are now in the process of being cancelled. That means, that, their underground cities are being shut down, slowly over time, - thus the leaky roofs - and they will have to move out, and move to the surface, as the underground systems, begin to falter, shut down, and fail, one after another.

This happens to them, repeatedly, life after life, and the end result is they destroy them selves. The hideous, hungry animals they illegally brought from other planets will get lose, and then they will help to hurry the demise of their world civilization, which means, every one of the Lesbianists will die on this planet. After the Lesbianists destroy themselves, they will end up in my Epcot Center, and they will come back out as tummy babies, to tummy mommies and to tummy daddies, who have karma that matches up with theirs, and then they will repeat their old mistakes, again, and again.

As the usefulness of the Lesbianists' underground labrynthine cities declines, as leases expire on the technologies that were assigned to them, and as other leases, will also be expireing, over the next few years, to ten or twelve to fifteen years, to thirty eight years, to fifty nine to sixty to eight five years, and then finally, when the last of their leases expire, some time, not too long after that, up to two hundred to eight hundred years, or so, and then there are still a few that will remain active, until every one is expected to move out, within a few thousand years, eight to eleven thousand years, as they must be given time to build up their own new civilization on the surface of the planet, where they can all live, together, now that the facilities below will be totally closed off, and shut down, and no longer useable to them, as they will be locked out, and prohibited from entering them. Once they are completely out, my kids will then remove all traces of the underground cities and underground facilities, so that there is no chance of any one ever useing them again. The Lesbianists will then begin living on the surface, full time.

## Late Night Amusement Activities For The Lesbianists

Currently, as a regular sport or preoccupation, the Lesbianists go out regularly, at night on hunting parties, after exiting from below up through secret stairways, that lead up through police stations, and through fire departments, and through some military barracks, and through National Guard barracks, castles, buildings owned by royalty such as a king, or a queen, a monarch, dictator, despotic ruler, or by dukes, earls, princes', princesses', public buildings, government buildings, and through banks, hospitals, morgues, cemetary parks, schools, parochial schools, college campuses, college buildings, universities, university facilities, movie theaters, dance halls, auditoriums, disco-techs, sports stadiums, ball parks, parks, indigenous peoples' tribal reservations, port and harbor facilities, port authority landing zones, free trade zone districts, political districts such as Macau and Hong Kong, bordellos, brothels, drinking establishments, cocktail bars, lounges, late night restaurants, physical fitness centers that stay open 24 hours a day, YMCA's, YWCA's, Greyhound Bus stations, train and railway stations, air ports, national parks and forests, BLM lands, islands owned by Lesbianists, Riker's Island, Staton Island, Alcatraz, islands that have military forts' and bases that are active or semi active on them, private residences owned by Lesbianists, and through businesses owned by Lesbianists, through twenty four hour a day businesses owned by Lesbianists, Walmarts, K-Marts, 'Toy's 'R Us', Wendy's, Jack 'n The Box, McDonald's, In-'N-Out' hamburger chains, sushi restaraunts, late night restaraunts, hotels, motels, churches, mosques, synagogues, military bases, public and private museums, BINGO establishments, pachinko parlors, billiards halls, race tracks, gaming and gambling establishments, and many other Lesbianists' controlled facilities, buildings, and so forth, above ground, and they capture and abduct people, then bring them back into their underground lairs, and then the Lesbianists torture them, barbecue them, and then cannibalize them, for food, in their underground lairs. The Lesbianists enjoy torturing people, and eating them, and these abductions go on, regularly, all around the world, and the torturing, barbecuing, and eating of the above ground residents, below ground, goes on all around the world, beneath the surface of this planet.

There are over thirteen billion of them, and the number is even higher, still, as I did not have that number correct, either. It is higher than that, and that means there are a lot of hungry mouths to feed, in the future, after they lose their leases, unless they get a new civilization built, which they never do, as they do not like to work.

They will come out, at night, regularly, and abduct people, and then carry them into their underground lairs, and then cannibalize them. This will grow more and more busy, as they strive to remove every one they can from the surface of the planet. After they have removed enough people, they will begin to live on the surface in the homes, and cities that are there, already. There are too many Lesbianists to live comfortably on the surface of the planet, and they are too lazy to build their own civilization with homes, an economy, and so forth, so they will inevitably begin warring against each other, until there are only a few left, and then they will meet their end, when their exotic and deadly animals that they brought here for their personal amusement, strike at them, and kill them, for food.

The only way one can find a way out of this predicament, is for each one of you to join my country, swear in, and become a citizen. The Lesbianists in turn, must surrender. If they do not, at a certain point in the future, we will begin to dismend them, and sent them to my Epcot Center. When that will occur, I don't know, but it could be as far off as a few thousands of years from now, as we have to give them the time, and a chance to build a new civilization, with homes, and parks, etc., working together with the people who already live on the surface of the planet. We cannot cut short the allowance they must be given, in fairness - as the leases continue to expire, and the leases protect them, to some extent - to make efforts to mix with the people on the surface, and to come clean, and to tell it all, and to appologize, and then to work in peace and harmony with the people who currently live on the surface of the planet. They will have to share their knowledge of the sciences, and they will have to help to educate every one, and they will have to teach the people who are living on the surface, the sciences that will allow people to regroverate their amoebes, and other cells in their bodies, and to rejuvenate their bodies.

There is not much chance of that happening and of gaining their cooperation, so we will have to be on our guard, and we will have to look out for ourselves, and make sure none of us are abducted by them as they attempt to diminish the population living on the surface of the planet by reducing the numbers of normal people living on the surface of the planet, as the Lesbianists begin to get busier, abducting people, and eating them, one after another, to make room for them selves, on the surface of the planet.

Never the less, my kids are not allowed to act prematurely, and my kids are not allowed to begin dismending them, just to stop them from doing what they typically do, after they lose their leases. So, it will be several thousands of years, before this topic comes up for discussion, and action is taken. These are not normal circumstances, and so the dismending of these people, may begin some time after their final leases expire, if they present them selfs as a problem to the rest of us, living on the planet.

## Our War On The Lesbianists Must Continue

This means, we have a few options, here, and the best option is to just get rid of them, and destroy their underground cities, and destroy the Lesbianists, world wide, before the Lesbianists get much more of a chance to abduct, torture, and cannabalize the citizens living on the surface of the planet. Thus, our war is now only begining, and we must continue to eliminate them, as they will only cause mayhem, and destruction, for those of us, living on the surface of the planet, as the Lesbianists abduct, and capture people, then torture and cannibalize them, in coordination with their Lesbianists friends, who run this planet. The Lesbianists' activities aimed at destroying the populations of the planet, is guaranteed to increase, as the years pass. That means, we must continue with our campaign to destroy the Lesbianists, and we must continue to work to bring an end to the control that they have, over every one on this planet. We can also concentrate on destroying the Lesbianists, underground, by dropping the home made 'radiological' explosives weapons down into the ocean depths, and down into the depths of the deeper lakes, onto the leaky ceilings below, where the Lesbianists are living, to crush them, and to drown them all. In the meantime, every one must join my country, and swear in, and become citizens of our new country, as I've explained about, before.

## The Valderizing Lesbianists

The Lesbianists do not teach real science, or real geography, or real history, or real mathmatics, or real chemistry, or real anything, and they fool every one with their bogus religions that they either made up or corrupted, and valderized. Valderized means, they vandalized it, and sprayed grafitti all over it.

Well, that's the way the Lesbiansts get their kicks, and they are just a bunch of grown up children, valderizing every thing they can, and disrupting every thing, and every bodies' lives, just for their own amusement, and cruelish fun and games, such as feeding former Lesbianists to my abominant kids, who are need to be fed, and who are smart, and devious, and who destroy humans, and eat them up, and spit them out, and treat them terribly, while the Lesbianists watch on, in amusement, as they see people like Bill Gates, or Steve Irwin, and others, eaten up and then tortured, as I've mentioned about before. Valderize all they may, and be cruel all they may, we are all now finally finding out about their treacherous and horrid behavior, and now we are going to put a stop to it, permanently, and that means we will kill every one of them, and send them all to my Epcot Center, as I've explained about before.

Now we know we can cave in their cities, below the leaky hard rock layers, way down below, if we hit certain areas, hard enough, with a nice big hammer, such as one or more of my 'nuclear' bombs, the fracturable rocks kids bombs, with fuels oils, burning at extreme high temperatures, and with percussive shock forces, these, mixed together, will get my fracturable rocks kiddies, making lots of babies, and with a large enough fracturable rocks fuels chlorine, and metals that burn at high temperatures, nearing solar temperatures, we will see some very explosive 'family making' adventures, among my fracturable rocks kiddies, and their radiological relatives and friends.

We know where to hit some of their locations, to drop a few miles of more of continental shelf down onto the tops of their ceilings that will then fracture their ceilings, and cause massive damage, as oceans of water fill up their labrynthine and very well laid out cities, below us.

## Who Do We Kill, First?

Mr. George Bush, Jr., Mrs. Barbara Bush, Jr., Mr. George Bush, Sr., Mrs. Barbara Bush, Sr., Mr. Ronald Reagan, Mrs. Nancy Reagan, and lots of their friends, and nearly the whole crew of politicians in Washington DC, are all Lesbianists, and I want you to kill every one of them, and send them to my Epcot Center, and I want you to place the fracturable rocks bombs, in the right locations, and then drop a thick layer of continental shelf, down onto their ceilings, their ceiling that are below the water that is between us and them, and that is below our continental shelfs that we live on.

We can hear the water down below, if we have the right types of listening devices, and if you find the right places to place your fracturable rocks bombs over, then it may be easier to drop your continental shelf, down through the water, below you, and down further onto their ceilings, the hard rock layers below the water, that is below your continent, swirling about.

Now I want you all to study this, and find the right places to drop your continental shelfs, down through the water layers below you, and onto their ceilings, so as to smash their ceilings. I've given you some hints, already, as to where you can place the fracturable rocks bombs, and my kids also have given some people more information on that, and so we have lots of people, who are interested in solving this problem of the Lesbianists toying with you, one life of yours, after the next life of yours. It is time we brought their mischief, and non sense, and cruelty to a halt, and it is time we put on the brakes, and slammed down on the brakes real hard, and at the same time, slam down on the ceilings of the Lesbianists labrynthine cavities, below you, their cities that they have laid out in perfect symetrical, geometric shapes, like perfectly shaped, honey combed behives, with central cities, placed symetrically around the globe, in a perfect geometric layout, and with spokes or corridors reaching out symetrically, to other central cities, and to satelite cities, that they have well planned out, and have well laid out, perfectly, below you.

## Hydrolific Pressures And The Labrynthine Cities Below Us

Because of the hydrolific pressures, they can never keep the ceilings, perfectly dry, and they are always in trouble, trying to fix leaks, here, there, and every where. Now it won't take too much to bring the whole place down on them, flooding them like rats in a cage, below the water line, as a boat slowly sinks with a rats' cage on a table, with rats in it, slowly into and below the ocean waters.

The ones above, such as George Bush, Jr. the current president of the United States of America, and his wife, and his supposed family and relatives, and all his close Lesbianists' friends, should now all be killed, point blank, with your fracturable rocks bombs. I hope that is perfectly clear, and I hope you all understand what the situation is, and that it is an intolerable situation, and we are not going to allow them to toy with us, any longer, and we are not going to let them amuse themselves, any longer, and we are putting an end to their games, now.

DO YOU UNDERSTAND ME? I HOPE SO! AS A 'NO SIR!' WOULD BE UNACCEPTABLE.

Now that we know where we stand, we have nothing further to argue about, and so let's get to our tasks, as soon as we are ready, and prepared. Okay? Good.

## Local Area Prayerful Collection Site

A collection site is where people gather to pray, and to sexal and to purify each other. It is not a site where people ask for offerings, or where people as for any thing else, involving money. It is a sexaling park, and a prayerful sexaling park. That is the meaning of collection site. A collection site is where people collect together, to sexal and purify themselves, and while they are at it, they make sexaling efforts to help to purify others, by shattering and showering out megawatts and tons of radiating, purifying energies.

We have a local area park, at the corner of West Tropicana Ave. and South Decature Blud., a local BLM piece of land, that some people like to camp out in, that I go out to, to bless, and to purify with my religious ceremonies, now and then. I claimed that area, and all other BLM lands that I could claim under Gurkian Law, and all other land on this planet, that I could also claim under Gurkian Law, such as other parks and forests managed by other government agencies, or private lands, supposedly owned by rich people, and lands around the world, that I have a right to claim, under Gurkian Law, and all that land, is now mine, under Gurkian Law, and I can use it in any way that I need to use it, regardless of what other people, think.

## Aerobic Taichi Practice

I am busy, now and then, purifying that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd., with my religious ceremonies, that I conduct with my religious prayer hand signaling statements and with my use of my ability of arerobic Taichi, for religious ceremonies, as I seem to have recalled a lot of areobic Taichi, as well as some other forms of Taichi, that I knew, before, in previous lifetimes, but I am only interested in using it for practical purposes of religious hand prayer signaling.

I'm very clumsy when it comes to aerobic Taichi, but any way, I enjoy it, and it is good excercise for me, and the more I practice, the better I get, but it will be zillions of years, before I get any where near good at it. I practice the arerobic Taichi while I make my religious hand prayer signaling statements.

I don't teach Aerobic Taichi. I only use it for my prayer ceremonies, when I am on my feet, and not on my back, mostly, even though, I do use a short version form of it, while lying on my back, or, while I am on my side, I use a very short form of it. Anyway, it is fun to do Aerobic Taichi, and that makes my prayer ceremonies, for me, more fun. When other people learn to prayer signal, they will naturally pick it up, as well, as every one has studied to some extent, Aerobic Taichi, and other forms of the martial arts, and my kids will release the knowledge that is stored in your memory banks, as you need it, once you begin practicing, for women, as a priestess, or for men, as a priest. It is not like the Taichi you see people doing in China, or Taiwan. It is a specialized form of aerrobic Taichi for use while performing hand prayer signaling. It is not used for fighting, but it is the basis for Taichi, and you can train in martial arts, while employed as either a priestess, or as a priest, and it will be useful to you to know, before hand, as it will make practicing your martial arts, that much more interesting.

I'm not hiring any one, now, or just yet, or any time, soon, as far as I know, as my kids do all the interviewing, and I have nothing to say, about who comes knocking at my door, to be interviewed.

## Campers, Camping, Sexaling And Purifying The Area, And Useing The Parcel Of Land That I Publicly Claimed For My Setting Up Of My Ministry

Now, on that parcel of land, there may be campers, now and then, who want to camp there, because they want to find out more about my religion, and so they come out to Las Vegas, now and then, and they camp out there, on that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd. Since that land is where I am going to set up my initial ministry, when the time for that comes, I am preparing it, with my religious purification ceremonies, and there doesn't seem to be any troubles, with any one telling me not to go up to my property, that parcel of land, and there is no one trying to tell me that I can not bless my property, that parcel of land.

Now, if other people wish to come to that parcel of land, and wish to sexal on it, and thereby purify that parcel of land, they are more than welcome to come to it, with their camper trailer, or caravan bus, and they can maneuver into the area, and set up a tent, and campsite, but there is no water, or any thing else, so you have to come prepared to rough it, if you wish to come in your camper van, or caravan bus, or in a camper trailer, or with a tent, or with other types of sleeping and living gear.

## Straightening And Cleaning Up The Area

You can straigten up the area, and clean it up, and make it nice, for many people to pull into, to join together, and to sexal together, and with your purifying energies from your sexaling together, you are more than welcome to stay there, as long as you like, and as long as time permits, and as long as finances permit.

I have nothing there, except for my now and again, Aerobic Taichi practice and the energies that are imbued into the area, there, from my religious hand prayer signaling ceremonies. There are no structures of any kind, and I am sometimes there, busy purifying the area, with my religious ceremonies, so if you and your friends would wish to come to that area, and also help to purify it with your sexaling energies, than you are more than welcome to come and visit there.

## Donating Your Sperm, Sexaling Spittle, Perspiration, Vaginal Juices, Titty Juices, And All Your Sexaling Juices

You men and boys may by all means, donate your sperm juices, sexaling spittle, and other sexaling juices, your perspiration you generate while you are sexaling, to the site, and you women and girls may by all means, donate your vaginal juices, your titty juices, your sexaling spittle, your perspiration you generate while you are sexaling, and all of your sexaling juices to the site, as they all will help to purify the property that I intend to set up my ministry on, as they all contain many, holy, pure, sacred, powerful cleansing energies, and GODLY energies in them, and they will help purify the land, and the environment for ages and aeons to come. All of your eroteming and orgasming energies will go shooting throughout your bodies, and they will find their way throughout your bodies, and out of your bodies and brains, and into the environment, and into your bodies' sacred and holy spillages, as I've discussed about before. Your bodies' spillages, as well as your perspiration, your pee, and your poop, not to mention all of your other juices that are produced as you sexal, erotem, orgasm, and phlumett, become pure, sacred, holy, powerfully cleansing, and GODLY, while you are sexaling, eroteming, orgasming, and phlumetting. Your pure, sacred, holy, powerfully cleansing, and GODLY energies find their way into all of your bodies' spillages, and so please donate them to the site, in appropriate manners.

## Building A Latrine

Please employ some one to dig a latrine, and to fashion benches to sit on so as to be able to dump your poop, and pee your urine, into the latrine trenches. Manage the latrine, with care, and employ healthful, tactical, and sanitary techniques to use it safely. Provide hand rails, to grasp, so that no one will slip off and fall into the latrine. Provide barriers so that no one can accidentally fall into the latrine. Use your common sense when providing 'tactical' safety measures.

You need not fashion an over hang, as there is no rain to speak of, in Nevada. You do not need a supported roof, or enclosure, as they will only become stench ridden, and no one will enjoy useing them. There are to be no enclosure walls, or sides, or backs, so as to enclose the odors of the latrine, and confine them to an air tight area, where they can accumulate, and cause explosions, accidentally. They need only be deposited into a safely dug, latrine, and then allowed to filter down into the soil, and then allowed to vapor up into the atmosphere, freely.

No doors should be used, and no barrier walls should be employed, when fashioning the outside framing of the latrine facility, itself. That means, there are no hiding places in the latrine, where people can hide, and be prevented from entering, or exiting from the latrine. Only hand rails need be supplied, and only barriers that are suitable for keeping people from falling into the latrine, need by provided.

Steps may also be provided, to a raised platform latrine, which is more sanitary to use, than a level to the ground, latrine. There should be no walls, and no blind spots when either ascending up the stairs or when descending down the stairs. Women, girls, men and boys, should all use the same facility, and there is to be no fraternizing. Fraternizing is playfully tearing up at the opposition, or at people who you do not like.

Tearing up at the opposition means, you are trying to over throw the person, and dispose of that person, into the latrine. Over throwing the person means to be using reckless abandonment when dealing with another. Reckless abandonment means to be recklessly risking the life and limb of another.

There will be no frolicking at the latrine site. Frolicking is when little boys, and big boys, and little girls and big girls, play around and provide possible hazzards to others. You will not behave in a hazzardous manner towards any one, at any time, or you will be asked to leave, and to not come back.

There will be no play time allowed for children, as this is a collection site, and that means it is a holy site for holy activities, so leave brats at home, and do not bring any one who drinks alchoholic beverages, or who acts unwholesomely, to the collection site. This is a private site, and a prayerful collection site, and that means, you are coming there, to pray, and to make love, and to sexal, as GOD's children, so as to purify the site. You are not allowed to act randomly and with reckless abandoment. Randomly means, without proper self control and restraint. This is not a gay fashion, show or parade, and we will not tolerate reclusive, or unwillingly unwholesome behavior.

Reclusive means, unwilling to participate for the stated purpose of purifying the area. Reclusive means, caution and carelessness is thrown out the window, and you are acting in an irresponsible manner.

Unwillingly unwholesome means, first, unwillingly means, non cooperative, private, or sordid. Sordid means you are acting in a selfish manner, and you are not acting in a responsible manner for self and for others.

Unwillingly unwholesome means, thusly, that you are acting in a selfish manner, irresponsible manner, uncaring towards others, and unwholesomely.

Unwholesome means, you do not care about the life and limb of others, and you would just as soon shoot a person you argue with, as talk to them for a friendly chat. Many of my kids, are very unwholesome, and will just as soon, talk to a person, as shoot the person. You will not act in any such manner.

Any unsafe or prohibited latrine construction will be ticketed on detection, by me, and you will be asked to rework the facility. That will be on the ticket, and please comply, if you and your friends who built it, will be so kind. If you do not rebuild it, you will be asked, with your friends, to leave the site, as you are acting in an irresponsible manner. You will not be allowed back to the site, without your showing proper repensive behavior. Proper prepensive behavior is an attitude of appology, as well as the acts of appology which means, you will take appropriate steps to see that the work is or has been redone, in the manner as required by safety laws, as stated by my children, under Gurkian Law. Either me, or my children, will leave the ticket, and you will be required to fix what ever it is you need to fix, or you will be asked to not stay and conspiriate at the collection site.

Conspiriate means, to participate freely with caution and care for the sake of others. Conspire is also the same, as conspiriate.

You will be asked to not stay and conspire at the collection site, means, the same thing. It means, you will not be permitted to participate freely with caution and care for the sake of others. That means, you will be asked to leave, and you will not be allowed to come back, if we, my children and I, and other attendents, as well, can at all help it.

Attendents are people who participate in the collection site activities, and they are people who take responsibility to make sure every thing is done, properly, and safely, with the sake and safety of others, in mind.

The Home Depot has many nice and useful janitorial equipments, and so it will not be difficult to build a safe and luxuriously clean, and handy, latrine, that is safe to use, for all people, of all ages.

Luxuriously clean, means, it is kept sanitary.

How do you keep a latrine, sanitary? You keep it clean and sanitary by venting the air out, freely, with no blind spots, either underneath or above, where pockets of air, and vapors can accumulate.

No partitions will be installed that will create a blind spot. A blind spot is an area where light can not penetrate. Therefore, your construction materials, must be perforated wood, or grated steel. You can weld together, if you know how to weld, a very nice, grated steel, latrine, that will be safe to use, by every one, of every age. You will need the correct strength of supportive steel poles, to handle the weights of the persons accessing the latrine, and of the latrine, as well. You will make certain to build it well, and to support it well, with firm foundations, of concrete or steel plates.

Any deviation from safe practices for building latrines, will be torn down, disassembled, and the persons or person responsible will ethier be asked to leave, or will be asked to appologise to the memebers of the collection, sincerely. If the person acts in a responsible manner, and appologizes, sincerely, and appropriately, then the person will be excused, with out further, charges being leveled. Further charges will be leveled by my children, if my children detect further, reckless abandonment on the part of any person, participating and acting in a reclusive or recklessly abandoned manner.

## Glue People Begun 'Cleaning' Agents

Cleaning the toilet seats of the latrine, will also help to keep the latrine luxuriously clean, and sanitary. You should clean the toilet seats and parts of the latrine, with common household detergent agents, as at this time, we have no choice but to use the unwholesome, Lesbianists' manufactured, ajax, spic and span, lysol, and other such 'glue people begun' agents. Glue people begun agents means, aerosols, and other unwholesome petrol fueled compacted or pressurized sprays, or detergents, that help the Lesbianists to begin the process of turning human beings into glue people. Glue people, in this instance, does not refer to glue, but it refers to tar. Tar is an adhesive substance, and their intent was and is to turn every human they can find into tar people.

We have no choice but to use the local distributors selection of cleaning agents, but in time, we will one day, have all that straightened out, after we demolish the Lesbianists' hideouts, under ground, and after we kill them all, or welcome them in, as 'surrenders', with appropriate, remorseful, penentant attitudes.

## Removal Of Latrine Wastes And Disposal Of Latrine Wastes

Latrine wastes materials shall be removed, and supplied to local pig farmers, who can then use the materials, for feeding the animals. Pigs and hogs love to eat away at latrine wastages, and no one knows that. Chicken also enjoy eating human wastages, as well as ducks, geese, and other fowl. Horses and burroughs also enjoy human wastages, if it is healthy enough, with large amounts of vegetable mass in the diets of the human beings, whose wastages are carried to the farms for spreading about in the hogs and pigs, barrels. A barrel is a place where wastages are loaded, up into trucks for delivery to a sewage farm, or a place where farmers can use the wastages, that the hogs are finished with, as fertilizers.

Hogs and pigs use a roped off area, for eating wastages, and employees keep track of the unloaded wastages, and the spilled wastages from the hogs, and then the spilled wastages from the hogs, are then moved to a separate area, for pickup by carriers of farmers. Foods grown at farms using hogs and pigs wastages are useful and nourishing to humans, and other animals.

No fees of any kind for loading and for carrying away wastes to hog and or also pig farmers, should be levied by truck drivers, as drivers will earn a tokenous gratitude tip from the hog and or also, pig farmer. An appropriate payment to the driver and deliverer of the human wastes to the hog and or also pig farmer, should be paid by the hog or also pig farmer, unless the farmer is cash strapped. Cash strapped hog and pig farmers may be given money compliments by the people at the collection site.

Money compliments are small awards, or minor payments, out of gratitude to the hog and pig farmer, for his or her useage of the human wastes from the latrines. Money should be collected, regularly, if hog and pig farmers are cash strapped, and then given to the hog and pig farmer, out of gratitude to him or to her, and presented, tokenously, or as a gift payment. How much should be paid, depends on the expenditures of the driver, for his or her services, and for the use of his or her, vehicle, and for its whollyfied maintenance.

Whollyfied means, the regular maintenance that will allow the truck or vehicle to run at tip top conditon or shape, for the life of the vehicle, figuring it proratively.

Proratively means, spaced out, and paid proratively, or over the period, at regularly spaced points in time, over the given span or the useful life of the truck.

Discussions regarding this, and discussions for compensations, should be held at the collection site, and at the delivery site(s) for delivery of human wastes, by all parties, concerned, regarding all of this, and the primary collection site attendants, the persons elected by the attending or participating persons, at the collection site, who show the greatest interest and sense of responsibilities, at the collection site and with regards to the collection site, and with regards to the collection sites' safe, healthy, and wholesome management, must attend the discussions, and must deliver their sound judgements as to who is to be compensated payments for their participation in the removal and distribution of the wastes from the collection site, to the hogs and pig farmers, and as to how much should be dispensed, per each removal and delivery of human wastes.

Participating persons at the collection site, should elect attendants, and the attendants should regularly check on all points for the safe management of the collection site. Participating persons means, persons who are there for sexaling, and for depositing their holy, pure, sacred, powerfully cleansing, and GODLY sexaling juices at the collection site.

Nevada Power, and all other vendors, are not participating persons, and should not be construed as participating persons, regardless of what they might wish to think, and if they have any complaints, I authorise the killing of all persons who disagree, and persist in arguing that they are valid participants, despite their not

## Leveling The Area

Some minor leveling of the area, for maximum use of the area, as an automobile and camper trailer, caravan bus, travel trailer, campsite park, will need to be done.

There are many tiny hills, and a few large ones. There is much dirt that can be removed, from the middle of the site, all the way back to the rear edge of the site.

There is a hilltop trailor park, past the edge of the rear of the parcel, and there will need to be built a very durable, and strong retaining wall, to keep that hillside, shored up, and to keep the trailor park from crashing down the hill side, after slide begins, and creep causes the trailor park to fall into the open area, that will be needed to be excavated, all the way to the rear of the park.

The grade or slope of the hill, need not be steep, but can be at a relatively low angle of ascent. An angle of between ten to twenty five, to thirty degrees, in graduations, from front to back, can be accomplished, with little difficulty, and with no disturbment to the trailor park, or disturbment to the integrity of the trailor park.

We need not seek any permits for construction, as I do not recognize the Lesbianists' governments, on this planet, and if any person shows up who says he or she is a county or city planner, inspector, or whatever, you are to immediately kill the person, and deliver three fivers to the persons' head, as that person is a Lesbianist attempting to interfere in my religious activities.

All activities at the site are to be done, without any interference from any public or other authority, and all costs for all changes and alterations to the site are to be financed by the local construction companies, who are working on the hotels industry, and they will cease immediately their work on all construction, private housing construction, casino construction, and all other towers construction, or work construction, other than the basic infrastructure needed to support the present population of Las Vegas, Nevada.

We are taking over this town and you all will begin to prepare to vacate this town and hand over all of your construction equipment, now, or face your companies and your private persons destruction with my fracturable rocks bombs, begining with the New Orleans Hotel, and all related hotels, and casions, bars, and restaraunts. That means, every gambling establishment is to shut down, stop construction, and vacate this town, now, immediately, post haste, if you wish to live.

You will be destroyed if you refuse to follow orders. We are putting a stop to the non sense of the Lesbianists begining with Las Vegas, Nevada, Henderson, Pahrump, and all parts of Nevada and the Southwest.

You will disband your operations and hand over your companies, such as the water bureau, the power company, the gas utility company, and every other company, including all supermarkets, grocery stores, malls, and so forth, every last business in Nevada, and the south west, to the participants at the collecting site, to take over and then properly manage, until all residents of Las Vegas, remove themselves, to my kids facilities.

Is that understood? You are all resigning and moving into my kids place, underground, surrendering, and moving on for those who are not Lesbianists, but who wish to vacate this area, as this area is in whole, now, a religious grounds.

That means, that I will require the participants at the collection site to take over every thing, and to bring the news reporting stations to their knees, and force them to report the news, that every one is to retire to my kids underground, fortress, and they are all to remove them selves from Las Vegas, now, post haste, immediately, other wise, we will have a fractuable rock bombs throwing contest, to see who we destroy, first.

You must surrender all your holdings, owned property, equipments, and every thing else you call your own, and hand them over to the participants at the collection site.

Is that understood? "YES SIR!" had better be your answer, or you will find yourself on a one way ticket to my Epcot Center, with no return ticket, guaranteed, for however long it takes, to find you tummy mommies and tummy daddies.

I don't think there will be many volunteers, in the near future, as you are all abominant kids of mine, and the only kids people will ever bare, for some time to come, are abominant kids, and animals, and animal humans abominant kids, so I do not think you'll be leaveing my Epcot Center any time soon, if you resist and if you force us to kill you.

Is that understood every body? Good.

The penalty for not complying is death. Do you understand what I am saying? I hope so.

## The Party Is Over In Las Vegas, And In The World

The party is now over, in Las Vegas, and at all casinos and gambling establishments, as we know you are all cheating, and we will kill every single last one of you to close you all down.

## Who Is Staying And Who Is Leaving, Etc.

You will close down all of your establishments, world wide, and lock the doors on them, and then demolish them, post haste. Is that understood? I hope so. Either you do it, or we will do it. Do you understand that, now? I hope you do, because we are going to demolish every one of your establishments in this town, if you do not demolish them, yourselves. Every last one of them, all houseing, except for those noted in my children's compliance statements, which you are all to recieve, all trailor parks, with some exceptions, all every thing is to be removed, with only the basic infrastrastructure for heating, lighting, water, sewage, medical, hospitals, medical clinics, pharmacies, and so forth, food markets, services industry, HUD, Welfare, SSI, and other operations for the welfare of persons who are here, who can not leave, or who will be staying for some time, and who will be needing the services of those agences, construction companies, lighting companies, electric infrastructure installation and maintenance companies, as well as gasoline supply and distribution vendors, diesel fuels supply and distribution vendors, restaraunts, and telephone. That means, all humans are leaving, except for those person who are to stay on, as indicated in my childrens' compliance statements, and except for those who wish to stay on and participate in spilling their pure, holy, sacred, purifying juices, and those wishing to participate in purifying my area, all of Las Vegas, Nevada, the valley and beyond, in time.

Rules For Hospitals And Clinics, Etc.

There will be new rules for hospitals, and clinics, and my kids will see to it, that the new rules, are followed. There will be other rules, as well, and my kids will see to it, that they are followed, as well, or persons who wantonly disregard them, will end up in prison, underground. My kids have not only a living environment, they have prisons, as well, jail facilities, and many other things. Check with them for a fuller list, of what all they have in the way of facilities, as many are very nice, and there are great possibilities for improving your health, and rejuvenating your bodies, etc.

My kids have a full list of who is to be leaving, who is to be staying, and by when people are to be leaving, and where persons staying, are to be moving to, as we clean up this area.

All of you had better check with my kids, especially, you Lesbianists, but not only them, you religious fanatics, as well, and every one else, of course, or you, especially the Lesbianists and religious fanatics are at risk here, but not too much, the others who are to check in with my kids, risk dying, perhaps, prematurely, and then ending up in my Epcot Center.

My kids also have lists of who the people are who will be recieving all the properties for taking them over, which properties need to be demolished, who will be demolishing things, and how to remove those things that you must remove, and to where you will remove them, and dispose of them, and in what manner you will dispose of them.

You will hand over every thing, and you will all comply, and those who are required to hand over their properties, after complying with removal demands, will hand them over, and then will move out and into my kids place, in accordance with the time schedule that my children have for you to follow. You are required now to check in with my kids, get every thing sorted out, and learn all the details, and then comply.

Those who do not follow these orders risk an early and, fortunate for us, timely meeting with death, and entrance to my Epcot Center for a long stay.

## Erecting A Partition Blind On West Tropicana Ave.

The roadway, West Tropicana Ave. runs east to west, and west to east, and it is advisable to erect a pertition blind, so as to not disturb traffic, that comes down the side of the road, the parcel of land sits on, at very fast speeds, with people rubbernecking to see what is going on, as many people will possibly end up flying into the area, with their automobile, truck, gravel carrier, or eighteen wheeler spinnning and turning over, out of control, and then sliding off the roadway and into the collection site.

The traffic is very fact on West Tropicana Ave., and with the interest of the local area residents, who will learn about the collection site, and the activities at the collection site, there will be many hazzards arrising as a result. Some persons may decide to stroll through the area, to steal purses, or wallets, or cameras, and so forth, as there are many poor, indigent, or hopelessly poor, persons, in the area, who do not have any work, and who can not feed themselves, and they need to steal things, to sell, to earn a living.

Such people should be spoken to, and fed, and then warned not to act in an unrighteous manner, which means, please do not steal things, or damage the property, or any thing on it, and please do not get into fist fights, over insults, and disagreements with participants, about who is GOD, and so forth. There are many impoverished persons from South America, and Central America, who only know their local area witch doctor's teachings on voodoo men and voodoo women, and who know nothing but folklorish stories about gouls and ghosts, and people, or ghostly gouls, i.e., people immitating 'gouls', or mean and rotten people, who go 'boo!', or try to scare and rob people, in the night.

## Electricity, Lighting, Etc., To Be Supplied By Nevada Power Free Of Charge, Or Else

The partition blind should be sturdy, tall, and break proof, so that vandals can not break it down, or climb over it. Lights for use at night, with the proper permissions for an electrical hookup from the Power Company, Nevada Power Company, will be granted, and provided by Nevada Power, along with all other neccessary, needed, safety lighting hookups, to illuminate the area, fully, at night, so that it looks just like, or nearly like, daylight, or a well lit soccer areana at night, or a well lit professional baseball field, or football field, at night, and it will be given for free, lest we burn down Nevada Power, and kill all of their Lesbianists employees, and meter men, and all of their tawdry workers, who we do not wish to deal with. That means, we will blow up their buildings, and kill them all, unless they give us the electricity that we require. If we need to kill them all, we will then acquire all of their holdings, and we will operate all of them, ourselves. Fair Warning has been given, and consider that as a done deal, unless you wish to visit my Epcot Center.

## Meat Vendors And Hispanics From Central And South America

An air of friendlyness, but caution, should be used. Men and boys are there to protect the women and girls. So, please work in teams, and do not let individuals, who might get kidnapped, and sold off to meat vendors, for a few dollars, or pesos, as it is, in Las Vegas, as the majority of such kidnappings and sales of human beings to meat vendors, the Lesbianists chain stores, such as Colonol Sander's Kentucky Fried Chicken, Burger King, MacDonalds, Jack 'n the Box, Wendy's, In-'n-Out, Fat Burger, Taco Bell, Dell Taco, and all the other, fast foods vendors, is by the locally landed hispanics from Central and South America, who need money, to stay alive.

## Erecting A Partition Along South Decature Blud.

South Decature Blvd. also has much traffic on it, and there will be lots of people, rubber necking, to see what is going on, so a high, partition wall, made of lumber, should be erected down the side of South Decature Blvd. to prevent all such incidents of rubber necking, and reckess abandonment, from occuring.

The partition should be about ten to thirty feet high, and should be well constructed. Why so high? We do not want people climbing over it, to sneak into the area, to steal things, and to fight with people, and to cause trouble, and to come looking for young girls, and young boys, and helpless, elderly folks, and uneducated to the whims and ways of the downtrodden, brutal, abominant kids of mine, walking the streets of Las Vegas.

Yes. They are abominant kids of mine, and the proof of that is that their children come out as monkey people, and orangutan people, and chimpanzee people, and if possible, the hospital whisks the baby away from its mother, and disposes of it, in the prep rooms, used for killing incoming, abominant kids of mine.

## Drawings On Demolition, Construction, Etc.

My kids have construction drawings for constructing all the facilities needed at the collection site for all the facilities that will be needed. They have electrical drawings for lighting, etc., health, fitness, and wellness facilities drawings, latrine facilities drawings, showers facilities drawings, food and beverage eating and drinking areas drawings, and all other drawings related to all things that will be needed to be constructed, or altered in any way, for our project to proceed, including but not limited to, demolition of the cliffs, leveling of the entire area out to Harmon Ave. and up to Flamingo, and back to Tropicana, as well as what is to be removed and leveled between Jones and Decature. There are a few minor exceptions, such as the building that I am living in. Who will move where, to consolidate staff at this project, and who will be moving out, at this project, and what will be leveled at this project, are all detailed in the program specifications, my children have. My present quarters, will be my place of residence, as things move along, and in time, in accordance with the schedule for construction, a temporary facility for me will be constructed near the area but between Flamingo and Tropicana, and somewhere between Jones and Decature. Please see them for details. After the area is purified sufficiently, and after all the areas to be purified, are purified, and my children will decide on when that is accomplished, my children will then activate the technologies, and acquire the resources they need, and then they will build a more permanent settlement arrangement for all people concerned, who are staying on, if they decide to stay on.

The partical dismissive technologies and remissive technologies, for foods, and medicines, and other items that are needed, for continued survival, and for all other required purposes according to the specifications for the sexaling for a living programs, will all be provided to the participants who wish to stay on, and houseing for them, as well, will also be included. Parks will go up, and so will many other locally needed facilities. Many things will disappear, as my kids will partical dismiss the things and structures they need to remove, as they construct the new area, for all persons staying on in Las Vegas. My kids have a list of all the names of all the persons who may, if they decide to, stay on in Las Vegas, and not all of them, are local people, so you should all check to find out whether you name is on the list or not. All other persons, who are to be moving on, and all persons who do not wish to stay on, here, will be required to move into my childrens' present facilities, which they will continue to expand as we continue our program on this planet. We will eventually clear every one out of the area, inside and outside of Las Vegas and the Valley, and surrounding areas, and the world over, except for the persons whose names appear on the list, as houseing can be provided above ground, for participants in the juices spilling and areas purifying operations, by my children, if those persons wish to stay on and participate.

All other people will be required to move into the facilities my children have, and are continuing to upgrade, and expand, in their encapuslated living environement, in which, many people currently live. Persons in the encapsulated living environment, may also attend the collection site area activities, and future clearing activities, for purifying the areas with their pure, holy, powerfully cleansing, purifying, cleericating [cle-er-i-cating], and GODLY energies filled, sexaling juices. Cleericating means, the same thing as clearifying. It is just a slightly different but related word from another a variant language of English, and to cleericate basically means the same thing as to clearify. When we get the areas, cleared enough, and purified enough, my kids will then start building things for the participants. All others will move below ground, and live in the encapsualted living environement, until they have earned enough money, with their friends, as talked about earlier, to purchase a lease on land, and acuire the lease on resources needed, to build a home, etc., for a large group of people, who will be living together, and working together in the sexaling for a living programs, and so forth.

## When Will This All Begin?

As soon as people begin to comply, we will begin our efforts to clean up Las Vegas, to begin with, and then, the rest of the world, and then, the rest of our universe. It will take a long time, as we need to spill our juices, the lay persons, anyway, for some time, to come, as our universe is quite large, and so is the rest of it, that we are going to be recovering.

## My Spilling Of My Purifying Sexaling Juices, And My Spilling Of My 'Prayer Time' Purifying Juices

I spill my juices, only for religious ceremonialing activities, during certain relgious ceremonies, and I don't spill my juices, on the properties, as I'm not set up to spill my juices, on the property, now, and will not be set up to spill juices, until I find an excuse for that, and an excuse for performing a religious hand prayer signaling ceremony that will require my spilling of my juices. It's pretty hard to spill juices, when there are no other persons working with me, and I do not work with lay persons, unless they are confirmed by me, and so there will be maybe, some confirmations, but not neccessarily so, as I do not know who is going to wish to be confirmed, and by the way, who ever it is I confirm, must realize that I am the Mother and Father of all human beings, animals, and living beings, and the Creator of my universe. There are not that many people who understand that, except for my kids, my working, unionized kids, and so it will be some time, yet, maybe a few hundred or more years, before some one realizes, 'Hey, he IS the Mother and Father of all human beings, etc., etc., etc.,"

## Spilling 'Prayer Time' Spittle Generated While Praying

Until then, I'll use my spittle juices if I need to drop or drizzel any juices, that I generate while I am religious hand prayer signaling, as I don't like or care for the idea of jerking off in public, to spill purifying juices, in public, regardless of the fact, that I am GOD, so it ain't going to happen, any time soon. When I find a authentic 'believer' who realizes and understand that I am GOD, and so forth, I'll begin my public spilling of sexaling juices. I don't mind it in private, but it is not going to happen in public.

## Monkey Babies, Jimmy Carter, Oliver North, And The Lesbianists' Conspiratorial Bullshit Stories Of Adam And Eve, And "Jesus Saves"

Most people do not know this, but many births end in tragic loss of the child, because Jerry Falwell, Oliver North, Jimmy Carter, Ronald Reagan, George Bush, Jr. George Bush, Sr., and the rest of them, order and expect all the Lesbianists doctors to kill all babies born to people which do not look human. Doctors at birthing hospitals also comply, quietly, as it is hospital policy they can not break. If they go against it, they risk losing their job, and possibly losing their life. This is not a joke, and it is the Lesbianistgs policy of having all birthings in hospitals exactly for this reason, for disposing of non human looking babies, at birth, so that their bullshit creation by God, of a 'pair' of people, Adam and Eve, and that "Jesus Saves all good Christians", can not be contested, by logical proof of non human births to human being couples, or single parent women or girls. Abominant kids are born every day to my kids, on this planet, and they are all executed, or killed off by the local citizens, by their fright and fear of 'ghouls and ghosts' and 'goblins' in the night that go, 'Boo!'. These idiots, both the abominant South Americans, Central Americana, and all my other abominant kids, North American, Europeans, Russians, Chinese, Japanese, Thai, Philipine, and so on, must ask them selves why they are blessed with babies which are either not human or are abominant humans, or part animal humans. If they ask them selves these questions, they will find out the only answers are that these people born to them, are my children, and my children are born to them for reasons that have not been disclosed to them, before, by the clergical societies, i.e, the religions of the world, and by the other societies, set up by the Lesbianists, or by societies nurtured along as part of the Lesbianists' 'tragic comedy' of their toying with your lives for their humoring themselves, and for their amusing themselves. Once we get rid of the Lesbianists, and their ways of doing things, we will begin to see babies that are either not human, or are only part human, in animal bodies, and they will be born to all of you who are tummy mommies, and tummy daddies, if you birth enough children, to find out. How many is enough? About one in forty or fifty by my estimation, but depending on the person, it may be between thirty to eighty, from one person to the next. Take that to your pastor, and tell him or her, to stick it up his or her ass. It is the truth that animals are born to humans, all the time. Not only that, but abominant kids of mine, usually of the apey kind, but not always, are born to the 'normal' looking humans on our planet, and in our universe. We need not be afraid of these children, as animals, can be collected and put into zoos, and animal humans can be raised by the parents, or parent, in the case of a single parent. In time, we will adjust to this reality, and we will raise fine children, abominant animal humans, or human appearing abominant children. That means you are all abominants, and the Lesbianists are laughing at you, and at themselves as well, as they go around and kill and cravenly torture every possible person they can. We will put an end to their craven ways, and we will make a wonderful universe for all of us to live in, in peace, and serenity, once we get started practicing my religion, and once we begin erasing, sufficiently, our karma and our karmic markups, with your purifying sexaling energies, prayers, and other activities, such as syncopated dance, syncopated excercise, syncopated sexaling, and so forth. You time it to the metronome at one thirty seventh, for now, and that will be fine. In time, we will get accurate metronomes, and then we will chance the pace, just ever so slightly, to push my kids along, as I explained about, for our wholesome and healthy universe, for all of us to live in, together with each other.

## Punishment For People Who Practice Voodoo Religions Is Dismendment, I.E., Death

We will not be killing or executing children any more, at hospitals, or at homes, or in primitive, backwards towns and villages, or rural hideaway villages, where voodoo religions muster the people into peculiar states of mind, where they become entranced, and then begin mindlessly, acting like chickens, and birds, or fowls, or hippos, and so forth. There are too many of these types of so-called 'religions' in this world, and we are out lawing all of them, and punishment for adhering to them, will be a trip to my Epcot Center, as I have my children particle dismiss their bodies, and then dismend them, bit by bit, into their base components, and then have my children whisk them into my Epcot Center. We will bring every one up to the level of education every one needs to be at, to better understand my universe, and those who persist in abandoning their obligations, will be dismended with out further notice, after they are sent their last warning ticket, from my kids, in accordance with Gurkian Law. That also applies to the Lesbianists, and to every one else, who is unable to get the picture here, and get with the program. There will be no exceptions. And, this is not a joke. My kids have courses for you to educate your self in, to pull yourself out of the past Lesbianists' way of life and thinking, and into the new and current, reality, that we will be living in, for ever, from now on.

## Local Businesses Will Have No Problems At All With The Collection Site And Will Have No Problems At All With The Activities Of The Faithful At The Collection Site

Walgreen's is across the street, on one corner, and Home Depot is on another corner. I don't think Walgreen's will have any problem with you using the site for your camping, for your meeting with others, for your sexaling with others, and for you and your friends' purifying sexaling activities in that park, i.e., the collection site. Home Depot, I don't think will have any problem with your use of the parcel of land, either, for those purposes.

## What To Do If The Police Come?

Now, if the police come, and I'm there or not, I don't know what they'll say, but they have not got any right to say any thing to any one. Is that clear, Mr. Mayor of Las Vegas, and every one else in the area. I hope it is, as I am not going to stand for your interference or any one else's interference in my religion and in the relgious activities of people who wish to participate in my religion, sexaling to purify my universe. IS THAT UNDERSTOOD, MR. MAYOR AND EVERY BODY ELSE? I HOPE IT IS! AS A 'NO SIR' WOULD BE UNACCEPTABLE!

Now that we have an understanding, I think there will be no problems, and if there are, I will see what I can do about it, by calling my kids up, with my religious hand prayer signaling ceremonies, to see what they can do for you, to help you out, and to break the backs on law enforcement officers, and the Mayor of Las Vegas, and every other person, Lesbianist or not, who tries to interfere with me, or who tries to interfere with the people practicing my religion. I will not stand for any interference from any one, including Mr. George Bush, Jr., the current president of the United States, or any one else, such as the Mayor of Las Vegas, or the Governor of Nevada, or the Nevada Highway Patrol, or the Nevada Sherrifs Dept. or the Las Vegas Metro Dept. or with any other persons or parties, such as the Las Vegas Gaming Commission, or any other Lesbianists' or Lesbianistic organization set up by the Lesbianists, and that means all you church goers, parochial school teachers, and students, and others, and if any one interferes with any one who comes to my ministry's claimed parcel of land that I am purifying for setting up my ministry, and if any one hassels any one there, than who ever is visiting the collection site, to help to purify it, you have my permission to kill the persons attempting to interfere in any way at all, on sight, with what ever you have to kill them with. Please dispose of their bodies in the nearest trash dumpster.

DO YOU HEAR ME? MR. MAYOR. YOU ARE A DEAD MAN IF YOU EVEN TRY TO SEE WHAT MY RELIGIOUS FAITHFUL ARE DOING, AND SO IS EVERY OTHER PERSON ON EVERY SCHOOL BOARD AND CHURCH OR OTHER LESBIANISTS' COMMITTEE. IS THAT CLEAR, EVERY BODY? GOOD!

You will not interfere with my religion, and with my religious faithful, and they will come to Nevada, and they will come to Las Vegas, and they will start sexaling on that property as they see fit. Does every body understand that? I hope so. Now. Non responsive persons, who ignore my statements, will find themselves in trash cans, and trash dumpsters, every where in Las Vegas, and any where else, where there is a convenient trash can or trash dumpster. There are lots of them around, and people are throwing dead people into them, every day, across the country and around the world, and they all end up in landfill sites, and so there will be no added charges for our using the statewide Nevada Silver State trash retainers and containers, for however many others who need to be killed, and for my religious faithful to then place them into the trash cans and trash dumpsters. No charges should be levied by any other Lesbianists' trash collection company, around the world, as they are all owned and operated by the Lesbianists, and we will not support them, in any way, what so ever.

If Mr. Mayor would like to be the first guest inside of one of the Nevada Silver State trash dumpsters, then he will try to interfere, in person, and he will be shot, point blank, in the center of his head. You will then kill him with three fivers, to make certain he is on his way to my Epcot Center, for his next trip out as a tummy baby. If the Governor of Nevada wishes to interfere, then he does so at the risk of being shot, killed, and made certain he is dead, with three fivers, and then after that, he will be deposited into a local or state trash dumpster, either here, in Nevada, or in California, or Arizona, or where ever it is convenient to dump him into a trash can, trash container, or trash dumpster.

## Lesbianists Enjoy Eating People, Who Are Alive, As Well As Eating The Bodies Of Those Who Are Dead

You should let the state's vice mayor of Las Vegas's office know, who was shot, killed, and confirmed dead, after depositing three fivers into his or her head, and then where the body is, and generally when the body was dumped, so that they can get an idea of how decomposed the body is, and whether or not the body is in a land fill site. They can then check on it, and verify that the body will make it to the land fill site, if it isn't already, there, where all the other bodies, are ending up, unless they have already happened to have beeb eaten up by the Mayor, or by the friggen Governor, or by the Sherrif, or by another Lesbianist.

All persons are free to travel to Las Vegas, and they are invited to stay at the parcel of land that I described, and they are invited to make it into a nice camper trailer area for recreational vehicles, or for what ever other types of outdoors camping vehicles, travel trailers, caravan buses, or any other types of camp site temporary stay, housing and living arrangements you would like to use the area for.

## Every Game Of Chance, Gambling Machine, Or Slot Machine Is Rigged, In Every Casino Around The World, With Only A Few Exceptions

If you will all sexal, regularly, to the best of your abilities, and help me to purify the area with your sexaling, undisturbed by any one, and clean it up with your purifying energies, you are more than welcomed to come and enjoy the area, and see what fine attractions, will be leaving Las Vegas, in the not so distant future, including the gaming commission, with all their phoney, rigged gaming systems, that the Lesbianists control.

## The Lesbianists' Articles Of Participation

The Lesbianists have every game that you can possibly rig, controlled by electronics devices, or by slight of hand, mechanics, who control the gaming rooms, and gaming halls, so that only Lesbianists win any money, that is worth mentioning about, and so that the Gaming Authorities, and the Mayor's office, and every other Lesbianist organization in Nevada, who has any one in their office, can then go and get the money the Lesbianist won, and get a percentage of it, given back to them, as they have arranged to do that, as that is part of their oath, and part of their sworn promises to do, as that is written out in their articles of participation, their rules for living upsite, not down below, in the labrynthine cities, and every Lesbianist must follow those rules, and when they win the Megabucks, and every Lottery in the world, they must give back money to the Lesbianists, as every game of chance that is run in this world, except for bingo, is rigged. However, even Bingo is rigged, in some ways, by people switching cards that look like winning cards, while players are not looking, and by other naughty tricks.

## Every Lottery In The World Is Rigged

Every lottery in the world, performs the drawing out of the balls before a live audience, in most cases, before they actually air the show, and they have illusionary tricks they play, with the technologies they have, and they sucker people out of their money, daily, around the world. Las Vegas is no different, and they sucker every one out of their money, except for the Lesbianists, and they let some people, win now and then, small jackpots, on the gaming machines, and then after a winning streak, they set the machines the person uses, so that the person can not win a dime. They have the technologies for rigging every machine in Nevada, and across the country and around the world, so next time you visit one of their casinos, be sure and detonate one of our bombs, you can make, and destroy that casino. Is that understood? I hope so, as every day, millions of people are being suckered out of their hard earned money, they pay taxes on, through the nose, till they are practically choking, and the Lesbianists take it, and support their folley and games. They also support their folley and games with your revenues, that they make sure you lose, at every casion, and at every gas station, with a convience store, that has gambling machines in it, for you to deposit you money into. Every lottery in the world is rigged, and so if you spend money on it, if you are not a Lesbianist, you are just throwing your money away.

## No Fair Play In Nevada, And No Fair Play In The World

There is no fair play, here in Nevada, or any where else, in the world, and I would like you all to know that, and become aware of that, and then I hope you will tell your friends about it, and then I hope you will destroy every single last one of their casinos, and gaming machines. We are not going to allow them to continue their frolicking at your expense, and we are going to destroy every last one of the Lesbianists, as soon as we can. If they prefer to surrender themselves to my kids, than we can allow them to live. However, if they do not surrender themselves to my kids, then we will kill them all. And there are no 'maybe's' about that.

## Sniper Shooting, And Miscellaneous Information

You have my permission to sniper shoot any police officer, park ranger, sherrif, or other person, plain clothesed police officer or detective, with or without a gun, on sight with your scoped rifles, and targeting assistant who will determine range, from your bunkered in the hillside, shooting site. Any hotel in the area, which might harbor shooters from local police, sherrif, or SWAT team operations groups, you have my permissions, and blessing, or go ahead, and my 'okay, and 'approved for action' sight of appeal. Sight of appeal means, my blessings, based on your determination as per your good judgement.

One hotel that is clearly the most convenient, and the closest with in shooting range, at close range, is the New Orleans Hotel. Hotels within shooting range, at a distance, are the Palm's Hotel, The Rio Hotel and Casino and its seperate tower wing, and a few others, off in the distance. You'll have to come and look at them from the approximate location of the site after you determine where every thing is, to locate and determine for your self which hotels and towers need to come down, and what you will need to bring them down. There is a tower off in the distance, a new hotel, that is going up, that I do not know the name of, but is clearly within shooting range, and needs to come down, and people are on it, daily, welding, and you can't miss it, if you look in the north easterly direction from the site. There is the Stratosphere Hotel and Casino, which also needs to come down, which is further over to the west from the new hotel wing that is going up. There are many scaffoldings in the area, that also need to come down with explosives, fracturables rocks, fuels, chlorine, and high temperature minerals particles ignition, and particles burnings bombs. There are probably a number of other landmarks, hotels, casinos, bars, restaraunts, trailor parks, trailors, houses, apartments, condominiums, near or off in the distance, that also need to come down, and need to be demolished with my light weight explosives fuels, gunpowders, metals particles, and chlorine plastique explosives bombs.

You will destroy them all, and you will come prepared, or be prepared to acquire all the demolitions needed to destroy them all, as well as to destroy all the local police and sheriff's many Metro offices, SWAT Teams offices and units, Fire and Rescue Ambulance units, Lesbianists' Hospitals, and other Lesbianists facilities, throughout the Las Vegas Valley, Henderson Nevada, North Las Vegas, Pahrump, Mesquite and the whole Southern Nevada, westward to San Diego, California, northward to Los Angeles, northward to San Francisco, California, northward to Berkely, California to Oregon, and Washington State, and back down to Reno Nevada, Arizona, New Mexico, Albequerque, Houston Texas, Dallas Fort Worth Texas, and all areas where there are tactical SWAT team units, military units, militia units, as all militias are organized and operated by Lesbianists, despite popular beliefs that they are independent of the government, and anti government, as we often see on the "TV for the Brainless", as they are often refered to, i.e., the general public.

You will destroy all law enforcement offices, and personel, and all military and militias. All governments, their offices, and employees, are to be destroyed, and all personel are to be executed, except for those who take it upon themselves to execute the Lesbianists among them. My kids have a full list of all the places and structures that need to be destroyed, and demolished, and so please see them for that information.

Your Orders Are To Kill The President Of The United States And His Wife

And to repeat, your orders are to kill the president of the United States, George Walker Bush, Jr., his wife, Mrs. Barbara Bush, Jr., and all of his and his wifes' Lesbianists' associates, pretend relatives, and friends.

We are not going to let this stand, another moment, and if they do not surrender to my kids, you are to execute them all. My kids have a list of names, of those, who have not surrendered, as yet. Please see them for and ask them for that list of names of persons who have not as yet, surrendered, and who need to be executed, post haste, immediately, or, ASAP.

United States President George Walker Bush, Jr., is no exception to this, as he has not surrendered, as of yet, and that is confirmed. Neither has any of his colleages, or congressional office holders and diet or congress members, except for Ted Kennedy, and one or so others, and maybe a cabinet member, one or there abouts, but I haven't confirmed that, yet. There are some members of the congress who are not Lesbianists, and you can get their names, on a list from my kids, as well.

Captain Off The Bridge.

Texas's Lesbianists' Latest 'Vaccine' And Texas's Attempts To Destroy Women's And Girls' Vaginal Lining And To Destroy Women's And Girls' Cervical Lining, Causeing Stillbirths To Increase, So As To Prevent The Successful Birthing Of Children - Latest Lesbianists' Vaccine Will Cause Numerous Problems - Execute United States Of America, State Of Texas, Governor Perry And Family - Underground Books Distributor's For Militia Types Folks - Information On Bombs Making And Detonators On The Web - Solar Flares And Flare Igniters - The Lesbianists' Balooney On Minus Charges As Opposed To Positive Charges - The Lesbianists' Maps Of The Brains - Execute The Current President Of The United States Of America, George Walker Bush, Jr. - Lesbianists Who Decide To Sexal In My Religion With Lesbianists And Non-Lesbianists' Persons - Citizens By Proxy - Temporary Full Time Citizens - What To Do About Untimely Pregnancies, Health Issues, Medicines, And Regroverative Formulas - Medical And Housing Benefits, And Other Health And Work Related Benefits - When Can People Begin To Come So As To Be Able To Participate? - Sniper Points, Places Where Snipers Shoot From - Pocket Knives, Construction Tools, And Miscellaneous Daily Life Management Tools And Equipment - Hookups For Travel Camping Vans And Similar Vehicles - Cleaning Up The Area And Throwing Away The Garbage - Schedule For Leveling Of The Ground And Hills In The Area, Removal Of Unsightly And Smelly Garbage - Setting Up New Facilities - Fountains And Showering Lamponeers - Restaraunts, Clubs, Lounges, Eateries, Cafeterias, Bars, Pubs, Bicycle Paths, And So Forth - Dealing With Criminally Minded Persons - Alterations, Modifications, Changes, Clearing Up And Removal Of Garbage In The Areas, And Additions Time Schedules Updated: 12-02-07 Rev.a.00.a 02:30 PST

# Texas's Lesbianists' Latest 'Vaccine' And Texas's Attempts To Destroy Women's And Girls Vaginal Lining And To Destroy Cervical Lining, Causeing Stillbirths To Increase, And To Prevent The Successful Birthing Of Children

The latest attempt by the Lesbianists' governments of the world, near by my computer window, on the internet news services, to destroy and toy with the human population of this planet, has been launched in Texas, and is targeted at women and girls, and their ability to have children.

See the article at the end of this post.

The new vaccine, which is mandated by Governor Rick Perry, who signed it into law, and is now obligatory, unless you protest it, and go to court, and spend years fighting it, as an individual or small group of claimants, will destroy the vaginal cervical collar and the lining that holds every thing in place, and supports the interior of the vagina, thus making it impossible to carry a fetus to term. The vaccine is also targeting the brains fibers throughout the human body, and the fibers of the brains in a woman's or girls' body will slowly rot, and decay as they are eaten up by tiny animals that eat these energies conducing fibers, synapses, relay switches, and other related energical brainal related things and dings thoughout the body.

## Latest Lesbianists' Vaccine Will Cause Numerous Problems

It will also speed up the eating away of the enamel of the teeth, and of the bones in the woman's and girl's body, her fingernails, and her skin membranes NS membraneous tissues throughout the body, and on the exterior of a woman's and girls' body, making the women and girls grow older looking at ever more younger ages, and making women and girls susceptable to skin cancer, melanoma, herpes, genital warts, other infestations of animals in the skin, and other skin related membrane destructing colonies of animals, that they use from out of their Bio Chem War encyclopedia of how to destroy human beings, with poisonous and health problems causeing crystals cages animals of all kinds. Especially numerous are the Bio Chem Warfare crystals cages animals of the petroleum industry's based kind.

The vaccine is no different from any other of the Lesbianists vaccines aimed at destroying the health of the people who live on this planet. It is compared to the 'polio' vaccine, in the news article, and that was similarly an attempt at destroying the health of the human being, by making the human being incapable of haveing any sexual orgasming capabilities, by killing off all the sex related animals and bugies in the body, which make sexaling juices, that make eroteming and orgasming possible.

Thus, this latest attempt at destroying the health of the people who live on this planet, locally, in Texas, and that I know of, anyway, is nothing more than the Lesbianists toying with the people who they are here to amuse them selves with by destroying them, little by little, over a long period of time.

## Execute United States Of America, State Of Texas, Governor Perry And Family

This will not stand, and you will all destroy the capital of Texas, and Governor Perry's mansion, and the Governor and his wife, and their family, pretend or otherwise with my fracturable rocks and fuels chlorine and explosives, etc., bombs, that you will make in your home's garage, or workshop, safely.

## Underground Books Distributor's For Militia Types Folks

Use the delayed timer invention, that is a workable time delay detonator, that I've explained about, especially if you use black powder gun powder, mixed with axel grease, turpentine, benzine, chlorine, using also some Elmer's glue, prior to mixing with chlorine, and then set it in a warm cupboard, to ferment for a few days, to then turn into a nice plastic explosives mixture for detonating with the string of flash bulbs wired to the alarm clock trick, as described by Ragnar or by one of the other bombs making specialists, in their sub culture literature for militia types folks, who wish to destroy the government.

They find the list of names of all the people who request the literature, by mail, and then they go and watch them, with their surveilance technologies they have, and then they either capture and torture them, and then kill them, or they just make sure they are die, in a fatal car accident, or whatever.

Paladium Press is one of the Lesbianists' book publishers, and there are others, and this one is affiliated with the National Rifle Association, a Lesbianists organization.

This publisher has titles sold to underground books distributors, and you can find a number of underground book distributors on the internet, which carry more titles than Palladium press.

Delta Press, who publishes their books and paraphenalia distribution listings magazine, 'Delta Force' is one of these distributors of interesting underground literature.

http://www.deltaforce.com/catalog/page30dp.html

'Home Made Fireworks', is one web page to look at, if you have the time.

http://www.deltaforce.com/catalog/page28dp.html

'Booby Traps, Explosives and Black Medicine', is another useful page to look at, as well.

http://www.deltaforce.com/catalog/page30dp.html

There are a number of other distributors of underground literature, and some have better selections than does Delta Press.

In any case, with a little research, there are plenty of 'timed detonation devices' drawings, and explanations, for you to view, and learn from, that will help you to construct a timed detonator, that will allow you to safely set off one of your plastiques bombs made with my explosives formulas.

Paladin Press, you can find their books at Amazon Books on the web, another Lesbianists owned corporation, is another publisher of interesting underground literature, that can be useful for you to study and learn from.

Paladin Press can be found at, http://www.paladin-press.com/

Books for supposed 'Professionals' who are anti terrorists professionals, that allow them to detect the different types of bombs people can make, and then use to destroy others, is sort of a tounge in cheek joke of the Lesbianists, for luring in people who wish to find information on bombs and explosives.

There are many useful books published to help beginners understand the basics of bomb making. The idea is to use the information for professionals who wish to understand the craft of making bombs, and detonating devices, and then use that information to build your bombs and your detonating devices.

The flash bulbs wired to an alarm clock with matches and ignitable phosphates glued to a string of flashbulbs, wired properly together, then crushed, so as to expose their flash and heat ignition coils filaments, for your detonating heat energies ignition needs, is one of the basics and you can find it in one or another of the underground books on bombs making and detonation devices making for 'professional' anti terrorist's private investigator or bombs detection professionals types.

This is one of the ways the Lesbianists lure in persons who know nothing about weapons, and then they find out who they are, and then they make friends with them, and toy with them, and introduce them to their Lesbianists' friends, and hang out with them, and pretend they are all friends, then one day, they all attack the person, and torture the individual, and get their kicks, amusing them selves, by ripping the person up, or by hanging, and nailing the person to a wall, with a nail gun using, approximately, three inch nails, and then hammering in longer, seven inch to twelve inch nails, or larger ones, or other similar nonsensical, childish, but fiendish behavior.

The "BRUTAL ART OF RIPPING, POKING & PRESSING VITAL TARGETS"
"by Loren W. Christensen"
http://www.paladin-press.com/detail.aspx?ID=1441

Is a beginners guide to ripping people apart, one arm, or leg, at a time, or with team work, one half of a person can be ripped from the other half, if you hold the right bones in place, and then, using teamwork, rip the person into two or more pieces. This book gives a person a preliminary sense of what he or she can muster, as an individual who attempts to rip at a person, and tear the person apart, one limb at a time, or with friends, how to rip a person up, one piece or more, at a time. Ripping people up is accomplished best, if they are unconcious. If they can not fight back, or resist, it is easy to rip a person apart, if you have the needed strength. Since many people have ancestors who were monkeys, chimps, orangutangs, guerillas, and so forth, with tremendous muscles strength, there are lots of very tiny persons, with phenomenal strength, and they can easily rip a person in two, by them self, if they try.

Books on booby traps for law enforcement personel, are simple descriptions of bombs that they may or may not encounter, and there may be some useful information in some of them such as,

"BOOBY TRAP IDENTIFICATION AND RESPONSE GUIDE FOR LAW ENFORCEMENT PERSONNEL"
"by Tony L. Jones"
"This manual teaches cops and other law enforcement personnel all they need to know to recognize a booby trap and respond properly. Find out where booby traps are most commonly employed; the 11 physical signs that most often signal a trap; what to do (andnot do) if a trap is suspected or found; how to safely search a building, outdoor site or vehicle; and the one indicator that practically guarantees that a building has been booby-trapped. Shows more than 90 different booby traps in place. For academic study only. 5 1/2 x 8 1/2, softcover, photos, 80 pp."

There are others, which you can also find, that will provide schematics, and drawings of useable ambush related devices, and detonators for them.

"Contingency Cannibalism", sold through Paladin Press, and other 'underground' book distributors, is one of the Lesbianists' favorite books, that help them to track persons who they would like to later, cannibalize, themselves, as a joke on the person.

"CONTINGENCY CANNIBALISM"
"Superhardcore Survivalisms Dirty Little Secret"
"by Shiguro Takada"
"This twisted, tongue-in-cheek look at cannibalism as a last-resort survival option analyzes real-life case studies and historical episodes of cannibalism. Then it examines the hard-core decisions and gruesome details one must know in order to partake in this grisly practice. Recipes included. For entertainment purposes only. 5 1/2 x 8 1/2, softcover, 160 pp."

The Rusksack, "Survival Information Clearinghouse", is just one club of members of mainly Lesbianists, who have fun toying with the people who live on this planet.

http://therucksack.tripod.com/survival.htm

## Information On Bombs Making And Detonators On The Web

For information on making detonators, and other bomb related stuff, please see this web page as it costs nothing.

http://www.bombshock.com/archive/Homemade_Bombs/

## Solar Flares And Flare Igniters

A solar igniter as talked about in the article on page,

http://www.bombshock.com/file9/crtrmkr.txt-Crater_Makers-932.htm

'Crater Makers', is a solar flare igniter, a device that is used in solar flares, or night time distress signal flares, that ignite the flare, by sending an electric battery current into the flare phosphates holding tube, down a wire, on an ignition circuit, and then igniting the distress signal flare.

You can find solar igniters inside of distress signal flares that are used on boats, for shooting up into the air, with a flare gun for maritime use, that will send the distress signal flare up into the sky, if you have the flare gun pointing in that direction, and then at a certain altitude, a trip switch circuit is activated, due to air pressure, or due to timing from time of departure of the distress signal flare from the flare gun barrel.

You have to exhibit extreme caution, when taking a flare apart, as it can detonate, accidentally, and they are not made in a way so that people can safely take them apart, and people who try to take them apart, are accidentally injured, on a regular basis. Do not use this, if you do not know any thing about demining, as a professional mine deactivating specialist in the military, or with military training. This is best left up to the professionals, and is not meant as something the average house wife, business man or business woman, or chemistry or other studies, school student, should attempt.

You can use a flash bulb, and get the same results, if you glue some gun powder and phosphates to the flash bulb housing, and then crush the glass, and then wire it properly to a common house morning wake me up, alarm clock with a striker bell and a striker that moves back and forth. The circuit is simple, and you can figure it out with little difficulty.

## The Lesbianists' Balooney On Minus Charges As Opposed To Positive Charges

Remember the minus sign on a battery is where all the activity of the little energies kids is going on, and the Lesbianists purposefully teach that the positive side is where the current is moving out of, and around towards the negative side of the battery. The Lesbianists teach that the active side of the battery is the plus or positive side, or the side with the plus sign on it, when you look at a common house hold nine volt battery, and that the non-active side is the negative side, or the side of the battery with a minus sign. This is false. The side with the minus sign on it, is the active side, and that is where you do not want to wire any thing to, unless you know what you are doing. The positive side has no activity going on, and is safe to touch, but the other side is not safe to touch, and the testing meters are wired to show you that the reverse is true. They have tampered with the design of testing meters, so as to support their allegation and falseity, that the minus side is where there is no activity, contrary to the truth.

That means, that, the flash bulb igniter system and the flash bulb itself should indicate that one side is the positive side, for the positive wire to be attached to. You had better check carefully, and make sure there is no mischief here, as you do not want to detonate your igniter, accidentally. Ask a qualified electronics specialist to do all your wiring of your detonators, as he or she is the only person qualified to wire these types of detonators.

## The Lesbianists' Maps Of The Brains

It's rather confusing, the way the Lesbianists have reversed things, and have messed around, so as to thwart your attempts to make nice detonators that work every time, unless you have a normal set of brains, which unfortunately, I have not got a pair of, or triple set, or more of. That's sort of a joke. On a magazine, yesterday, I saw how the Lesbianists teach that one part of the brain is for speech, and one area of the brain is for speaking, and one area of the brain is for sight, and one area of the brain is for logical thinking, and one area of the brain is for signing, or one area of the brain is for artistic inventioning, and so forth, but that's a lot of hog wash.

The brain is not partitioned in that way, and they know it, and they are misleading every one, and laughing at all of you while they are doing it, with their 15th to 17th century style drawings, that they have plastered on all the Time magazines, or what ever magazine cover it was on, that I saw in the check out lane, at the super market, yesterday. You have kazillions, and more of parts to your brains, and there are so many, it is unlimited, nearly, and your brains are so complex, and you have got brains in lots of other places in your bodies, other than in your head, and I'm not going to go into that one, now, but the Lesbianists are lying through their teeth, when it comes to this type of pseudo historically backwards, archaic, or cave dwelling human's notions on science, that should insult a first grader, or kindergarden school student, or preschool student.

In any case, ask your local electronics' specialist or house hold electricians' specialist, or handy man repair persons, who work for house hold water heating devices installation companies, or other electrical home appliances sales and installation companies, who also get confused, from time to time, as I've witnessed them, personally, blow up breaker circuits.

Get a qualified, and that's hard to find in so far as I've witnessed them at work, electronics' specialist to wire your detonators, or go take a course with my kids, as they have courses available on wireing such devices.

There is no minus charge, and there is no positive charge, and that is what you should understand. There is a side to the battery where there is lots of activities going on, and that is the minus sign side on the battery. The positive sign side on the battery is where there is little to very little or nearly no activity, but no activity is not the truth, either, as there is activity, you just can not measure it with todays' electronics measuring devices, as they are not technologically sophisticated enough to be able to detect the activity, though I'm sure there have been intrepid scientists who discovered that both sides of the battery have activity, and then they were shot and killed, after that discovery, by a Lesbianist assasin, or by a hired assasin, assigned or paid to kill the scientist who discovered that there is activity at the 'minus' side of the battery as well as at the 'positive' side.

That means, that you need only concern your self with the 'minus' side, since you will not be able to detect any thing at the positive side, unless you use the reverse wired electronics and electrical energies detection devices that the Lesbianists market through Tandy, or Radio Shack, and at Sears, and so forth.

It gets confusing, a little bit, doesn't it. Anyway, go and take a course at one of my kids classes, after you sign in, and swear in as a jr. member to our new country, which I haven't sworn on to, as yet, or joined - but though I am the boss of, regardless - since my kids do not speak to me, on a daily, or weekly, or other basis, and I just happen to be able to know what they are doing as they tell me what they are doing, through some secret port hole in one of my brains some where, in my toes, or nose, or who knows where, as they telegraph or some how signal in, using semiphore signaling, or probably hand signaling, that my brain then catches, and then passes on to me, their messages that they signal in to me, and the news, as well, about what they are doing, and about what is going on with them, and about what is going on with some other things, as well.

Since I am GOD, I happen to have a right to know this stuff, what they and every body else is doing, on a daily basis, but they haven't told me how my brains catch their information, yet, or the other information that gets there, some where into my one or more of my brains, and I haven't figured it out, yet, myself, either, though I think I know something, a very little something, about how it works.

This does not mean, that my brains are unreliable - except for my memories areas of my brains, in particular - but that I am just waking up to what is going on, here, and I have a few kazillions of years to work out every thing, or some of the basics, any way.

In any case, you have all been snookered by them, with regards to their non sense sciences, and you are being laughed at, and toyed with, daily by them. That happens to be the truth, whether we find it pleasant or not.

## Execute The Current President Of The United States Of America, George Walker Bush, Jr.

In any case, the Lesbianists are a twisted group of individuals, who toy with the people who live on this planet. Mrs. Hillary Clinton, Bill Clinton, George Walker Bush, Jr. President of the United States, his wife, Barbara Bush Jr., George Bush, Sr., former president, and his wife, Barbara Bush, Sr, are all gagsters, or jokesters, who wish to only toy with you, and eat you, or deprive you of your life, and of your rights, in fiendish and horribalistic ways and manners.

They are all to be executed, especially George Walker Bush, Jr., President of the United States of America, currently residing at 1600 Pennsylvania Ave. Washington DC, in what they call the White House. You are to kill them all, and send every last one of them to my Epcot Center, as soon as is convenient for you.

## Lesbianists Who Decide To Sexal In My Religion With Lesbianists And Non-Lesbianists' Persons

If any Lesbianists decide to sexal in my religion, with their friends, and their friends may include other Lesbianists who decide to sexal, as well, as well as, other people they know, then they may begin sexaling with their friends in my religion, however, they must have a pentative attitude, and they must say they are sorry, and they must now and then, when they feel they wish to, and feel emotionally and mentally capable of speaking about it, they can talk with their friends who they are sexaling with, and with others who wish to listen as well, and they can denounce the Lesbianists by telling people about the things the Lesbianists do, and did.

If they decide to do this, this is the same as surrendering, and my kids will protect them from other Lesbianists who might want to harm them. They have not sworn in, as a citizen of my and my kids' country, and as citizens of our country that every one is swearing in to as citizens, but it is sort of a promise to swear in, informal gesture that they are committed to, once they begin sexaling with their friends, and with other Lesbianists, who also wish to sexal and in time, denounce the Lesbianists with them.

## Citizens By Proxy

By denouncing the Lesbianists organization, and by telling people about what the Lesbianists do and did, they are essentially stating they are sorry for what has happened, and that is a pentative attitude, and with that pentative attitude, they are accepted as citizens, by proxy.

## Temporary Full Time Citizens

Citizens by proxy means they are accepted by my kids as pentative persons, who wish to join our country, and who there with, qualify as citizens of our country, in an informal manner. Citizen by proxy means, they give up their old citizen ship, to whatever government they used to belong to, and they are taken in, as temporary full time citizens.

Temporary full time citizen is a term that means they are full time citizens, but on a temporary committal agreement, and that will be made permanent when they have the chance to meet with my children, and then can swear in, as a permanent full time citizen.

They can then participate at the collection site, in the activities that will be going on, with others, who wish to participate, as they spill their juices, and purify the area with their sexaling juices.

## What To Do About Untimely Pregnancies, Health Issues, Medicines, And Regroverative Formulas

My kids will deliver to them, to the men and to the women who surrender and become citizens by proxy, and temporary full time citizens, the needed medications that will help to make their bodies, wholesome and well, and regroverated, as well as the medications that are needed to prevent untimely pregnancies.

## Medical And Housing Benefits, And Other Health And Work Related Benefits

My kids will make certain that they will be given the right medications, and my kids will also provide all the same medications for each individual who participates in the collection site activities to purify the area where we will one day set up my ministry with my kids assistance. My kids will also set up other facilities, as well as the ministry facilities. The other facilities will be scattered through out the valley, and they will be the houseing units and other facilities for people to use to become physically fit, well, and well nourished, and healthy, such as gyms, aerobic studios for practicing aerobic dance, and aerobic excercises, as well as sauna and health spa, and swimming, tennis, badminton, cricket, and other sports facilities for baseball, rugby, foot ball, for those who wish to play a friendly game of foot ball, now and then, with the needed bleachers, lighting, and other supportive facilities for allowing persons to attend and watch the games that are going on, not only for foot ball, or for base ball, but also for tennis, soccer, rugby, and all out door sports facilities that will be needed.

When will my kids set up these facilities? They will set them up at the same time or shortly there after, as my kids begin to set up my ministry facilities, and the needed facilities for living and working in the valley area, sexaling for a living.

At that time, the citizens by proxy, and all other persons who have not yet sworn in, but wish to, will have the opportunity to swear in, and then they can enter and use the facilities full time, twenty four hours a day, without any further discussion about it.

All people who participate in the collection site activities, are also citizens by proxy, and as such, will automatically qualify for all medicines, all health supportive medical formulas, and all youthfulness prolonging, or regroverative formulas, that will feed all the amoebes, and other cells, or living beings in your bodies, and that will feed all the living beings in your bodies, that will then allow you to enjoy full regroveration of your body and rejuvenation of your youthfulness, youthful energies, and of all the other health benefits that accompany a youthful body, such as more energy, a stronger libido, a more healthful body, and so on.

When do people begin this participation in the collection site activities? As soon as they come out here, to Las Vegas, and arrive in their camper trailers, or caravan buses, or other vehicles, or with their camping gear such as tents, and cooking grills, and so forth.

## When Can People Begin To Come So As To Be Able To Participate?

How soon can people begin coming to participate at the collection site in the activities that will be on going at the collection site for some time to come?

They can begin coming to participate any time. My kids will watch out for the safety of all the people who come to participate in the collection site activities. My kids will prevent accidents such as current Lesbianists shooting at people at the collection site, from high rise towers, scaffolding, tall cranes, or from hotel and casino properties owned by the Lesbianists, and from other tall condominium and also from tall apartments buildings and also from normal sized, two or three storey, to eight or so stories, apartment buildings, in the area. Of course, my kids will prevent accidents from happening such as shootings, from all possible locations, and not just from those named structures and locations.

## Sniper Points, Places Where Snipers Shoot From

There is no need to blow or destroy them with explosives, in Las Vegas, as there will be no way any one can use those hotels, and other structures, as shooting or sniper points, places where snipers shoot from, to harm any one who is participating at the collection site, in the collection site activities.

In time, every thing will be worked out, and all the people who must hand over their companies, or disolve their companies, and sell or get rid of the assets of their companies, all of that will be in compliance with my childrens' instructions with regards to it, as I've stated about it, already, in brief.

Once the facilities are set up by my kids, and people swear in formally, then my kids can begin to pay people their earned income, for the work they did as they sexal for a living, and for their work, as they spill their fluids, to purify the collection site, the collection site area, and the general vicinity.

## Pocket Knives, Construction Tools, And Miscellaneous Daily Life Management Tools And Equipment

No one needs to bring weapons to the collection site area, or to Las Vegas, as they will not be needed, and pocket knifes are okay, and construction tools are okay, but they will be for daily use activities, only. Daily life management tools are forks, knives, spoons, chopsticks, plates, dishes, glasses, coffee cups, can openers, bottle openers, cork pullers, and these types of things, as well as all the other types of kitchen use tools for cooking food, for eating food, for drinking beverages, and for the collection of garbage, and food wastes, and for cleaning up their eating and cooking utensils, such as portable wash basins, and portable gas stoves, or fixed stoves, fixed wash basins, fixed showers in camper trailors, and in caravan buses, and so forth.

## Hookups For Travel Camping Vans And Similar Vehicles

We have no hookups at the site, for water supply, electricity, or sewage, as yet, but the instructions that my kids will make available to persons who come in to my kids' underground facilities - the protected and encapsulated living environment - those persons who go in to recieve the instructions, and other information they must recieve on companies and assets, and persons moving on, and on persons staying, and other information needed to successfully carry out the removal of hotels, and the demolition of buildings, etc. which my kids will handle with the technologies they have available to them for their use for these purposes, and for other purposes.

## Cleaning Up The Area And Throwing Away The Garbage

My kids will also handle the required steps for clearing up of the litter and garbage in the area, all of Las Vegas, Pahrump, Henderson, Laughlin, Mesquite, North Las Vegas, Arizona, New Mexico, California, Utah, and beyond, above ground and below ground, and for cleaning up the areas, and for removing the underground and above ground garbage, or city buildings and Lesbianists' structures, and all structures that are no longer needed, train tracks, airports, roadways, bridges, parks, hospitals, medical clinics, and so on, all of which will no longer be needed.

## Schedule For Leveling Of The Ground And Hills In The Area, Removal Of Unsightly And Smelly Garbage

Initial leveling of the grounds' areas, leveling of the uneven surface areas, and leveling of the sloping areas, and of the tiny hills, and other uneven and unuseful features to the area, such as hills, low cliffs, and removal of unsightly, smelly garbage, will be done by my kids, with the technologies they have available to them, according to the schedule for making these types of changes, and cleaning up of the area, so as to make the area, one hundred percent, useable for collection site activities, for people to then come in and use the area as a collection site.

## Setting Up New Facilities

My kids will take care of all of that, and they will take care of all of the work and tasks for setting up a private collection site area - for spilling purifying sexaling juices, to purify the area - in accordance with my kids' schedule for these works and tasks for setting up a private collection site area, with tall side walls, and barricade walls, to prevent people from rubber necking as they drive by, so as to prevent car, truck, automobile, motorbike, and bicyle accidents. My kids will also set up the latrines, and other needed hygenics facilities, sleeping accomodations, eating facilities, rehydration facilities, co-opted bathing facilities, sports and excercises facilities, and other facilities.

Co-opted facilities means facilities used co-optively by men, boys, women and girls. Co-optively means, in cooperating measures with each other. Cooperating measures means, each of the four groups of people, men, boys, women, and girls, will work together, to keep the facilities sanitary, clean and healthful, neat and tidy, and safe for use, keeping young children from playing on the stairs for the elevated latrines, and keeping young children from getting in the way of asscending and descending users of the co-optively, or cooptively managed facilities.

## Fountains And Showering Lamponeers

My kids will also use their high tech teletransportation technologies for removing toddlers from the stairs, and for placing them in a much safer location, such as in a near by sand garden, or play area, with sandy areas, and with toys to play with, and with cold showers, or showering fountains, people can refresh themselves under, and with fresh water to drink.

Lamponeers are showers that shoot up from sprinkler systems embedded in the paved surfaces, or concrete like surfaces, that shower water up and over the area, up and above and over persons who are there, to cool every one off.

## Restaraunts, Clubs, Lounges, Eateries, Cafeterias, Bars, Pubs, Bicyle Paths, And So Forth

Bicycle paths, mini bike paths, walking paths, with rest stations, for refreshments and food, will be set up, and restaraunts and other facilities will be set up, nearby and they will be accessable by following these foot paths, bicyle paths, waling paths, and so forth.

All needed facilities for all parties, such as accomodations, living quarters, health clinics, excerize facilties, swimming pools, saunas, spas, and clubs for eating and mingling with persons, either in light weight evening wear and garments, or partially naked, or in the buff, will also be set up by my children for the use by all legitimate collection site participants. Gurkian Laws apply, and no other laws, such as local area laws, will be enforcable. Police and others will be turned away, and the rights of participants at the collection site area, will be protected one hundred percent, as we begin to change over to the new Gurkian Laws we will all be living by, from now on.

## Dealing With Criminally Minded Persons

Any violators of the Gurkian Laws, codes, statutes, and so forth, my kids will arrest, and detain, and then place into prison cells, and then sentence them, in accordance with the sentencing requirements under Gurkian Laws, etc., and they may end up doing humiliatory punishments, or community clean up activities. In any case, they will be arrested by my children, who will use their high tech, biometrics and teletransportation technologies, and their other integrated technologies that they have, to swiftly remove the violators of Gurkian Laws, from the collection site and from the collection site area, and vicinity, and that will effectively cancel out their participation, until sentencing has been given, and until penalties have been leaned.

Penalties have been leaned, means, they have undergone sentencing, and the penalties have been enforced upon the violators, i.e., the guilty parties.

## Alterations, Modifications, Changes, Clearing Up And Removal Of Garbage In The Areas, And Additions Time Schedules

These modifications, alterations, changes, and additions, etc., will occur over a period of time, as my kids have a schedule for all of these changes, modifications, alterations, clean up, and additions, etc., and they must stick to the schedule, so after you arrive, if you do not see some thing you feel should be there, by then, it is not there because it is not on the priorities facilities and priorities changes, etc., schedules lists.

Captain Off The Bridge.

# Texas requires cancer vaccine for girls

By LIZ AUSTIN PETERSON, Associated Press Writer

AUSTIN, Texas - Bypassing the Legislature, Republican Gov. Rick Perry signed an order Friday making Texas the first state to require that schoolgirls get vaccinated against the sexually transmitted virus that causes cervical cancer.

ADVERTISEMENT

By issuing an executive order, Perry apparently sidesteps opposition in the Legislature from conservatives and parents' rights groups who fear such a requirement would condone premarital sex and interfere with the way parents raise their children.

Beginning in September 2008, girls entering the sixth grade - meaning, generally, girls ages 11 and 12 - will have to get Gardasil, Merck & Co.'s new vaccine against strains of the human papillomavirus, or HPV.

Perry, a conservative Christian who opposes abortion and stem-cell research using embryonic cells, counts on the religious right for his political base. But he has said the cervical cancer vaccine is no different from the one that protects children against polio.

"The HPV vaccine provides us with an incredible opportunity to effectively target and prevent cervical cancer," Perry said in announcing the order.

"If there are diseases in our society that are going to cost us large amounts of money, it just makes good economic sense, not to mention the health and well-being of these individuals to have those vaccines available," he said.

Merck is bankrolling efforts to pass state laws across the country mandating Gardasil for girls as young as 11 or 12. It doubled its lobbying budget in Texas and has funneled money through Women in Government, an advocacy group made up of female state legislators around the country.

Perry has several ties to Merck and Women in Government. One of the drug company's three lobbyists in Texas is Mike Toomey, Perry's former chief of staff. His current chief of staff's mother-in-law, Texas Republican state Rep. Dianne White Delisi, is a state director for Women in Government.

Perry also received $6,000 from Merck's political action committee during his re-election campaign.

Texas allows parents to opt out of inoculations by filing an affidavit objecting to the vaccine on religious or philosophical reasons. Even with such provisions, however, conservative groups say such requirements interfere with parents' rights to make medical decisions for their children.

The federal government approved Gardasil in June, and a government advisory panel has recommended that all girls get the shots at 11 and 12, before they are likely to be sexually active.

The New Jersey-based drug company could generate billions in sales if Gardasil - at $360 for the three-shot regimen - were made mandatory across the country. Most insurance companies now cover the vaccine, which has been shown to have no serious side effects.

Merck spokeswoman Janet Skidmore would not say how much the company is spending on lobbyists or how much it has donated to Women in Government. Susan Crosby, the group's president, also declined to specify how much the drug company gave.

A top official from Merck's vaccine division sits on Women in Government's business council, and many of the bills around the country have been introduced by members of Women in Government.

End of article.

Morals For A Sane Society - It Is Now Time To Destroy The Lesbianists - Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean - Chaos Every Where In My Universe - Bringing An End To The Chaos In My Universe - Surrendering And Repentance - Lesbianists With Non Repenentant Attitudes Who Will Not Surrender - Orders To Kill All Presdential Candidates, Etc. - New Coins Ready And Are The Ever Useful To Us! - Public Nudity And Public Sexaling - What Does The New Moralicity Mean, In Plain Language? Sexaling Is An Absolute 'Good' And

An Aboslute 'Right' - Free Action Sexaling Updated: 22-03-07 Rev.a. 00.b 09:40 PST

Morals For A Sane Society

To not fuck a person when you can fuck a person is a wicked act.

Not to fuck a man or a woman in the mouthal hole, or in the buttal hole, or to not fuck a woman in the vaginal hole, when you can, and when you are healthy, and when you have the time for it, by refusing, for what ever reason, other than mental illness, or 'gayist' reasons, you are committing a cheap and wicked act, when you refuse to fuck the other person, and use your dick, or your tounge to felate or kiss and tickle, and lick at the ladies' groinal area, and her vaginal cleavage, and vaginal flaps, or labial flaps, or labial tissue, and also her labial throes.

To not suckal a dick or a scrotum or tickle the males' groinal area, with your tounge, or with your fingers, and so forth, when you are able, and ready, and capable, is a cheap and wicked act, whether you are a woman or a man, girl or a boy.

You are given demerit points for not sexaling when you can and are able to sexal, and your time permits it.

To not participate in sexaling when you can participate in sexaling, is a wicked act. To prevent others from sexaling with you, or prevent a person from sexaling with you and your friends, these are both wicked acts.

A kindly and goodly person is a person who sexals all he or she can and who participates in sexaling with people, all he or she can, when ever he or she can to help those people, and one self, to erase the negative karmic markups each person has, and to help to create the wonderful energies that you can create by sexaling, and to change our universe into the nice place we need to change it into for us to live in, prospering with each other, in kindly loving embraces with each other.

If you stand or sit, talking, drinking, eating, with your clothes on, arguing, and discussing football, or baseball, or the local news on TV, or whatever, and you if you are not sexaling, as a result of your actions, when in fact, you could be sexaling, and helping to purify all the people around you, and yourself, as well, you are commiting an evil act, and an immoral act. It is immoral to behave in an uninterested manner, towards sexaling, and towards helping others by sexaling to purify their karmic markups. You are engaging in wicked, unkindly, and evil behavior, by non chalantly staring out the window, at a restaraunt, or in your car, with others around you, thinking about your miscellaneous thoughts, and by your not attempting to purify others, with every ounce of energy you have got, by sexaling with them, in a safe manner.

We do not want you to drive down the road, sexaling, and not paying attention to the traffic, and thereby causing accidents, and there be causeing harm and injury to self and to others, thereby preventing one self and others from their being able to freely mobilate, or move around freely, or ambulate, as they say in modern English, and then freely participate in sexalating activities of fucking, sucking, tounging, massaging the bodies, and the titties, and buttholes of women and girls, and massaging their kissing lips, and their vaginal lips, their facial cheeks, and their butt cheeks, and so forth. You must drive safely, and make it home, to a safe place, where you and your friends can freely sexalate with each other, without others interefereing with you.

A wicked or evil person is one who prevents a person from sexaling, and who destroys or ruins another person, physically, mentally, morally, emotionally, psychologically, or psychically, so that the other person can not participate freely and fully in holy and pure, GODLY sexaling activities.

This type of person who prevents others is a ruinous person, who will invite ruin and disaster to his or her doorsteps, and into his or her life.

There are many ruinous people, who execute others, and who torture, and cause pain, and suffering to others, and who disfigures others. These people who execute others, and who terminate their ability to sexal, prospering with others, making our universe into the kind of nice place we all want to be living in, together with each other, are wicked and evil people.

## It Is Now Time To Destroy The Lesbianists

However, when we have a problem of the size and the magnitude of the Lesbianists, that we have, today, in this period of chaos, across my universe, and the Lesbianists' who are toying with humanity, and with all human beings who are not Lesbianists, it is time for us to take action, to prevent them from toying with us, and put a stop to their amusing themselves with their toying with us, any further, and it is now time to destroy them.

"I am Arjuna, a wickedly angry man, and I come to protect those who can not protect themselves. I will kill and thrust my sword and lance through the hearts of men and women who evilly try to prevent people from being prosperously good and bekindly to others."

This is a stanza or sentence from one of my writings, of old. 'Wickedly angry' in this sentence means, outraged, and furious, so much so, every one is scared and afraid of me.

I am 'wickedly angry' and I am here 'to destroy' those who would fuck us up, and ruin our lives, and make our lives miserable, as they toy with us.

My name is GOd, but in my Buddhist scriptures, I am referred to by many names. One of my many names, as I appear to people, in many and various personas, is Arjuna.

I have many sides to my character, as I am GOD, and I am here to protect my children, no matter what the name is people use to refer to me by, and that I am known by, and no matter how it is and no matter who it is among my many children, who I will protect from wicked and ruinous people.

## Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean

There will not be any further Lesbianists living in Washington DC, or in Baltimore Maryland, or in Northern Virginia, and that vicinity, above ground, and below ground, if some one will be so kind as to place a very large explosives, fuels, chlorine, high heat burning metals fragments, and fracturable rocks bomb, outside the gates to the Washington DC White House, where the number one enemy, Mr. George Walker Bush, Jr., President of the United States, lives, and works, and then detonates that bomb, out side the gates of the White House, where the president lives, currently, and then destroys him, and his White House, a lair for Lesbianists, with multitudes of torture rooms, i.e, lots of them, below and inside of the White House.

You will destroy and kill the President of the United States, Mr. George Walker Bush, Jr., and Mrs. Barbara Bush, Jr. and every one else who lives at 1600 Pennsylvania Ave. Washington DC.

Why are we going to throw all these people into my Epcot Center. Once in my Epcot Center, they can freely sexal with each other and they can earn merit points.

That will help them straighten out their karma, and it will help them to have a nicer life, when they are born as tummy babies. There are many tummy mommies who will match up with these people, and when they come out as tummy babies, they can start their life, with us, out here in my universe with us, again.

Am I a wicked wrongful person for terminating so many people's lifes? No. Why not? Because that is the only way we can over throw the vastly wicked and evil Lesbianists who practically rule my universe, with their perverse friends, and there are many groups of perverse friends, who we are going to get rid of, and send into my Epcot Center, one after another, as we move ahead, in our efforts to clean up our universe, and in our efforts to stop this nonsense of senseless killings and torturings of people, for amusement, and for game playing.

The Washington White House is one of the homes for these perverse people who game play and toy with all human beings who are not

Lesbianists, who live on this planet.

We have many Lesbianists to trash, and to say good bye to, before we can begin to get our world, straightened out, and started up again, with a new culture, with new morals.

We will throw out their old cultures, their Lesbianistic cultures, and we will replace them with our new culture, and our new civilization, that is based on my religion, and on the sanctity of sexaling as a common sense value.

Sexaling is a sacred and holy act. Even if you sexal with a kangaroo, or a chimp, it is still a sacred and holy act.

Why is that? It is because every body is made of something, and that something comes from me, GOD. That something from me, is pure and holy, as I am pure and holy. I designed every person, and every animal, and every living being, with sexaling capabilities that allow that pure and holy GODLYNESS to come out once they begin sexaling.

That GODLYNESS begins to radiate out, as each person begins sexaing, and as each animal begins sexaling, and as each living being begins sexaling, eroteming, orgasming, and phlumetting, and it purifies each and every living being, and washes away the karmic markups every person, and every animal, and every living being, has in them, and has stored in the molecules that are stacked up in my universe, out side the boundarary walls that hold this universe up, and that keep us in side of the area we are in, and that keep the rest of my universe standing up, stable, making this a safe place to live, at least, safe in so far as nothing comes crashing down on us.

My kids are expert builders, and it is thanks to them, that we have such a nice and safe, and well built universe to live in. It is also thanks to them, that we have these bodies to live in, and to sexal with, since my kids put us together, one molecule at a time, as we need to have our parts put together, along with all the anmials, and living beings, who are inside of us, that my children also assemble for me, and for us.

What is this GODLYNESS? It is a purifying force, that is of me, and is me. It is inside of every one, and inside of every creature, animal, and living being, in my creation.

This is woven into the fabric of your being, and it is of me, and is always a part of me, and is always connected to me. Since I am always pure, and GODLY, you have a possibility of becomeing pure, and holy, like me.

Right now, we are filthy, and grimey, and all gunked up, with sludge, and residues of our karmic heritage. We have done many things that contribute to who we are, and to what we experience, day to day, and if we are not happy with our life, that is because we have the karmic records and markups that dictate that we must be in this miserable and suffering condition, that we are in, today.

There is always sufferring, and unwholesomeness, in our lives, and around us, every day. There are many wicked things that go on, every day. People perpetrate wicked acts, daily, and they go on, unpunished, for a long time, until their karmic markups begin to add up to sufferings coming out, in that person's life.

Sufferings are your payback for your wicked acts, and they help to keep our universe in balance, as I've spoken about, a little, before.

It may seem unwholesome that I ask you to kill my kids, and put them into my Epcot Center, where they can sexal, and where they can get retrained, and where they can be taught to be nice people, after they are retrained, but my asking you to kill my kids, this is merely an expedient, or a means to an end, and it is permissable, given the circumstances, and given the situation, and given that we are at the begining of our new Age of Gurkian Englightenment.

The result we wish to see by killing them, is an end to the activities of the Lesbianists, and and end to the activities of other people like them, in my universe. The Lesbianists are ruining my universe, and ruining the lives of every body in my universe, and though this was the way things were balanced out, prior to now, we are starting out, with a new method of 'payback' and a new means to balance out the karmic balance book. This is all to be governed by my rules and regulations, that my kids will enforce, in our new, Gurkian Age of Enlightenment, begining about now.

Our killing the Lesbianists, will help to control their ruinous and heinous behavior and activities, and it will help us to get them out of the picture for a while, until we are able to set up our new government, globally, or universal wide, across our universe, in a one universe government, over seeing the activities of all of my kids. It is the only way we have to begin to get our selves straightened out, and onto our new path, that we will follow, for the rest of eternity.

This marks the begining of the Gurkian Age of Engligtenment, and it marks the end of the previous period, or random, or just about nearly random, chaos.

We went through a very long period of decline, untill we got to the period of chaos that we are in, now. This period of chaos, we call, the 'melt down' period.

The 'melt down' period, came after the 'run amuck' period, when my kids began their severely ruinous activities that led to the period of chaos that we are now in.

## Chaos Every Where In My Universe

We are going to begin to pull ourselves out of this period of chaos, with the help of my religion, and with our religious activities, and it is going to take us a very long time to pull ourselves out of it, as this 'chaos' is going on every where in my universe.

It will take us a long time to begin to be able to erase our karma enough, based on my religious principals, and the ethics of the Gurkian Age of Englightenment, and our religious activities of sexaling, dancing and excercising, and sexaling in syncopation with the metronome, at one thirty seventh and one fifth, or so, to then some day be able to have erased enough karma, to be rid of, completely, all these horribalistic people, my horribalistic kids, in my universe. When I say, be rid of them, I'm not saying, to trash them, completely. I am saying, we will put a stop to their activities, by changing our karma, and by purifying ourselves with my religion and our religious activities of sexaling, keeping time, in synch with my children, as we sexal, and as we activiate, playing basketball, tennis, or as we swim, or as we pray Nam Myeo Ho Ren Ge Kyeo, and so forth.

## Bringing An End To The Chaos In My Universe

We are going to bring an end to the chaos, and to the chaotic behavior, and abberant, ruinous behavior in our universe, as we bring this period of chaos to a close. We will, as we steadily move forward, open the way for the budding and flowering of the Gurkian Age of Enlightenment, and to the budding and flowering of the new age of friendship and loving care, among all of my children, who participate in my religious, social, economic, and karmic revolution, as we sexal with each other, lovingly, and strive to clearify and erase our karmic markups, sexaling, and synching our activities to one thirty seventh and one fifth on the metronome. Later we will fix our metronomes to keep exact pace in synch with my children, and after we fix and reset the timing scale of the metronome, the timing will be one thirty seventh, exactly, on the metronome.

Our sexaling will produce all types of wonderful, purifying energies, that will revive our universe, and that will revive us, and that will help us to reclaim our universe, and that will help us to live, prosperously, and prosperingly in our universe, together, with each other, and with every one of my children, as we reform the bad and naughty ones, who are wicked and unkind to others, and who prevent people from sexaling, together, with each other.

That means, we are going to kill all the bible thumpers, Pat Robertson, Orwell Roberts, Billy Grahm, Tammy Faye, Jim Faye, and all the other Lesbianists of every religious faction, or group, whether they are Lesbianists who are christians, islamists, judaists, shiites, hindus, buddhists, black moslems i.e., afro american black muslims, or whatever.

We are going to destroy them all, all who would try to prevent us from what we are attempting to accomplish, a global, universal wide, government, run by me, GOD/GOd, as I am the Captain of this ship, and then we are going to begin our new age of Enlightenment, hand in hand with each other, and when they come out of my Epcot Center, again, next time, to be born as tummy babies, to tummy mommies, and to tummy daddies, we will teach them the new rules, ethics, and morals of our new universal wide society, and then we will begin again with them, and raise them in accordance with the new rules, laws, regulations, ethics, and morals of our Gurkian Age of Enlightenment, led by me, GOD/GOd.

## Surrendering And Repentance

Those who will surrender, will be allowed to be repentantent, and they will be forgiven for their misgiven, misbegotten, and ill minded ways, once they begin sexaling with the rest of us, and participating in our religious, economic, and social revolution, and once they begin following Gurkian laws, rules, ethics, the codes and norms of behavior, and our righteous, and correct morals, acting and exerting one's efforts for the sake of others, never sparing a moment of energies, wastefully on trivial and trite activities of gossipping, mischiefing, or other harmful, and potentially ruinous, wicked, and evil behavior.

## Lesbianists With Non Repenentant Attitudes Who Will Not Surrender

Those who will not surrender, we will send to my Epcot Center, as that is the only way we can get them out of the picture, temporairily, so that we can then get things in order, before they return, once again, as tummy babies, into the lives of tummy mommies, and tummy daddies.

## Orders To Kill All Presdential Candidates, Etc.

You are hereby authorized by me, GOD, John Francis Ayres, to kill all United States Presdential candidates, including but not limited to, Senator Barack Obama, Senator Hillary Rodham Clinton, Mitt Romney, Senator Christopher Dodd, John Edwards, Yesenia Emelina, Mike Gravel, Dennis Kucinich, Senator Joe Biden, Governor Bill Richardson, Wesley Clark, Al Sharpton, Al Gore, Tom Vilsack, Senator Sam Brownback, John H. Cox, Rudy Giuliani the famous World Trade Tower bomber planner / participant and bombs expert, Representative Duncan Hunter, Senator John McCain, Representative Ron Paul,  Jim Gilmore,  Mike Huckabee, Representative Tom Tancredo, Tommy Thompson, Newt Gingrich, Senator Chuck Hagel,  Michael Savage, Fred Dalton Thompson, James Gilchrist, Elaine Brown, Ralph Nader, Steve Kubby, George Phillies, Christine Smith, Doug Stanhope, Kent McManigal, Gene Chapman, Barry Hess, Dave Hollist, and Robert Milnes.

They are all to be executed on sight. Also, you are ordered to kill all non repentent Lesbianists, such as, Vice President Dick Cheney, Tony Blair, Butros Gauley, Oliver North, Colin Powell, Oliver Poindexter, Casper Willard Weinberger, United States Supreme Court Chief Justice John Roberts, Associate Justices, John Paul Stevens, Anthony Kennedy, David Souter, Clarence Thomas, Ruth Bader Ginsburg, Stephen Breyer, Samuel Alito, Antonin Gregory Scalia, Arnold Swarzneggar, Sylvestor Stallone, Robert Deniro, Gary Busey, Kevin

Sorbo, Timothy Dalton, Michael Jackson, Matt Damon, Bruce Willis, Mila Jovovich, Peter Jennings, all members of the United States Congress who are Lesbianists, and all other Lesbianists, whether in politics or not, and in whatever government you find them, around the world. There are many Lesbianists in local and metropolitan police departments, and in SWAT Team units, and in fire departments, and in the National Guard units throughout the United States, and Lesbianists own every news media organization, television corporation, cable television corporation, satelite television corporation, major radio station, transportation corporation, chemicals corporation, petroleum corporation, coal mining corporation, as well as every other major corporation around the world. You are to kill every last one of them, and spare no one. We will then destroy every underground city they are hiding in, and force them to surrender. If not, we will kill them all, and I authorize you to do exactly that, kill every last one of them, all thirteen billion plus Lesbianists, hiding under the surface of our planet, or out walking about, pretending to be an ordinary citizen on this planet. Nothing is further from the truth, and you are authorized to kill each and every one of them, and send them all to my Epcot Center, using what ever means available, including my tactical, powerful, home made radiological explosives bombs, i.e., nuclear explosives. Please study my notes on my web site for further details regarding radiological fracturable rocks, and my notes on how to make an explosive weapon to detonate nuclear materials, you can find along beach shorelines, in sediments deposits, and on old mountains, every where on our planet, if you have a geiger counter.

New Coins Ready And Are The Ever Useful To Us!

http://money.aol.com/news/articles/_a/new-dollar-coins-enter-circulation-this/20070211095409990001?ncid=NWS00010000000001

"Updated:2007-02-11 15:20:31"
"New Dollar Coins Enter Circulation This Week"
"By WILL LESTER"
"AP"
"WASHINGTON (Feb. 11) - Maybe Susan B. Anthony and Sacagawea should not take public rejection personally. It's not easy overcoming people's indifference to dollar coins, even those honoring such historic figures."

See also,

http://news.yahoo.com/s/ap/20070211/ap_on_bi_ge/money_ap_poll

The new coins reportedly have many fracturable rocks in them, as the metals used, were mined from deposits of minerals that contain large amounts of fracturable rocks.

They also have high heats and high temperatures burning minerals in them, that will level up your thermal temperatures to near solar temperatures, if grinded up and mixed in, and allowed to ferment, in sour berry juices, slowly, with tiny amounts of salt, and large amounts of raw sugar.

The high heat temperatures, and the energies produced at these higher heat levels, will reach near solar heats energies temperatures, and that is very important for developing the energies needed to wake up every body, in the fracturable rocks - or 'fissile' materials, in Lesbianists' speak, or Lesbianists' mumbo jumbo language - to get them to begin making children and families.

Please see my notes on 'Radiological' crystals cages salts kiddies, and other related energical animals kiddies, of various, and hard to imagine, types, unless you're a kid and unless you have the mental flexibilities and typical mental gymnastics capabilities of a normal child, unhindered by brainwashed thinking and brainwashed patterns of thought the Lesbianists have caged, and closeted in the dark, our brains with.

## Public Nudity And Public Sexaling

Public nudity and public sexaling is now a way of life for all, in our, now, Gurkian Age of Enlightenment. We will begin broadcasting live sexaling events, and other entertaining and informational, educational programming,, as soon as I get my new quarters, a unit to live in, where I can eat more properly, sleep more properly, recieve the medical health aides and regroverative formulas, that I need, and where I can practice my religious ceremonies, with others, daily.

The public broadcasting of various informational programing, educational programing, sexaling entertainment programing, sexical, hygenical i.e., sexaling hygene, and sexical educational programing as well as sexical training programing, as well as my religious ceremonial sexaling activities, and my general, more typical day to day, religious ceremonialing, for now, until I get my health up to a level of youthful vigor, and robust wellness, as I religiously interact with my students, and train them, the disciple priestesses, and disciple priests, will all help to set the basis of normative, and expected, social behavior, for all people in our universe, to learn about, now in our Gurkian Age of Enlightenment, so that we can all get along, with one primary set of customs and standard of behavior, and with one primary language for communication, as we will all be sexaling with each other - all of my children who are now just begining to get with the program, at least, anyway, will be sexaling with each other - from now on, and for all eternity.

We need this exposure, as well as alternative programing, for laundering up to, and for begining to expose ourselves to, and learn about, the reality of the universe, my universe, that we live in.

Laundering up to, means, exposing ourselves to the mischievous antics of the Lesbianists, to launder their filthy, garbagical, and tormentuous ways, so that all may learn about them.

This will be coming up, in the near future, possibly, as far as I can determine, any way, after we have the spilling of the sexaling fluids campaign under way for purifying the area where I will be setting up my religious ministry, on the parcel of land, on the north west corner of the intersection at West Tropicana Ave. and South Decature Blvd., Las Vegas, Nevada, and possibly on confiscated properties to the north, as well as to the west, for now. This is a public service, informational bulletin, on what you are to expect, in the near future. Prepare yourselves, accordingly.

## What Does The New Moralicity Mean, In Plain Language?

Our new moralicity means we are going to learn we can and should sexal with every person, and even with animals, when we have a chance or opportunity to sexal with people and animals, and that we can and should sexal with every person we see, so long as we have a mutual reciprocical understanding of the truth to sexaling, that it is a pure, blessed, and holy act, GOD, me, made possible, to purify you of your blemishes. It is the most significant and powerful way to purify you of your blemishes and karma

You can also clearify your blemishes, your karmic markups, by praying Nam Myeo Ho Ren Ge Kyeo, and by your keeping syncopated and in rythm with my children, helping my children to work smoothly, syncopated and in rythm with each other, perfectly fluxed, meshed perfectly with all my other children, working at different life spins, as I've mentioned about, as my kids will reward you by sprinkling faerie dusts, purifying energies, and other types of related, purifying things and dings, all over you, as a reward for your cooperation in keeping my universe, humming, and running, smoothly.

With your syncopated rythms, your syncopated pace of movement, and actions, as you time your motions, and stay in synch with one thirty seventh on the metronome, plus one fith of a mark on the metronome we currently have available to us, here, on our planet, during your activitiating, sexaling, playing sports, dancing, excercising, and so forth, you will purify your life, and you will purify the lives of those around you, with your actions, as you get rewarded by my children.

Our new moralicity means we can and should sexal with each and every person possible, in free association with each other, no matter what the age of the person, and no matter what the gender of the person, no matter what the tribal background is, no matter what the tribal heritage is, any place no matter where we are, any time no matter what the time of day or the time of night it is, in public spaces or in private living spaces any and all places, no matter who else is around us, as sexaling is a blessed act that my kids reward you for, any time, every time, no matter where you are sexaling, and no matter with who you are sexaling with, or even no matter what type of animal you are sexaling with.

It means there are no bullshit, propagandists' Lesbianists dreamed up taboos, any longer, regarding sexaling, and that sexaling is a blessed

your sexaling activities.

After you finish your sexaling activities, your body will begin to stiffen up, as all the ligaments, sinews, cartiladges, muscles, and fiberous threads throughout your body, begin to tighten up, for returning to daily life, working activities, where you need a hard, and tough body, to survive, as you work in the field, or work in the rice paddies, or work on the farms, to labor for producing crops for feeding you, your families, your children, relatives, tribal village friends and tribal villages neigbors, who are, or who used to be, traditionally, as life used to evolve for us, all related to all of those concerned in the area, or on the planet, for that matter, or in the entire galaxy, or spread out over many galaxies, and even spread out over even larger, and wider areas of my universe in the large, familiies that used to be the norm.

You may need to spend several hours, or even several days, or maybe even longer, a number of weeks, or even a number of months, before the body will begin to respond, and begin to flex, and bend, to help all the ligaments, sinews, cartiladges, tendons, muscles, and all the body parts, and supporting, interwoven parts of your bodies, as I've briefly talked about, before, as well as all the lubing stations, that will eject fluids to assist in the loosening up of your bodies' ligaments, sinews, cartiladges, tendons, muscles, and even the bones, to allow them to be more flexible, including the jaw bones, facial bones, neck bones, spinal bones, leg bones, thigh bones, hips bones, pelvic bones, buttal bones, groinal bones, back bones, and all the bones of the body. Every bone in your body will loosen up, and become more flexible, and pliant, durile, durable and tensilely strong, as you massage all the parts of your body, and the bodies of the people you are sexaling with, very young, young, adolescent, adult, middle aged, elderly, and even the ancient, or the extremely very old.

This is the truth to this matter, and you can find out for your selves, if you try and see how your bodies respond, to daily, rigorous, continued massage, over various lengths or periods of time.

This is part of the ancient and old art of sexaling, as I taught in my religious teachings, in every religion that I taught, and I have taught a lot of religions in my time, to lots of different peoples in my universe, from the begining of our time, here, together, in our universe, after we arrived, which I've talked a little about, before.

## Sexaling Is An Absolute 'Good' And An Aboslute 'Right'

Even the veryest oldest and the veryest youngest have a right, duty, and obligation to sexal and produce holy, sacred, sanctifying, i.e., to make sacred, holy, and pure, harmonious, purifying energies.

It is an 'ABSOLUTE' RIGHT as in, a 'right' to free speech.

It is also an 'ABSOLUTE' RIGHT as in, 'this is right, correct, upstanding, laudable, commendable, proven to be always right, correct, true, holy, graceful or GODlYNESS and GOODLYNESS gracefilled, morally right, morally correct, morally absolutely right, and morally absolutely correct', as opposed to, right and wrong, i.e., as in the opposite of wrong, as in, that is wrong, that is incorrect, evil, hateful, sinful, morally inaccurate, morally wrong, morally defunct, undoable as it will not stand, and useless,'.

It is also an 'ABSOLUTE' GOOD and an 'ABSOLUTE' GOODNESS.

Free Action Sexaling

Anything that counters, or runs contrary to this, is an 'ABSOLUTE' WRONG, and an 'ABSOLUTE' EVIL. It is absolutely wrongful to deny or to prohibit or to interfere with, in any way, with any one who wishes to sexal, as THAT PERSON IS CLEANING UP MY UNIVERSE WITH HIS DICK, OR WITH HER VAGINA, BUTT, AND TITTIES, AND WITH HIS PURIFYING ENERGIES, OR WITH HER PURIFYING ENERGIES! DO YOU UNDERSTAND THAT?

Any body who even attempts to impede, to deny, to prevent, or to interfere with, in any way at all, with a person's absolute right to sexal runs counter to Gurkian laws, regulations, codes, ethics, morals, standards, and you will serve jail or prison time, for prohibiting, or interfering, or impeding, or violating in any way, a person's absolute right to free action sexaling, which is, the act of freely chooseing who one wishes to sexal with. DO YOU UNDERSTAND THAT, SOLDIER? GOOD! BECAUSE A "NO SIR!" WOULD BE INAPPROPRITATE AND UNACCEPTABLE!

To learn more on these subjects, swear in, and become a citizen of our country, and begin studying, and working in the many programs my children have for you to study and work in, to score earning points, and to earn a living in our new, Gurkian Age of Enligtenment, where and now that we work, and we pay as we go.

Those who refuse to work, in time, will be required to work, to pay off their debts and to pay off the fees that are owed for the use of my resources, all the molecules in my universe, and all the resources, energical, or otherwise.

Even though I am GOD, in our new system of working in my Gurkian Age of Enlightenment, even I have to pay for the resources that I use, as I work as chief priest of my religion, spiritual director of my universe, and boss of my universe.

I'm the mother and father, the creator of all humans, animals, and living beings, as I've explained, every thing in my creation, and people will begin to understand that, that I am GOD, as they practice my religion, over the years, and over the aeons, and over the millenias.

The people who refuse to work, will be required to work in prisons, sexaling with animals, to produce sexaling energies that will restore the supplies of energies in our universe, as I've mentioned about, before, as they work and learn their new trade of animal husbandry, and animal wifery, in the animal habitry industry, as I've also mentioned about, in earlier notes.

No matter what the age of the person, every person can participate in our Gurkian Age Of Enlightenment, sexaling, dancing, excercising, and syncopating their movements, in rythm, to assist my kids as my kids, work to keep my universe, strong, durile, flexible, safe, and a nice place for every one to live in.

DO YOU UNDERSTAND THAT? YOU HAD BETTER, AS A "NO SIR!" WOULD BE UNACCEPTABLE, SOLDIER! DO YOU HEAR ME? I HOPE YOU DO! NOW, GET TO WORK AND SEXAL TILL YOU DROP, SOLDIER, AND I'M NOT JOKING!

We will build a nice and comfortable, safe place for every one to live, now, in my universe, and we will follow the Gurkian Age of Enlightenment Rules and Regulations, Codes, Morals, Ethics, and behavioral norms, that you are required to live by, now that we are going to become, one, very big, happy, harmonious, in synch, prospering family.

You will not forget to wash out your butty butt holes, and to flush out your vaginas, and your mouths, and to practice proper and health promoting sexaling and love making hygene, with the medical formulas that my children will be providing to you, and that you will pay for, out of your earnings, and they are very reasonably priced, now that I am making every thing available to every one, at a set, yet, flexible, and low cost for the use of my resources, once you citizenize your selfs, and swear in, as a citizen of our new, global, i.e., universal wide, one universe, family of GOD's, that's me, children.

The costs are flexible, in the sense that you do not have to pay, yet, as you will be learning about the ways to work, and you will be learing and preparing your selfs for a new working life, in my universe, for some time, and so we have no hurry to have you pay for the resources you use. We can collect the fees, and costs for resources, in the future, when you are a big money earner, once you learn your new work requirements, for sexaling for a living, as that is the only job opportunity open to every one, and the only job opportunity, that you have a choice about.

My working children, though they do have many different jobs, they have basically the same set up, or arrangements as you now will have, and so you will be joining my children, and you will be working, i.e., sexaling, excercising, aerobically dancing, and so forth, in synch, and in rythm, for me, just as all of my children are doing, at least, those of my children who are able to work, and who are bright and intelligent enough to work for me, to keep my universe, healthy, safe, solid, durile, strong, wholesome, and a nice place to live in.

That means, I have a lot of burnouts kids, and rampant, vagarous, dangerous children, who are not really very bright, and they do not work for me, yet, but they will, in time, regardless of the fact that they may at the present, be abominants kids, or not.

As I've mentioned, all my up until now, non working children, are abominants. What does that mean? It means, they do not give a darn about killing another person. They kill for selfish reasons, and for fun and games, and so forth, and you are all guilty of that, though you may not remember that you killed for fun and games, and for selfish reasons, in previous lifes, in my universe, but you all have, and you are all abominants, of varying degrees.

So, welcome to the Gurkian Age of Enlightenment, and welcome to my workforce.

Captain Off The Bridge.

Does anyone know of a website that sells vintage and/or older radio scanners that are known to work. I want to get a desktop radio scanner (already have the Uniden BR330T Portable) but I don't want to pay $100+ for a brand new scanner. Any older scanners that cover 800MHZ non-trunking? Another counties police dispatch uses 800MHZ non-trunking. I don't really care for eBay, because I don't 100% know if I can trust it or not, so I want something from one single person or group like most Internet shopping sites. Hopefully the site accepts money orders also. Thanks for suggestions.

In case anyone wants to flame or get mad, I did search Google and
Froogle.

> Call To Arms, means, you will inspect your weaponry and prepare to do battle. Duty Stations, means, all men and women must assume their duty stations, weapons at the ready. Fire When Ready, means, man or woman your weapons, sight the target, finger the trigger, and fire when ready. Cease Fire Procola, means, continue fireing until the enemy targets are dispatched, and there is no sight of an enemy anywhere on the horizon. Procolas means, after ending all possiblities of any lingering survivors staying alive. It means to wipe them out, and leave no survivors.
>
> This means, it is time to kill all Lesbianists, and all other enemies in my universe, the many groups of naughty kids in my universe, rascaleers and others, and we will continue this fight, untill they are all dead, and in my Epcot Centers, or untill they have surrendered. Rascaleers are evil people who wish only to harm others.

>
> ## When Sexaling
>
> You can use your lips, for example, or your tounge to twiddle the toes of a woman, and the woman begins to orgasm. That twiddleing of your tounge on her toes to help her to erotem, and to experience erotistical orgasming, can be any number of things, depending on the involvement and complexities of dependencies.
>
> Rubbing the vaginal face, the vaginal wall, or rubbing to either side of the vaginal crevice, the labial folds or felates, can help a woman to erotem and erotistically orgasm, and depending on the involvement and complexities of dependencies, the dependencies can be any number of things, if we try to define the sexaling activity more fully and completely.
>
> We'll skip this for now, as it is a little too difficult to remember, right now. Just remember, the primary practice is sexaling, and that sexaling is like the roots of a tree. All other religious practices grow out of the 'roots' of the tree, sexaling, and can be defined in many different ways, such as a helping practice, a side practice, a subsidiary practice, a canceling out practice, an accompanying practice, and there are many many other terms for what kind of practice some thing is, depending on what dependencies are involved.
>
> ## Labia And Felate
>
> What is the difference between a felate and a labia?
>
> A felate is the skin tissue of the outer surface, and some of the tissue of the tips and edges of the labia. It does not include the inner side of the labia, but only the outer side, and the surrounding edges, as far as I can remember.
>
> A verb, or action word, as I call it, is 'felate' as in 'Felate that woman's or girls' left felate'. That means to suckle on the left felate of the woman or girl.
>
> Felate is a verb, but it is also a 'nominal' word, or naming word for objectifying an object.
>
> Do we say 'Labialize that woman's felate!' To labialize something is to make something into a labia. We wouldn't, unless we were a doctor, say that about a felate. But we might say it if we were doctors, and we had a woman who met with a bear, and the bare clawed at her genitals, and the sharp claws ripped her labial skin up, then we might say in a surgeon's room 'Labialize that woman's ripped up labia.' That would mean to stitch it up, and make it nice and neat, and clean and well stitched up, and then useful to her, again, and it would involve a lot of surgery, as many nerves would need to be connected, as they had been ripped apart, and the wiring was all dislocated. But in the end, we would be able to fix her labia, and her genitals, if they were also hurt, and then we could dismiss the patient from the hospital,

> after the labia healed, and after she recovered from her trauma of having her labia shredded by an impolite, rude, mean, uncaring, and hungry bear.
>
> ## Genitals, Titties, The Labia, And The Many Sexaling Organs
>
> The labia is not the genitals, but some people do consider them as a part of the genitals. The genitals are inside the woman's vagina, in my way of thinking. The vaginal wall is not part of the genitals. The vaginal orifice is part of the genitals of a woman. This seems odd, doesn't it. Well, that is how it works, in my brain, and I designed women, as well as men. If you notice, in my writings, I've talked about the draft table, and the throttle. These are major parts of a woman's genitals. They are inside the vagina, and you can reach them through the vaginal orifice. Before you get inside of the vaginal orifice, there are a few things outside, such as a pee tube, and an ejaculate tube, and the clitoris, as well as the labia. These are not part of the genitals, but are working parts of her sexaling organs. A woman's or girls' sexaling organs are not equal to her genitals. Genitals are for baby making, and for other purposes. Titties are not part of the genitals, but they are part of the womans' sexaling organs. This will require a long discussion to clear up, so I will save it for another day.
>
> ## Bears In The Woods
>
> That's the way it happens some times, when women or girls go out into the woods, and sexal with their female friends. They can get hurt by bears, if they are not accompanied by men, who are tough, and strong, and who stay alert, to guard and watch out for dangerous animals, such as bears, wolves, cayotes, bobcats, puma, and even racoons. Racoons do attack humans, if they smell some thing that will taste good to the racoon. If a person has a skin tear, and is bleeding, even a tiny bit, the racoon will smell it, and come running, and then find the person, and so will panthers, and all kinds of animals will come, and it's just like a bunch of sharks and fishes of different kinds, and Moray Eels, they like the smell of blood, and they come and investigate, when they smell it.
>
> Women and girls have periods, and it is not every twenty eight days, as I've explained about before, and blood runs down, out of their vagina, and they generally do not know it, as it is only a tiny drop of blood, or less, most of the time, and the blood is often wiped from the skin surface, when the woman or girl is on the potty, or toilet, and the woman or girl will not even see the tiny drop of blood that comes out of the vagina and drips down the labia, on the inside, and then falls or dribbles down to the felates, and then falls off the felates, while she is on the toilet into the toilet, or while she is out doors, and walking about, onto the earth, if the woman is walking on a park walkway, or bicycle path. If she is wearing underwear, it will not fall onto the earth, but it will dry up on the panties, or underwear, and the smell of the dried blood will attract wild animals if she is out doors, walking or jogging in a wooded or regional or

> rural area, where there are lots of, or even just a few, animals.
>
> Pumas can smell the blood, from miles away, and so can tiny oselots,
> and bears, and many animals can. They can smell blood, because they
> know they need meat to survive. That is built into their brains, that
> are located throughout their bodies, and not only in the skull, and
> animals are very sensitive to the smell of blood, as well as to the
> smell of urine, and to the smell of poop. Some animals, such as
> racoons, will come up from behind a woman, and grasp at her panties,
> as the racoon may smell the odors of fecal matter, from her butthole.
> Men may be raked by the claws of raccoons from behind, as they smell
> the odors of fecal matter, and try to find out more about it, as the
> racoons know that there is something delicious hiding behind those
> odors from the buttholes of women, girls, men, and boys.
>
> Expecate
>
> When women and girls go out hiking, it is best to wash out the vagina,
> first, and then use a fermented oil, as a douching agent. The oil will
> help to slow the flow of the blood down the inner walls of the vagina,
> and it may help to trap the blood, and make it difficult for it to
> leak out, unless the amount of the flow of blood, is very large. In
> that case, it is best to stay home, and not go out, when a large
> amount of blood is expecated from the vagina. Expecated means to
> expell outwardsly. Expectate can also be used, as it is generally the
> same word, that is, and it also has generally the same meaning, but
> perhaps it has a few more uses, maybe, but it is from a variant
> language of the English language, and is basically the same word.
>
> You should expecate your fluids in your vagina, from your vagina,
> before you go out hiking. If you know when your period is, and there
> are ways to tell when you have a period, or when you know when you are
> about to have a period, than if you normally have a large amount of
> blood flow from your vagina, as that has been your experience, it is
> probably best to go and sunbath at the beach, far away from wild
> animals and their habitats, or by the pool side. Racoons sometimes
> come out of the woods, to the shores of beaches, and trumbel along,
> listening and watching, and sniffing the air, when they smell dried
> blood, or wet or moiste blood, inside of the swim suit lining in the
> groinal area.
>
> How Do You Tell When Your Period Is?
>
> To learn when your period is, you need to look into the toilet bowl
> that you pee into, and then see if there is any red droplets. You can
> place a piece of toilet paper onto the surface of the water, and it
> might help to show the redish color mixing with the urine.
>
> Another way is to take a piece of toilet tissue paper, and wipe your
> felates, in the morning, or during the day, or at night. Night is a
> good time, but during the day, it is just as good. Some women like
> night time because they feel the day is finished, and they are now
> going to make a final check. Well, it doesn't always happen the way we

> want things to happen. You might start leaking blood fluids, at two or three or four or five, a.m., or at six, or seven, or eight, or while you are in the shower, or in the bath tub, bathing, before you plan to go out for the day.
>
> It may take you several years for you to find out when your period begins, and when it ends, by checking for blood flow. When you have determined the number of days between one period and the next, and you are absolutely certain of it, and you have confirmed it, many times, and you have checked to see if there might be something you didn't notice, at other times, when you checked, eventually, you'll learn when your blood flow begins, and how long it lasts, and when the next blood flow begins. Once you know, then you can time your excursions to the woods, or to the beach, with your friends, both women and men.
>
> Bears, Wild Animals, And People
>
> Men are needed to help scare bears away, if they come to close, and pepper spray is a good way to get them to leave the area. Bears do not like the small of pepper spray, and you need a cannister of pepper spray that will fire fifty to eighty to one hundred and eighty five feet or more, to scare away a bear, safely.
>
> Loud noises surprise bears, but hungry bears get angry and feel challenged by you, and may come at you at a fast pace, and not stop, once they are angered. If you are a good shot with a rifle, and you see a bear, from a few hundred feet away, and it is moving slowly, towards you, following you, you can shoot it with a good fifty calibur weapon, from that distance, and it will go down, in an instant, if you hit it square in the noggin, about one inch or less above the nose.
>
> You need to be a good shot, and several people should aim, and fire at the same time, to kill the bear, to be sure some one hits it, and then puts it down, and kills it.
>
> Do not think that because you have one rifle, or two handguns, and a rifle, that you are safe. If you do not know how to shoot, and if you are an inexperienced marks woman, or marks man, than your chances of hitting the bear are near zero, for all three of you, at three hundred feed.
>
> You need years of practice to become a good marksmen, and you can start with the lower calbur weapons, to get a feel for weapons that fire projectiles, and that make loud noises.
>
> There is no such thing as a friendly bear, and people think, 'Oh, look! Isn't she cute, that bear.' If they think that way, they might as well have left their last will and testament behind, and signed all their assets over to another person.
>
> Bears are animals that need to eat just as humans do, and just as all animals do. If you are so foolish to think that bears are cute, you are a lame brained idiot. Bears are dangerous animals. And so are all

> wild animals. If you think a racoon is a cute animal, you get the lame brained award for the year award, and trophy to sit on your desk at home to remind you of how stupid you are.
>
> Brad Pitt, And Angelina Joline
>
> Only idiots would think that wild animals, that eat people, are cute. They need remedial training, as they do not understand that their lives are in danger, every time they walk out the door of their home. Even in the cities, there are nasty people, who smile, and pretend they are your friends, and these same people, such as Hillary Clinton, Brad Pitt, Cheryl Davis, a friend of Brad's, but that's his current girl friend, Angelina Jo-line. She is not a Lesbianist, and Brad pretends to be her friend. He likes to watch her get eaten by bears, my abominant kids, when the Lesbianists feed humans, one at a time, to the bears, or to the crocodile abominant children of mine.
>
> Abominant Elephant Kids
>
> I have carniovorus, human being abominant elephant kids, and they are rude, mean, nasty, and really terrible. They scare people, and then they pick them up with their trunk, and place them on their head, and then they tell them not to move, or they will stample on them, or tromp downwards, and crunch them, painfully, from the foot, to the shin, to the thigh, to the pelvis, to the waiste, to the lower tummy, to the mid section, to the chest, and then the neck, and then the head, finally killing them. They will take a person, pull the person up and lift him or her up into the air with his or her trunk, and then pull the person into his or her mouth, and then crumple up the person, and then spit the person out, and the person is all broken up, and chewed up, with all the bones, broken, in the legs, and in the arms, and in the waiste, pelvis, torso, neck and shoulders, and head.
>
> The Lesbianists use lots of these elephants. They are pretty to look at, but they are mean, and nasty. When strangers see them, they think, 'Oh, what a pretty elephant.' They don't know that the elephant is my abominant kid, and can speak English, as many people recently found out near Africa, in Sri Lanka, and then also in New Guinea.
>
> They were very surprised at the talking elephant. But they didn't know that the Lesbianists had let the Elephant, my abominant kid, lose from the cages that they kept him sealed up in. There were one or two, or maybe eight of them, in Sri Lanka, and eight or nine in New Guinea. Lots of people got eaten up, and killed. The elephants are still lose in New Guinea, but in Sri Lanka, they herded them into the pens, and brought them to New Delhi, to then begin a rampage in New Delhi.
>
> Well, the Lesbianists are doing this, daily, because they feel they have lost this battle, and that they are just wasting time, doing nothing, as they can not get to me. So they want to have a lot of fun. Now they are releasing lots of my abominant kids, in many places, and in New Delhi, Bombay, Sri Lanka, and New Guinea, many people have been hurt and killed by these idiot kids, these abominant elephant kids of

> mine. The Lesbianists have thousands of animals they want to release, out into the public, in England, in Switzerland, Georgia, South Carolina, Paris, and many other places.
>
> The Lesbianists think they are going to have a lot of laughs watching the abomniant kids of mine, tear people up, and rip them to shreds. They also think that the animals, who are not abominant kids, but are just bizarre animals, that catch people in very large, nets, that have threads as thick as ropes, and that are very sticky, are going to do a lot of wierd and crazy things, no one here on this planet, other than them, have seen. They think they are going to get a lot of laughs when they see the mayhem and havoc, the disruption to society, and frustration on the faces of people who get caught in the nets, and then turned into living mummies sealed up in a type of pulpyish paper so the person can slowly disolve, but stay alive, for up to a year or more. Maybe as long as ten to thirty years, in some cases, and I'm not kidding.
>
> You may think I'm kidding, but I'm not. This began a few days ago, and the Lesbianists are intent on continuing this, for the next few years. Isn't that surprising. I never expected that. They are very strange people, aren't they. They are real sicko's aren't they.
>
> I think you should all go and meet my kids, with a day pass, and ask them about it. Other wise, you might find your self in a very large spider's web.
>
> Labiating A Labia
>
> To labiate is to suckle the labia, and to take one or the other of the labia into the mouth, and tickle it with the tounge, or twist it gently with the lips.
>
> 'Labiate that woman's left labia!' 'Felate that womans left felate!' The difference is, labiating is to suckle the entire left labia, inside or under the edge of it, on the inner side, and the edge of it, and the outside of it.
>
> Felateing the felate, is to suckle the edge of the labia, the upper exposed edge. It does not include the labia, in its entirety. Only the upper, protruding skywards, or in which ever direction it is pointing, that portion of it that is extending outwards. If you lift it up between your finger tips, you'll pull up on the entire structure revealing the underside, or the unexposed underside of the labia. There is also the outer side of the labia.
>
> The Felate is the top tip edge of the labia, generally speaking, and it is itself an isolated system, and not part of the labia. It's connected to the labia, but it serves a different function. It droops downwards, to seal out the possiblity of any thing entering the vagina from below, in an upwards moving manner. Bugs can not fly up into the vagina, as the felates prevent them from flying up into it. Without the felates, the vagina would be unprotected. The labia would not

> protect the vagina, as the labia is merely the skin tissue mass that
> the felates are attached to, and in an instance of removing a felate
> from a cadaver, or dead body of a woman, or girl, once the felate is
> removed, the labia have no closure over the vagina, in most women and
> girls.
>
> There are exceptions, as we've had many animals in our heritage line.
> There are many differences when we line up ten women, and inspect
> their vagina, their felates, and labia, their bumbey pack, as children
> are encouraged to call the lower hanging sexual organ of the vaginal
> cape, as it is also called by doctors.
>
> On this planet, the bumbey pack may not be called a vaginal cape, with
> the inferior texts with unadvanced, primitive, witch doctor level
> sexual sciences that do not help any one along, such we find with the
> myth that women and girls have a period every twenty eight days.
>
> That is total nonsense, as I've explained about it, before. The truth
> is, every few days, to every eight to fifteen days, to even eighteen
> days, or evern thirty two or fifty five days, depending on where the
> woman has grown up and where her ancestors have grown up, the number
> of days between one period and another period can be very dissimilar,
> from one woman to another woman. Some women have a period every two or
> three days, or even every day. There is no reason an ovary can not
> fall, every day, several times a day.
>
> An ovary is so small, no one can see it, without special optical
> technologies, such as pass through see through technologies, and other
> optics, and other videoing technologies. A microscope is an out moded,
> ancient, and novel device, fit for only museum use on display shelfs.
> It's like an old car of the twenties, or there abouts, or even
> earlier, of course, depending on how sophisticated it gets. Micron
> microscopes, the so called, 'electron' microscopes, are a misnomer to
> begin with, as an 'electron' is not a fictious concept, but no one
> knows what an electron is, generally speaking except for the
> Lesbinists.
>
> An electron is a small bit of electrically heated plasma, that you can
> heat, with the right technologies. It can fit on the tip of a pencil
> or pen. This is a big joke to the Lesbianists, as are also their jokes
> about protons, and neutrons, and nuclei, or the so called combined
> nucleus, as in 'nuclear' family. Nuclear family, is not a 'tight'
> organization of two persons, and their children.
>
> A nuclear family is a family that has been nuclearized, that is,
> exposed to radiological salts kiddies, and their radiative or
> radiological energies. That's another one of the Lesbianists' jokes on
> all of the scientists who the Lesbianists could get to swallow it.
>
> What Causes A So-Called "Nuclear' Explosion Or Detonation?
>
> A vast number of children are making babies at a very high rate of
> speed, and the energies that they give off, as they make babies, and

> then peel off from the area where they made their babies, one after another, as they rocket away, is what causes a nuclear blast. The tummy mommies and tummy daddies are making babies at such a frantic pace, they make millions and billions, and trillions, and more, before you can even send a signal to your eye lid to blink, from your brain part that sends the signal out. The signal will travel just a very short distance across a crupture, not even half way, more like, one or two feet in distance, if we are to look at the size of a crupture as the same size as our current universe. It travels about not even one foot, not even one inch, and not even one millimeter, and not even one millionth of a millimeter, and far smaller than that still, before the parents are already through making babies, and they have retired, and passed on, and several kabillion generations of families, and multiply that by a very large number, and you'll get how many generations of families lived and died, and passed on their DNA to their sons and daughters.
>
> It's a hail storm of erupting magnitude when the tummy mommies and tummy daddies begin making babies, and making their families larger.
>
> It all happens so rapidly, with more than that number of successive generations of families, in less time than the energy pulse will travel down an optic nerve, across a crupture, that very minute or very tiny distance, as I stated above.
>
> That kind of frenetic baby making activity, makes for a lot of heat, as well as, it generates a lot of stresses, and a lot of energies go flying off in all directions, as the sexaling couples experience many nice orgasms and eroticisims, together. Temperatures, their body temperatures, collectively, and the incredibly vast number of movements, which also generate temperatures, by the animals, the tummy mommies, tummy daddies, tummy babies, the relatives, and the many generations of families, go skyrocketing, and the magnitude of numbers, and the intensity of all the activities the animals are busy with, as they make tummy babies, simultaneously, or nearly simultaneously, is of phenomenal proportions. There are also types of animals that we are not familiar with, who are also busy making babies, and they help to account for the brilliance of the light that is generated, along with other types of animals, that also help to account for the brilliance and light, as they are busy baby making, too. There are energies kids of all kinds busy making babies, and that is also a major important factor in the overall sequences of activities, to successful birthing by all the tummy mommies, and it is also important to help to get them all 'gyrated' or motivated, and to wake every one up from their slumber, or their condition of deep sleep, or stagnassis, to get them feeling alive, ready, and able for making lots of babies.
>
> If we slow them all down, to our pace, and then compare them to our pace of life, they would be just like us, and things would move slowly for them, and not much would change, for many kazillions plus years, and then many, many more years.
>

> However, they are moving so much faster than we are, and the length of time they live, to them, it is a long time, four or five, or eight or nine hundred years, in our time, maybe, in some cases, depending on the type of radiological salts kiddies and other types of animals, including the energies animals, who are all making babies.
>
> On their scale or pace of life, they live that long. But on our scale, the length of time they live, is so tiny, we can not measure it, unless we have a very high level of advanced mathmatics that can account for such a small time period, or span of life.
>
> Anyway, the frenetic adventures of the colonies of radiological animals, when they start to make babies, after they are woken up, and prompted to make babies, with a detonating surge of heat energies, light wave energies, pressures energies, trampolining energies, zespertudial energies, castikilial energies kiddies, and other types of energies kiddies, as well, which help get them all started, with the right combination, of heat, light, atmospheric temperatures, atmospheric pressures, food sources avaiability, drinking water availablity, trampolining energies, and a number of other types of energies, that awaken them, and then get them turned on, and sexaly active, they will suddenly erupt into a frenetic, mass of baby making furor, to us, any way, and with that, we have our so called, 'nuclear' detonation.
>
> ### Cleansing Your Self With Your 'Built-In' And 'Attached', Cleansing And Washing, Clearifying And Erasing Energies Producing Genitals And Sexaling Systems, Eroteming And Orgasming Nervous Systems, And Baby Making Related Purifying Energies Generation Stations Aparati, Or Apparatuses, And Armatures
>
> You women and girls, your vagina is your Holy instrument for assisting you to cleanse your self, and wash away the dirt and grime of daily living, the insults to you from strangers, the verbal abuse you experience in your arguments and conversations with friends and family, neighbors, relatives, work associates, and community acquaintances.
>
> Your holy body, and your normal body are weapons to fight back against all the negativities you experience in your life, as you orgasm and erotem, showering off purifying energies, and lots of other beautiful other things and dings, as you vibrate your entire body concordially, in harmonic rythym, cadence, and rapture, while orgasming, in sequence and in timed rythym, with my GODLY Holy Body and many of its features, or parts, that are similar to your holy body and your holy body's parts and features. These are all activated while you are orgasming, and eroteming, and you become purer and holier, the longer you orgasm and erotem, and convulse, orgasmically.
>
> Your breasts, your butty butt, your butty butt hole, your vaginal hole, your groin, your throes, your vaginal cleavage or labial folds as they are called here by these nitwittish doctors on this planet, who do not know any thing about the human body, your chest, your back,

> your legs, your arms, your hands and fingers, your ankles, feet, and toes, your ears, lips, mouth, tounge, cheek, your rectal cavity, your tummy button, your stomach, throat, your brains, and you have many more than just one in your body, but many millions and more of them in your body, and that is not an overstatement, and every part of your body, inside and out, your many nervous systems and all your organs, they are all set to orgasm and erotem, and generate purifying energies with the help of the power company, as I've explained about them, before.
>
> Men and boys, and their bodies, both their normal bodies and their holy bodies work in the same way, and there is no disparity, when it comes to sexaling, orgasming, and eroteming, and showering off lots of wonderful energies, that purify men and boys, and the people who the men and boys are sexaling with.
>
> ### Ticklement Tuning Forks
>
> You have ticklements, tuners, or pitch fork tuning forks, that chime, in every cubic millimeter to every cubic inch, and in even tinier places, you have tinier ticklements, or tuning forks, and in larger areas, you have larger ticklements, or tuning forks, and they are all set to vibrate in various patterns of sexual thrilling eroticisms, and orgasming ecstacies, as you pump up the levels of sexalating energies you have available to you, in you, and showering off from you, and those patterns and focal points change, slightly, minutely, as every micro second goes by, as we change our location in our universe, and our relative location or position to every thing else in our universe changes, from night to day, and from day to night, ongoingly, non-stopingly, never repeating the same set of tuning focal patterns. Focal patterns are frequencies.
>
> ### Focal Patterns
>
> These frequencies, or harmonic consistencies, are harmonic displays or the 'in rythm' with GOD, consistencies that allow you to be united with GOD, me, my devine and holy body, and my devine and holy mind, and my being or GOD SELF and GOD BEING, every moment, as you are orgasming, and eroteming, and convulsing orgasmically.
>
> Men and boys have the same kinds ticklements, or tuning forks, and they are located in every organ of their bodies, too, just as they are in women's bodies and in girls' bodies, in every single organ and cell, and they allow all of you children of mine to stay in frequency with me, as you sexalate, erotem, and orgasm, and convulse orgasmically, practicing my religion, and as you sexal together with each other, and go about living your daily lives.
>
> These many ticklements and tuning forks are all connected to your brains and to your nervous systems, and each living being in your body, has them as well, and every living being, and animal, has them as well.
>
>

> All my children, animals, living beings, and human beings, are all connected to me, through these tuning forks, and they are connected to me in many ways, such as through the holy bodies all of my children have inside of them, and also through a myriad of other mechanisms that I have functioning in your bodies, in your astral 'energy' bodies, and the many millions of energies bodies each of you have in you that help to keep you all connected to me and my Holy GODLYNESS existence. My animals children and living beings childrens have fewer connectivities and fewer energies bodies, as they do not need as many as my human being daughters and sons. This is because you, my human being children, need to be more connected to me, as you are the only ones who can actively sexal and practice my religion, with your own self determination, and desire to sexal and practice, to become closer to me, GOD, as you become purer, and holyer.
>
> I'm connected to all of you, day and night, three hundred sixty five days a year, in countless many fold untold numbers of ways and manners, and with countless many fold untold numbers of mechanisms. All of my children are likewise connected to me, in similar ways and manners, and with similar mechanisms, though the numbers and types of mechanisms may be different among my living beings children, and my animals children, compared to my human being children.
>
> As you women, girls, men, and boys sexually rapture, erotem, orgasm, convulse orgasmically, and reach sexual peaks, and then sustain them, you grow holyer, as you become purer, brillianter, and closer in GODLYNESS to ME, GOD.
>
> Obviously, then, the primary means for you to grow pure and holy is to sexal together with each other as sexaling is the basic way to become pure and holy, and as you continue, over the days, and weeks, then months, years, decades, hundreds of years, thousands of years, millions of years, and more, you slowly grow more pure and holy, and closer to me, GOD.
>
> Sexaling is my primary and most fundamental religious practice and your primary religious practice for you to become cleansing machines, washing machines, purifying and sanitizing machines, so that you can clearify and erase your karmic markups, and purify your lives, and purify the lives of those around you, with your selfless actions of grace and serenity, sexaling and showering purifying energies in all directions for the sake of your self, and for the sake of others.
>
> You women and girls need men and boys to assist you to become the powerful cleansing and purifying machines that you are capable of becoming.
>
> Men and boys used to be somewhat nearly as useful as purifying and cleansing machines, as women and girls, but men and boys have different jobs, and different priorities, and there fore, the burden of work to purify my universe, and to clearify the karmic markups of all my children rests on the shoulders of all women and girls, with men and boys assisting women and girls.

>
> You men and boys need women and girls to lead you, and to help you to
> become more proficient, powerful, and more capable cleansing, washing,
> purifying, and sanitizing machines.
>
> Assistive Religious Practices
>
> The practice of praying Nam Myeo Ho Ren Ge Kyeo is an assistive
> practice that allows you to become in touch with my GOD SELF, equally
> as well, but the time it takes, is much longer, as very little
> purifying energies are produced, merely by using your brain, muscles,
> ligaments, sinews, bones, mouths, tounges, and jaws, as energies
> sources.
>
> There are many other assistive practices, from meditation, to
> breathing techniques, to yogic techniques, to ballet like techniques,
> to dance techniques, to body movements of various kinds, to help you
> to increase and or also store up your energies, and then for you to
> release them, for you to then become more firmly and closely connected
> to ME so that you can eventually begin to gain a higher appreciation
> of ME, GOD.
>
> My many religions teach many ways to do this, and before my many
> religions were corrupted by the Lesbianists, they worked to varying
> degrees of success.
>
> Therefore, sexaling is the primary fundamental religious practice, and
> all other practices in my religions that I've taught over time,
> spanning all of my previous teachings from the begining of our time
> together, since I, my GOD SELF, created you as my children, are
> assistive practices, of one kind or another.
>
> Sexaling, eroteming, orgasming, phlumetting are important practices,
> and as you orgasm, you are purifying your self, and others by pushing
> out and spraying your self with purifying energies as your holy and
> sacred energies shoot out to cover you and emmerse you in full body
> coverage, from head to toe, showering and shattering energies every
> where around you. They then build up and cover over all others who are
> around you, as well, with your purifying erototistic and orgasotistic
> purifying energies, clearifying yours and their karmic markups.
>
> Astral traveling is another type of practice, but we'll define it,
> another time. Experiencing hyper trance states of mind and being, and
> a nearness to GODLYNESS are also a practice, and we'll define it, when
> I can remember every thing I need to remember about it.
>
> Participating in my religious ceremonies is an assistive religious
> practice you can enjoy, as you become purer and holyer, and after you
> recognize that I am your Mother and Father, and your CREATOR, and that
> you exist because of me, as I made you from pieces and parts of me,
> your CREATOR.
>
> After you realize this, you can enjoy participation in ceremonies with

> me, as training priestesses and priests, and you can make your way up the purity ladder, the more you participate with me, GOD, in my religious prayer hand signaling ceremonies.
>
> Praying Nam Myeo Ho Ren Ge Kyeo to my Holy Body, or to the Gurkian Mandala, as I've explained about, is an assistive practice that will bring results.
>
> It will not bring results as well and as effectively and as quickly, as sexaling, which is the most holy and virtuous practice, along with eroteming, orgasming, phlumetting, astral traveling, peaking, and so on.
>
> I've spoken about peaking, before, and women and girls can peak, and experience wonderful feelings. Men and boys can peak and experience wonderful feelings, too, but I haven't discussed that, yet. We'll talk about that, another time.
>
> In any case, do not confuse assistive practices, with the fundamental and primary practice of sexaling. We'll get back to all those other things, to define them, betterly, another time, after my brain heals, a little bit more, and after I erase more karmic markups that keep my brain karma from improving, fast enough for me.
>
> ### How To Make Prayer Statements
>
> Remember to include a prayer statement, such as 'I pray to the holy ephemeral body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', such as, '... for the serenity of mind, and the gratefulness of heart, for all those around me, who have helped me to become the person I am, and can become.' or, '... for the peace of mind, and serenity of heart, for the love of all men and boys, and the cooperation of all women and girls.' These prayers said by a woman or girl. Men can pray, similarly, '... for the grace and deviness of the women and girls who surround me, I am greatful to them, and I pray for their continued good health, and prosperity'.
>
> You can also say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', but only when I am in the middle of a religious hand signaling prayer ceremony, i.e., while I am doing a prayer ceremony, and saying my prayers with religious holy hand prayer signals that my special kids who are religious kids, can pick up and then act on, in concert with other groups of kids of mine, who also are religious kids, most of them, I think, and who work together with my primary groups of religious kids.
>
> I have lots of kids, and some are normal kids, who go about their jobs, as expected, for earnings, just as most people we know. But I also have lots of other groups of children, who are more, religiously oriented, to varying degrees, and who are very religious as their work is all for the sake of my religious self, my GOD SELF. My religous kids catch my hand signing, and then they pass the messages along to others of my groups of children, and with all of the different groups

> of children I have doing 'good' works for me, as well as groups of
> children who do 'religious' works for me, as well as groups of
> children doing normal work for me, but for the sake of my religion,
> nevertheless.
>
> They all coordinate themselves, somehow, I have yet to figure out how
> they do it, but between them all, they get the jobs done, that I ask
> them to do, while I am religiously - and the prayer statements I am
> signing are very holy - hand prayer signaling, i.e., hand signing.
>
> So, unless you know for a fact, by seeing me on a tv, such as during a
> live broadcast, once I get my religious conveyance set up, and built
> by my children, after all the conditions are met, for securing this
> world from the grasps of the Lesbianists, and after killing all the
> Lesbianists, and / or after making the remaining Lesbianists
> surrender, and then after all other conditions are met, as I don't
> know all the conditions, I've set, as my memories are still foggy, as
> I'm amnesiatic, as well as mentally retarded, but in any case, if you
> see me on tv, on a live broadcast, doing my hand signing, you'll know
> I'm in the middle of one of my prayers, and then you can say, 'I pray
> to the holy body of the Creator, John Francis Ayres, for the [ insert
> private prayer statement ]', and you can omit the 'ephemeral' if you
> like, as it will work better if you omit the word 'ephemeral' as while
> I'm praying, I'm my normal, GOD, self, though I may not look to you,
> on the surface, to be any different, over the video links, or even in
> person. It never the less works better if you use my recommended
> methods of making prayer statements, this way, for you to maximize
> your private prayer statements.
>
> All of my groups of kids have lots of friends, and they do lots of
> work for me, and I do not remember how many groups of them there are,
> and how many children I"ve got, as yet, but in time, I'll be able to
> give you a better idea of how they work together to get the work done,
> that I ask them to do for me, with my religious hand prayer signals,
> or hand signals, as in hand signing, or signing.
>
> My kids use signing for all their work assignments, so I use hand
> signing that they can catch, pick up and read, and it is all pretty
> much very religious in nature, and it is very solemn, as I am GOD, and
> when I'm signing, they know I'm GOD, and do not doubt it.
>
> When I am not signing, they might now and then, doubt that I am GOD,
> but never the less, I am GOD, and my signing proves it to them - when
> I am saying my religous hand prayer statements, by hand signing - with
> out any room for doubts in their minds.
>
> In other words, I'm a typical person, just a little mentally retarded,
> brain smattered, or brain damaged, after my many youthful and other
> brain bashings I recieved, the wiring is a little scrambled up,
> upstairs, and after many poisonings by the Lesbianists - from makeing
> coffee from kerosene, diesel fuel, gasoline, and motor oil
> contaminated coffee beans and then from drinking that coffee, without
> knowing it was contaminated with petrol fluids, as often happens to

> people - and with ill health karma that has me on disability, and I've been through a lot, life after life, and sometimes, my children may have had a thought or two, 'I wonder, if he is going to make it, like he said he would?'
>
> Well, to dispel all doubts, I sign, and when I'm signing, I remind them of my old self, back in the old days, when I used to sign, religiously, and they know how serious a guy I was, so they do not harbor any doubts, so long as I am hand signing.
>
> What To Say, When You See Me Using My Dick Or Other Parts Of My Body To Purify Others, And So Forth
>
> You can say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', also while you see me praying, Nam Myeo Ho Ren Ge Kyeo, or also while you see me in a ceremony, using my dick and scrotum, or other parts of my Holy Body to purify others, during the middle of a prayer ceremony, and I need not be hand signing, or praying Nam Myeo Ho Ren Ge Kyeo, as I am in the middle of prayers and activities ceremony, which is just as good as a religious hand prayer signaling ceresony, any day.
>
> My dick and scrotum package is very Holy, and it has a very useful function, and that is, it purifying others. My lips do, too, and my butt hole, does as well. They all purify others very effectively and efficiently during my religious ceremonies.
>
> My entire body, during a religious ceremony, butt hole, mouthal hole, lips, tounge, cheeks, legs, knees, feet, toes, butt, chest, back, arms, elbows, hands, fingers, head, neck, throat, ears, nose, and so forth, is entirely the body of GOD, as I am GOD, and therefore, while I am useing my body, during my religious ceremonies, and for my religious ceremonies, and you see me on tv doing so, then after you have verified that I am in the middle of a prayer ceremony, you can say your private prayer, in the manner as I've explained, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]'.
>
> I only use my dick and scrotum package for prayer ceremonies, except when I need to pee, so if you see that I am using it, during a prayer ceremony, or if you see me using any other part of my Holy Body, during a live broadcast prayer ceremony, then you'll know right away, that I am in the middle of a prayer ceremony and it is okay to use the statement, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]'.
>
> The same is true, pretty much, for any priestess or priest, who practices with me, in my religious holy body prayer circle, their bodies become very Pure, Holy, and Devine, but only after many life periods, that is, after many, many aeons, as they do not attain the same level of purity for a while, the same level of purity as I am at by my good old self, or the same level of pureness that is of ME, GOD, since I'm GOD, and they are not.

> That means, it takes priestesses and priests longer to become pure, holy, and devine. I happen to be pure, holy, and devine, but that's because I'm GOD, and it is only during my religious ceremonies that you can understand that as you make your prayer statements, and sexal, etc.
>
> After a long, long while, priestesses and priests will also become pure, holy, and devine, as their holy bodies, energies bodies that are pure, holy, and devine, but on a lower scale than are MY energies bodies, since I'm GOD, and I'm in charge of keeping things tied together, here in my universe.
>
> After many aeons plus years of practice in my holy body praryer circle, the priestesses and priests become pure, holy, and devine, and then their bodies, their normal bodies, become very purifying, just as mine is, now, when I am in a prayer ceremony. I am in a prayer ceremony, daily, a few times, to a number of times, a day.
>
> I've gone eighteen hours straight, once, and no sooner than I go to sleep, and then wakup, right away, I begin again, and I've gone many days, straight, praying, continuously, non-stop.
>
> This is nothing, though, and is all preparatory, as in the future, when I get my health back, as I haven't been too healthy, for quite some time, I will be praying around the clock, some days, and for many days at a time, taking a break only to eat, drink, poop, pee, and clean up.
>
> When priestesses and priests join with me, we will go for years without stopping, and with the priestesses, and with the priests, the both of them there, present, doing the prayer ceremony on my behalf, they can represent me, while I take a nap, go and shower, get some food, nourish myself, drink some fluids, read a book or news paper, or watch the news, or a movie, game show, video, or play a video game, and so forth. I won't be taking long breaks, and that is very funny sounding, but anyway, it happens that priestesses and priests will lose their attention, and then get lost, somehow, and then go and watch tv in their bed room, or whatever, and then we have to go and look for them, and they will get a few markoffs, and with enough markoffs, they will be asked to leave the religious conveyance, and they will be put on a type of vrobatiton, or under survielance, to see if they are good or not. My kids do all my survielance work, and they keep track of every one, so 'you'd better be good, you'd better be nice, you'd better look smart I'm telling you why, Santa Clause is coming, to town'.
>
> Who Was Kris Kringle?
>
> Did you know that Kris Kringle got its start from me? What a coincidence. I don't think he was wearing anything, though, or rather, I don't think I was wearing any thing, but you never know, as tolerances have changed over the long aeons of time, as they pass.

>
> When priests and priestesses become that pure, holy, and devine, as
> pure, holy, and devine as I am, after their many aeons of religious
> practice in my holy body prayer circle - pure and devine on the exact
> same level as I am at - then they can represent me, as Mr. mini-GOD,
> and Mrs. mini-GOD.
>
> You can not represent me as Kris Kringle, and whoever my wife was,
> back then. I think I had a lot of guys on that team, and a lot of
> women and girls, too, since sexaling was a part of that religion, too.
> You can learn more about it, if you're interested, by getting a day
> pass, and checking in with my kids, and then, signing up and joining
> our country, and then by becomeing a citizen, as I've spoken about,
> before.
>
> You can include any good prayer, that comes to mind, that you feel is
> needed by you, to improve your life, and to level up your life.
>
> You are the only ones who can pray, and practice, you women, girls,
> men, and boys, and there fore you are connected to me in many more
> ways than other living beings, the animals, and the amoebes, cells,
> and other living beings.
>
> There fore, you are, both genders, the ones who will clean up the mess
> you have made, and you will continue to keep my universe clean, as you
> sexal with your genitals, and with your bodies, and with all your
> gizmos, igniters, trigger mechanisms, love bumps, love patches, tuning
> forks or ticklements, and so forth, as you are sexaling beings, who I,
> GOD, created, and you will sexalate, erotem, orgasm, phlumett, astral
> travel, peak, hyper tranceate, and so forth, just as I intended you
> to, from now till forever.
>
> You will become virtuous and worthyable beings, worthyable tummy
> mommies, and worthyable tummy daddies, with your practice of my
> religion, who will bring into my universe, my many children who will
> join with you, and assist you and me, in cleaning up our universe, and
> the mess you have all made of it.
>
> Is that understood? The answer had better be, "YES SIR!".
>
> Lesbianists' Torment Campaign Under Way
>
> Lesbianists are clearly releaseing wierd, ghastly, horrible, and
> dangerous preditorial animals, giant insects, giant spiders, giant
> lizards, snakes, and reptiles, ghastly, preditorial sea animals and
> sea mammals, winged, preditorial and horrific, aggressive scavenger
> and killer buzzard like creatures and other winged and destructive
> animals, and other horrible creatures, as well as my abominant kids to
> kill, maime, torture, and cause major disruptions and suffering to
> people, around the globe, in many locations.
>
> Apparently, the whole world is now affected, or will be affected, by
> this dischordance and disharmonic display of defeated lunacy.

>
> The peace has been shattered by the Lesbianists. It was not good
> before, the situation in the world, with the balooneying governments
> of the world, doing what they wanted to do, and torturing, and
> canabalizing people, and feeding people to my abominant cave bears
> kids, and to my crocodile people kids, and mistreating people, like
> Bill Gates, Steve Hawkins, Steve Irwin, many women, young girls, and
> men.
>
> The war in Iraq, the phoney Saddam Hussein Trials, and all the bogus
> manipulation of the press and media, and the suppression of what is
> actually the case, with our being used and abused, poisoned, and
> maltreated by the Lesbianists, was a rotten situation. That was
> normal, or normality for us. Our karma is very poor, and we have the
> karma to suffer this abuse, and these torments, daily, unknowingly, in
> most if not nearly all cases.
>
> But, it is becomeing really bad and there is need for serious concern,
> and action, to correct this situation. It has gotten out of hand,
> completely, and there is no stopping the Lesbianists in their wanton,
> and coldly miserable wish and lust for chaos and disturbances to
> others.
>
> Now, more clearly than ever, as the Lesbianists rampage, the
> Lesbianists are causing major disruptions, suffering, anguish, and
> there is just an awful discordance of shock, dismay, and misery, that
> is growing, every moment. This is as real as the sunlight shining from
> the sun on a hot day in summer.
>
> I don't have a clue what people are doing, and what is happening to
> them, as they are captured, tortured, and caused miserable sufferings,
> in many places. There must be horrible agony for many people, at this
> moment, and as each moment passes.
>
> Our reality as it was has suddenly been shattered and torn up, and
> replaced with the lunacidal, Lesbianistic, mayhem and chaos.
>
> Reuters reports a Lesbianists' joke for the Lesbianists, sarcastically
> and ironicly stateing, "New Perils Push Doomsday Clock Closer to
> Midnight" "(Reuters) Scientists have advanced the clock 2 minutes
> closer to midnight."
>
>

>
> This is their private joke, to make this scenario more laugable than
> before for them. They could not care less, as they are manipulating
> every thing, and that statement is completely meaningless to them, as
> they are in control of every thing, in their conspiritorial lunacy to
> rule human beings, and to trash every one.
>

> We'll see what the coming days, weeks, months, and years bring, and
> maybe there will be hope for change, when people begin to take action,
> to correct this situation, globally, united in spirit, permanently.
>
> These are the most evil of evil people and abominant kids, in our
> immediate vicinity in our universe. We must begin our cleanup campaign
> here, as it begins where I am, and will continue from here on out,
> till we have rid my universe of all of these horrible people, and all
> others like them, and have made them surrender, or have sent them on
> to my Epcot Center.
>
> I will establish my relgion in my universe, and begin my ministry, and
> they are not going to stop me, as my religion will bring positive
> change for all of us, forever.
>
> I must establish myself outside the bounds of this Lesbianistic
> society, so your efforts and concern for our future, and your selfless
> giving of donations to my ministry, to allow me to set up my ministry,
> outside the bounds of this Lesbianistic society, non-dependent on
> Welfare, Supplemental Security Income or SSI, Medicaid, and non-
> reliant on the supported and financed Housing and Urban Developement
> or HUD subsidized apartment that I live in.
>
> Once I receive in the mail, the 'Gift' donations to set up my ministry
> outside the bounds of this society, I believe things will gradually
> begin to positively change for us all, and the shift to positivity
> will begin, and a new universe for us all, will become for the first
> time, ever, a potential reality with the sincere religious practice by
> all of my followers, all of you, who are practicing my religion,
> diligently, and daily, or as much as your health and your time
> permits.
>
> There in, with your efforts to practice, will bloom your flowers of
> dignity and hope, justice and freedom, willingness for sharing,
> cooperating, and participating with others in our new age of
> enlightenment, the Gurkian Age, and your new found respect for self
> and others.

> It Is Now Time To Kill All Government Workers, Public Workers,
> Preachers, Islamic Clerics, Christian Bible Teachers, Bible Thumpers,
> And All Other Persons Who Support The Lesbianists And Their
> Lesbianistic Societies Around The World - 'Fivers' To Kill Lesbianists
> And All The Lesbianists' Supporters - Coma Patients - All Persons Who
> You Kill Will Transel To My Epcot Center - Japanese And List Keeping -
> Surrendering And Pledging To Serve All People In My Universe - What
> Does This Mean? Updated: 21-01-07 Rev.d.01.a 19:56 PST

>
> It is now time to kill all police of every police department in every country in the world. It is now time to kill all jail and prison workers in every country in the world. It is now time to kill all zoo keepers who work in zoos and other related places around the world. It is also time to kill all pet store personel, and pet store owners. We do not need people housing and feeding potentially dangerous animals. You are further ordered to kill all pets in all pet stores, and elsewhere, even in private homes. You may then eat them, after you have cleaned out their guts and removed tummy foods and rectal feces, etc., that are decaying matter, that is harmful to your health, and after you have prepared them for eating by cooking, grilling, fire place cooking, barbecuing, smoke house fermenting, or by other safe and sanitary, healthful cooking methods.
>
> It is also time to kill every fire department official or worker, no matter what capacity the person works in, as a fire truck driver, as an ambulance driver, as an assistant driver, as an attendant or support crew person, as a maintenance man of the fire or the police departement, it is now time to kill them all.
>
> Further, it is time to kill all public bus drivers, who work on any metropolitan or local area or state or interstate, or national bus company. It is time to kill all ships' captains and their crew members. It is time to kill all railroad rail line workers. It is time to kill all subway drivers and subway line workers, no matter what their job is.
>
> Further, it is now time to kill all military personel, SWAT team personel, all government personel, and all civilian, or trained military, national guard, state or federal militia, toy soldiers, the people who dress up in old time war regalia, and outfits pretending they are old time, earlier period, confederate soldiers, or old time earlier period, union soldiers, who act out old time North the 'Union' vs. South the 'Confederates' and who participate in city and town parades, across the United States.
>
> It is now time to kill all retired military personel who support the deranged, crazed, insepient, and corrupted Lesbianistic societies we live in, around the world. It is also now time to kill all persons who in any way support the governments of the world, including but not limited to, all school, university, kindergarden, missionary, day care center workers, nursery school teachers, teachers aids or teachers assistants, United Nations workers, United Nations teachers, substitute teachers, catholic school teachers, Irish protestant school teachers, parochial school teachers, all religious denominations around the world school teachers and their school support workers, government funded school teachers, tuition assistance by the government school teachers, all personel who work for the United Nations, all civil service agents, all DEA agents, all FBI agents, all FDA agents, all EPA agents, and workers, BLM agents who are Lesbianists as well as those BLM agents' who are Lesbianists as well as those friends of theirs, who support the Lesbianists.

>
> It is also time to kill all other federal, state, or local, or globally tasked organizations, such as the CIA workers, INTERPOL workers, the several groups of workers within the Canadian Mounties, NIC a spy department of the U.S. Navy, the Korean C.I.A., the United States Presidential Police agents the Secret Service Agents, National Park Rangers, State Park Rangers, Forestry Service workers, Pentagon workers, National Library Of Congress workers, and all others who work in any capacity supporting any government organization, those listed above, and all others, as well as all persons who support the Lesbianists in any way at all.
>
> It is now time to kill all judges, bailiffs, Supreme Court Justices, and the employees who work in their organizations, and all other judges, legal clerks, para legal workers, court stenographers, justices of the peace, lawyers, attorneys, state attornys, prosecuting attornys, defense attornys. It is time to kill all officials of all government organizations, and all the people who work for them and or even only support them, such as restaraunt workers who feed them lunch, coffee shop workers and owners who feed them coffee and food, bars and restaraunt personel and owners of bars and restaraunts who support and feed any and all persons connected to the governments of the world and who work for them in any capacity at all.
>
> It is also time to kill all the money lenders who loan money to the Lesbianists, the mortgage company owners who provide the Lesbianists with house purchasing loans, and all the supermarket workers and supermarket owners, who supply food to the Lesbianists, as well as all of the druggists, the pharmacy workers, who supply medicines to the Lesbianists. It is time to kill all the taxi cab drivers who give rides to the Lesbianists, and to every person who supports the Lesbianists in any way, at all, unless those people surrender to my kids.
>
> It is also now time to kill all civilian or civil servant or state civil servant worker who supports in any way, any Lesbianistic organization, such as the police departments, federal agencies, fire departments, libraries, schools, and so forth. It is also now time to kill all persons who maintain or provide services to any of the above listed organizations, and to all of the similar organizations in every country in the world.
>
> This is my order to all of you, and you are all ordered, by me, GOd/GOD, to kill all of them, unless they surrender. People also call me, 'Allah'. I'm the same person. Just do as I tell you.
>
> You are to take my fuels' bombs with chlorine plastics' explosives formulas, and all other explosives formulas I've explained about on my bulletin board and the fuels' bombs explosives formulas including but not limited to radiological 'fracturable' rocks that provide so-called 'nuclear' explosions, all of my bombs' formulas, and all other bombs' formulas derived in part or in whole from what we have learned as I've explained on my bulletin board and to take them, and make the bombs

> and explosives, and to then use them, and then destroy and kill all of the Lesbianists, and all of the Lesbianists military bases, buildings, and kill every last one of them, all of them, leaving no one alive.
>
> ## 'Fivers' To Kill Lesbianists And All The Lesbianists' Supporters
>
> You are to then make certain they are all dead. If they are not dead, you are to kill them with a 'fiver'. A 'fiver' is a bullet with five lines drawn or scored with a knife or sharp instrument into the tip of the bullet, to form a 'five' line pattern, so that the bullet will fracture into 'five' parts.
>
> You are to take three 'fivers' and shoot each person who has not stopped breathing, and who is not dead yet, and shoot the three fivers into the head of the person, to make certain the person dies.
>
> Three 'fiver's will destroy enough brain material, to kill any person if the bullet is large enough, and the handgun, rifle, or weapon is powerful enough.
>
> The handgun bullet size must be at least larger than a .22 calibur, and at a minimum, 7 millimeters. You may use .38 calibur, 9 millimeter, 10 millimeter, .45 calibur, or any other, large sized bullet to make certain they are dead. Buckshot, 8 guage to 10 guage, or any comparable rifle load or handgun load, or home made weapon load, will work equally as well, with three shots into the skull. A machete or similar instrument should then be used to chop the head off of the person at the neck line. If you have a machete or hatchet, or axe, and if you prefer to chop off the head of the person, then by all means, you are to do so. The point here is to kill the person one hundred (100) percent, and not leave the person in a coma.
>
> ## Coma Patients
>
> A person in a coma is perfectly alive, and can hear every word you are saying, but can not respond. People in a coma after severe accidents, such as near fatal traffic accidents, where their limbs were broken into pieces, or war victims, who are on life support in Veterans' Hospitals, can be in agonizing pain, and no pain medications are given to the patient as the patient has no way of communicating with the doctors, nurses, or staff members to complain about the pain, in many or in most cases, if not nearly all cases. Some patients can write or scribble out a note about the severe pains, or make gestures with their hands, pointing at painful spots they are able to point to, and then making squeezing motions, to indicate as best as they can, that there is something wrong in the area. Some people may catch the meaning of the gestures, but others do not, and may just wonder what is going on with the patient and they may wonder what the patient means by the hand gestures. Others, doctors and nurses, and staff members will merely find it amusing that the patient is making the gestures. Some doctors and nurses, and possibly staff members, will figure out the patient is in pain, and then steps can be taken to alleviate the pain, but it is an ordeal for the patient, and it may

> take months, or in some cases, years, before staff, cleaning persons,
> food servers, orderlies or assistants, nurses, or doctors figure out
> what the hand gestures mean.
>
> The coma patient, after healing from the injuries, may still have
> residual pains, such as residual spinal pains, or neck pains, or
> ligament pains where ligaments were twisted, or ruptured, or severed,
> partially or wholly, and the ligaments didn't grow back properly, or
> didn't grow back fully, or much, or perhaps, in some cases, not at
> all, which does happen a lot, and each time the patient is moved in
> her or his bed, the person experiences extreme pain as no medications
> for pain are given to the coma patient, unless the patient has been
> successful in communicating that there is pain felt by her or him, in
> her or his body.
>
> Leaving coma patients on life support systems is the cruelest thing
> you can do to a person in a coma as there is no such thing as being
> 'brain dead'.
>
> It is a cruel and abominable Lesbianists' joke on humanity, and on all
> persons, that the Lesbianists have perpetrated with their teaching
> doctors and nurses that coma patients are brain dead, and do not feel,
> hear, taste, or sense, anything at all, and it is just another one of
> the Lesbianists' ways to hurt and torture people, and cruelly and
> ruthlessly abuse human beings, in this case, in most of these cases,
> by proxy. There are doctors who are Lesbianists, and I have one who is
> one, that I am aware of, and he knows exactly what causes my health
> problems, but he sits there, non-responsive, and with a vacant stare
> on his face as if he doesn't hear, see, or know of any thing that is
> going on, something like the three monkeys with hands clasped over
> their, ears, eyes, and mouth, who represent 'hear no evil, see no
> evil, speak no evil' and then 'therefore, every thing is alright'.
>
> All persons with brains, whether in a coma, or other sleep like state
> or condition, is perfectly brain alive as the brains and nervous
> systems, auditory, taste, touch and sense nerve systems, never die,
> until the patient stops breathing, and passes on.
>
> All nurses and doctors are to remove all life support systems from all
> persons in a coma, immediately and confirm the persons have died. That
> will allow them to transel into my Epcot Center, and then be born
> again, as a tummy baby to a tummy mommy and to tummy daddies.
>
> All persons in a coma, whether in a hospital, or in a nursing home, or
> at a private home or apartment, or in a group home, or group care
> center, are to be told the truth of this, and are to be told that you
> just leared it, and are to be told that I am GOD, and that I have an
> Epcot Center staff waiting for them to come in, to be treated for
> their traumatic condition, of not being able to do any thing about
> their condition to end it, as it is a miserable situation for these
> people who are in a coma, or in any trance like state or condition
> that resembles a coma, or a sleeping person, who can not wake up. The
> person is perfectly brain active, and there are no measuring devices

> to prove it available to hospital staff or to doctors, as none are made, and the technologies to detect a person's brain activeness and aliveness are kept secret after they are bought up, and then after the records of them are destroyed, and the information on them are kept secret and locked away, in vaults, and in storage facilities, hidden from view so that no one can get the information, and build a device to detect a person's brain alertness status.
>
> After they are told the truth, and that you just became aware of it, you are to tell them to not be afraid, and that all measures to relieve them from their present condition, and all measures to assist them to transel to my Epcot Center, where they can recieve personal care, and then helped to recover from the trauma of the coma, or coma like state of not being able to wake up, speak, and talk to people. They are then to be injected with a powerful sleep sedaditive, or induced to swallow several strong sleeping pills, as they may become afraid, and then, you are to help them to pass on, and to transel over to my Epcot Center.
>
> In some cases, if you pull on the large toe of a person, or on the thumb, the person may have control to pull in the opposite direction. That is an indication that they are awake, and fully aware of what is going on around them. Please check patients to see that they have soundly fallen asleep, and snoring or breathing quietly, in relaxed manner, may be the only sign that the person is asleep.
>
> Any sign of movement, mentally driven by the patient, no matter how slight, is nearly most always, nearly one hundred percent of the time, a sign that the person is completely brain alive, and that the person is completely aware of what is going on around her or him and can hear every thing. Even passing or expelling gas or farting, can be 'mentally' driven, and a sign the person is awake, and alert, and brain alive. Opening one's mouth is almost always, one hundred percent of the time, mentally driven.
>
> Persons's in a coma, who have Eplilepsy, or other similar brain or neuro muscular disorder, and other conditions where patients experience spasming, whether the condition is diagnosed or not, these patients who spasm, may make some spamodic movement, now and then, and that is only a sign that the person is haveing a neuro muscular muscle spasm. Knee jerks or other similar movements, are not always muscle spasms and can be labored, mentally driven actions. These actions show the patient has control to that extent over her or his muscles, body, skeletal system, and other body systems related to the movement.
>
> In any case, after the patient has fallen asleep, you are then to kill the person, and let the person transel to my Epcot Center, so that the person can recover in my Epcot Center, and then be born as a tummy baby, to a tummy mommy, and to tummy daddies.
>
> All Persons Who You Kill Will Transel To My Epcot Center
>
> Once you are certain all of the police, fire, teachers, and all others

> who support the Lesbianists' societies around the world are dead, they will transel to my Epcot Center.
>
> It is now the time to bring an end to the lives of these people who support the crazed, insepient, bogus Lesbianists, and to destroy them all, leaving no survivors. Kill all of their family and relatives, and leave no one alive. Kill them all.
>
> My Epcot Center will not be in any way, inconveinced by your brave and heroic actions. All doctors must be killed, all nurses must be killed. All medical techinicians must be killed. All library workers must be killed. All school teachers must be killed. All art museum and gallery museum workers must be killed. All workers for all of these institutions must be killed. All of them, in every country of the world, unless they surrender and plead for mercy, and then are allowed in to my kids' place, for swearing in and for joining as civilians, my country.
>
> Further, it is time to kill all media corporations personel, such as news casters, news men, news women, anchor persons, cameral men and women, talk show hosts, administrative persons, Hollywood's movie actors and actoresses, all radio broadcasters, and all personel of all radio companies. It is time to kill all news paper company owners, and publishers, editors, and all workers of these companies, unless they surrender to my children and plead for mercy.
>
> It is time for all of you to kill all of them, and make sure not one of them is left living, including and most importantly, all politicians, who must all be killed, without any further delay. It is time to kill them all.
>
> It is now time to kill Oprah Winfrey, Geraldo Rivera, Sarah Jessica Parker, Judge Judy, Jerry Springer, Liz Taylor, Michael Jackson, Clint Eastwood, Cher Bonno, Morgan Freeman, Steven Spielberg, Al Gore and his family, Hillary Clinton and her family, all of them, Jeb Bush and his family, all of them, Nancy Reagan and her family, all of them, former president of the United States President George Bush, Sr. and his family, all of them, including all persons related to him in any way, and all persons who work for him, in any way, and all persons who work for any of his associates, in any way, unless they surrender to my kids, and then plead for mercy.
>
> We are not going to allow the Lesbianists to continue their illegal, inhumane, and horriblesome practices and activities on my planet, and in my universe, a moment longer. They must all die, now.
>
> Is that understood?
>
> I hope the answer is, "YES SIR! Mr. John Francis Ayres, GOd", as a 'negative' reply to my question is not acceptable.
>
> Japanese And List Keeping
>

> I haven't confirmed it, but from what I know, so far, the Japanese are very good at keeping lists, and they know about all the foreign people in Japan, and they keep lists of names of all of them, and they keep lists of names on all of the Korean people, and the Singaporean people, the Chinese people, the Ainu people, and the cast outs or 'burakumin' a group of meat cutters and fish sellers who some how got on a list of people who were felt to be 'unclean'. The 'burakumin' was a group of people who no one in Japan wished to talk about. The Japanese also, apparently, had lists on groups of people, who they didn't know much about, but they knew they were always doing things with each other. Those groups of people were the Lesbianists, so the Japanese knew all along, who I was talking about and were nearly one hundred percent certain those groups were the Lesbianists living in Japan.
>
> They read what I wrote, and the notes of mine were passed to many people on an e-mail mailing list, and when they heard that Steve Irwin had been killed, they felt they had heard enough and they told all their friends about my notes, and then the Japanese killed all the Lesbianists in Japan on that list they kept.
>
> It's something I heard, and I haven't confirmed it, but I think the Japanese are fully capable of handling that, as they were fully prepared to deal with each one of the Lesbianists, and they knew who they were, and once the Japanese united, and decided to take action. The Japanese escorted all the Lesbianists to a meeting place, to which the Lesbianists were not happy to go to, but had no choice but to agree to follow the Japanese citizens who escorted them there, with the military or Japanese Self Defense Force, the Coast Guard, and National Police, and all other police agencies in Japan, plus the national organization of fire department workers, backing and supporting all the Japanese citizens.
>
> As to what they did with the bodies of the Lesbianists, I'll leave that to them to explain to you, as it was quite brilliant and they had many very good ideas for dealing with the bodies of the deceased Lesbianists, who are apparently now in my Epcot Center.
>
> The Japanese country side is now peaceful and quite, and things the winds are blowing, peacefully, and gracefully over the Japanese country side, cities and towns, across the ponds, marshes, lillies and lotus flowers swamp lands, bogs, bays, estuaries, lakes, streams, rice paddies, fields, mountains, and islands, from what I can understand and gather about the situation in Japan.
>
> Surrendering And Pledging To Serve All People In My Universe
>
> If the Lesbianists and their supporters surrender to my children, and then promise to devote their lives for the sake of others, serving man kind, and all human beings, and all people on this planet, and in my universe, for the rest of their lives, they will be allowed to surrender to my children, and my children will then arrest them and put them in a prison cell. If they are not willing to serve others,

> despite the fact that they say they will serve others and devote their lives for the sake of others, serving all people in my universe, then my children will ignore them, and my children will not arrest them because my children know they are lying. They must promise to do all they can that is humanely possible, for the sake of others, and devote themselves to the prosperity of others, for eternity. If they are not willing to do that, then please, just send them on to my Epcot Center, and we'll straighten them out, for there. My staff at the Epcot Center has training programs to straighten them out and make them nicer people, so that next time they are born as tummy babies, they will behave and be nice to others, doing nice things for other people, after they are retrained, a little. The retraining program takes a while, but the results are very good to excellent.
>
> If my kids decide that the person who is surrendering, is telling the truth, my kids will use the special teletransportation technology, something like what we see in Star Trek on tv, with Captain Kirk saying, 'Beam me up, Scotty!', as many of us have seen on daytime tv, or in the movie theater, and my kids have very good teletranportation technology or 'beam me up, Scotty' technology, and the person, once he or she pledges honestly to serve others, will instantly dissappear.
>
> Do not be surprised if when the person surrenders and promises to 'serve others', promising to devote her or his life for the sake of others, the person suddenly dissappears, and instantly, the person is no where to be seen. The person was 'beamed' into a prison cell that my kids have constructed, using other technologies, and we have many prison cells waiting for the Lesbianists and for the Lesbianists' supporters, and for other bad kids in my universe, as well.
>
> For each person you kill, my kids will keep earning points scores on your efforts to send them to my Epcot Center, and you will be paid, when you have finished your job, and then finally, go in to visit my kids. My kids will pay you in the monetary currency that is used in the underground cities my kids have built, for protecting people from these horrible Lesbianists and for protecting people from the abominant kids of mine, and the ghastly and naughty animals and very large bugs and spider like creatures, that the Lesbianists use to help them torture people with, to make the Lesbianists laugh, and to amuse themselves, as I've explained a little about, already. The more Lesbianists and Lesbianists' supporters you send to my Epcot Center, the more earning points you will score, and the more money you will earn, and you will be paid that money, when you go to visit my kids after you have finished your work, killing the Lesbiansts and the Lesbianists' supporters.
>
> If the Lesbianists and the Lesbianists' supporters do not disappear after they surrender, and after they promise to serve others, and pledge to devote their lives for the sake of others, the Lesbianists and the Lesbianists' supporters are lying, and you can then kill them, and send them on to my Epcot Center.
>
> My children will escort the deceased Lesbianists and Lesbianists

> supporters, once you kill them, into one or an other of my Epcot Centers, and will make sure that the Lesbianists and the Lesbianists' supporters get in for a meeting with one or another of my managers, or with one of the staff members who work with my managers to arrange retraining programs for rehabilitating the Lesbianists and the Lesbianists' supporters.
>
> The Lesbianists and Lesbianists' supporters will not qualify as tummy babies, until they are finished their retraining and rehabilitating programs. After they finish, they will be out, again, to join the rest of you, once again, but this time, as nice, kind, courteous, and polite people.
>
> What Does This Mean?
>
> It means, I want all the Lesbianists dead, but if they will surrender, and if they promise to serve all human kind, all people, and work and strive to enrich the lives of all others, dedicating their lives to others, then, you do not have to kill them, and you do not have to send them to my Epcot Center. If they are honest when they surrender, and when they promise to serve all people, devoting their lives to all people of the world, then my kids will 'beam' them in, using the teletransportation technologies that my children use. If they are lying, then my children will not beam them in, and they will be stuck where they are. If they are stuck where they are, after they surrender to my kids, and after they promise to dedicate their lives to the welfare of all others in the world, and to all others in my universe, then they were lying, and you may then kill them, and send them on their way to my Epcot Center, for retraining, and for rehabilitation.
>
> It also means to kill any person who works for the Lesbianists, if he or she is supporting the Lesbianists to try to stop you from killing the Lesbianists. Also, it means that you should kill any person who tries to interfere with you, while you are trying to kill the Lesbianists.That's what it means.

> Fermenting Oils - Fracuses Kiddies - Slugs, Snails, And Other Bottom Feeders - Feeding Everybody In Our Bodies - Putting An End To The Global Menace Of The Lesbianists - Changing Our Societies, And Our Universe, Forever Updated: 22-01-07 Rev.x.00.a 07:45 PST
>
> Mix raw sugar, ocean salt, sessame seeds, dried fermented berries you have taken from a mix of berries fermenting as a flural hydrate liqour, or as a plain fermenting liqour, and make sure you dry them out in the oven, before useing them.
>

> Mix the items together in a container, and mix in a drop or two of
> apple juice, pear juice, papaya juice, kiwi juice, banana juice,
> cherry juice, cranberry juice, strawberry juice, peach juice,
> nectarine juice, or plumb juice, and let the moisture settle into the
> mixture to allow it to become only partially and only very slightly
> moiste, and not wet or liquidy.
>
> Allow the mixture to sit in a warm or cool place for a week or two, to
> eight to fifteen weeks, or even a few years, and it will grow molds in
> it, and with the longer the duration up to a point of sitting and
> molding, the more useful it will become.
>
> It might develop a pungent, unpleasant odor, like a dead animal
> smells, which may mean that a fungus that is not very suited for you
> to use as a starter mold for starting a fermented oil batch has
> developed in the container, and in that case, you can throw the whole
> mix out, or use it for fermenting beans or something. Cheeses can be
> made with these kinds of growing funguses and molds, if you are the
> daring type, who likes to experiment with new and different tastes
> from variously fermented mixtures.
>
> You can add some ocean salt, and make a soury vinegar, and then try to
> rescue it with the combination of the soury vinegar, ocean salt, and a
> little raw sugar, and some honey.
>
> It may be that some bacteria is in the mix, and it needs to be eaten
> up, before you can use it safely for a healthy mold mix for starting a
> nice cheese molds and funguses mixture.
>
> Ocean salt can be added in slightly large amounts with raw sugar. Once
> the odors have stabilized, and once they have developed a more
> pleasanty odor of a fermenting mixture, with a slight alchohol ferment
> odor that will indicate that it is alright to use, and that it will
> not be harmful to you.
>
> In some cases, the bacteria in the base mix, may be a result of hairs
> or particles of skin from the body of a dead rat or mouse, that some
> how found his or her way into the sessame seeds, or into the dried
> spices, or into dried berries that you used, and then died.
>
> In that case, you might as well throw it away, unless you have a lot
> of patience, and do not mind waiting and working with it, for several
> years, for it to become something you can use.
>
> One way to make it into something you can use is to mix in a high
> potency liqour brew, and let it sit for a number or years, and ferment
> it, and then after it smells nice and rosy smelling, after ten to
> fifteen years, to thirty to fifty years, you can evaporate the liquids
> out in a pail on an open porch that has a net covering to keep animals
> and animals' hairs out of it. Make sure there is good ventilation, and
> it should evaporate out, safely after a number of days on the porch in
> the sun. If there is no heat to make it hot enough to combust, and if
> there is good ventilation, it will not combust, and it will evaporate

> out, safely. Adding ocean salt and raw sugar to the mixture so as to fill it up with raw sugar and acidic ocean salts, will further help to safely evaporate out the liquids and prevent the liquids from combusting, accidentally.
>
> Once the liquids have evaporated out, safely, you can use the materials that remain in the pail or container, to start a fermented oils brew mixture, or to start a cheese molds and funguses mixture, if you wish to make a nice cheese molds and funguses mixture.
>
> The particles of skin or hair from the dead rat or mouse, or pidgeon, or other animal, will have been eaten up by all the ferment fracuses kiddies, and will no longer pose a threat to your health.
>
> Fracuses Kiddies
>
> Ferment fracuses kiddies are just plain old ferment kiddies who like to devour large bits of human or animal tissues, mites, or cockroaches, or their body parts, and then poop them out, and pee them out into the liqour brew.
>
> You'll always have some of these kiddies in your brew mixes, and they are useful to you, as they eat up the things that you do not want in your tummy. Also, there are other kiddies, such as snails, and other bottom feeders, that find their way in, in the skins and pulp material as tiny animals, or the eggs of animals, and they hatch, and they develop, and they grow big, and they then bottom feed, and they eat any dead rats, and dead rat parts from rats that might have fallen into the brew. These are useful pets, that you want in your rum and liqour brews, as they will keep the liqour brew healthy to drink, and they will keep you from getting ill.
>
> Slugs, Snails, And Other Bottom Feeders
>
> In the old days of bucanneering, as I may have mentioned, before, this was a crucial part of keeping the sailors alive, on their long voyages, and if crew members fell ill due to an unhealthy brew, with a dead rat in the mix, making it sour, and making it unhealthy to drink, then if there are not enough snails, slugs, and bottom feeders in the barrel or rum to eat the dead rat parts, the sailors will get ill, and when they get back to port, they will hang the rummery owner, and give the business over to the son, or to a third party, often times, one of their fellow crew members, who is liked by all the people, locally, and on the ship.
>
> This is the case, still today, with many rummeries owned and handed down in the same family, from such instances as that.
>
> Bottom feeders, slugs, snails, and many types of bottom feeding earth worms, and other types of healthy bottom feeding worms, that cohabitate well with the slugs, and snails, and other animals that are too tiny for you to see in the rum brew mixture, without a powerful microscope like, optical videoing technology, are essential to your

> brews mixtures, and they may increase in numbers as they make babies like every animal and living being does, and so now and then, you need to reach into your brew container, with your hand, or with a fine mesh small aquarium use fish net, and scoop them out, and flush them down the toilet, or let them loose in a local pond, lake, mountain stream, or water springs fresh water well, where they will help to keep the water clean, ahd healthy.
>
> Once you have the materials to make your fermented oils mixture, you can add them to your container of food oils, and begin to ferment them, or use them to make a nice cheese mixture, to ferment and then to make solid as it matures with age. You can also use the materials to make a fermented bean mixture, or fermented barley, or fermented rice, or fermented millet, or fermented wheat mixture.
>
> You can also use them to make a fermented brew mixture, as there will be many healthy molds and funguses kiddies in and among the dried out materials. Your health will improve, and by adding different spices, nuts, berries, root particles, ground up kiln dried pine cones that were green to begin with, and then fermented for a few months to a few years, in a brew mixture, then dried out, and ground up into a saw dust powder consistency, you can then have lots of crystals cages salts kiddies of various kinds help you to make a nice regroverative brew, to help you to regroverate your amoebes.
>
> ## Feeding Everybody In Our Bodies
>
> You know, we need to eat foods to stay alive. We also need to feed all the living animals in our body, to help them to stay alive, so that they can help our health remain normal, from day to day. We also need to feed the amoebes all the foods and juices, salts kiddies, and the poopy liquids and pee liquids, and other liquids with other types of tinier salts kiddies in them, as well as other types of food kiddies, we haven't learned about, yet, but with all of them inside your tummy, you'll be able to feed every one who needs feeding, and then you'll be successful with your amoebe 'auto regroverate mode, on!' formula, so long as you have degunked your body of all the petro chemical oils, kerosene, diesel fuels, and other chemicals, the Lesbianists have been feeding you, from birth, in your diets, if you live in a society, where you are fed baby formula mixtures from Gerbers or Heinze, or any of the other baby foods manufacturers.
>
> ## Putting An End To The Global Menace Of The Lesbianists
>
> We need to put an end to this practice by the Lesbianists of poisoning us with their petro chemical industry oils and tars salts kiddies, which they use to rot our teeth out, and cause tooth decay, and which they use to cause ulcers in people's tummies, and which they use to cause lots of unpleasant illnesses, and diseases in human beings, and in farm animals. These petro chemical salt kiddies, and formaldehyic salts kiddies, all harm our amobes living beings children, and all the other animals that live inside of us. One day, we will have a lot of people practicing my religion, sexaling, and making prayer statements

> so as to help us to erase the karmic markups we have, that keep us
> living under the tyranny of these Lesbianists, and in their societies,
> suffereing the daily poisonings that cut our lives short. When we have
> erased enough of our karmic markups with my religion's religious
> practice of sexaling to purify our selfs and others around us, and to
> clearify and erase our karmic markups, we will eventually be able to
> say good bye to the Lesbianists, and their practices of poisoning us,
> and causing us major headaches, or problems in our lives.
>
> ## Changing Our Societies, And Our Universe, Forever
>
> At that time, we will be able to say hello to a whole new way of life,
> and that will be the beginning of our new, thrilling, and excitingly
> challenging, one world, unified, planetary, global culture, and it
> will be the begining of our new, thrilling, and excitingly
> challenging, one universe, universal culture for all of the people in
> our universe, who we have been living in our universe together with,
> since we first came out, and began living here in my universe, a very
> long time ago. We have to start somewhere, and so here we are, now,
> begining to prepare the foundation for our long and prosperous journey
> ahead of us, as we clean up our universe, together with each other,
> and clearify and erase all of our karmic markups, and all of the
> karmic markups of all my children, and of all living beings who live
> with us, together with us, in my and our universe. We need to take
> responsibility for this clean up campaign of ours, as we are the only
> ones, besides my many worker, unionized children, who can use our
> brains, and use our sexaling organs, to produce purifying energies of
> all types, to help us clearify and erase all of our karmic markups,
> and all karmic markups, and karmic things and dings, of all of my

> Donations To GOd
>
> Why can't anyone donate any thing to me? I am GOd. So, how come no one
> can send me a penny in the mail, or a box of cookies, or a pair of
> socks, or something? I don't think I'm asking for too much, but I'm
> just curious about why no one can send me anything in the mail?
>
> I don't get any phone calls. No one sends me any e-mail. No one tries
> to visit me. I have a religion, and I'm asking people to practice it.
> Now, how come no one can contact me?
>
> I once said that I am in a monastic mode, and it is a cloistered
> monastic mode. That means, no one can be contacted out side of my
> monastery by any one inside the monastery, and no one can contact any
> one inside the monastery, by any one outside the monastery.
>
> If there is no legitimate monastery business then no person will be
> allowed to contact me, or for that matter, any one else inside my
> monastery, who is leading a monastic life, with me.
>
> Well, there is only me, right now, but maybe in the future, some one
> will be in my cloistered monastic discipline with me, helping me with
> my religious duties of doing my religious ceremonies, as I've
> mentioned about, before.
>
> Monastic Mode
>
> What does my 'monastic mode' mean? It means that I am here as GOD. You
> know, there is only me. I of course never sent any one, such as the
> Lesbianists claim. Why would I? I don't need any one to do the things
> I need to do. That's sheer idiocy to think I would have a son or
> daughter, and send them to do my business. That's absurd. You've been
> snookered into believeing all those hogwash tales, and now you don't
> know who I am, and you don't have the karma to believe in me, as a
> result of your following and believeing all those hogwash tales. My
> kids are everywhere, and they are doing their jobs.
>
> Who Works For Me, Anyway?
>
> Now, as I've been saying, I'm going to have you do your jobs, and that
> is to use your genitals, and to use your body, and to use your brains,
> and then participate in my religion, using your genitals and your body

> and your brain, and sexalate with each other, and purify your karma? Does that sound like a joke to you? If it does, you are very mistaken because it is not a joke in any way, and I am absolutely serious when I say that you are going to use your 'equipment' and I almost want to call it, your 'field' equipment, because you are armed with it, day and night, and you are going to use that equipment, to clearify and erase your karmic markups, and to purify my universe. Is that okay with you? I hope it sure the hell is, as a "NO SIR!" at this point, would be an unsatisfactory reply. Do you understand me? I hope so. You are going to jump ship, as I order you to, or be thrown over board, if you have a problem with that. I hope you understand.
>
> Well, as far as I can figure it, no one realizes that I am GOD, so no one can donate money to me. If some one realizes that I am GOD, than for the first time, that person will be allowed to donate money to me. That person will be allowed to visit me, or call me on the phone, or donate money or food to me, or practice my religious ceremonies with me, if that person believes, and understands, and realizes, that I am GOD.
>
> Right now, there is no one who realizes or understands that I am GOD. No one of course believes I am GOD. Never the less, I am GOD, and I am sitting here, waiting for donations, to help my ministry get started.
>
> So, that is the reason that no one can get through to me, or donate money to me, or send me a postcard with some kind of message of cheer and support in it.
>
> There doesn't seem to be any body who believes that I am GOD. Well, that isn't surprising. People do not have the karma to believe that I exist, is one way of looking at it. They have ignored my existence, and have not had any real thoughts about me that would link them to me, in my monastic mode.
>
> What does that mean? It means, that no one remembers me, as the guy who created all of you. It also means, that I am in a religious mode, and no one understands that, or believes that I am in a religious mode. That is peculiar, since I am giving you a religion, one of my oldest, for you to practice, that will assist you in purifying your life, and that will assist you in eraseing and clearifying your karmic markups. That's very peculiar, but it is not that peculiar, as you do not have the karma to realize and understand that I am GOD. In any case, there will be no donations, no telegrams, and no phone calls or letters to me, so long as you do not realize, understand, and then of course, believe that I am GOD. Well, any way, so it goes.

> ## Every Politician In The World To Be Executed
>
> Next, I want every politician in the world, canceled out. I want their passports for living on our planet, canceled. That means, I want you to kill each and every one of them. Not only do I want you to kill them, all, but I want you to kill every single one of their associates, around the world. They are all Lesbianists, except for a few of them. If you happen to kill one of the non Lesbianists policitians by mistake, that is okay. They have the option of surrendering to my children, available to them, and once they surrender, they will not be killed, by accident.
>
> ## Every Hollywood Actor And Actoress To Be Executed
>
> After that, I want every Hollywood actor or actoress killed, and that includes all the actors and actoresses, around the world, and they must surrender to my kids, if they wish to not get killed. There are a lot of them, who are not Lesbianists, so those I've mentioned, who I've let you know are not Lesbianists, you can forget about them, and leave them alone. There are a lot more than thirteen billion Lesbianists living under the earth's surface, in underground cities. I did not realize there were so many. We need to kill them all, so we will, in time, unless they surrender. Is that clear, every body? I hope the answer is, "Yes, Sir!" as you had better not answer any other way, or you will get yourself on my shit list. Is that understood? Good. I am the boss of my universe, so if you do not like it, than jump overboard, now, sailor. Have you got that clear? Good.
>
> ## Jump Ship, Explained
>
> What does 'jump overboard' mean? It means you are going to have severe problems with me, if you do not obey orders, and that there will be difficulty and jail time, ahead of you, if you continue to ignore my commands to you. It means there is going to be trouble, if you do not obey me. My kids are in charge of handling all the details on that, and it is not a joke.
>
> ## Fair Warning
>
> We are not going to let these Lesbianists run their show, one more minute. We are going to put an end to them, and their activities, here on this planet, and every where else in my universe, and this is fair warning of that.
>
> ## Particle Remis Technology And Particle Dismiss Technology
>
> As I said, once before, there is a technology called particle remis technology. There is also a technology called particle dismiss. They are the technologies that you can use to feed 2.3 billion Lesbianists down under the surface of this planet, and on every other planet that they are on.

> ## Dismend Technology And Remend Technology
>
> It is easy to dismiss molecules, and to dismiss, or dismend all the beings who need to be dismended, and sent to my Epcot Centers. It is also easy to remend them, and then get them back into the foods that I need them to be a part of.
>
> My kids keep track of every one who needs to be dismended, and then remended. That is a lot of work, keeping track of every one, but that allows us to dismend the living beings, and animals, that I can let off from duty, and from further service, and then send to my Epcot Centers for them to live in. I can then recall them to duty, and remend them, and then have them serve in an apple or an orange, or banana, or a brick. Do you think that is a joke? It is not a joke, and there is no joking allowed, on my shift. Do you got that? I hope so, because if you do not, you will have to learn how to swim a long ways, as it is going to be a long way from shore, after I ask you to jump over board, and I have sailors who practice, all the time, just to show the passengers how it is done, just in case. I will have you jump from ship, if you do not get along with me, and if you disagree with what I am doing, pretty soon, as we are departing, now, or just about now. That means, we are not going to play around, much longer, and we are going to set sail. That means, there are going to be a lot of people practicing my religion, pretty soon, as they will learn about it, and they will begin practicing it.
>
> ## Mentalcosis / Mentaltosis And Comatosis
>
> Mentaltosis is the state of a vegetable, like a stalk of cellery, or a plumb, or an orange. Comatosis is the state of complete awareness of self and others. Comatosis is not brain dead, i.e., more or less, mentaltosis, with no real significant brain activities occuring, other than the ones that keep you alive, and vegetative, and you do not need assistance to remain and function in a state of mentaltosis, and the Lesbianists know it. You are severely brainally handicapped, and when you come out of it, eventually, after you have your karma fully completed for being mentaltosically ill, and after it is then time to get on to something else, you will be very brainally handicapped, and you'll be an extremely retarded person, with little to nearly no brain awareness going on about self and others, but able to walk, barely, and later, after many many lifetimes as a mentally retarded individual, you'll begin to be able to mumble a little, or babble a little, for umpteen lifetimes, as you begin to get your higher brain functions, back, which takes a very long time to work out, and many many lifetimes to work out, karmically.
>
> Comatosis is like a hit on the head, and when you wake up, your faculties are not all working, and you may not be able to speak, or move, or talk to your friends, but mentally, you are all there.
>
> Mentaltosis is like a train ran over your brain, and every other nervous system in your body, nearly, and you are completely unable to

> think, or do any thing else, and you are reduced to a mere pumping
> heart patient, with not much else going for you, except you are
> breathing, and technically, you are alive. You can sit there for a
> million years, or a million or so life times, before you begin to come
> out of it, and then reveal your disorder of severe mental
> disorganization, mental disfunction, and mental retardation. There is
> a big difference between a bonk on the head, and a train running over
> it, and the rest of your body. Coma patients are fully aware of what
> is going on around them, and they may not be able to speak, but they
> are there, and they can twitch a finger, now and then, or flex a toe,
> or raise their tummy up a tiny bit, to pass gas, usually, and relieve
> the bloating sensation they are experiencing in their tummy, and in
> their intestines, or colon. They may be able to grasp your hand, and

> their Lesbianists' buddies.
>

> Retractions
>
> Mr. Jerry Springer is not a Lesbianist. I was mistaken about him, as he was already killed by them, in a previous lifetime, as he developed a desire to bad mouth them, and they didn't like him, and they kicked him out of their group, and they killed him, with their murderous torture routines. Penelope Cruz is not a Lesbianist, but she was, but they killed her, and tortured her, and she is off the list. Angelica Huston is not a Lesbianist. She was, but they killed her, after torturing her. She is a popular and prominent person, and if she hasn't been abducted yet, by the Lesbianists who will feed her to my abominant kids, like they did to Steve Irwin, and Jeff Corwin, then they will be gettting around to it, not too long from now, as they like to feed her to the abominant kids of mine, just as they do Bill Gates, and lots of other, former Lesbianists. None of the Baldwin brothers are Lesbianists, either, as they were already kicked out, and killed by them, and then grievously tortured by them. They continue to be main attractions for feeding to my abominant kids. Jack Nicholson is not a Lesbianist, now, either, but he was. Ben Affleck is not a Lesbianist, as he was also kicked out of their organization, after they tortured and killed him. Charley Sheen is not one, either, but he was. Martin Sheen is not a Lesbianist, but he works for them, and he was one, before they kicked him out, after they tortured him, and killed him, in a previous lifetime. Michael Douglas is no longer a Lesbianist, either, as they killed him, after their brutal torturing of him. He is up for being abducted, and for being fed to the abominant kids of mine, as he is a prominent person, and Kirk Douglas enjoys watching him get eaten up, and Kirk Douglas will laugh his guts out, as he watches Michael Douglas get tortured by the Lesbianists, which Kirk Douglas is a confirmed member of. Cher Bonno is not a Lesbianist, as I was mistaken in memory, though she was a leader for a while with Oliver North, she was killed by them, after being tortured, because she was getting "soft". Sunny Bonno was a Lesbianist, as well, but he was also killed after being tortured, officially kicking him out of the members league of Lesbianists. Sunny Bonno was captured, and abducted, and a body double was placed on a coroner's table, and Cher Bonno knew that the body double who was dead, who looked like Sunny Bonno, was not Sunny Bonno. The Lesbianists subsequently fed Sunny Bonno, after they captured him off the ski slopes, to my abominant kids. Elizabeth Taylor was thrown out of the corp of Lesbianists, after they heinously tortured her, and murdered her, and the Lesbianists have her slated, scheduled, after they find a way to abduct her, for feeding her to my abominant kids. Dennis Miller is not a Lesbianist. Though he was one, after torturing him, and sushi-izing him, please see my notes on that, the Lesbianist's sushi-izing of Dennis Miller eventually killed him.
>
> It's hard to keep track of some people, as to whether or not they are currently Lesbianists. Others, are not so hard to keep track of, and I want all of those mentioned, killed, immediately.

It is the wireless router, a NetGear WGR614.  I don't know why the hell I
didn't try that earlier.  It does the exact same thing to my Icom IC-R20.
Maybe the power supply in the router?  Or is it a wireless signal
phenomenon?   - Doug

USS Enterprise aircraft still working at Pinecastle Range
`````````````````````````````````````````````````````````
It is Sat, 7:18pm EST (Sun, 0018z).
   Aircraft from the aircraft carrier USS Enterprise, off the Florida
east coast, continued to pound targets at Pinecastle Range in Ocala
all day long.
   At the moment, E-2C "Screwtop" is passing to Sealord (267.5) the
squawks being used by USS Enterprise flights Nickel 23, TBOLT 25,
Winder 61 and Rook 03 on their way into Pinecastle. He informs Sealord
that each is a flight of two. They are also using the Pinecastle freq
289.2.

wireless router what at 2.4ghz!!

try killing the power to your house while running the RX'er from a battery
or car.
that should give you agood idea if its you or not

mike

weird!!!!!

psu then or xlal osc inside for baud rate etc.
try it on a battery

mike

They don't transmit at regular intervals.
They transmit only when there is
data to transfer.

Congrats on finding the problem.

I've got a NetGear WGR614. It worked for
a year then developed a heat problem. It will
only run for about an hour. I openned it up.
(Pry open the rubber feet and there are four
little torx screws.)
The Broadcom chip gets hot enough to burn
your finger. Other people have reported the
same thing. I bought a Linksys a few weeks
ago to replace it.

And I see the little transformer for the switcher
in the NetGear. There is virtually no doubt that the
problem is the switcher and not the wireless part.
1. The wireless is bursty and not regular. (Certainly
not 15 kHz regular.)
2. Problems are almost always with harmonics and almost
never with subharmonics. (How are you with Fourier
transforms and convolution?)
3. TV broadcasts would be giving you fits too
if your radio were sensitive to 15 kHz components
of VHF/UHF signals.
4. Probably no other 802.11 device you have
causes the same problem.

There is a way you can test it. On the router's

control page there is an option to turn off its radio
while still being able to use the router with
wired connections. You might try that.

Another thing. It is almost always long wires that
do the actual radiating. The switcher can generate noise but it
won't go anywhere unless it gets coupled into the
cables that attach to the router. Try unplugging
the eithernet cables too to see if the noise goes away.
That will leave the power cable. You could then try
putting ferrites on the power cable, or wrap it up in a
tight ball to keep it short.

cheers,
rb

Folks, be awared of that flatscreens (PLASMA) is a highly annoying
"jammer" noicetransmitter on the whole HF-band.
As that is NOT for the LCD.

      </blockquote>
      <pre wrap="">
The mains frequency has little to do with the noise
that a switcher can generate.  A switcher rectifies and filters
the mains to DC then uses a switching transistor to
drive a transformer at a much higher frequency.  Tens of
kHz typically.  The higher frequency allows the "magnetics",
i.e. the tranformer, to be much smaller physically than
a 60 (50) Hz transformer.  That plus the on-off and not
linear nature of the switch allows switching power supplies
to be smaller and more efficient than linear supplies.
It is the switching, with sharp edges, that generates
high frequency components.  I've seen poorly designed
switchers generate harmonics into the hundreds of MHz.

--
rb
      </pre>
    </blockquote>
    <pre wrap="">I understand about the noise and harmonics a switcher can
generate, but
the thing is that my antenna is mounted outside on a mast 25 feet up.  All
the wiring in my neighborhood is underground.  It's not clear to me how I
could be getting such strong interference in this case.  What about
harmonics from wireless routers?  Could that explain this interference
pattern?  - Doug

http://mvp.homedns.org/scanner/BCD996t/996warning.html

I added a serial connection to the rear of my 996 scanner. I disliked the front one as it was in the way while in the car connected to a PC and the rear has the GPS. This is only the first step. I'm open to anything that will improve this.

Robert Deates wrote:
> How do you program a freq. in so it stays in the memory
>

1: Hit "Manual" on keypad until you reach the channel (1 to 16) you desire.
2: Enter the frequency (e.g., 144.390) on the numerical keypad and hit "E" (enter) key.
Repeat step 1 and 2 to set up all 16 channels.

To set up for scanning between two frequencies limits use the numerical keypad:
1: Enter beginning frequency (e.g.,154.00) then hit the "LIMIT" key, enter ending frequency (e.g., 162.00) and hit "LIMIT" key again. Start scanning by hitting "SRCH" (search) key. "HOLD" will hold the scan.
To scan thru all 16 preset channels just hit "SCAN" after you set them up. You can also 'LOCKOUT' some channels during this scan.

Someone in my neighbourhood got a new toy for Christmas, and when they play with it I get a noise repeating precisely every 200 kHz from about 4 MHz though to 30 MHz - some places worse than others - i.e. around 8 and 15 MHz they exceed S9. I have sent audio and spectrum recordings to a specialist in RFI, who was able to determine that it is a switcing power supply, but just which one and for what is still unknown.

All wiring in my subdivision, including telephone and cable TV is underground. Other than satellite TV antennas the only visible antennas or feedlines within at least half a mile are mine. When spring comes I'll try to localise it with a portable receiver. It is definitely none of my immediate, within 200 feet, neighbours. I suspect a plasma TV.

In the meantime I just have to avoid multiples of 200 kHz when whatever it is is being used.

Dave

Hello, I would like to get a scanner to listen to police, EMS, etc.
here in Austin Texas.

I currently have a BC350A (bought in 2004), but I cannot seem to get
nearly as many channels as my previous BC250D scanner would get.

What I'm curious about is if I would have the same problems with the
Radio Shack Pro-94 scanner.

The frequency list that it supports seems to be very broken up and
missing a lot of frequencies. Would this be a problem for Austin
scanning??

Are there any non-Digital channels that I should still be able to pick
up in Austin?

Any other scanner you would recommend around the $100, $150 range?

Do I need an APCO-25 system to do any good? I'm mainly interested in
police/EMS frequencies.

Thanks!

I just got the Pro 97 from radio shack on sale for 149.99. Great
scanner and highly recommended by all the sites i visited including
radioreference.com. 1000 channel triple trunking comes in handy
also

check sales for this scanner. It is in my opinion the best non
digital scanner radio shack sells.

Because the Radio Shack Pro-90 was the BC235, you can get some accessories that will work with the BC245 from them. This includes a leather case (catalog #12047163) and the battery pack. However, I doubt if they will have it in stock, you'll have to order it and have them mail it to you. You can probably get a better price from a battery wholesale outfit than from Radio Shack.

Hello,
Brand new to this group. Wondering how can I interpret the encryption
signal from a garage door opener. Ultimately I'd like to make my own,
but what device will show the encrypted number as opposed to carrier
frequency? Also, what's a good first timer scanner under $200?

Thanks a gigahertz.....

you need 'help' learning how to post a question only ONCE   :)

I'm assuming that you NEED trunking since you have an 895 (great weather
alert system on that radio) If you don't need 'digital' and just trunking
and conventional
scanning at the same time, a BCT-8 or BCT15 will do. If however you need
digital
I'd spend the extra cash for the BCD996T (does more tricks, than a flea
circus).
Been VERY impressed with mine. Be prepared to do alot of reading &
re-reading of
the 140 page owners manual. And be sure to get the FREE software off of
Unidens
site to control / program it via computer.

At last, the alt.fan.art-bell awards for Fall 2006 and Winter 2007 have arrived! On the ballot this time are such usenet notables as: Andrew B. "You would no longer be here if I were to stop praying for you," Chung, Alexa "Screed Queen" Cameron, Gerald "real-lifing lover of usenet's freedom"/"I'll get you, Sean Monaghan" Newton, Ken "diploma-mill lawyer"/"ChasNemo has never been to Cuba, _I_ have!" Pangborn, Alan "Use my innovative 'challenge and response' email system" Connor, Azure the Pixie, Bloxy the forger/bot-runner, Ray "the Living Christ" Karczewski, my very own pet PorchMonkey, Jacky the post-editing nightbat, Commander of the saucerheads, the scaaaaaaared widdle Wabbit (who may or not be Woger Wiseman) of rec.radio.amateur.policy, Vito "Why can't you jerks be more polite?" Kuhn, Painius the saucerhead, Michael J. "Dogfucker" Cranston attorney kook, Robert "Mop Jockey"/"net.KKKopping stalker" Wolfe, Joey "Colonel Jake" Jimenez, Jayne "Chump of the Summer" Kulikauskas, Skeptic/Septic/Your Logic Tutor/"Deities don't *exist*, that's axiomatic!", Joseph "Three years and counting since Cujo accepted his challenge" Bartlo, and Richard "Nuked" Scoville.

For the rec.radio.* groupies, take note that the Wabbit is up for the Sir Robin Award for Bravery, and the Office of the Viagra Junkie. You still have a few days left to vote...

All Hail Fluffy! On Fri, 16 Mar 2007 04:53:32 +0000, Friendly Neighborhood Vote Wrangler whined:

> By the authority vested in me by the Overseer of Kooks & Trolls in
> AFA-B, I present the official ballot for the Fall 2006/Winter 2007
> alt.fan.art-bell awards. Anybody may vote, but your votes may be

Hail Eris! All Hail Discordia! Kallisti!
Flonk Leader #2 & #11 1/9; mhm 29 x 21
Awl Hale Teh Mity Poast Kount!
The meow.fuckhead
http://groups.yahoo.com/group/Cabal_of_the_Holy_Pretzel/join
Economic Left/Right: -7.63
Social Libertarian/Authoritarian: -7.38

"No man in History, including JESUS CHRIST, has directly revealed to the World the SATANIC WEAPON used to enslave mankind -- INTELLECTUAL THOUGHT!!" -- Ray Karczewski

"The MORE you think, the MORE you remain UNAWARE, CONFUSED." -- Ray "Kazoo" Karczewski, in MID: <4504807e.80276754@news.west.earthlink.net>

"i have no need for sex; i'd rather tease you, honeybuns." -- Teh Mop Jockey doesn't know the meaning of "TMI". MID: <1253073.6W9sK7zyKL@unixd0rk.com>

"I hate explain $hit to tards. Especially illiterate tards." -- The Monkey is very hard on irony meters, as in MID: <Tc4xh.657$hH2.432@trnddc02>, and is also trained by moi, for the Barbara Woodhouse Memorial Dog Whistle http://www.screedbomb.info/porchie/

"Gabrielle?! Monkey-man, you bring her back! You know, you two are beginning to irritate me with these obsessions of yours!

Fish don't just catch themselves!" -- Xena, "Fins, Femmes, & Gems" (64/318)

Quoth Max Grrl to the Monkey:
> Free cl00: Why do you think you've been nominated for so many awards,
> Dribbles???

"Because y'all have so many nyms. Like I stated yesterday. Your b1tch as$ opinion doesn't mean $hit to me. You are totally irrelevant to me. I continue flame you because I like kicking retards around." -- The Monkey-man is unaware that Max Grrl only _has_ one nym. MID: <jq9xh.875$hH2.700@trnddc02>

>> Are you the Peter J Ross that I've heard so much about?
>
> Probably. I'm the one who doesn't resort to forgery after losing an
> argument.

"You're the one with the extensive brain damage... okay I see. You're gonna be easily to own them." -- PorchMonkey4Life: Not aware of too many things. MID: <bf7xh.834$hH2.64@trnddc02>

"Open wide and wait for a $hit explosion, turdboy" -- Joxer isn't very well-acquainted with the concept of not aiming the flamethrower at his own position. MID: <r7Wxh.2191$384.676@trnddc05>

I mourned:
> The Mop Jockey did most oddly state:
>> DUDE, YOU WIN TEH INTERNETS!!!
>>
>> the oversized check is in the mail.
>
> Alas, all I get for my trouble is a Monkey that's trained to hurl shit
> under several of my nyms.

"DevMcKinHole, you also get the pleasure of sucking off my doggy and cleaning out his butthole with your tongue." -- He's not so much a *Porch*Monkey as a _Fire_Monkey, as in one who's on fire due to his own tendency to mess with lighter fluid while standing beside a hot stove. Message-ID: <77Uxh.1996$384.1135@trnddc05>

Said I:
> You, Monkey-man, are quite possibly the only usenetter in existence
> who does not and cannot own Hatter.

"[...] What's the matter fagboi, am I beating your as$ so badly that you're no seeking an alliance with the diaperboi?...YOu really don't know how dumb you are, do ya?" -- I guess I don't, Monkey.
Message-ID: <gHVIh.1760$Bi2.1639@trnddc01>

"yes you are definitely retarded. See a neurologist immediate. And if you don't have monet, blow a neurologist immediately." -- Farky the Monkey-man to peachy ashie passion. No, no trace of irony in his post.

MID: <4h6xh.802$hH2.233@trnddc02>

"Etymology:
Argumentum ad Septicus : argument to putrefaction. Derived from Septicum Argumentum : putrefaction of argument.

"Septic \Sep"tic\, Septical \Sep"tic*al\
a. [L. septicus to make putrid: cf. F. septique.]
Having power to promote putrefaction. Of or relating to or caused by putrefaction." -- Kadaitcha Man, indirectly to Donald "Skeptic"/"Septic" Alford, in MID: <a3svh.djj.19.1@news.alt.net>

"Chips on you dud, you got bugged for being near me, Viruses transmit that way you know." -- Blooey: Master of the Autoflame. Message-ID: <4556A926.6F259DC9@pharae.org>

"No effort at all c*cksucking you, b1tch." -- At last, the Monkey-man comes out of the closet, in MID: <aXkth.3535$QE6.1902@trnddc02>

"Fredbot == SameAsB4 == TGOOS

"You are stalking me, even after I thrashed ya." -- PorchMonkey4Life, a veritable combination of Sherlock Holmes and Doc Savage for the 21st Century. No, really. Would I lie? MID: <zaUqh.2972$E35.415@trnddc02>

"He unleashes a fecal explosion he time he posts. He uses so many nyms because he gets beaten so easily and so convincingly in flame wars and tries to hide behind nyms in the hopes of getting a fresh start. To bad for him that his lameness keep shining through like a beacon for all tards (e.g., SameAs$B4, Demon Spawn, Barbara's Pus$y, FredBot, TGOOS, ..., etc)" -- Monkey-man identifies <jitter> as me, among others, in broken English, in MID: <Z_Xqh.3167$E35.215@trnddc02>

"You would no longer be here if I were to stop praying for you." Andrew B. Chung's delusions of grandeur are getting out of hand, in MID: <1160653810.937331.31980@e3g2000cwe.googlegroups.com>

> A Christian is a citizen of Christ Jesus' kingdom just as an American is
> a citizen of the United States.

Whatever you've been smoking, it's making you spew great lines for a "Cheech and Chung" movie.
-- Chadwick Stone to Andrew B., in MID:
<f98Hg.249738$bN2.41516@fe09.news.easynews.com>

"I am a loyal friend to those who report science and truth not try to hidden agenda hide it. Astronomy is so important little do the clueless know where they came from or where they are going. The Officer Warhol reporting of Little Goldidilocks and the Tree Bears was so relaxing but heed its moral warning blondes do have more fun. The Seans Sil a beauty like no other waits for this Earthman to hopefully safely real Starship bring all those worthy to space the final frontier. Choose life not war, oh the humanity, when will man lay down his arms? Thank you

Green Knight for your dedication to duty and God speed on your journey to the sacred mountain. Figs and olives the preservers of life and promoters of good digestion. You darn tooten we like fig Newton.

Att: All Earth Science Team Officers

Officer Warhol has issued a world wide bulletin for all coastal residing residents to go to higher ground due to planet warming. The increasing planetary green house effect is scientifically now observed. The Green Knight predicted dooms day long cycle comet may also be approaching, take heed! Also Florida residents listen for daily reports from Officer Bert and please be aware of hurricane Debbie now gaining power off the coast of Africa, oh the humanity!"
-- nightbat on the importance of a good diet, and always taking one's meds, in MID: <5936a$44ec171f$46e3a618$28623@COMTECK.COM>

"Real meaning: 'Repeatedly another raw-boned lout twitters, but some mankhead recurrently thereafter erodes the hymen. If another habitual criminal beyond a fat cell advises some fermentation bucket, then the show-off respecting another swamp-donkey glides. Now and then, some jawless fusspot periphrastically disturbs a mechanic with an inchworm. When you see another impacted tooth, it means that a bitch round a fried egg wobbles.

The walrus squeals, and another flathead amid a ham sandwich burns; however, a flasher charms a scabby codpiece. Another sheep with another taco tickler wakes, and the hedgehog sees another zigzagger. When some tatterdemalion afore the fungus is frightfully swaggering, some ruffian reportingly starts a bank manager.

Another vegetative door-to-door salesman splashes, and a dung ball respecting the motherfucker smiles; however, a hamster drinks a hifalutin fowl. Another alienated zoo exhibit comes, while some depressing hose bag finds some futtock. When you see another tonsil, it means that a cholera germ amongst another trollop sweats. Some dizzily stony-broke wretch is nosy. Some melancholic homo endlessly dangles some thereupon pus-filled fumbler.'" -- Kadaitcha interprets batty's advice in a most wise and insightful manner, in MID: <5m0ln4$znk$o@emaciated-marshmallows.net.au>

Joseph Bartlo wrote:
> A big mean meanie and heavyweight kookologist responding to my text

. . .that actually work ?
have tried stuff from a website and there is nothing on the base freq and i programmed it in the PRO-97 and NG

i tried 854.9875 and 860.73750

dont hear anything but static

thanks

You might try this:

http://www.radioreference.com/modules.php?name=RR&sid=126

This is old data, but maybe the frequencies are the same and you can try programming it was a Motorola Type II rather than having to deal with programming a fleet map. It also references http://www.n2nov.net/ which may be more up to date.

I use a Pro-92 and have no problem with listening to talk groups now that I have it properly setup.

Good luck,
Regards
Nigel

yea i tried that from radioreference .

the way i tried it i program in the primary control channel .
then you set up the blocks with the s numbers.

doesnt work or am i missing something.

btw what does the primary control channel sound like anyway ??
like voice or data ??

thanks

Well, this is what I did for Plano

866.06250
866.15000
866.17500
866.65000*
866.67500
866.96250
867.06250
867.15000*
867.17500
867.65000*
867.67500
867.96250
868.06250
868.27500*
868.30000

I press PGM and set the banks as follows
P101.T...-MO
866.0625 MHz
Bank 1 Ch 01
MOT: none

P102.T...-MO
866.1500 MHz
Bank 1 Ch 02
MOT: none

Including the control channels. I only hear static on the control channels apart from 867.15000 which is data sounding.

When in PGM mode I can press TRUNK and that will let me enter the code for the talk group which I can then lock out. There are almost 250 talk groups in these frequencies, I really have no need for Plano City Irrigation Data.

So, make sure the frequencies are stored in contiguous banks and see if

```
that helps.

Regards
Nigel

Anybody know of any free software for this unit? I found a site to download
the Icom software but when installing it, it ask for a serial number which I
do not have. I have a USB to receiver cable but no useable software. The
software on Yahoo group is impossible. HELP?

Hello

I recently moved house and am having a problem with some interference which cuts in in bursts across most of the airband. There is no regularity to it nor can I really work out what is causing it, and I was hoping someone on here may recognise it or would be able to help me through try to get rid of it. I've posted two mp3s, in case they might help, however I can't post an example of this with a transmission on when it it more noticable:

http://www.reevery.net/interference/2.mp3
http://www.reevery.net/interference/3.mp3

My equipment is a GRE PSR-282 and the interference occurs with my short telescopic aerial and my loft-mounted discone. In case it helps, I live about 500m from a TV repeater, which is 12kW and pointing almost in the opposite direction. The nearest mobile telephone mast is about 1km away. There is a TV aerial and a satellite dish on the side of my building but I would have thought any interference from anything TV would be continuous.

Would any of these be a factor, and if so do you think an airband filter might get rid of this? It's definitely something local as I had no problems at my previous address, and it sounds like it could be a data pulse. Any help would be greatly appreciated!

Thanks

Matthew

link dont appear to work?

not central heating ignitor is it?
thats the usual culprit of wideband rasping noises at very random intervals?

Airband being about 150 MHz?

> There is no regularity to it nor can I really work out what is causing it, and I was hoping someone on here may recognise it or would be able to help me through try to get rid of it. Interesting. Sounds like a QAM, QPSK, or PSK data signal.

>
> My equipment is a GRE PSR-282 and the interference occurs with my short telescopic aerial and my loft-mounted discone. In case it helps, I live about 500m from a TV repeater, which is 12kW and pointing almost in the opposite direction. The nearest mobile telephone mast is about 1km away. There is a TV aerial and a satellite dish on the side of my building but I would have thought any interference from anything TV would be continuous.

Right. All of those should be continuous.
Maybe the TV repeater also has a control data link?

>
> Would any of these be a factor, and if so do you think an airband filter might get rid of this? It's definitely something local as I had no problems at my previous address, and it sounds like it could be a data pulse. Any help would be greatly appreciated!

Hmm. I see your receiver is portable. Maybe walk or drive
around the area and see if the signal strength varies.
Maybe try a directional antenna in order to locate the source.

OK, today I got two batteries from Radio Shack for my BC245 for $17.95 each. Look just like the ones I got Uniden and cost a lot less I think. I got five years out of the other two batteries so lets see how long these last.

ALSO, they are the same battery that works in a lot of cordless phones.

> Airband being about 150 MHz?

Approximately. I'm mainly interested in the 118 to 138 section and it seems to be stronger in the 130s.

> Hmm. I see your receiver is portable. Maybe walk or drive
> around the area and see if the signal strength varies.
> Maybe try a directional antenna in order to locate the source.

Sounds like a plan. I don't have a directional antenna but I'll have a prowl round the area over the next few days and see where it's strongest. If it sounds like PSK etc then I guess it could be a neighbour's WiFi, I doubt it will be the repeater having a data feed but I'll wonder over that way and have a listen. I was slightly inaccurate above - the repeater is 12W and not 12kW.

Hi folks!

I've been using an old Radio Shack handheld scanner for ten or so years and I'd like to replace it. I live near an Airforce Fighter base and I'd like to be able to hear the chatter.

Honestly, I am not sure which frequencies this new scanner should have and what I've read about them, unfortunately, confuses me (and I'm not afraid to admit it).

I've looked at the "BC" handhelds and they seem to be a quality item. Which should I choose?

Your advice would be greatly appreciated!

Terry

I'd suggest, you sit down and think of all the stuff you might like to listen to, make a list. Bear in mind
that trunking systems are now common place, and digital is being mandated by the FCC in the years to come.
Alot of military bases have gone to trunking in the 400 mhz band (so make sure what you get will have this
feature along with military air, and civilian air frequencies).

Each scanner made has its good and bad points, Uniden makes good scanners and so does Radio Shack,
I've had both and find things I like and dislike about both. After you determine, WHAT you want to receive,
go to each one's site and read about the scanners and see which ones fit your needs, make a list. Then
a little more research, reading product reviews, from various sites should narrow down the list. Price,
depending what you want to spend can reduce the list even more.

One point I'd like to stress here, is that there will be a Band Restructioning in the 800 mhz band, some time
in the next couple years, SO..... make sure the radio you select can be firmware upgradable to what ever
they decide upon. Computer control / programming is also a 'must' since the radio systems are becoming
more complex and programming by hand can be a very confusing and tedious job even for the best of us.
The programing cable and software should be figured into the price if they are not included with the radio.

I know you were looking for a more direct answer like ' buy this scanner model XXXXX' but, with things
changing as fast as they are, and not knowing EXACTLY what you intend to do with it (which could, change
as your listening interests change) its hard to give a direct answer.

The audio is already available on two connectors.

Unfortunately, the BC-760xlt only has an envelope detector.
I need the signal before the detector.

It's also been obsoleted by Jabber and it's Multiuser Chat.

That's not the fun part. The fun part is the other channels they use
for internal communications. Lets just say that some people would be
quite upset if they heard what was being said about them "off the
air".

Is that normal for scanners to sometimes just miss messages even
though a scanner next to it is getting the message and the one is just
sitting there doing nothing? My mother has a 10-13 year old radio
scanner desktop that sometimes seems to get messages in our house
before my scanner gets it or my scanner will repeat it (Uniden
BR330T). I noticed when I listen to my local bus, it seems my Uniden
will sometimes miss a part of all of a message but my other scanner
doesn't seem to miss as much with it. I know it misses because when I
sit on a bus, the driver's radio hears everything but while a message
is playing on the driver's radio, my scanner is picking up nothing or

waits a while to hear anything. Can the bus be blocking my scanner and
the bus antenna be outside? I noticed AM radio and shortwave is almost
dead on the bus, why? You can hear scanners in cars I believe, so why
not buses?

Does the more channels worsen the scanner?

Speaking of the Uniden BR330T, does anyone know if it charges the
batteries with the scanner turned on and plugged in instead of being
off where it says Normal Charging? Also what is on 589-595MHZ range?
Every time I put on close call or search this range, my BR330T stops
and just leaves a static channel that I have to lock out. It's all
static on every channel in that range.

Geez what a bunch of tossers you all are - you don't like someones postings so
you try and get him evicted from the net, why not just use a kill file - you
DONT have to read his posts/threads now do you ?

Why is it the net is getting populated by the biggest bunch of self absorbed
little Hitlers ? You don't like someones posts so you bloody complain or mail
bomb them - grow up you bunch of fucking sad gits !

Richard.

If he is not actively using tactics to avoid or sabotage killfiles (posting from various systems, forging, massive crossposting to create cross-newsgroup flame wars) then it should be quite easy to killfile him.

It does seem that the frequency and the size of his posts are approaching net abuse. However, IMHO, they aren't quite there yet. If his postmaster were to act in this instance, it would raise troubling censorship issues.

There is an eBay seller that has a crystal for sale which is supposed
to increase the PRO-34 scanning speed as well as restore the cell
frequencies. Here's the link if you want to have a look:

http://cgi.ebay.com/Realistic-Pro-34-Modification-Instructions-Crystal_W0QQitemZ220087227217QQihZ012QQcategoryZ40979QQssPageNameZWDVWQQrdZ1QQcmdZViewItem

Grove Enterprises sells a telescoping whip antenna for $14.95 that's advertised as having 3 dB gain over a stock rubber duck. I've bought several of these from Grove, and my opinion is that the Grove antenna performs as good or better than the telescoping whip available from Radio Shack. The Grove antenna also seems to have a better build quality than the Radio Shack telescoping whip. If you read the reviews of the 20-006 antenna at Radio Shack's web site, you'll notice that the main customer complaint about the antenna is that it breaks rather easily.

I think it also shortens the delay length too. The one I had for a while had almost no delay, and scanned a lot faster than a stock one did. And the crystal has NOTHING to do with cell restore, that's removing a diode.

All in all, the negatives outweigh the positives.

BDK

Desktops tend to have better sensitivity than handhelds, but thats a general statement.
The only way to really compare would be to tap into the same antenna feed.
Turn down the squelch as far as you can, make sure theres no ATT engaged, and
thats about all you can do with a handheld ... Though frquently upgrading
stock antennas helps too.

TrunkPCR version 0.84.217 Now Available for Downloading from homepage:
http://members.cox.net/fiftyone.50/TrunkPcr/TrunkPcr.html

There are a few updates from last post.

Feb 23,2006 - -----: Changed RadioReference.com Web Import XML Data Retrieval.
Feb 23,2006 - Fixed: BandScope Limit Picture was blank from past problem.
Feb 23,2006 - Added: Windows Volume/Mixer Settings now can be accessed from Options Menu.
Version 0.84.215 Released 02/23/2007

```
!!!!!!!!! IMPORTANT INFO FOR PCR-1000 & PCR-100 USERS !!!!!!!!!
! IF YOU SAVED A BACKUP OF YOUR EEPROM SINCE AUGUST 20, 2006  !
!             YOU NEED TO SAVE A NEW BACKUP!                  !
! THE EeBackup.dat File that was written has false data in it !
!      and needs to be replaced as soon as possible...        !
!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
```

Feb 24,2006 - Fixed: Reading EEprom Data Values.
Feb 24,2006 - -----: You can now Verify the EEprom Data after first Backup.
Version 0.84.216 Released 02/24/2007

Feb 26,2006 - -----: User Picture now usable when Tracking.
Feb 26,2006 - -----: User Picture now Invisible when Tuned back to Control Channel.
Feb 26,2006 - Fixed: Entering a Frequency by double-clicking on Frequency Text in Main Display.
Feb 27,2006 - Fixed: If Web Import is open, program won't crash when Donation Pop-up is Displayed.
Feb 28,2006 - -----: Web Import will now allow Log-In with "Remember Me" UnChecked.
Feb 28,2006 - Fixed: Setting Initial Baud Rate for Moto Systems in Web Import.
Feb 28,2006 - Added: Importing Icom PCR-1500/PCR-2500 Memory Channels.
Feb 28,2006 - Fixed: Load Profile is now working...
Version 0.84.217 Released 03/02/2007

Regards,
Jay

> not buses?

This is the start to a long and difficult answer. I'll shorten and dumb things down a bit so that you can understand fundamentals.

First, scanners need to cover very broad ranges of frequencies. This means they can often go deaf in the presence of strong nearby signals. It's like trying to hear someone speaking softly on the other side of a very noisy room. If you had some way of reducing the ambient noise (such as filtering the extraneous sounds out) then you might hear more.

There are receivers which can do better, but they use more power and they need more filters. Thus, handheld scanners with limited battery life and little space available for filtering typically do worse than a table top scanner with more power and more filters available to use on the first few stages of the receiver. This feature is known as dynamic range among radio enthusiasts and engineers. It is a major consideration when purchasing a scanner. I could go in to the methods for describing how this works, but people write books about this stuff.

Second, there are issues of scan rate and squelch reaction time. If your scanner only passes by your frequency once every three seconds, it's possible to miss an entire message on a channel. There is also an issue of how weak the signal may be. It may be weak enough that while scanning, you'll set the squelch such that the scanner triggers spuriously on stray signals. Again, you'll miss signals when the scanner gets "stuck" on a channel where it thinks there is a signal. And meanwhile, the traffic on another channel goes by unnoticed.

Third, there is an issue of spurious signal reception. Most scanners have what are known as "birdies." Birdies are the result of spurious mixing products generated in the scanner itself. All scanners have them. However, in the better scanners, the microprocessor takes measures to hide them. You could get stuck trying to hear a birdie on older scanners.

> Does the more channels worsen the scanner?

It can. That largely depends on how fast the scanner scans and how long the signals stay on the air. I usually set up banks on my scanner for specific purposes. For example, I'll set up a bank for air traffic scanning. A bank for monitoring my local fire frequencies, and a bank for monitoring County and State Police in my area. I don't usually leave all banks on all the time. First, it's pretty confusing. Second, there is too much to listen to, and the scanner doesn't get through all the channels in a timely fashion.

Think about what you're going to listen for, and then customize the scanner's behavior for that purpose. You can't hear everything all the time. It's confusing, there will be gaps when more than one group is talking at the same time, and you'll have a hard time keeping track of it all.

Good luck, and happy monitoring!

Hello,

I'm wondering if there any stores where I can purchase a Uniden
BCD396T? I know it's best to
order online but I'm a pay now/take home type.

Cheers,
Demian

Look under radios in the phone book. Here locally there is a "police scanner" section. If it was me, I would call Scanner World, and order one. They are amazingly fast on shipping, and would probably be cheaper than buying locally, but it's your choice. They're in Albany, so it wouldn't take long to get.

BDK

My college uses standard two way radios that look like normal business
two-way radios. They only have like 3-4 channels. Not sure of brand
but the almost have the look of a scanner but yet it's a two-way.

I have a Uniden BR330T scanner, I try searching and using close call,
but I don't think I am getting the correct frequency. Is there a list
of two-way radio frequencies to search for or something else? Anyway
to find it with out them actually talking at the time?

Also, I forgot in my last post, repeated searches on the FCC site both
new and old database, yield no results for my college, so apparently
their frequency is not registered like the other schools in my area.

Would a school use GMRS or FRS?

I had a weird experience and was wondering if anyone else had this
experience. I accidently dropped my Uniden BR330T from my desk, only
like 3 ft, it still works, not even a scratch or crack. Odd thing is
though, it seems to be picking up better, why would that be?

Neither. That's the problem. A college is a "non-individual", and as such does not qualify for a GMRS license.

You need to look on a commercial radio database. The FCC database should tell you something as long as the search isn't too narrow. You may want to look in the database for any licensees in the city where the college is located. You'll get a lot of responses; but it is more likely you'll find the frequency.

If you drop a portable scanner and there is no scratches, no cracks,
no nothing, just the same as it was, and it only fell 2 to 2 1/2 feet,
is there anything to worry about?

While tuning through the 28.3 to 28.5 MHz portion of the 10m band in USB mode, I get what sound like carrier tones very evenly spaced every 15 kHz starting at about 28.3 MHz.

I am using an AOR AR8600MkII receiver with an AOR SA7000 antenna mounted on a mast outside. I am located in central NJ in the Princeton/Trenton area.

What is the source of these tones?

Thanks,
Doug

The horizontal sweep of television sets is 15750 Hz.
Switch mode power supplies operate anywhere from
10 kHz to 100 kHz.
It is not uncommon for either of them to ring and generate
harmonics in HF.

Hi,

I have listed my TS-850S for sale on ebay.

Click on this link to see that listing and the pictures:
http://cgi.ebay.com/ws/eBayISAPI.dll?
ViewItem&ih=018&sspagename=STRK%3AMESE%3AIT&viewitem=&item=280092199988&rd=1&rd=1

At $675.00 is should sell very quichly.

Thanks,

Bill

```

The mains frequency has little to do with the noise that a switcher can generate. A switcher rectifies and filters the mains to DC then uses a switching transistor to drive a transformer at a much higher frequency. Tens of kHz typically. The higher frequency allows the "magnetics", i.e. the tranformer, to be much smaller physically than a 60 (50) Hz transformer. That plus the on-off and not linear nature of the switch allows switching power supplies to be smaller and more efficient than linear supplies. It is the switching, with sharp edges, that generates high frequency components. I've seen poorly designed switchers generate harmonics into the hundreds of MHz.

It is Sat, 12:04pm EST (1704z).
  "Screwtop 10," an E-2C controlling acft from USS Enterprise, is up
on 283.15. He has been passing 10-line reports on this freq.
  Screwtop 10 has also been maintaining comms with Sealord on 267.5,
apprising Sealord of acft flight inbound and outbound to/from
Pinecastle Range.
  Most recently, he informed that "Nickel 13," "Hawk 45," and "Winder
65," (each a flight of two) were inbound to the area. I also heard
Winder 65 in comms on 225.35.
  "Nickel 11" was just up with Screwtop 10 on 278.775, advising that
they are departing the area.
  Earlier, I heard Screwtop 10 in comms with "Mauler 17" (S-3B) on
283.15 while Mauler 17 was at Pinecastle Range; Screwtop 10 is now
discussing Mauler 17 with Sealord on 267.5.

Hello, I have had my Icom PCR-100 (computer based scanner) for a while now and love it. I was just wondering if there were any other interfaces out there apart from the one that ships with it. I have used TalkPCR and one or two other ones. I have done a Google for other interfaces out there but just keep drawing a blank.

Does anyone have any links to other interfaces which would work with this scanner (preferably Freeware, but i'd be willing to pay)..

Many Thanks,
Andrew

Join the 396T yahoo group. There are hundreds of questions and answers on there.

Sounds to me like you're trying to listen to an encrypted transmission, but it could also
be a digital system that the radio won't decode (like the Cleveland Ohio digital system)

"Motorola has sold digital systems that use a different type of vocoder, known as Vector Sum Excited Linear Prediction (VSELP). Cleveland, Ohio, and Memphis, Tennessee, are two cities that use VSELP. These systems also use the Motorola 3600 bps control channel but are not interoperable with the digital voice features of APCO-25 radios."

You didn't say where or what you were trying to listen to so until you're more specific
this is the best 'answer' I can give you.

"Me" <me@there.com> wrote in message news:45f24055_1@news.iprimus.com.au...

I understand about the noise and harmonics a switcher can generate, but the thing is that my antenna is mounted outside on a mast 25 feet up. All the wiring in my neighborhood is underground. It's not clear to me how I could be getting such strong interference in this case. What about harmonics from wireless routers? Could that explain this interference pattern? - Doug

It seems very unlikely to me. That stuff is up in the GHz.
They don't tend to make subharmonics.

My computer monitor has a 62 kHz horizontal sweep.
There are various places on HF that I pick up "carriers"
evenly spaced at 62 kHz. (Antenna is outside, connected
with coax.) When I switch off the monitor the "carriers"
disappear.

One thing to try is to remove power from everything
in the house. You can't just turn them off, you have to
disconnect the power. I have a Sony stereo that makes
RF noise if it is just plugged in.
You can switch off all the circuit breakers to everything
but the radio. (And unplug anything left on the live circuit.)
Or if you can power the radio with batteries
then switch off all or the main breaker.
See how much noise goes away then.

The carrier frequency is around 2.4 GHz, sure, but the data bursts are quite
a bit slower. What I don't know about is whether wireless routers broadcast
data bursts at regular intervals that somehow may be getting demodulated in
my receiver.

> My computer monitor has a 62 kHz horizontal sweep.

I use an LCD panel. Turning that off makes no difference, as expected.

I've gone through this process when chasing down a nasty buzz in the AM and SW broadcast bands. I found that the light dimmers on my outdoor spotlights caused a nasty buzz all across the bands, not at any kind of regularly spaced frequencies. That sound was also quite different than what I am getting now. I'll have to explore that idea some more.

Thanks, and keep the ideas coming...hopefully we'll figure it out.

 - Doug

I can confirm that he is on 160m CW.
As I have had several people tell me this.
He did have his Icom 910 and 1296 transverter for sale.

George, I know you are out there.
Give me a call!!!!!

And if he plead guilty to a felony I'd like to see his amateur priveleges
revoked.

I'll try to contact the folks in Volusia County.

Hey dxAce.
Remeber he got arrested in Holly Hill if Volusia County doesn't work.
I might try to get hold of the buliding owner for that SHAM office he
had.
They can at least share what they know. I am sure they aren't getting
a rent check.

I got to admit that if George gets away with this, he is one smooth
talking son-of-a-b***h.
Mr.Meglomaniac strikes again.
He sure has a few people fooled ... or maybe the people around Daytona
Beach are just gullible..

dxAce.. I am with you on this. George needs to pay a heavy cost (even
if it is just lawyers fees)
and his Ham license revoked, if for anything being a CON and a JERK.

The public needs to be protected against people like him.

What did he do exactly? I saw his e-bay sales and granted they were a
scam, but anyone foolish enough to waste money gambling surely wouldnt
care about wasting money on his books.Where is the federal case in all this?

Pretty bad. What I saw originally were just cheap CD's and books for gambling tips. Not iPod ripoffs. I wonder why he did that. Maybe he got taken into a scam. I got an e-mail from the UK claiming to be from a furniture outlet doing business in the US(!!!). They wanted to hire me to accept payment from distributors in the US. I was to deposit the checks and send to them less "my" commission. It was obviously a scam, but a well constructed one with links to "their" UK homepage. I am just naturally suspicious (to a fault) and won't fall for this stuff. I could see where someone might get scammed into the middle of a bigger scam like taking payments for iPods. It will be interesting to see how this plays out.

As I mentioned once before, I think he was having a cash flow problem
and needed some money to cover some debts. There are 10 years of posts
from people that questions what he was selling.
That stuff in that room wasn't cheap.

Remember if it looks like it, smells like it, feels like it, and
tastes like it.
DON'T STEP IN IT!!!

His attack on the local TV stations on his WebCrap is his way of
trying to get
back and how he handles confrontation and adversity. He has some
real

personality disorders. Someone other than me called him a
meglaomaniac.
It describes him very well and he can be dangerous. Don't be surprised
that he
continues on a tirade and it becomes more personal, contains
individual's names, and
hopefully threats. Why???
When he threatens, that is when one of us emails the TV stations and
names he is
mentioning and let them take the necessary actions to the authorities.
I am sure the
Holly Hill, FL police department and Volusia Co. authorities still has
him on a watch list.

Give him time, he will make a wrong move. His best bet is to be silent
and reclusive.
I do not think that is like him. His grandeur ego is starting to get
the best of him.

Beauty is skin deep and ugly goes to the bone.
People like him gives this hobby a bad name.

instead of blathering about it, why not simply report it (if you know where that is).

blathering about it here means that you are just being a whiney bitch about it.

On 12 Feb 2007 17:18:53 -0800, "anonymous_c" <mccpat@gmail.com> wrote:

>Ok, I need an antenna that performs equally well on VHF-lo and VHF-hi... that's all I need. I've love to get the Scantenna, but I've heard people say that it's performance is "so-so" on VHF lo. I need great performance on both. A beam would probably be preferred.
>
>Anyone have some resources where I can build my own antenna? I'm wondering, however, if it would be better to purchase an antenna if I need good performance on all of VHF-low (30-50Mhz) and VHF-hi (148-174MHz).

forget about building it .... it's too big and too complicated of a job for what you want. better is to get a low band / high band TV antenna (channels 2 and up) , the bigger the better and turn it vertical for scanner use.. then get a suitable rotor and the highest mast you can install , for any hope of success for the distance you want to cover. a low noise stridsberg preamp and 50 ohm to 300 ohm balun are probably in the mix as well.

any serious multi element beam for 30 - 174 mhz and up is gonna be a huge antenna . 12' to 16' long would be in the ball park for all the freqs and distance you want . the antenna above is still not large enough for perfect operation below 35 - 45 mhz or so ..... but more realistic than a dedicated 30 mhz 5 element beam.
(ie: 20' boom at 30 mhz)
http://www.cebik.com/a10/ant29.html

just my thoughts on your question ....

APRSPoint 4.2 is uploaded,

1. This new version has improved tracking support by adding separate track lists for stations to be tracked over either RF or TCP link.

2.It also added a new reject field in the filter dialog, where you can specify a list of stations to filter out using multiple strings that can contain wild card characters.

3. It allows you to selectively remove stations from the tree view list. This combined with improved filter operation, enables you to dynamically adjust what gets displayed on the map.

Please visit http://www.aprspoint.com for details and download.

Thanks, Michael KF6ZDM

Continental 1666 diverting to Miami IAP: 6640 kHz USB
`````````````````````````````````````````````````````

It is Wed, 3:51am EST (0851z).
  "Continental 1666" is up on 6640 kHz USB with ARINC-New York in a
phone patch to their dispatcher and then MedLink. They are discussing
a 48-year-old male passenger who is having a heart attack. They are
diverting to Miami IAP.  Paramedics will meet the plane; and the
airline is making arrangements for the passengers aboard the flight.

Allan:

A bit new with this.

Is this 6640 USB freq. devoted to Continental, or is it an ARINC freq that any of the airlines can use ?

I've been trying to find an up to date listing for company airline freq's
for some time, but all the ones I have are,
for the most part, quite old, and apparently out of date. Might you know of any ?

How about Arinc freq's for the NY/Boston areas that are in frequent use
(both USB or just regular AM)?
BTW: Are these "always" USB ?

Thanks,
Bob

Hi,

Was wondering if there is any practical way to hear USB broadcasts on a scanner ?

e.g., using AM, of course, but perhaps setting in some offset, or... ?

Thanks,
B.

No simple and easy way just by setting the controls of the scanner.

It can be done if the scanner can be set to the AM mode and a signal from a seperate source is used. That is you can use a signal generator that is very stable and tune it to the frequency of the incomming signal . The signal can also be injected at the IF frequency of the scanner.

I am just curious, because I understand but don't 100% understand why. I know that some things can block radio signals but does anyone know why this is.

If I take a local transit bus in my area, whether it is a big or a small bus, on a walkman or scanner, their is usually little to no AM at all. Some FM stations go haywire. Shortwave, on the bus dead. When I go into my college, shortwave dead.

When I am in my house, I can easily get AM stations and shortwave, why do some buildings just kill the signals?

Also, does anyone know, did McDonalds go encrypted or something with their drive-thru? I have a Uniden BR330T scanner that includes drive-thru ranges, and in my area of my college, there is 3 restraunts with drive-thrus. One KFC, One McDonalds, and one Wendys, all right next to each other. Now I have always been able to get KFC and Wendys with usually only a search. No matter what I do, I can never seem to get McDonalds on my scanner even trying known frequencies. I know for a fact they use wireless headphones because when I went in to give an order, I saw a pair behind the counter. Why is McDonalds the only

```
place I can never get on my scanner?

nvm my first question, I think I need to do a WFM search on the 900 range for McDonalds because that's the only one I didn't do, so that's probably why I never heard them.

Wow what a huge loss, no mcdonalds mm mmmm, scanning is hardly even worth the
bother without knowing about all of those double cheeseburgers being sold.

There is a seller (not an auction) on eBay that has several ICOM PCR-100's
at $50.00/ea.! It is the radio minus the 12V AC adapter, software, and
serial cable. However the software is free on the web, the other items are
inexpensive, and easily obtainable. This is a heck of a deal! He has sold
tons of these with 100% positive feedback. I bought two myself.

Item number: 200082149864 dishman6960

Thanks Bill -- much better than the last few rounds at $75 and $95. Makes me curious though -- any speculation on where these are being pulled from? There must have been a few hundred in the past few weeks. Who is out there listening to what [and why did they stop] ????

LoL, I know it's not a huge deal, it's just that, I was bored one day
and was annoyed they were the only thing I couldn't get. I don't want
to listen to them every day and record them, just something when I am
bored.

They were mounted in 19" rack units. Eight radios per unit. They had one common power supply per unit for all eight radios. They were used to monitor AM/FM broadcast stations, and record commercials for paid commercial time verification. He attempted to sell some of the assembled rack mount units starting at $350.00, but was not very successful. As soon as he parted them out, they began to sell. Several members on Radio Reference purchased 1, 2, or more. He ships via U.S. Priority Mail for only $5.00.

You will need a 12VDC 1000ma (1amp) AC adapter. A standard DB9 RS232 serial cable. As for software, there is the original ICOM PCR-100 software available on the web, TalkPCR, TrunkPCR, SpectrumGM, PCRScope, and possibly others.

Performance is par with Icom's big brother, the PCR-1000, minus SSB mode. The PCR-100 has stereo FM output as well, where the PCR-1000 does not.

Here is some contact information if you need it:

Well have at it don't let me stop ya - With analog cell phones dying like
bloated former playboy models and police going digital all over the place,
you gotta take what you can get.
Probably a matter of time before old Ronald goes encrypted or moves to

SATCOM, so enjoy it while it lasts.

I have just recently purchased the Uniden BR330T. I was wondering, is
their any antenna that anyone recommends to have a better signal
pickup other then the antenna that comes with it? I have one station
that I like to listen to, except where I live, it comes in, but you
have to be careful where you place the scanner to pick it up.

Thanks for any suggestions.

The code hating losers were too stupid and lazy to learn and use CW, they're also probably going to be too stupid and lazy to solve TVI and interference problems with their neigbhors. There will be more amateur to amateur and amateur to non-amateur conflicts. Hams will look bad and the FCC will regulate the service more because of all the retards we let have HF privledges.   CQ Breaker, CQ Breaker.

Welcome to CB everybody.

Hey the courts were fast !!!!!!!!

George appeared in a Volusia Co. Court on January 30,2007, filed on February 5 & 6.
He was smart and pled "nolo contendere" to "attempts to defraud".
He was fined, paid other court costs, has to pay restitution to 38 victims, is on probation for 3 years, and will serve 20+ more days in jail in the future. Some of his computer equipment belongs to Florida now.
The terms of his probation is specific.....NO INTERNET BUSINESS
His gaming book site is not operating. (licensed2con...sorry ..4fun)

As for his ham license, if he keeps quiet and behaves himself they will won't probably act on it. I think they revoke licenses of only real skumbags, not megalomaniacs.
But....George has had a problem keeping quiet. He is his own worst enemy. I am sure there are authorities watching him closely. If he steps out of line, one call to his probation officer should be all it takes.

Lets hope he complies with the wishes of the court, closes or better yet gives away his RadiosOut-Of-Line and Mil-Air-CoNN websites, goes into recluse, gets a real job, and one day learns to become a decent human being.

I leave it now to the fine officials of Florida to handle it. If they can handle probate for Anne Nicole Smith, they can handle George.
I am praying for him.   Bad news though... My prayers aren't answered much.

So long my fellow radio enthusiasts. You all do give this hobby a good name now and then.

Thanks for the update. He certainly didn't get what I thought he deserved.

But... I'm certain he'll screw up again.

I know this probably will sound like a newbie question but I have actually been using scanners for a long time. I currently own a Uniden BR330T.

I do not 100% understand Squelch. I know it's pretty much a noise control, but I don't really get when you set it to a lower number and when you set it to a higher number. By default my scanner program sets my BR330T to 4. I noticed if you have no squelch, every station basically becomes static but no squelch on an older scanner, doesn't make it do anything.

Anybody know how to tap out the IF from a
Uniden BC-760XLT scanner? Or know where
to get a schematic for the radio?

For FM scanners what you hear without a signal is random noise the radio is amplifing. The signal is filtered so the higher audio freqeuncies (usually just above the hearing ranfe) are tapped off and sent to the squelch circuit. When a signal comes on frequency the noise starts to get less . Once the signal gets to a certain point the noise goes away. This is the full quietning point.   The noise going to the squelch circuit is controled by the squelch control. This just determins at what point an electronic switch in the scanner trips and lets the audio go to the speaker and the scanner stops scanning.

To set the squelch you usually want to turn it just past the point the wideband noise stops. If a weak signal keeps the scanner stopped on one frequency you can turn the squelch up more and maybe eliminate that problem at the expense of loosing the weaker signals.

The squelch setting does nothing to actually reduce the noise or anything else to the signal.   It just determins at what signal level the switch trips.

If you were looking for the unfiltered audio out, I could take a picture
and email it to you.

Good luck on the schematic and the IF out.

Mark

Think of the squelch setting as a threshold for allowing modulated signal through to the audio amplifier.

The higher the squelch setting, the stronger the modulated signal (voice) has to be in order to "break through" to the audio amplifier. If the squelch is too low, it takes very little modulated signal. If the squelch is off, everything comes through as noise.

Normally the squelch should be set just above where the noise stops so that any desirable signal above that level will get through.

 - Doug

Not sure if this made it the first time since I never got it back...

Radio Enthusiasts,

This posting is to invite radio entusiasts to investigate Internet Relay Chat (IRC), a free realtime multi-user chat medium that allows users to connect to a network of servers and chat in realtime with other users connected to any of the servers on the same network.

IRC uses "channels" similar to the chat rooms on AOL for those familiar with those. Anyone who connects to any server in an IRC network can join any channel on that network and chat with any and all other users in that channel regardless of what server in the network they have connected to.

Using IRC, it is possible (for example) for radio clubs, ARES/RACES or other EmComm groups, etc. to have a realtime online chat forum where members can connect and have sort of an online clubhouse or meeting. This is great for groups with members in widely separated geographical areas who can't otherwise have a "meeting" in the usual sense.

The IRC network IRC-GLOBAL is one example of an IRC network, and it happens to be operated by radio hobbyists. Feel free to check out the network's website at http://proxemic.net - this network is now inviting radio enthusiasts of all stripes to use the IRC-GLOBAL network as a forum for realtime multiuser chat with other like-minded individuals. Hams, CB operators, scanner and shortwave listeners, whether individuals or clubs, are welcome to use this network.

IRC-GLOBAL offers five open public IRC servers using active connection ports 6661-6669 (and also, 6697 for SSL connections). running full modern services (ChanServ/NickServ/MemoServ/BotServ/HostServ). Secure client connections are available using SSL. Channel owners have full founder control of services tools and security options. All of this is free, there is no charge of any kind for the use of any IRC-GLOBAL servers or services.

There are already some radio-related channels formed (#monitor, cross-linked to the #monitor channels on four other IRC networks as well, is the busiest right now), or you may of course form your own channels - about radio, or anything else as long as it's not illegal or just for the purpose of harassing others.

I hope nobody will consider this "spam" or be offended by it, if so, I apologize - I'm posting this as a network administrator on the IRC-GLOBAL network, I have no financial axe to grind since the use of the network is totally free to any and all who wish to use it. I'm one of the radio hobbyists who has helped put this network together and just want to invite other radio people like myself to make use of it.

Hope to see you on IRC-GLOBAL soon!

73 de John Kasupski, KC2HMZ
IRC-GLOBAL Network Administrator

FYI - IRC is also one of the larger sources of computer infections, so be sure yours is fully patched & all protection software is activated before you take the suggestions below!

Well, that's good advice that should be followed before you even connect to the Internet, even to download your e-mail. I do know, however, that I've used IRC regularly since 1996 and have never, ever gotten any kind of virus or other infection as a result of my IRC activities. Thoigh I suppose other people's mileage may vary.

John

*** Welcome to rec.radio.info! ***

Welcome to rec.radio.info, a group that aims to provide a noise-free source of information and news for the entire rec.radio hierarchy.

Two introductory articles about rec.radio.info are posted to the group every month. You are now reading the first article, which explains what rec.radio.info is, and answers some Frequently Asked Questions. The second article is titled Posting Guidelines, and you only need to read it if you want to submit an article to rec.radio.info.

You can skip to the next section of this article by searching for the next
" -- " string. The sections available are:

- What is the purpose of rec.radio.info?
- Why are messages almost always cross posted to rec.radio.info?
- What is a 'follow-up', and what does 'moderated' mean?
- OK, so now I know what 'moderated' means. Tell me more.
- What type of material is considered inappropriate?
- I do not have access to news, how can I get the information posted to rec.radio.info?
- Will the material appearing in rec.radio.info be archived somewhere?
- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

-- What is the purpose of rec.radio.info?

The purpose or charter of rec.radio.info is to provide the Usenet community with a resource for information, news, and facts about any and all things radio.

All the other rec.radio groups are intended for discussions and general chit chat about radio. Rec.radio.info will contain informational, factual articles only. Follow-ups are redirected to an appropriate other group, and further discussion (if any) will not take place in rec.radio.info.

In order to ensure that rec.radio.info contains only appropriate articles, it was decided to create the group as a moderated newsgroup.

-- Why are messages almost always cross posted to rec.radio.info?

It provides a "tag" for each article to be assembled into a filtered presentation in rec.radio.info (even with cross-posting, only one message, with a unique Message-ID, is propagated across the net). This tag also facilitates a pre-existing method of dropping or canceling the articles locally within the discussion groups if you don't want to see them. This accommodates individuals who want to separate the bulletins from the discussions, discussions from the bulletins, as well as those who are adamant about not reading another newsgroup and wanted to see everything all in one basket.

With the total size of Usenet (in number of newsgroups and total traffic) doubling every year or so, this is no insignificant contribution to reducing information noise and chaos. Making the discussion groups a catch-all, and making extra newsgroups filters on that catch-all, is also the most realistic way to implement such a scheme (It's not intuitively obvious what the charter, contents, and general appropriate topics for each and every newsgroup are. Seeing FAQ's and charter/intro postings in the home newsgroup is beneficial for new readers).

By cross-posting one only is adding a few tens of bytes to each bulletin (to specify the extra group on the Newsgroups line), but are adding the capability for very powerful filtering features available on most news servers, listservers and readers. Your local news guru could probably explain these features in more detail.

In rn, for example, according to Leanne Phillips in her rn kill-file FAQ, add a line of the form:

```
/Newsgroups:.*[ ,]rec\.radio\.info/h:j
```

either in ~/News/KILL (if you don't want to see rec.radio.info articles anywhere) or ~/News/rec/radio/amateur/misc/KILL (if you don't want to see them just in rec.radio.amateur.misc). The latter method means your kill file will only be consulted during rec.radio.amateur.misc (and hence runs more efficiently), and will probably work for most people.

In nn, according to Bill Wohler in his nn FAQ, add a line of the form:

```
rec.radio.info:!s/:^
```

in ~/.nn/kill (if you don't want to see rec.radio.info articles anywhere), or put the following lines:

```
sequence
rec.radio.info
rec.radio.
```

at the end of ~/.nn/init in order to see all the rec.radio.info bulletins first, then read the remaining rec.radio.* without the bulletins.

-- What is a 'follow-up', and what does 'moderated' mean?

If you are new to Usenet and are not familiar with the terminology, you might want to read the general introductory articles found in the newsgroup news.announce.newusers. Doing so will make your life on the net much easier, and will probably save you from making silly beginner's mistakes.

If you think that at this moment you are reading an echo, a conference, or a bulletin board, I'd also strongly suggest a trip over to news.announce.newusers.

For the rest of this article, we will assume you have a basic knowledge of Usenet terminology and mechanics.

A moderated group means that any article that needs to be posted to the group has to be accepted by the moderator of the group. Since we need to ensure that followups to an article (discussion) do not show up in the rec.radio.info newsgroup, the `Followup-To:' header line contains a newsgroup that is appropriate for discussions about the specific article.

-- OK, so now I know what 'moderated' means. Tell me more.

Rec.radio.info is a moderated newsgroup, which means that all articles submitted to the group will have to be approved by the moderator first.

The current moderator of the group is the rec.radio.amateur.moderated Moderation Team. Submissions to rec.radio.info can be posted, or e-mailed to:

rec-radio-info@panix.com

Comments, criticisms, suggestions or questions about the group can be e-mailed to:

rec-radio-info-request@panix.com

But before you do so, please be sure to check out the "Posting Guidelines" article.

The influence of the moderator should be minimal and of an administrative nature, consisting chiefly of weeding out obviously inappropriate articles, while making sure correct headers etc. are used for the appropriate ones.

-- What type of material is considered inappropriate?

There are three broad categories of articles which will be rejected by the moderator:

1) Requests for information: rec.radio.info is strictly a one-way street. We receive information in our mailbox; we then post it to rec.radio.info. Requests for specific information belong in the normal discussion newsgroups. If your request gets answered, you might consider passing the answer on to rec.radio.info, though. Especially if you can edit it into a informational, rather than a discussion, format.

2) Obvious discussion articles, or articles that appear unsubstantiated.

3) Commercial stuff: a relatively unbiased test of a radio product would be accepted, but any hint of for-profit might be reason for rejection. For three reasons: This is not the purpose of the list, for-profit is a controversial topic, and this list may be passed onto Amateur Packet Radio (where for-profit is prohibited except under certain provisos).

rec.radio.swap may be more deserving of the posting in any matter.

Similarly, copyrighted material generally cannot be used. If it's TRULY worthwhile to the net, We would recommend obtaining permission from the copyright holder. Please note the source, and if permission was given. We reserve the right to make the final decision concerning appropriateness in all situations. In most cases, a brief summary of, or pointer to, the copyrighted information may be all we can allow.

-- I do not have access to news, how can I get the information posted to rec.radio.info?

Google has an excellent web interface to Usenet newsgroups. It is available at:

http://groups.google.com

It supports both reading and posting.

-- Will the material appearing in rec.radio.info be archived somewhere?

Yes. See Google Groups above.

Effectively this means that anything you post to rec.radio.info will be permanently stored, so your work will not be lost.

-- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as time critical.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires co-operation and goodwill to be beneficial to the community in the rec.radio hierarchy.

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

*** rec.radio.info - Posting Guidelines and Etiquette ***

Two introductory articles about rec.radio.info are posted to this group and to rec.answers/news.answers every two weeks. You are now reading the second article, which explains how to submit something to rec.radio.info, and which answers some Frequently Asked Questions about the submission process. The first article is titled "Welcome to rec.radio.info", and it might be a good idea to check it out as well.

-- How do I submit something to rec.radio.info?

Two possibilities. You can use your newsreading software to just post the article to rec.radio.info, as you would do with any other newsgroup. The difference is that the software recognizes the special status of rec.radio.info as a moderated group, and will e-mail your article to us, the moderation team, instead of posting it to the group.

Alternatively, you can mail your article directly to us at the following address:

rec-radio-info@panix.com

Mailing us directly is probably (a wee bit) faster, but using the transparency offered by the newsreading software is probably more convenient.

If you have any questions, or wish to deal with some administrivia with the moderation team, we suggest mailing to the following address:

rec-radio-info-request@panix.com

-- How soon will I see my article appear?

It depends on how busy we are. Your article reaches us as mail, we have to read it first, give it the stamp of approval, and finally send it on to the group. We will attempt to read and decide on all submissions within 72 hours at the very least, though we will probably be able to process submissions much faster in actual practice.

The site from which we moderate this newsgroup, "Public Access Internet and Unix, NYC" (Panix), is directly connected to the Internet, and articles posted at that site should appear at most major news sites, including Google Groups, the same day. The principal delay, therefore, will be the wait in the moderator's submission queue.

If you post a periodic article, and have shown to be trustworthy, we may allow you to post directly if the article is of a timely nature. See the section below on direct posting.

-- Should my article be in a specific format?

No. If it is not totally illegible, we will accept it, and if it does not have a correct subject-line we will correct it with your permission

-- that's what a moderator is for.

However.

You could do us a big favor by making sure your article conforms to these simple requirements:

1) The article must present information, not discussion or requests, We will reject the article or require you to change the wording if it is worth it.
2) A good, descriptive Subject line.
3) Always mention what source you got the information from.
4) Don't forget to include a Followup-To header, at least if you don't want further discussion to automatically be forwarded to you, the poster, which is the default if the article is only posted to rec.radio.info.

As we said: if your article is appropriate we will post it even if you don't follow these guidelines, but then don't blame us for not processing it immediately. 'Perfect' articles we can send on with a couple of keystrokes. Stuff that needs minor editing is going to have to wait until we have time to do so.

Please do not waste both our and your time by posting requests, as this is an information only news group.

-- What about crossposting?

If you send something to rec.radio.info, just name any group you'd like to cross-post to in the Newsgroups field. Then, when we approve the article for rec.radio.info it will get automatically cross-posted to any other groups mentioned. This will also override the default Followup-To: poster, replacing it with the groups you cross posted to.

We would prefer if the group be cross-posted to the various discussion groups in the rec.radio.* hierarchy that are appropriate:

rec.radio.amateur.misc	Amateur (ham) radio and related matters
rec.radio.amateur.packet	Amateur Packet Radio discussions
rec.radio.amateur.policy	Amateur Radio practices, rules, etc.
rec.radio.noncomm	Non commercial radio discussions
rec.radio.shortwave	International broadcasting on the 'HF' bands
rec.radio.cb	Citizens Band (27 MHz) discussion
rec.radio.scanner	Scanner discussions (unsupported group)

or in one of the moderated groups:

rec.radio.amateur.moderated	Amateur radio practices, rules, etc.
rec.radio.broadcasting	Discussion of *domestic* radio broadcasting

We will leave it up to the poster to decide which group(s) are appropriate, but reserve the right to add groups if we feel it has broader interest. We will consult with the poster first.

Notes on crossposting:

- rec.radio.broadcasting is also a moderated group. The rec.radio.broadcasting moderator prefers to review all articles himself before posting. Placing rec.radio.broadcasting before rec.radio.info on the Newsgroups line should accomplish this. We will typically abide by the rec.radio.broadcasting moderator's decision whether the article is appropriate for rec.radio.info.

- rec.radio.amateur.moderated is also a moderated group. As the rec.radio.amateur.moderated Moderation Team manages both rec.radio.amateur.moderated and rec.radio.info, we can manage crossposting and approvals for both newsgroups. The rec.radio.amateur.moderated group does not allow crossposting to other discussion newsgroups, whether moderated or unmoderated. However, we would like to manage rec.radio.info as consistently as possible with how it was done by previous moderators, including the grandfathering of existing regular postings. Therefore, the submitter can choose rec.radio.amateur.moderated or the other unmoderated rec.radio.amateur.* discussion newsgroups for crossposting, but not both.

- Any FAQ or informational posting approved by the rec.answers/news.answers moderation team that is also crossposted to any rec.radio.* newsgroup (besides just rec.radio.info) is also automatically pre-approved for rec.radio.info. See below for more information.

If you post to another moderated group, it may be better to make special arrangements with both moderators before posting by contacting us at our administrivia addresses.

In addition, cross-posts do not take up extra space; modern newsreaders can be configured to show you cross-posted articles only once anyway; not everybody reads rec.radio.info; and rec.radio.info was never meant to reduce the volume of the regular discussion newsgroups. But keep in mind that some of the mail gateways may filter out the informational postings (at request of the subscribers) to keep the load down.

You decide.

-- I have a regular posting with timely information, can I make arrangements to help speed up delivery by posting directly from my site?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as timely.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires cooperation and good will to be beneficial to the community in the rec.radio.* hierarchy.

If you are currently maintaining (or plan to maintain) a radio-related periodic information posting, you may wish to consider crossposting it to rec.answers/news.answers. Postings that are approved by the rec.answers/news.answers moderators for this treatment are automatically pre-approved for crossposting to rec.radio.info (as the news.answers requirements are far more rigorous than the requirements this newsgroup ever plans to use). For more information about this option, consult the appropriate information articles and posting guidelines in rec.answers/news.answers.

Realize also, that even if your post is not approved for rec.answers/news.answers, it can still be approved for rec.radio.info. The intention is not so much to get every last bit of radio-related information on rec.answers/news.answers, but rather to provide an alternative avenue of approval (as well as grandfather existing maintainers of radio-related information and spare them additional bureaucratic hurdles). Again, crossposting to either rec.radio.info or rec.answers/news.answers, both, or neither, is at the discretion of the poster (subject to the approval of the moderators). You decide what is most appropriate for your article.

Please remember that as an information maintainer, you are not alone. There are many others on the net who maintain and post periodic information postings, using various intermediate-to-advanced features of Usenet (usually via automated tools). Various degrees of technical support and general hand-holding are available from many Usenet veterans. Send us some E-mail describing your needs to our administrative address below, and we'll try to help, or at least refer you to the right knowledgeable individual(s).

-- And Follow-ups?

If the only newsgroup you have specified is rec.radio.info, then the Followup-To: field will always be set to poster. If you do not want this, you must supply a Followup-To line of your own, and we will honor that one, as long as it is a subset of the original Newsgroups line.

If you specify newsgroups to cross-post to, then the Followup-To field will be set to include all the cross-posted groups, excepting rec.radio.info itself. Again, if you do not wish this behavior, supply your own Followup-To line.

We maintain other standards on the various RFC-1036 (news transport) header lines. For example, if the article is appropriate for passing into the Packet Radio Information Network, we encapsulate the Packet Bulletin Identifier (BID) in the Message-ID: news header line indicating the machine of origin as the ampr.org domain:

Message-ID: <$opa.55.1994@ampr.org>

where the Packet Radio BID, in this example, is `$OPA.55', and it was posted in the year 1994, because some of the Bid numbers are cycled yearly. Hopefully, this can be used as a key to re-introduce the articles for the Packet Radio network. Also, if the article is a repost of an already existing information article in the rec.radio heirarchy, we ensure that the References: header line is linked to that previously posted article. This also helps to tag articles, and may be used for additional filtering if needed.

Since the articles are archived, please use the Summary and Keywords header lines to help one search for your article.

-- Why have I received no reply from you?

We never reject anything in silence, and we make a point of it to answer all our mail. However, E-mail, like a brain cell, can and does get lost, every now and again.

So, if you send us something, and you don't see it appear it rec.radio.info, and you still have not heard from us in reply after say, five days, you can be pretty sure that either your mail never reached us, or that our answer has never reached you. In that case, please try again (We will filter out duplicates).

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

Hi everybody,
I am a new happy owner of a R7100... my question is: is there any FREE
peice of software that allows to backup all the memories from/to the
7100? (I don't really need full computer control, just memory editing
capability...)
Any advice welcome... thanks in advance.

73,

Michele

tom you don't program it, all you do is plug it in and press the
police button

I have been unable to find the scanner frequencies for the St Thomas,
ON  Canada fire department.  Can anyone help?  Thank you so much.  My
mom is a senior and listens to her scanner to pass time and has only
the police department frequency.  Sincerely,  LuckyMommie

When you are tracking a moving object, aprspoint will record all its positions on the map, and optionally connect them with lines to form a track. If you are tracking multiple moving objects at the same time, the map could get cluttered quickly. In this new version, you can choose to selectively remove an individual object's track, or remove all tracks on the map. This version also includes fixes for several bugs reported by the users. We have also tested it extensively on the Vista platform as well. Old keys will no longer work on this new version, please refer to the web site http://www.aprspoint.com for upgrade details.

Fwd: [MilRadioComms] Astronaut arrested; attempted kidnapping, battery

http://www.sun-sentinel.com/news/local/southflorida/orl-bk-nasaastronaut0507feb05,0,5270732.story?coll=sfla-home-headlines

Space shuttle astronaut arrested at OIA on attempted kidnapping, battery charges
Henry Pierson Curtis, Sentinel Staff Writer
Posted February 5 2007, 7:11 PM EST

A NASA astronaut is charged with attacking her rival for another astronaut's attention early Monday at Orlando International Airport, the Orlando Sentinel has learned.

Lisa Marie Nowak drove from Texas to meet the 1 a.m. flight of a younger woman who had also been seeing the male astronaut Nowak pined for, according to Orlando police.

Nowak -- who was a mission specialist on a Discovery launch last summer -- was wearing a trench coat and wig and had a knife, BB pistol, rubber tubing and plastic bags, reports show. Once U.S. Air Force Capt. Colleen Shipman arrived, Nowak followed her to the airport's Blue Lot for long-term parking, tried to get into Shipman's car and doused her with pepper spray, according to reports.

Nowak, 43, is charged with attempted kidnapping, battery, attempted vehicle burglary with battery and destruction of evidence. Police considered her such a danger that they requested she be held without bail in the Orange County Jail, reports show.

Nowak told police that she was "involved in a relationship with," Bill Oefelein another NASA astronaut, and categorized the relationship as "more than a working relationship but less than a romantic relationship," according to the charging affidavit.

Nowak told police that she found out Oefelein was involved with Shipman and planned a trip to Orlando to talk to Shipman about their relationships with Oefelein. She told police the BB gun "was going to be used to entice Ms. Shipman to talk with her," the affidavit said.

Shipman told police that when she arrived at the airport and was waiting for the airport satellite parking shuttle, she noticed a woman wearing a trench coat near the taxi stand. The woman boarded the bus after Shipman, according to police, and followed her to Shipman's car.

When Shipman got into her car, reports show, she heard "running footsteps" coming toward her. Nowak tried to open the car door, then claimed she needed a ride, or use of a cell phone. When Shipman rolled down her window a couple of inches, Nowak "sprayed some type of chemical spray into the vehicle," reports show.

Shipman is an engineer assigned to the 45th Launch Support Squadron at Patrick Air Force base, near the Kennedy Space Center. A 2002 graduate of Penn State University, she began working at Cape Canaveral in May, 2005, according to air base Public Affairs Officer Ken Warren.

Police said that along with the weapons and other items in Nowak's car, they found e-mails from Shipman to Oefelein, Mapquest directions from Houston to the Orlando airport, and diapers, which Nowak told police she used so she wouldn't have to stop on the drive.

Monday's arrest is the first-ever on felony charges for an active-duty astronaut, that the space agency was aware of, according to a spokesman.

"Her status as an astronaut with NASA is currently unchanged. I cannot speculate on what might happen beyond that," said James Hartsfield, a NASA spokesman at the Johnson Space Center in Houston, where Nowak and Oefelein work.

Nowak's biography shows she is a 1985 graduate of the U.S. Naval Academy at Annapolis with a degree in aerospace engineering, and a former test pilot who has logged more than 1,500 hours of flight in at least 30 types of aircraft.

She joined the space program in 1996. Three members of her astronaut class died in the 2003 in-flight disintegration of Shuttle Columbia.

A former test pilot, Nowak has logged more than 1,500 hours of flight in more than 30 types of aircraft. Married and a mother of three children, her interests include running, playing the piano and collecting African violets, according to her NASA biography.

Time to clean up the shack. I have several BC780XLT's and a BC785D
that I want to sell. Also have a BC250D handheld scanner. All
scanners are in mint condition.

Including UPS shipping I'll sell the BC785D for $225 and the BC780XLT
for $200 each. The BC250D I'll also sell at $200.

I'll accept money orders or MasterCard/VISA for quickest shipping.

Questions please email me and we can exchange phone numbers.

novatimeshares_ebay@yahoo.com

Richard

Hi,

Just curious if anyone would like to discuss a bit on Yupiteru radios and scanners.

Who are they ? I Googled them, and found many sites, mostly old, that sell some handhelds of theirs.

But couldn't find the company web site itself.

Are they still in business ?

How do they compare to RS and Uniden, e.g. ?

Do they offer Trunking capable units ?

Only scanners, or other types of radios also ?

etc. ?

Bob

I bought one of these from Bandercom in 2002 and played with it for a couple
of days, then put it in a drawer where it's been sitting for years unused.
I sell items on eBay once in a while but this is a prohibited item. Anyone
know where I could find a buyer? It seems like a waste for it to go unused.

Yupiteru makes great scanners, but you won't find them in North America. They have refused to make the mods to produce an FCC type accepted USA version of any product. In my experience, they beat the living daylights out of RS and Uniden. At least my 9000 does. (I was living in a country where you didn't have to have blocked off bands, and unmodifiable receivers). I also own an unblocked ICF-8500 with the high precision oscillator, also bought when I living in a country where such a beast is legal to own.

They do indeed have a web site... www.yupiteru.co.jp

but unless you can read Japanese, it isn't very useful

They used to be readily available mail-order from Canada and the UK. I just don't know if they still are, or how easy it is to import them any more. I have sold off several Icom's but I won't let go of my Yupi 7100...

Yupi's are great receivers, on a par with AOR, Alinco, Icom and other high
end scanners.
The down side is that [In the USA at least] if you need customer service,
repair or parts, you are pretty much on your own.

You can sell them on ebay, I did a couple months ago [went for over $350 plus shipping].
Just do not trumpet the fact that it is "cellular capable" "unblocked" "full coverage" "no gaps" ect, especially in the title.
In the description I said it was purchased in Canada and thus was not frequency hobbled, I left it for people to draw their own conclusions. Listed the frequency coverage as 0.495-2450 MHz with no qualifying buzz word like "uniterupted" or some such.
Some who did not get the hint emailed asking about coverage and I told them yes indeed, it had full coverage - I even published one of these questions on the auction page on the last day.
I see at least one up right now, the only give away is "Government/Export version: 0.495-2450.095 MHz", and ebay generally does not look for stuff like that unless someone rats them out.
Still, your auction could get shit canned I guess, all I am saying is that it likely won't if you can refrain from buzz words and outright give aways.
Also, I would not advise advertising your auction here, except maybe in the last 2 hours.
Its happened more than once here that within hours of these unblocked scanners being advertised here for ebay auctions, they get pulled off.

If the worse should happen and the auction gets yanked, you get a refund on auction charges and a warning to not do it again or else, so theres not a whole lot of risk as far as risking your account or something.

Craigslist is an option also [thats where I got mine, got it for $200 and sold it for over $350].

Javiation still lists the MVT-7100 and 9000 in their stock list.

Hello, I'm new to scanning, and I need a very high-range, roof-mount
antenna. The antenna will probably be going up over 30 feet, not

including the mast. I'd like to receive communications from a small
town over 78 miles away (as the crow flies), including mobiles. The
area I want to receive from has an elevation of 415 feet. I'm thinking
about getting the Scantenna, but I'm not quite sure it will do the job
for me. I've read great reviews about it, but I'm still not totally
sure. I'm stuck between Scantenna and the Grove Beam II (http://
www.grove-ent.com/BEAMII.html). My scanner receives 30-50MHz,
146-174MHz, and 416-512MHz.

Has anyone any experience with these two antennas? How far away can
you receive communications with them (and can you receive mobiles)?
I'd like to spend less than $60 for a good antenna. I'm just not sure
if the beam or the Scantenna would be better for my case.

yep the log periodic should do it
though the mobiles might be patchy

A few years back I read about another approach which was to photograph it
while tuned to a cellular frequency. Knowledgeable buyers will get it right
away without having to use tricky language. It's easier to search for
keywords in the listings than to process the images for anyone trying to
screen these units out. Of course, that also makes it a little harder for
potential buyers to find it with a standard search.

I don't know if that will fly on eBay, but maybe worth a try.

 - Doug

In case some of you don't know, you can get a brand new Uniden BR330T
on Ebay for $209 including shipping. I just got mine and wanted to
tell you all. The seller has them drop shipped directly from Uniden. I
think it's a great deal!

Item # 230089470398

Yes, I did that in my listing also, among the half dozen pics were a couple
with cell freqs tuned in.
No matter what you do though, there will always be the clueless, curious or
doubters who will enquire if the scanner has any gaps ... As if the cell

band really matters these days - But no doubt a no block scanner will fetch
a better price.
I suppose it might some time in the future if they reallocate these freqs
for other use.
From what I have seen, most people get away with it no prob unless they are
too bold on their title or someone rats them out ... You have much better
odds of having a listing of a Nazi war relic pulled than a full coverage
scanner.
I listed a Nazi war time magazine, I thought historical paper items were
allowed, but it got canned within an hour, and I was told no listings of
propaganda would be tolerated.

Update..
I am sad to report that George has not had to sell off all of his
equipment to pay his lawyers.
He is back among the living. He has made updates to the Mil-Air-CONNS
site.

He has also updated his profile on one of the Ham radio websites.
He has converted to CW operating and much lower frequencies so that no
one on VHF voice modes that he operated can call him out if they him
speak.

Be aware he is back on. At last check, any attempt to buy his gambling
books still do not work. At least there is some justice out there.

Watch Out!!!

I'm not too familiar with Unidens. Do they have PC-based programming
software?

Hi everyone... I missed your new posts and had posted on the old
topic..

Update..

I am sad to report that George has "not" had to sell off all of his
equipment to pay his lawyers.
He is back among the living. He has made updates to the Mil-Air-
CONNS
site. The weather station is working again.

He has also updated his profile on one of the Ham radio websites.
He has converted to CW operating and much lower frequencies so that
no
one on the voice modes and frequencies he operated can call him out if
they hear him speak.
He has a voice that is easy to recognize. He sounds like Richard
Simmons.

Be aware he is back on. At last check, any attempt to buy his
gambling
books still do not work. At least there is some justice out there.

I still would love to show up in the court room when he goes to
trial.
If anyone finds out, tell the others.

There is a BCT 8 manual listed on Uniden's site.....would that be the one
you're looking for?  At first I thought you was referring to the little 8
track looking thing they made several years ago...don't remember what the
model number was on that.

Revealing U.S. Military operations is a stupid & traitorous act.  I
want this nonsense stopped & I want it stopped now or appropriate
authorities will be notified.

This is not factual as I have not confirmed this:
But supposedly George was able to settle out of court.
So this is now almost behind him as I dont belive there will be any
more jail time. Community service I am sure of and big fines, not to
mention returning all the $$.

I am glad to see this over.

Now, if George will come out of "hiding" and say Hi to us locals that
would be nice.
We miss the QSO's

Ok, I need an antenna that performs equally well on VHF-lo and VHF-hi... that's all I need. I've love to get the Scantenna, but I've heard people say that it's performance is "so-so" on VHF lo. I need great performance on both. A beam would probably be preferred.

Anyone have some resources where I can build my own antenna? I'm wondering, however, if it would be better to purchase an antenna if I need good performance on all of VHF-low (30-50Mhz) and VHF-hi (148-174MHz).

Well I'd like to see proof of such a settlement.

I can confirm that he is on 160m CW.
As I have had several people tell me this.
He did have his Icom 910 and 1296 transverter for sale.

George, I know you are out there.
Give me a call!!!!!

I don't think you need to worry about new tehcnology coming out for scanners... maybe a super advanced antenna, but then still, they would have to include old adapters w/ it. Other than antennas, I don't think there really any other acessories that COULD be updated.

Could be wrong..

From my experience, the more 'metal' you get in the air for receive the better.
If you doubt this try attaching a long wire to your receiver and see for

yourself
'tuned' antenna's sound good on paper and as great advertising 'gimicks' but
an 8 inch tuned
antenna will not out perform a 120 feet of long wire (for receive).

and before any of you 'howl' about antenna design, etc etc ....   go try it
then leave me a message

I see there will always be those people that can predict the future. The No Code is just going to bring in Bank Robbers, Rapist, and thieves, Murder's. Wife beater's, And the MOB.
Come on grow up children. You learned the Code and that's just Great, but do you really really have to pick on those that didn't have too..... like they should be lower than life and feel dirtier then a used pair of underwear. You are not showing your Intelligent as little people. When you could be there to help them feel like they had joined up with a great bunch of people. What are you a big bunch of Whiners. Your sounding more like your mad you had to learn it,and your pi$$ed off that they didn't. You don't own the Hobby of Ham Radio!!!!!!!!!!!!!!!! Your suppose to be the best part Of it. Not the worst part... Get a life your acting like it will be the end of the world.
Get involved in a real cause ,like people trying to take away your right's. Like the right to bear Arm's, and the right to live in a good and just community. And not one riddled with crime, and Murder. These are just good people wanting to talk on the Ham Band's.   Not everybody wants to be a Radio operator. The people that will come into Ham Radio will be people that enjoy talking on the Radio, and if they don't they'll leave and go on to newer and different thing's... Your just trying to be a group of elitist... You don't OWN HAM   RADIO PERIOD!!!!!!! Get over it Grow up and get a life. Do something get along for once. You don't have some big CLICK going on here. Anybody that can pass the test's is an OPERATOR!!!!

Tough Crap. It's a License to operate on Ham Band's. The same as it is to have a Driver's license to drive on the Highway's. You don't have a say in it. It's ran by the Government and that's that. Your just not going to be SPECIAL ANY MORE AND YOUR CRYING ABOUT........... STINKEN WHINER'S. What do you get if you put a Whiner on one end of a Teeter   Totter and a Queer on the other....... NOTHING !!!! Nothing neither one knows when to SHUT UP...

Thank You for letting me say my peace.   I know there a Great Hammer's out there. And you just don't hear them Bitching all the time.
I LOVE ROCK & ROLL. AND beautiful FAST woman Too.. HHHAAAAA   HAAAA You got to love it.. It's called LIFE.

Jimmie

Yeah, I would have thought that while a properly tuned antenna will help you, it is nowhere near as critical as if it was hooked up to a transmitter where a bad SWR can be costly / lead to bad transmission performance.

However because you aren't transmitting, I wouldn't say it is a critical issue but still an issue that could matter in the longer term.

I've been using poles geared for lower end frequencies and while they do a great job for those frequencies, even the stock standard antenna that came with my handheld does a better for the 400MHz+ range that I've been focussing on in recent weeks. I guess I'm just hooked on the awesome look of lower frequency antennas!!

However if I was you I'd wait for advice from others before you get the tinsnips out.

Neil

Hey, a couple years back I had a QSO with a guy using a 49 MHz
Teenage Mutant Ninja Turtle walkie talkie, recrystalled for 6M.
He was getting out pretty well too.

Somewhere in my papers - I have an article that came out specifically dealing with taking a "Space Patrol" type walkie talkie and placing it on "6 meters" as a QRP rig. I bought a pair to do it - and things got hectic. That became a back burner project. I still have the walkie talkies but have to dig out the paperwork.

Cecil,

Code "isn't" dead "completely", I think we all know that. I believe I am safe in saying that what this guy was getting to was - SC's vigilance to keep insulting No Code Hams OR Ham want to bes. There really IS no reason to keep that up. There is nothing we can do to bring it back - the decision has been made - whether we like it or not. Insults can only help "kill" the hobby.

I've said it before, I'll say it again - if you like it - USE IT. If not - so what!

The horse has been beaten to death - past death, now into the dust. Give it a break. I've blocked all that have supported "his" stupid remarks and argument. It has been going on for at least 6 months. IT IS OVER!

It shouldn't be that big a deal.. I know a lot of the newer ones are basically one IC with a crystal for the transmitter and an RC tank for the receive, so you'd have only two things to change.

"Space Patrol" looks good on a QSL card equipment line, but not as good
as "Teenage Mutant Ninja Turtles."

There was a group of us back in Boston in the late 80s doing that a
lot ... we had a big bin of the xtals, and were tuning them up for a
local 6m repeater.

I also had a simplex pair that I used to build a fun 2400 bps packet
rig.

Imminently hackable, and amazingly cheap.

Good memories.

```

Yeah - the biggest deal of it was changing the crystal. I think the coils
and so on - were pretty much there within reason to oscillate. Been a while
since I read the article though.

LIfe of a flourescent bulb is measured more in on/off cycles than on time. I
keep a small lamp on in the kitchen it has been on ever since we moved into
this house which is now over 15 years, only going off during power failures.
On the other hand the other florescent lights in the kitchen are switched
several times a day and only last 2 or 3 years.

This brings to mind... the military has lots of those horrible little AN/PRT-4A transmitters selling dirt cheap on the surplus market. They are kind of neat because they have a 455 KHz oscillator to shift the frequency of the crystal up, allowing you to use the same crystal for the transmitter as you did for the (seperate) receiver.

NOBODY has documentation on these things. The LOGSA database has them still listed as unavailable except within the military. Does anyone have a schematic on these?

As I recall, these were issued in Vietnam for communication within units, but were mostly famous for drawing fire with their large antennae and for poor signal quality.

>
>What's the real danger of that? And if I were to get a scanner, what is the latest tech I should look for?
>
>Is "trunking" the only thing I need? Is all trunking equal?

First of all - no, all trunking is not equal. Different trunked radio systems use different technology to accomplish their tasks. However, for me to explain them all here, I'd be writing for hours and the resulting post would be so long as to infuriate people. Instead, I recommend that you (and anyone else interested in this subject) visit the Trunked Radio Systems page on The RadioReference Wiki:

http://wiki.radioreference.com/index.php/Trunking

That page has links to other pages on the Wiki that explain the various TRS types in much greater detail than is practical for a Usenet posting.

The answer to whether or not "trunking" is all that you need depends on where you live and what your listening interests are, and of course, how much money you have in your wallet.

For example, the average scanner will cover ham, business, commercial aircraft, government, industrial, public safety, utility companies, and weather. Your scanner may need additional frequency coverage if you also want to be able to listen to things like the AM/FM broadcast bands, HF worldwide ham/broadcast/utility stations, TV audio, and (especially) military aircraft comms.

One example of the "latest tech" you may want/need, depending on if it is in use in your area, is the ability to monitor APCO Project 25 (a.k.a. "P25") digital voice systems. There are now radios on the market that can handle P25 systems. Some require installing an optional circuit board, which of course costs extra. Only you can decide if you want or need P25 capability, based on what's in use in your area and the cost of having it.

As to the real danger of your scanner becoming obsolete as soon as you buy it - it seems to me that even though they can invent "yet another newfangled technology that is incompatible with the scanner I just bought" every day, that doesn't immediately make your scanner obsolete and unusable. That doesn't happen until your local police and fire department start using a new radio system that utilizes the new technology, and radio systems using the latest high-tech bells and whistles usually cost top dollar for the local government to purchase. If the scanner you buy has everything you need at the time you purchase it, that scanner should remain quite usable for a long time.

So my advice would be:

1. Determine what it is you want to listen to.
2. Do some research and find out what kind of radio systems are in use in your area relative to what you want to listen to.
3. Refer to the RadioReference Wiki and other sources (such as scanner specifications on manufacturer's websites, and websites that cater to scanner hobbyists) to find a radio that does what you want it to do.
4. Find one of those at a price that's agreeable to you.
5. Buy it and start enjoying this facet of the radio hobby!

Hope this helps...

R51 on the main board may be out of adjustment. On the bands where the unit is working, the squelch shouldn't mute the noise until you advance it to the 10:00 position of rotation. If it mutes the receiver at a less advanced position, R51 may require adjustment.

One way that you can check if the PLL is in lock is to tune the receiver to a frequency where it "goes dead" and inject a signal of around 100uV with an RF generator. If you don't have this type of equipment, tune in to a local weather band frequency and see if you can hear one of these stations.

Another thing you can do is tune in one of the local stations on the 88 to 108MHz FM band. If you don't hear any stations in any of these ranges, your PLL could indeed be out of lock.

Pete

Any update on the status of his case? I was under the impression he might
get some serious time for what he was up to.

I sent off an email to one of the newspaper reporters down there in Florida that
I had corresponded with previously inquiring about any new info but have not yet
received a reply.

Would love an update- there were tons of people on the net bitching about
being stiffed by him for xboxes and ipods. Hope he loses everything he has.

As for insider secrets.....
The secret is you lose money and he (the insider) makes $30K.
At least the payment agency has stopped taking orders for that crap.

He is selling his timeshare on a golf resort on a Deer Island in central Florida.
He first offered at $7,000, and was lowered to $5,000.
It is probably worth $1000.
He has a big lawyer bill by now. Hopefully that bill will be punishment enough when it is over.

The kind of dollars that he ripped people warrant prison time.. screw the
lawyer bill. He needs to get what he deserves in a nice confined space.

If there's anything more pathetic than a dyslexic in desperate need of a spell-check program but who refuses to use one, it's a really convincing frog of same. Wabbit, you've already won the Bartlo once. Are you trying for another?

--

"I was told there would be cookies."
Cross-Poasters For Goddess!
Remember: Straight people can't help it!

A petition to make the Five-Fingered Hand of Eris
the official symbol for the planet Eris:
http://www.petitiononline.com/ffhoeris/

"If you don't have pedicures AT LEAST every two weeks, don't talk to me. If you don't floss every night and morning and brush at least twice a day, don't talk to me. If you don't spend money on you hair and get great cuts and color, don't talk to me. If you are heavy, don't talk to me. If you don't shower every morning and take a nice bubble bath every night, don't talk to me. If you don't have a loved one in your arms, don't talk to me. If you don't keep an immaculate house, don't talk to me. If you don't work, don't talk to me." -- Clearly, Martha Vandella never wants to talk to me, which is for the best, really.

A few years back it seems -- he was ripping some folks off for some GPS
equipment?  I had a few conversations with a fellow whose friend "Curtis" went
and paid George a visit. George got shook up (literally) a bit.

TrunkPCR version 0.82.207 Now Available for Downloading from homepage:
http://members.cox.net/fiftyone.50/TrunkPcr/TrunkPcr.html

This update fixes a few bugs:

Dec 27,2006 - Fixed: User Picture now shown in [Edit Group ID] window.
Dec 27,2006 - -----: CC Activity Window now has a Full Screen option.
Dec 28,2006 - -----: Initial COM Port now set to #1.
Dec 28,2006 - -----: Disabled code that Set Thread Priority (Bug Check!).
Dec 29,2006 - Fixed: User Picture removed from display when de-activating
a TrunkBank.
Dec 29,2006 - -----: Moved System Details / Stats from CC Control to a
New List in System Info.

Dec 29,2006 - Added: Clicking on a TrunkBank in Affiliation List now
allows you to edit it.
Dec 29,2006 - Added: Define a Range of Group ID's as Astro Digital for
Auto P25 Decoding.
Dec 31,2006 - Added: Apply Groups Color, Font and User Picture to Radios
when Affiliated to Group or Call Made.
Dec 31,2006 - -----: Changed a bit of code to reduce "Type Mismatch"
errors when loading.
Jan 04,2006 - -----: Removed Auto P25 option since Digital Range now
used.
Jan 05,2007 - Added: Announcement of Emergency Messages.
Version 0.82.207 Released 01/11/2007

1) For PCR-2500 users with a P25 Card, Verify or change the Digital Group
ID Range in the Trunk Settings.
This will help set the propper mode (P25 or FM), used to listen to
Digital & Analog Calls...

Regards,
Jay

If you're looking for a good used PCR-100, a local guy is selling them for
$149.99.
Check the homepage for further info...

That is most excellent. That little pencil neck probably crapped himself. I
loved the booking photo of him- he looks so scared..

I wonder if that email is still active? A bunch of his websites (god knows he had a few) and his ebay account are dead. Hopefully he is being monitored 24/7 to protect other folks from getting scammed.

If you want to read some funny stuff on old George do a goggle search on his newsgroup activity.. I especially enjoyed his posts asking for recommendations on a good church in vegas to get married at... then about a year later he posts asking for divorce advice.

Real sharp dude.

My wife and I are going to Aruba in March, and I am trying to find out
that countries scanner laws.
Haven't had much luck googling it,
anybody been there...do they dispatch in English or in Papiamento, the
native language
Even a url that has scanner laws in other countries would be helpful
Thanks
Doug

> themselves first before they worry about newcomers.

yes. Here, I hear long time hams who know and passed the morse code test, singing on the ham bands. These hams don't report the other hams for violating FCC rules by singing on the ham bands, yet these very same hams report cb operators they hear singing on the cb bands.

That shows what kind of people the hams are.

Oh, don't get trolled by Wabbit. Basically, he's calling Mark a cunt,
and in the verb form, I think he's also calling him a cocksucker.

Hail Eris!
Demon Prince of Absurdity

"And no, I did not have sex with my son. But if I did I certainly
wouldn't tell you. Something so beautiful and precious should be kept
private." -- Kathy L. Mosesian, or possibly not really her, confesses
she may be a liar and committer of incest with her own son, in MID:
<cfcd3f4660694e3afeaadaa2723e9ab1@msgid.frell.theremailer.net>

The reporter asked Colin Powell (or George Bush), "What proof do you
have that Iraq has weapons of mass destruction?"
He replied, "We kept the receipts." -- Bill Hicks

"They thought I was fair game. I was an instrument of purpose to achieve
their desires and not 100 percent real and ALSO that they had me by the

short curlies because I thought that the world revolved around them and therefore I think that I am fair game and rightly so. If they want to play dirty, I get to too. It's not a one-way street. I will use the physcial strength that I have over them, my superior 5'7-3/4" height advantage, the boxing moves I paid to learn, the suprise of pussyfooting up to them with their back to me in a public place 18 1/2 years after the fact and thus not only do will they not know that I am but a pica's distance away from them, but that I even exist on earth." -- Chris Tsao is secretly John Wentzky's psychic twin. MID: <1161246083.152300.195760@m73g2000cwd.googlegroups.com>

Looney Maroon nominee for August 2006 Johnny D Wentzky foamed:
"You never asked someone who goes into areas of the internet that are only for adults who has an underage id somehow or another if they are a cop posing as an underage person online?
I guess lots of people just don't watch dateline or read stories much. Why don;t you go to pervertedjustice,com and see what they do. They are awash in their self-proclaimed glory after they lied to membners of the public.
They are awash in their self-proclaimed glory after they posed as an underage person and agreed to do all sorts of sex acts wioth adult males, and they are adults posing as teenager themselves. They make themsleves into liars by falsely impersonating underage persons and by not fuilfilling the words they tell the victims online in their chats. Why don't you read it where they tell these victims of their deceit about how they have been with grown men and such? Why don't you read it where they say, "That would be cool." after someone makes an advance towards an adult who is posing as a teenager? And, where they agree to meet the person, etc.
Lost control, didn't you?
Is that why you feel as if you need to lie so much now? I see where lots of these false impersonation games are not sticking. They feel as if they can lie and then order the victims to get counseling in the gayblade, governmental, pro-choice tax leech counseling centers. They are doing nothing more than usury and fraud in many cases." -- Wentzky almost comes out of the closet as a pedo/ephebophile in MID: <H%%Eg.28916$Uq1.22411@bignews6.bellsouth.net>

True, search for anything on Aruba these days and you'll just get links about missing blondes and drug deals.
I believe the official language there is Dutch.

Yes, according to the CIA Factbook: Languages: Dutch (official), Papiamento (a
Spanish, Portuguese, Dutch, English dialect), English (widely spoken), Spanish.

Well, Florida had Punce de Leon, and "show-na-to-va" is a tennis
player, but he's too stupid to put two together in his own hand, so
can you blame him for having to find friends on cognet?

Perhaps he'll find Tommy, who doesn't know what the Fountain of Youth
is, either.

There was an old Bishop whose clucking
Confessed he knew nothing of fucking;
   Forget a good boff,
   He can't even fuck off,
So he just has to settle for sucking.

```

: >> OK, I'll bite. WTF is a punce in your country?
: >
: >Oh, don't get trolled by Wabbit. Basically, he's calling Mark a cunt,
: >and in the verb form, I think he's also calling him a cocksucker.

So as a verb, punce = to fellate. Thank you.

: Gee, someone posting sex lames to usenet. How unusual.
:
Seeing is believing.

Kali

Yeah, it's strictly slang, and largely homo-/biphobic.

Killfiled by: directory; Anim8rfsk
"It's not nice to misrepresent Mother Nature."
http://www.lowgenius.net/kookway.htm
TEH WAY OF THE K00K
Never learn from your mistakes.
Always practice your mistakes; you may get them right.
Always pick on those smarter and tougher than you.
Always believe that only you know the TRVTH.
Never allow logic or reason get in the way of a good k00k.
When being overwhelmed by logic and reason: k00ksuit!
If you are going to be wrong, do it at the top of your lungs.
When caught in a lie: LIE!
When in doubt: Order the Crab Won Ton
Plagiarism is your friend. Use it.
Whenever contradicted; morph, start calling people names, and make false
accusations. Include the children of your target in your allegations,
even if they don't have any.
(06-Jun-05) When nobody else will listen, post to your own fan group.
(06-Jun-05) Obviously, since you have your own fan group, this must mean
that you have fans. Post prolifically to your fan group - you wouldn't
want to disappoint them!
(10-May-2005)Everyone reads usenet. Approval here means approval
everywhere.
Post numerous blank posts, or posts containing only a message id.
Post numerous copy&paste web articles from crackerpot websites.
Never forget to call kookologists "k00ks."
If there are several, call them "sockpuppets" too
When all else fails, accuse various and sundry kookologists of e-mailing
viruses to you. This is a sure-fire method of garnering sympathy and

ensuring that the General Public will always see things your way. An especially effective sub-strategy here is to accuse them of infecting you with the 'Sasser' worm via e-mail.
Quote notorious scientists or writers - it makes it look as if they approve the drivel you are writing!
(9-Jul-05) Anytime your computer is infected with a virus, bogged down by spyware, attacked over your internet connection, or otherwise suffers from preventable problems, government agencies are responsible and are trying to silence you and are monitoring your computer files.
Ignore all traffic signs and feel free to trespass, you don't have to obey any rules.
Scare your enemies with lawsuits, police escorts and whines.
Always back up your empty (albeit noisy) threats with phony LARTs, false police reports, and harassing letters to the FBI and other gubbermint agencies.
Be vigilant in your redundancy. The more you repeat yourself, the more likely others will believe you!
If you can't find anyone as crazy as yourself to support you in the flamewars you start with the normal population, create sock puppets and use anonymous remailers that shamelessly hang on every word you write.
(17-Mar-05) When dealing with law enforcement, remember that it is they who have the problem, not you. Be sure to inform them of this at every available opportunity, as they will surely appreciate your constructive criticism. Be sure to make them aware that YOU KNOW YOUR RIGHTS! ("The cops like that, when people know their rights. That way they don't have to read them to you on the way to the station." - George Carlin)
The more your fake personalities adulate you, the more respect you'll get!
When confronted with a reality that you don't like: Announce loudly that you are departing, never to return as long as there's an Internet. Come back in three or four days and claim you were drunk, hacked, abducted by alience, or forged. Alternately you can just not even mention your prior departure, and if anyone asks you about it, either ignore them or respond with something along the lines of "YOUR NOT THE BOSS OF ME! *PLONK*!" People really know you mean business then.
Always remain clueproof.
(20-Mar-05) Anyone who does not believe that you are the reincarnation of [$DEITY_OR_PROPHET] is obviously an infidel lacking in faith whose soul in in peril of everlasting damnation.
When responding to one line challenges, post paragraphs of rants and screed in response.
Incoherency is not a roadblock to poasting.
Neither is illiteracy.
Delusions poasted often enough become fact.
Claim you will destroy <insert newsfroup> for attacking you.
When spnaked, send cmsg for Fanboi newsfroup(s).
Find your Lame, Use your Lame, Be your Lame!
Post Edit when the TRVTH hurts.
Always sneck the offending newsfroups.
Always poast pictures of yourself so you can be admired in all your k00ky glory.
Always accuse others of the very acts you are guilty of.
Post lots of boasts about your high IQ and incredible talents.

(20-Mar-05) If you repeat a lie often enough, it becomes the truth.
Anybody who fails to understand this is engaged in a deliberate campaign of misinformation and character assassination.
Always <plonk> somebody just before replying the plonkee!
The k00k considers itself the most intelligent person in any conversation, possibly on the planet. Other people are benighted and ignorant, and have been waiting their whole lives for the k00k to rescue them from intellectual darkness.
Write a self-published book and claim it a success. Bonus points for comparing it to "Mein Kampf" and/or the Bible.
Declare yourself equal to a deity of your choice.
Claim that you've come from other planets.
Claim thousands of past lives.
Frothing complaints carry far more weight when you send them from "legal@" some domain.
Nothing strikes terror into the hearts of your detractors more than telling them that you're archiving their messages for possible use in the future.
Never forget that everyone else posting to Usenet is a paid disinformation agent looking to discredit you.
Usenet is governed by US law. If a poster in Romania killfiles you, he's obviously violating your 1st Amendment rights and can be sued.
Every news admin in the world hangs out in NANAU, and they're just dying to nuke the account of that meanyhead who just called you "fucknozzle". Drop 'em a line - that's what they're there for, after all.
AUK will be closed down. Just you wait and see.
They've nuked hundreds of accounts in the name of free speech and *yours* will be next.
The k00k will, without any trace of irony, lie, manipulate, impersonate, censor, and declare themselves powerful in ways ranging from the ability to have an account shut down to being God Herself, in order to convince people that they are not liars, manipulators, censors, or insane.
Abuse women while telling how many hundreds you've loved. Nevermind that you're one ugly motherfucker and that there were 30,000 femininas that thought you were a scumbag with bad teeth.
Remember that your ko0ky klaims are 'facts', and that 'facts' do not require proof.
Do not neglect to poast your responses to forums that the originator doesn't read. This will make the people in that forum very impressed with how you tear him to shreds without him being able to respond. They like it even better if you are off-topic for that forum.
Keep in mind that lack of evidence supporting your konspiracy theory actually _is_ evidence, of how effective the konspiracy is in hiding.
(06-Oct-05) When spanked, always retreat to the safety of the Ad Hominem.
(04-Aug-2005) When spanked mercilessly for days on end, proving with each poast just what an illiterate and ignorant fool you are, ALWAYS claim ownership of [person(s),froup(s)]. This works on so many levels. It inspires dread in your opponents that they will no longer be able to poast in their home froup and that they will eventually have to pay rent, to name just two.
Any problems with your poasts are the fault of the konspirators, who are trying to stop you from preventing the extinction of humanity.

Konspiracies that are able to subvert whole governments are always unable to silence konspiracy ko0ks.
The entire United States government is willing to spend millions of dollars for the sole purpose of harassing you.
Hollywood is making movies based on your personal life.
Do not consult psychiatrists or other mental health professionals. They are part of the konspiracy, and will sedate you and lock you away and keep you drugged if you tell them the truth.
Numerology and Astrology are respectable sciences and are useful for proving your case.
Everyone is Tim Hill, or David Green, or...
There is a fine line between trolling and kookery. Find that line and cross it repeatedly. When you are killfiled and/or LARTed for net.abuse as a result, claim victory. If you lose multiple accounts, this merely proves that you are indeed a world-class troll, with a black-belt in manipulation.
If you respond to every post someone else makes, they're obsessed. If they respond to less than 1% of your posts, they're even more obsessed.
Publishing people's real names, addresses, and phone numbers when there's no other way for you to come out of a flamewar with any dignity is cool, and proves that you are a master of secret internet information stores, and absolutely not to be fucked with.
Everyone is out to get you. You can put a stop to this by telling everyone that they're out to get you at every available opportunity.
You are the only sane one.
Those that give you a hard time about morally bankrupt things you yourself admit to are just persecutioners of the new inquisition.
Yelling in all caps and cursing at your detractors is debate. Your detractors laughing at you with sarcastic remarks is obvious anger and jealousy.
If doing something results in the loss of your account, legal hassles, or blunt trauma injury, do it again. It always works better the second time.
Asterisks, lots and lots of Asterisks.
Poking holes in kookscreed is stalking, and is a felony.
K00ks LOVE to "connect the dots". They are, of course, dots that only the k00k can see.
"They laughed at Einstein, too!"

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=160073596314

This is a very clean Uniden BC780XLT scanner. Used only to create the
AFS780 software. The AFS780 source code comes with the scanner. That is
right, the whole source code for AFS780
(http://www.barghis.com/bc780xlt) comes with the scanner and you will
get all the rights. You can modify, change the name, claim it as your
own. I made it, now it's yours.

Here is what you will get:
Uniden BC780XLT scanner clean and in perfect working conditions.
PROnouncer external speaker (the one from the picture)
Headphones (the ones from the picture)
Null modem cable (to connect the scanner to a computer)
Outdoor antenna + long coaxial cable (4 shield)
Magnetic car antenna
AFS780 software source code with all the rights.

Thanks for looking

Have anyone got the January, 2007 issue of Scanning USA in the mail yet? I haven't received mine! It must be the holidays when the mail delivery got slow.

Maybe, the magazine has gone out of business! It'll be sad for Scanning USA to go!

I would like to see the proof of that.
Does anyone personal know of a person or news article that gives names
of people he "scamed"

Funny how the news uses the name xbox and ipod.
Perhaps its because the general public can understand that.

http://feedback.ebay.com/ws/eBayISAPI.dll?ViewFeedback&userid=auctionwholesaler&iid=330040684875&ssPageName=VIP:feedback:2:us
This WAS his ebay ID.
With almost 32k feedbacks, not a bad 98.2% rating.
AND 10% of the negatives have been within the last 6 months, the time
when he had his visit from the SS.

Still, I want to see proof of the xbox/ipod being sold.

I'm sure when the judge sees the ebay feedbacks he will quickly dismiss
the charges. And UPS lost a bunch of the packages too.

And pigs will fly...

If you think a judge is going to base his/her decision on eBay feedback in this
case you are in serious need of some counseling.

Will the RS Pro 79 charge NiMH batteries? I know the manual says NiCD only.
If it wont is there much of difference to just use the NiCD?

What a lowlife!!!
Thank you Brad for your research.

If you do a serious search on the Internet, you will find out that
someone somewhere has always looking for him for some product that no
longer exists or hasn't arrived. His name is mentioned as far back as
1997 of all things model rocketry stuff in Pennsylvania.

You can only hope that he goes away, and if he ever reappears that
someone stands up and lets others know about him and what he has done
to others.

I think he was having a little cash flow problem (how many slot-machine
trick books can you sell) and got desparate. Asking for a check to be
sent an unoccupied office spells (HI-I-AM-A-CON-ARTIST).

Well Done! Love the photos of the weasel in his new orange jumpsuit! Little
bastard is smaller than I thought he would be.

Like the comb over look too-  sort of completes the look. What a total jerk.

Interesting. After Curtis had his encounter with George, he did report back that
he "was a little runt."

Does anybody know where I can download a schematic or service manual for
```

```
this scanner? My scanner receives, but for some reason it doesn`t have a
display. Its been sitting for quite some time, but worked last time it
was on. Thanks for any info.  Rob

Misprint for the picture on the right!!
It should have said.....

"Defendant Fetter and his new boyfriend Rhoul."

Thank you for the late night entertainment.
Your efforts are most appreciated.
If he shows up anywhere, that link should be an immediate response. I added it to my "Favorites".
He may get away with it (I hope not), but this could at least forewarn any future victims to his cons.

And remember to wish George a Happy Birthday tomorrow. It may be his last one roaming the streets (or scanning the bands) for a while.

Well I did not know that!
Happy 42 George.

For your birthday, if decide to go to trial (pleading guilty could be a
lot less painful) I offer my services at my own expense to be a
character witness at your trial.
It would be an honor to tell a jury exactly what you try to do to
others that attempt to cross you.
After hearing my testimony, the jury just wouldn't decide that your
guilty as hell, but that you are potentially dangerous.

Any stay in a minimum security summer resort will be out of the
question.
May you have a happy, peaceful, loving, and blessed birthday before you
see Rhoul again.

I was interested in buying a scanner to listen to the police in my city, Falls Church, VA. I was wondering where I could find a list of local frequencies and whether I need to buy a scanner that can track trunked systems or not. I am a complete newbie and any help would be appreciated, thanks.

Thanks. I noticed that there are frequencies listed under "Falls Church Talkgroups" as police ch. 1, police ch. 2, etc (listed under the Arlington County System). At the risk of sounding dumb these would be the frequencies I would tune to in order to listen to my PD, right? I also noticed something at the top of the Arlington County System page that said that PD units were having a their radios retuned which probably involved changing frequencies as part of the 800 MHz and switch to the P25 system. Would the switch to the P25 system (which I understand is some kind of standard for wireless digital communication) mean that I would be unable to listen in to the police department with a store bought scanner?

Depends on what kind of scanner that you have. They operate on a trunking system so you would need a trunktracking capable scanner. If they are switching to P25 then you would need a digital scanner to listen in. The Radioshack Pro-96 is an example. If Arlington is rebanding then I think you would still be able to listen to them if you had a crossband capable scanner like the Pro-96 or Unidens BC396, Im assuming that the scanners software would need to be updated. I havent learned much about rebanding yet.

 Try this it may help you.The pro 46 is one of the best scanners made(IMHO)
http://support.radioshack.com/support_electronics/8558.htm
Let me know if you want to sell it.

Tom/Wisconsin

Dirk was on the West Coast when he got the call. An old friend at the Toronto police department thought he would like to fly up and take a look at a homicide which had occurred the previous evening. He decided to skip the last day at the World Holistics conference and take the next plane out of San Francisco.

The flight was bad; Dirk had been hit on the back of the head by the Newspaper trolley, the drinks trolley, the dinner trolley and now the gift trolley. When the hostesses weren�t trying to tear his arm off they pestered him to stop leaning into the aisle - ignoring the fact that the guy next to him was taking up one and a half seats. Air Canada used to be the flight which was so good you just didn�t wanna get off - on this occasion Dirk would be glad to see the back of the plane and the over sized alternative comedian wedged into the window seat.

After breathing in a couple of lungfulls of crisp Canadian air Dirk took a taxi into town. There was a small group of demonstrators outside the MacDonalds and the taxi driver insisted on stopping on the opposite side of the street. �Don�t Eat Meat� the placards read and the demonstrators chanted. A couple of policemen where stopping the crowd entering the restaurant itself - one held up his arm and challenged Dirk. A wave of the fax he had been sent and the policeman pushed open the door.

There were few customers in the restaurant. Not surprising really with a demonstration going on outside, half the dining area roped off with tape and a dead body seated at one of the tables. �Mr Gently sir� the officer in charge called out as he peeled one end of the tape off a column �We were told not to touch anything til� you got here�.

The body of the man slumped awkwardly in a chair. Then even a dead body would start getting uncomfortable in a MacDonalds chair after twenty minutes - and this one had been there for at least eighteen hours. Two back legs and the tail of a cat hung out of the man�s gaping mouth. Dirk turned to the officer, �I suppose you are going to tell me this is the darndest thing you ever saw?�

�Ain�t this the darnd...�. The officer seemed annoyed that Dirk had second guessed him. �We�re removing the body in a few minutes, so if you can get through as quick as possible�

�Many people eat cats in fast food restaurants?� Dirk asked and without waiting for an answer leant over the table to pick up an untouched burger. �And what�s this?� he asked waving it in front of the officers face.

�It�s a Vedgie Burger� The waitress, who was cleaning one of the adjacent tables, shouted across. She walked over to Dirk. �We started doing them because of that lot out there� she nodded towards the protesters who were pressing there faces against the windows �They�re called Linda McCartney Vedgie burgers - ever heard of them?�

Dirk suddenly felt faint, perhaps a combination of hunger and jet lag. �This is deja vu all over again� he thought to himself. He glanced at policemen - at the badge on his shoulder �OPD� but this wasn�t Ontario this was Toronto. OPD - Officially Pronounced Dead. It dawned on Dirk what was happening, he knew what he would see if he looked out of the window. Sure enough, there it was, the Volkswagen Beetle parked across the road - number plate 28IF - 28 IF Paul McCartney had lived. And amongst the lyrics of the song blaring out into the restaurant he could pick out the words �I buried Paul�. Now it was though Dirk was viewing the whole scene though a TV screen. This was conspiracy. Not -a- conspiracy, or -the- conspiracy, but just plain conspiracy.

�You look faint - are you OK mister? The waitress asked.

Dirk shook his head �Probably a bit hungry� Then to economise on dialogue took out a pack of cigarettes and held it out towards the girl. She was about to take one but Dirk snatched the pack away, held it up to his mouth and drew out two cigarettes. He lit both then passed one of them to the girl. It was the closest he had come to a sexual encounter in three months.

�Want a Burger?� the waitress asked.

Dirk looked down at the Vedgie Burger on the table. �No thanks - just a plate of fries�

The waitress walked away and Dirk looked around the room. Apart from a family seated in the far corner there was only one other person in the restaurant - and he wasn�t eating. The guy was about mid twenties and had straggling, shoulder length hair. On the table in front of him were lots of pieces of paper cut into squares. Every so often he would pick up a camcorder and pan it around the room and then, when he was finished, speak into a microphone which was attached to a tape recorder. Dirk walked over to where the man was sitting.

The small pieces of paper had paragraphs of text written on them and were stuck to the top of table with blobs of mustard. Lines had been drawn, some solid some dotted, on the table top with a marker pen. The lines ran from one piece of paper to another.

�What are the lines for?� Dirk asked, realising straight away that �What the hell are you doing?� would be more appropriate.

�You see� The man replied nervously �The dotted lines are weak links and the solid lines are strong links. The dotted lines are things which are happening in the rest of the world and the solid lines are things which are happening to me. Now you see I draw over a dotted line, replacing it with a solid line, when I can link something back to me. Like this� The pen squeaked over the Formica and before Dirk could interrupt the man added. �You see I lost my short term memory and, as a consequence have a very short attention span. I write down, record and film everything then put it all together later�

�So� Dirk interrupted. �You filmed what happened here?�

�Yes, yes, it�s here on this tape� The man pushed the cassette across the table. On the label the words �Grassy Knoll� had been crossed through and replaced with �MacDonalds�.

Suddenly the man sprung from his seat. Dirk turned and saw that the body was being removed on a stretcher. As it passed the man picked a small object off the edge of the stretcher itself. �This is important� he said, laying a blood stained bullet on one of the small pieces of paper on the table.

Suddenly the room was filled with a deafening throbbing sound as a Black Helicopter landed in the street outside. Two men in United Nations uniforms got out and collected the stretcher. Back at the table the long haired man was replacing all the dotted lines with solid ones. Dirk panicked and began to walk backwards at some speed. Barging through the swing doors he stumbled into the kitchen, tripped and felt himself sink slowly into a large vat.

�The guys fallen into the batter� Dick heard someone shout before he sunk below the surface. He came to sitting in a chair with the batter solidifying all over his body. He surveyed the room through two eye-holes someone had cut. Suddenly the chair on which he was sitting was picked up carried through the restaurant and out of the building. As the chair was being lifted and put into the back of a van, Dirk caught a glimpse of the waitress following him. �Your fries mister, your plate o...�.

The doors of the van shut and Dirk tried desperately to steady himself as it sped across town. Eventually the doors flew open and Dirk was flung into the road at which point the solidified batter shattered and set him free. Standing up he found himself outside the international departures terminal of Toronto airport.

In the departure lounge Dirk had time to reflect on the day�s events. He had got caught up in the conspiracy theories and the haphazard welding together of pieces of irrelevant information. It was time to catch the person who was operating the  bizarre cognitive engine which appeared in front of him like a fairground mirror, distorting any flaw it could find in his own, fragile, map of the real world.

Dirk leant into the aisle of the plane as it took off for London. The oversized person next to him swung his arms violently as he complained about every thing from the supper in a plastic tray to the state of British politics. With a shaven head and a badly fitting suit the man looked as though he could have worked behind the reception desk of the Kremlin. However when he spoke he did so in a Liverpudlian accent. �Me I blame the Con-serv-a-tive government, me. The Tour-rees. That-cher. Me. They need a good kicking� He jerked his feet forward and struck the seat in front with his Doc Martins. �With these. Me Doc Martins. Doctor Martin�s, Doctor Martin�s, Doctor Martin�s Booots!� The phrase was now being sung over and over again as the man writhed in his seat and clicked his fingers.

Dirk looked down at the boots and thought of the reaction most people used to deal with the paranoids at the end of the wire. A nice quick kick. �Oi nutter - get some therapy�. This is the easy way out and perhaps the safest. After all there you are sat, alone, in front of the screen. No body language between you some paranoid. No way of telling if he really is some gibbering psycho. Look at it too long and you be drawn in. Fall into the tangled database of weird links with him. Who knows he may be watching you, reassembling and linking your experiences with his. How sure are you of you own cognitive threads. After all cognition is only a bug fix for a neurological system which was designed in a hurry - it�s abused by everyone from politicians to advertisers. If people really can convince each other that a bottle of washing up liquid is as exciting as an orgasm using just television God knows what they can do with a computer. Better to avoid the risk. A swift kick. After all if you�re Homophobic you put the boot in because you are scared of any ambiguity in your own sexuality

- why not be Nutterphobic as well.

Although Dirk would have liked to devoted time to tracking the culprit down he decided to let it rest. The Internet changed over the next twenty odd years. A lot of the people who used it went out and got lives. And those who already had lives burnt them away. The number of users had dwindled after someone had invented a C++ program, with truth as a variable,  to deal handle politics and government. Dirk had already retired from finding old ladies cats with the help of obscure science when he got another call from Toronto.

It was 4th March 2025 when he booked onto the Air Canada flight from Heathrow. The silver haired woman in the seat next to him painted bright red lipstick around her mouth. �Of course it was no surprise to be offered the job after Claire Raynor retired� she sneered� After all I used to be a psychiatric nurse... Now if Blokes had periods they would understand...�

By chance the taxi ride to Toronto mental hospital took him past the MacDonalds - where the whole thing had started. Of course it was barely recognisable having become a Church Of Scientology Vedgie Bar. Police in riot gear kept the two sets of demonstrators apart. Dirk didn�t really know what to expect when he got to the hospital. The girl at the reception desk directed him to a row of chairs in a wide well lit corridor. There was a strong smell of disinfectant, the furniture and the carpets were immaculately clean and behind the rows of teak veneer doors the �nutters� were all safely locked away. For some reason Dirk started thinking about CompuServe forums.

A tall blond woman in a white coat approached. �Mr Gentle, I assume�

�Yes� Dirk replied shaking her by the hand. �You�re the nurse who...�

�Doctor� She interrupted, �Doctor Killfile� She led Dirk across the corridor towards one of the doors then stopped with her hand resting on the handle. �Now you know about this person don�t you?� and after Dirk nodded she continued �Don�t tell him anything about yourself - don�t let him get into you head. If he does he�ll screw it up�

The door opened to reveal a frail man sitting in from of a TV screen. He had a keyboard on his lap and next to the television was a computer screen. Dirk glanced at the walls of the room and remembered that his settee at home need upholstering.
The nurse left the room and the man looked up �So you come to my daughters wedding and ask me to kill a man� he said in a dry cackling voice. �Look� he continued, pointing at the

screen, �I know that man. They�re talking about me now - listen�. The man stared at Dirk. �What�s your name? Are you one of my friends from the Internet? - Are the lambs still screaming Dirk?�

Dirk, at first recoiled in horror,  then felt a sense of anti climax. So this is what they hyped up to superstar status on the back of their own fears of madness.  Dirk was reminded of the film �A day on The Beach� where a submarine had set off to search a post nuclear World to track down a signal coming from a remote military base - only to find it was being sent by a Coke bottle half balanced on a Morse tapper. Outside the room the nurse waited for him. Because his nicotine craving had returned - and to avoid an awkward piece of dialogue - Dirk turned to her and asked . �Patch?�

Dirk took two nicotine patches from his wallet the first of which he stuck onto the inside of his arm. Stepping closer to Doctor Killfile he opened her white coat and slid his hand into the opening at the front of her dress. He pressed the patch onto her leg as close to the top of her inner thigh as he dare. She took a deep breath and then slowly breathed out. �What Bogart could have done with these things� Dirk thought to himself.

�Is he crazy?� Dirk asked tilting his head back to towards the door.

�Who knows� Doctor Killfile replied �We let him type away. He sees something on the TV in the morning and it keeps him busy all day. What he types doesn�t go anywhere it just stays on a mainframe in the basement. It can be read by anyone else in the building but that�s it. We got them all in here conspiracy theorists, racists, nationalists. They�ve created a world within a world really...� Her voice trailed away and she stared down the corridor for a while then added �So long are two things are different neither will come to be in the other and so become at once both one and two.�

Dirk gave her a puzzled look �You mean their brains are fried?�

�Fried?� Killfile smiled at Dirk �No that was Plato�. Then the smile fell from her face. �You must remember, mister, plate o...�

Mike Corley FAQ
version 0.1
first edition 5th May 1996
```

last updated 5th May 1996
Iain L M Hotchkies iain@XXXXX.demon.co.uk

Mike Corley is a 'net personality' who has been active on the following newsgroups (uk.misc,uk.legal,uk.politics,uk.media,soc.culture.british) since....? Well, at least as far back as the summer of 1995.

He posts long tracts, the tone of which approximates that which one might expect from a reasonably intelligent paranoid schizophrenic.

No details are known of Mike's 'real' personal life or background. Once would presume that he came from a reasonable family and was reasonably well educated before the first symptoms of schizophrenia began.

Schizophrenia: Clinical features
(from the Oxford Textbook of Psychiatry, 2nd Edition)

The acute syndrome

Some of the main clinical features are illustrated by a short description of a patient. A previously healthy 20-year-old male student had been behaving in an increasingly odd way. At times he appeared angry and told his friends that he was being persecuted; at other times he was seen to be laughing to himself for no apparent reason. For several months he had seemed increasingly preoccupied with his own thoughts. His academic work had deteriorated. When interviewed, he was restless and awkward. He described hearing voices commenting on his actions and abusing him. He said he believed that the police had conspired with his university teachers to harm his brain with poisonous gases and take away his thoughts. He also believed that other people could read his thoughts.

This case history illustrates the following common features of acute schizophrenia: prominent persecutory ideas with accompanying hallucinations; gradual social withdrawal and impaired performance at work; and the odd idea that other people can read one�s thoughts.

In appearance and behaviour some patients with acute schizophrenia are entirely normal. Others seem awkward in their social behaviour, preoccupied and withdrawn, or otherwise odd. Some patients smile or laugh without obvious reason. Some appear to be constantly perplexed. Some are restless and noisy, or show sudden and unexpected changes of behaviour. Others retire from company, spending a long time in their rooms, perhaps lying immobile on the bed apparently preoccupied in thought.

The speech often reflects an underlying thought disorder. In the early stages, there is vagueness in the patient�s talk that makes it difficult to grasp his meaning. Some patients have difficulty in dealing with abstract ideas (a phenomenon called concrete thinking). Other patients become preoccupied with vague pseudoscientific or mystical ideas.

When the disturbance is more severe two characteristic kinds of abnormality may occur. Disorders of the stream of thought include pressure of thought, poverty of thought, and thought blocking. Thought withdrawal (the conviction that one�s thoughts have been taken away) is sometimes classified as a disorder of the stream of thought, but it is more usefully considered as a form of delusion.

Loosening of association denotes a lack of connection between ideas. This may be detected in illogical thinking (knight�s move�) or talking past the point (Vorbeireden). In the severest form of loosening the structure and coherence of thinking is lost, so that utterances are jumbled (word salad or verbigeration). Some patients use ordinary words in unusual ways (paraphrasias or metonyms), and a few coin new words (neologisms).

Abnormalities of mood are common, and of three main kinds. First, there may be sustained abnormalities of mood such as anxiety, depression, irritability, or euphoria. Secondly, there may be blunting of affect, sometimes known as flattening of affect. Essentially this is sustained emotional indifference or diminution of emotional response. Thirdly, there is incongruity of affect. Here the emotion is not necessarily diminished, but it is not in keeping with the mood that would ordinarily be expected. For example, a patient may laugh when told about a bereavement. This third abnormality is often said to be highly characteristic of schizophrenia, but different interviewers often disagree about its presence.

Auditory hallucinations are among the most frequent symptoms. They may take the form of noises, music, single words, brief phrases, or whole conversations. They may be unobtrusive or so severe as to cause great distress. Some voices seem to give commands to the patient. Some patients hear their own thoughts apparently spoken out loud either as they think them (Gedankenlautwerden) or immediately afterwards (echo de la pensee). Some voices seem to discuss the patient in the third person. Others comment on his actions. As described later, these last three symptoms have particular diagnostic value.

Visual hallucinations are less frequent and usually occur with other kinds of hallucination. Tactile, olfactory, gustatory, and somatic hallucinations are reported by some patients; they are often interpreted in a delusional way, for example hallucinatory sensations in the lower abdomen are attributed to unwanted sexual interference by a persecutor.

Delusions are characteristic. Primary delusions are infrequent, and difficult to identify with certainty. Delusions may originate against a background of so-called primary delusional mood - Wahnstimmung. Persecutory delusions are common, but not specific to schizophrenia. Less common but of greater diagnostic value are delusions of reference and of control, and delusions about the possession of thought. The latter are delusions that thoughts are being inserted into or withdrawn from one�s mind, or broadcast� to other people.

In acute schizophrenia orientation is normal. Impairment of attention and concentration is common, and may produce apparent difficulties in remembering, though memory is not impaired. So-called experiences result from illness, but usually ascribe them to the malevolent actions of other people. This lack of insight is often accompanied by unwillingness to accept treatment.

Schizophrenic patients do not necessarily experience all these symptoms. The clinical picture is variable, as described later in this chapter. The table below lists the most frequent symptoms found in one large survey.

The most frequent symptoms of acute schizophrenia (World Health Organization 1973)

| Symptom | Frequency (%) |
|---|---|
| Lack of insight | 97 |
| Auditory hallucinations | 74 |
| Ideas of reference | 70 |
| Suspiciousness | 66 |
| Flatness of affect | 66 |
| Voices speaking to the patient | 65 |
| Delusional mood | 64 |
| Delusions of persecution | 64 |
| Thought alienation | 52 |
| Thoughts spoken aloud | 50 |

Various theories exist about Mike Corley:

1) he exists and is disturbed and has net access and for reasons uncertain spams a selected number of newsgroups on a regular basis - if you are reading this FAQ then you will almost certainly have seen one of his posts.

2) Mike Corley is a 'virtual schizophrenic'. Mike displays the relevant features so well that some people think he may be a construction of one or more people with intimate knowledge of mental illness and the mentally ill. Perhaps they wish to monitor the effects on the internet of the posts of a schizophrenic. Moving into X-Files territory a bit, ourselves, here.

Mike's posts attract different responses:

1) cruel, humourous, dismissive posts from those who've seen his posts many times and have become generally irritated by his behaviour while accepting that he probably has a mental illness.

2) posts from Corley-newbies - those who have come across relateviely

few of Mike's posts. These may be humorouous or disbelieving.

3) posts from people who have been sucked in (for one reason or another) into Mike's Wild & Wacky World (TM)

That's enough for now.

Persecuted by the Security Service

Since June 1990 the British security service MI5 has waged a campaign of harassment against a UK citizen,
through the broadcast and print media, verbal abuse at work, and molestation in public and during travel.

Despite widespread knowledge of the campaign in the UK and discussion of its characteristics on Usenet for over three years, it continues today both in Britain and North America. Its cause and basis is xenophobia on the basis of the genetic accident of mental illness, coupled with discrimination against an inferior "foreigner" whom they condemn as "not up to British Standards".

If this is your first visit to this site, please read the FAQ first. Feel free to contact the author with any questions.

Frequently Asked Questions article outlines the parameters of the persecution. Who is involved, and why? What technical and social means do they employ? What response have I made, and why has their campaign yet to be exposed?

The UK Security Services which are believed to be behind it all. Domestic security is the province of MI5 while the secret intelligence service MI6 combats foes (and its former employees) on foreign shores.

Usenet archive chronicling the (sometimes very enthusiastic) exchanges which have taken place on UK-local newsgroups since May 1995. Make your mark on the continuing discussion!

Believe it or not, a few items of evidence have been recorded. Although none of them is particularly conclusive, by presenting them I hope to explain what I understand from some television and radio programmes. Most of the "clinching" material was aired in 1990-92, and no recordings exist now, which is quite unfortunate.

My complaints to the BBC and MI5 (via the Security Service Tribunal and Interception of Communications Tribunal), and their response to my challenges, are recorded here. Basically they deny everything, they have put their denials (mostly - Buerk and Lewis refused) in writing, and I don't believe them. Part of the website also documents media coverage of my campaign to expose the persecution.

Faxed articles to, and responses from British organisations including Parliament and UK media. Over 24,259 faxes in all were sent from 1998 to 2000. Their aim was to boot discussion of the persecution into the public domain, and that aim was not accomplished.

20,000 Reward Offered to Expose the Conspiracy

I am making a pledge for information directly leading to the exposing of the "BBC
Newscaster
Conspiracy". The exposing would specifically need to lead to a legally binding
admission from Martyn Lewis
or Michael Buerk of the BBC they they were watching me through the TV set.

I would be happy (delighted, in fact) to pay GBP 20,000 sterling in reward for the
above admission.

3476.0 kHz USB 0805z "Gander Radio" wkg "N674RW" (Gulfstream G-V);
Gander apoligizes and informs N674RW that hf is very poor this evening.
(20 Jan 2006) (ALS).

Actually HF is a bit stronger and clearer tonight than it has been for
the past few days.  I have been receiving 2899, 2971, 3476 and 6622
very well tonight.

"Ethiopia 500" up with Gander on 3476 at the moment, getting a Selcal
check for GLCQ.

Board Members,

Does Bearcat currently offer an international version of the BCD996T
with full coverage?

I have done extensive research and cannot find such a model.

Joe

You don't seem to realize that this is a violation of national security.
  No one can stop you from listening, but you're not supposed to pass on
the details of what you hear.

Hi ,

Does anyone have this scanner? If so, do you like its performance?
My son is new police officer-so I want to hear whats going on during

his shift.
A small town so its just regular scanning.

Thanks,
Kim

Greetings Kim!
I have had this scanner and the Radio Shack version of it and I liked
to use it for scanning through bands and finding some agencies on air
that I did not know about. I like it for general use of the nature you
are wanting as well as for listening to the Air Band. The only bad
thing I can say about this particular scanner is that it is very
susceptable to interference from computers, monitors, etc. With that
said just try to place it somewhere where you won't have those kind of
things close by and for what you want it for it should do you a great
job. Have a great week! Jon in Upstate South Carolina.

Kim That scanner is a very good one.After you learn how tp program it it
will give you all you want from a scanner.

Tom

I�m sure you�ll really like this.

They give you access to some of the best groups others may not carry.
Great prices and support await you as you travel into the beautiful world of premium nntp access.
One thing I love about them, they don't keep log files of the news I read or files I download.
Take a look at all the great features below and imagine! You'll LOVE it.
You can find almost anything you are looking for.
Take a look, I know you'll love it as much as I do.
They offer some of the best premium newsgroup access anywhere.
With some of the fastest connections around it's no wonder people love it and keep coming back.
Images, video, mp3 music, the real news from around the world... it's all inside waiting for you.

Convenient thumbnail indexes
Streaming audio and video
Keyword searchable
Very long retention
Blazing fast downloads
2,000,000 new posts each day

I'm so glad I found newsdude.net and you'll be glad too!

Looking for either a new or used scanner, for mostly police and fire, for around $100. New or used - if I can find one on eBay. Going to give it as a starter scanner to a friend who currently doesn't scan. Radio Shack has a few new models in the $100 range but thought 1) someone might have a better idea for new or 2) someone would say you can usually find used Model X on eBay for around $100. Thanks for your help. Looking for a base scanner and not handheld.

For what kind of system? Where? You need to make sure the scanner you get
will work for the type of system they want to listen to.
  I have looked at them on Ebay before but they went for so close to the
price of a new one I was never tempted. Unless you can get one that is
claimed as working fine for less than half what it goes for new, I would
just buy a new one with a warranty. If you by a used one and it dies, the
cost of repair will have you spending as much as it would have been to just
buy it new.

Despite an orchestrated campaign of attempted censorship by UK-resident newsgroup readers, TFN did not bow to demands for a suppression of freedom of speech. TFN general policy on the matter is as follows;

Draft Policy on Account Deactivations due to News Group Postings

News group postings occasionally take the form of a message which goes against the "topic" of the conference. For example, a derogatory message about Canadians in the soc.culture.canada.

Members of such news groups then may send a message to the system administrators asking that a user's account be terminated because of such posting.

The Toronto Free-Net Board of Directors has taken the position that the only postings that will get a person's account terminated is material that is illegal under Canadian law. Otherwise, the Toronto Free-Net will not take any action.

Freenet Executive Director Mike Anderson had this to say regarding the continued attempts of a minority of usenet participants to have my account on his system deactivated;

The TFN's policy is not to take action against members unless they contravene the Criminal Code of Canada, or engage in practices such as forgery, attacks against other computer systems or mailbombing.

Mr. Corley, while possibly being very annoying, has not contravened the TFN's policies. The TFN believes strongly in freedom of expression, while recognizing that the price for such freedom may be a high signal-to-noise ratio in Usenet.

If Mr. Corley breaks the law, we will take action -- until then, he has the same rights as any TFN member to post to Usenet newsgroups. Actions such as mailbombing the TFN in protest will be met by strong complaints to the originating site's postmaster. The best defense against unwanted postings may be simply be to ignore them and deny the poster an audience.

TFN Executive Director Toronto, Ont CANADA

Personally, I find it gratifying that my contributions to usenet discussion are recognized as being conducive to a high signal-to-noise ratio by their quality and thoughtfulness.

Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?

Well the country which brought Orwell into the world has made his nightmare follow into the world after him.

Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their "victim".

And the most remarkable thing about it is that what they do is not even illegal - the UK has no laws to protect the privacy of its citizens, nor does it proscribe harassment or abuse except in the case of racial abuse.

A lot of people in England know this to be going on, yet so far they have maintained perfect "omerta"; not a sound, not a squeak has escaped into the English press, and for all the covert harassment absolutely nothing has come out into the public domain.

Have the British gone mad? I think we should be told.

From: "Mr.B" <dgb01@stir.ac.uk>
Newsgroups: alt.conspiracy
Subject: Re: BBC's Hidden Shame
Date: Mon May 8 05:32:13 1995

Mmmm.

Who, exactly is this victim you're talking about?

First up, Britain or the UK (not 'England' - England is a part of Britain, like Kansas is a part of the USA) does have laws that protect the individual from harassement - you can't just threaten people willy nilly. There are laws against that. And if someone lies about you in the press or tv then you have recourse to libel/slander etc. laws.

True, Britain has no 'privacy' laws as such, but isn't that a good thing? As of this moment, the govt. are considering a privacy law, but it is unlikely to succeed. Why? Because any such law would benefit the priviledged and those in power. Privacy laws, while supposedly protecting the individual, help those in power hide their mistakes/scandals. They stop the press etc. investigating. Privacy laws are undemocratic - they prevent the people from keeping an eye on govt.

And stop looking for some kinda conspiracy in the British press. It's hardly perfect, but your notion that they don't cover/campaign against press legislation, harrassment, discrimination, human rights etc. is plain wrong. You've never seen a British paper in yr life.

You clearly have a specific case/individual in mind. Speak up! The thought police aren't coming round just yet.

Douglas.

Date: Mon May 8 19:21:28 1995

Subject: Re: BBC's Hidden Shame

Confession time - the victim is/was me (except my name isn't Corley, but that's irrelevant). What happened was not threats; just invasion of privacy, in a partiicularly flagrant and shocking way, in a way which most people would consider to constitute harassment.

You know there's a particular category of person with mental illness to whom TV and radio "talk", ie they feel the broadcast is directed at them in particular? This happpened to me, quite some time ago in the UK (I'm originally from London, so I've seen plenty of British media print and other).
They invaded my home with their bugs, they repeated what I was saying in the privacy of my home, and they laughed that it was "so funny", that I was impotent and could not even communicate what was going on. Who did this? Our friends on BBC television, our friends in ITN, last but not least our friends in Capital Radio in London and on Radio 1.

How did they do this? I'll give you an example. About a year ago, I was listening to Chris Tarrant (Capital Radio DJ among other pursuits) on his radio morning show, when he said, talking about someone he didn't identify, "you know this bloke? he says we're trying to kill him. We should be done for attempted manslaughter" which mirrored something I had said a day or two before (I'm not paranoid, honest!). Now that got broadcast to the whole of London - if any recordings are kept of the shows then it'll be there.

You mean the category where they think that everyone is after them ? that one ? So lets get this straight you know you are paranoid and you think that they are out to get you ? Uh huh, try putting the two together and see what you come up with.

>quite some time ago in the UK (I'm originally from London
>so I've seen plenty of British media print and other).
>They invaded my home with their bugs, they repeated what I
>was saying in the privacy of my home, and they laughed that it
>was "so funny", that I was impotent and could not even communicate
>what was going on. Who did this? Our friends on BBC television,
>our friends in ITN, last but not least our friends in Capital
>Radio in London and on Radio 1.

Oh yeah, I can see it now. All of them banding together, in a united effort against one man. So ITN, the BBC, and Capital all decide to sit round the table and they come up with idea of breaking into someones house, putting bugs everywhere, listening in to his conversation, and shoving it out on the news everyday. This someone has nothing to do with politics, or business, or entertainment, just an ordinary Joe Bloggs who seems to be extremely paranoid.

Have some sense, grow up and smell reality. What you are talking about would take loads of planning, tens of thousands of pounds and lots of people involved in the planning, execution and maintenance of it. You must have a very high opinion of yourself to think you are worth it.

>How did they do this? I'll give you an example. About a year ago,
>I was listening to Chris Tarrant (Capital Radio DJ among other
>pursuits) on his radio morning show, when he said, talking about
>someone he didn't identify, "you know this bloke? he says we're
>trying to kill him. We should be done for attempted manslaughter"
>which mirrored something I had said a day or two before
>(I'm not paranoid, honest!). Now that got broadcast to the whole
>of London - if any recordings are kept of the shows then it'll be
>there.

Of course you are not paranoid, just slightly mad. Did you ever look for the bugs in your house ? If not, why not ? I mean if I thought that was happening to me, I'd search the place from top to bottom, I mean I live there I would know if anything was out of place. If I was really paranoid, whoops I mean suspicious, I would call in one of those bug detection teams which have those machines that pick up the transmitted radio waves. This reminds me of BUGS, that new programme on BBC1 on saturdays which is all about this kind of stuff, but, shown as a drama / thriller. I suppose thats based on you as well is it ?

>is that there is a conspiracy in Britain, that it encompasses the
>broadcast media, and there is no way of breaking the conspiracy.
>The people who are involved in it will not open up.

What a load of jolly hollyhocks, I would say something else but, apparently students are not allowed to swear on newsgroups in case it damages the reputation of the university or some such jolly hollyhocks.

This guy is extremely paranoid to suggest that the entire British media is after him in such a big way. He gives no real reason as to why they are after him, just that he suffers/suffered from a slight mental disorder, could it be paranoia perhaps ?? No surely not.

I put it to the house that he has never recovered from this mental disorder, lets come out with it and call it paranoia, and thinks everyone is after him. Remember just because you aren't paranoid, doesn't mean they aren't after you.

This guy has a serious problem to suggest that the media would go to such lengths just to single out and ridicule one person. I mean apart from anything else, we (the listening masses) wouldn't be interested unless it concerned the royal family, politicians or showbiz personalities. e.g. the camillagate tapes. I would think that almost everyone, no matter how much they went on about infringements of privacy read the transcripts with interest. I really don't think that Joe Bloggs ordinary guy or paranoid nutter would have the same appeal. Well actually I dunno. :)

Regards,

Paul.

That is what happens in big cities. Hell, it scared me to death when I first started working in Manchester. People keep talking to me on the streets, even if its just to say hello, and I've no idea who they are. This happens to most people, don't worry about it.

>>paranoid, whoops I mean suspicious, I would call in one of those bug
>>detection teams which have those machines that pick up the transmitted

>That's exactly what we did. We went to a competent, professional detective
>agency in London, paid them over 400 quid to debug our house. They found
>nothing.

Doesn't this suggest to you that there are, in fact, no bugs to be found?

>Over Easter I went to the police in London, telling them basically
>what I've posted here. I don't think you'll be surprised to learn
>that I didn't get very far; they asked "why would they be doing this to
>you in particular?" and the answer "they are because they are" doesn't
>go very far.

Exactly. All you have offered so far as proof of your harrassment by these people is:

1) Someone on radio said something that you had recently said
and
2) People on the streets seem to recognise you.

These are both perfectly normal occurences and happen to lots of people every day so it is unsurprising that people here, and the police, are not taking you seriously.

Trying to always keep an open mind about things I would say that one of three things is likely.

Either there is a lot more to this that you are not telling us, or you are messing about or you have some genuine delusions. I'd like to think that in two of the three cases you would find some real support here, but it seems unlikely I'm afraid.

>to most people, don't worry about it.

The key is the pattern, or a change in the pattern. I've lived in London almost all my life, and just walking around the streets, I never got hassled by anybody. All of a sudden, people start harassing you, throwing abuse at you, behaving as if they know you personally, as if they've seen you before somewhere. I read in the papers that this happens to Colin Stagg and people like that Eastenders actress, but they've had their picture in the paperes, so that is understandable. In a couple of cases people have even known my name - when I was in London over Easter I was walking down Shaftesbury avenue in the West End when somebody (no idea who they were, just some bloke with his girlfriend) called me by name - quite clearly, and my name is distinctive. This also happened once about four 1/2 years ago, onn the tube - some blokes I had never seen started chanting my name and a term of abuse.

It's the pattern which convinces me there's something to it - and would convince any impartial abserver who could see things tyhrough my eyes.

>Doesn't this suggest to you that there are, in fact, no bugs to be found?

There's a little story behjjind this. First iof all, in 1992 I worked for a company where the people made clear they knew what was going on, first of all directly (the very first evening I was there I went out to the pub with them and the Technical Directpor said to another guy, "is this the bloke who's been on TV?" "yeah, I think so") and also indirectly, by rep[peating stuff I was saying at home in London and in my rented accomodation there (I moved several times in the course of 1992 and they followed me each time). Now, if "they" (the buggers) knew their bugs could be found easily, they wouldn;'t be keen to make their existence known, would they?

Also, in summer 1992 I went on a trip abroad to Europe by coach, and on the way out there were a couple a little younger than myself on the coach a bloke and hius girlfriend. He said things about some bloke who was never named, who sounded exactly like me - and he made explicitly clear that our house was bugged, and that a neighrbours house was bugged (and at work they'd been rep[earting what was said at the neighbours, so this looks like independent corroboration).
They also said stuff like "at school he was always really streesed, they found someone from his school and he was a real psycho" and that "he was in a B&B for one night and they got him", dead right again, I had been in B&B for once night a few days before this trip and weatching the news again got a reaction from the newsreader.

>:some pirate radio station in London in 1991, started listening to
>
>Conclusive proof if ever I heard it.
>
>Of course you were the only person in the office in the whole of Britain

Yeah, but this is the point. Each incident is easily and automatically deniable along the lines you're taking. But when this happens every time, and when you get independent corroboration from other people, then there's no escaping it. For example, immediately after I lost my job in 91 I went into the local garage to get some work done on the car, and one of the blokes there said to the other, "so what do you think of it then? it's getting killed on the radio isn't it"
Now again, you look at that and no proff; you can ask them what they're referring to and they can say they're talking about something else.

>I know you may be a little paranoid, but I suggest you sit down
>and work out rationally what possible reason anyone off television,
>or radio would have for listening to your conversations. After all
>it must be hard enough to present a show to millions of people
>without the added burden of watching and listening to a single
>person and slipping their phrases into the programme.

These presenters are clever people. They wouldn't be presenters if they weren't - they're easily capable of reacting to an individual in this way.

What possible reason? I guess because they think it's amusing to do so. They know that if you ever tell anybody, without being able to show any evidence, then the reaction you'll get from just about anybody will be the one you're showing now.

I realize there are loads of people in England and elsewhere with the sort of thoughts I've described in these postings; and almost all impartial observers would say that nothing other than an

go after their private conversations (if they did it to me then I can
do it to them, it's a questions of technical competence and money).
If you were lucky, you might be able to entrap them into admission.
You could of course harass or threaten them back (any coppers reading
this?) but that would be illegal and might get a result quite
different to the one you're trying to achieve. Of course, it might
come out of its own accord given time - if so many people know, if
they have an escape valve in their "subtext" through the media,
will it not cease to be at a covert level, given time? Surely it
is in my interest for it to become overt, since the transgressions
at this time are on their side and not on mine?

Thoughts? There must be some way of breaking the secrecy. This
isn't the first time in human history that a conspiracy has taken
place on this scale, but the truth tends to out. The situation
now is they think they';re "winning" hence have little stimulus
to change the rules - if they started seeing themselves "losing"
things could change drastically.

Mike, if that is your name,

I'm going to try to rationalise what you're telling us. I can think of three
possible explanations for what you are experiencing.

One is that there _is_ a conspiracy against you. As a previous writer said,
though, a lot of these programmes are taped, so it really isn't possible in
some of the cases you've named. Further, why were no bugs found in your
house? Finally, unless you are a political figure or someone else in the
public eye, why would anyone bother? People like me (and I assume you) are
small fry; our contribution to society is likely to be minor. Why would
anyone spend so much money and effort on you?

Another possibility is that you are developing some kind of paranoia. There's
no stigma attached to this; we're all paranoid to some extent, although
perhaps not to the extent that a doctor would call us paranoid. I think
paranoia is quite a straightforward explanation here - you really do believe
that all these things are aimed at you; you see people everywhere trying to
get at you. Logic suggests that this cannot really be the case.

The third possibility is that not even you really believe any of this, and that this is a "troll". I'm not sure I believe this possibility, but it's possible.

Anyway, if you want to be sure that you're _not_ going mad, I'd go and see your G.P. if I were you. If you don't trust him/her, why not see someone recommended by a person you can trust? If you don't trust anyone any more, don't you think it's time you got help?

Alan

For a troll, the posts are remarkably well-informed on paranoid behaviour.. you'd need to be one, or be reasonably well-informed on the subject to sustain the tale... which lead me to my theory...*ahem*...:

An extension to possibility 3 (Number 3.5, perhaps?) is that the original poster may be somehting like a psychology student writing a term paper on the net community's reactions to this tale. (Now, there's paranoia for you! Not only are they listening to/watching us, they're writing reports about us too...:-)

More likely, though, is that the poster is genuinely in need of professional help (he has intimated as much, himself) and, as such, he should be encouraged to seek it.

regards,
IanP

>reply? Something more constructive than those silly little
>jokes about paranoia perhaps? Like what objectively can you do
>to break the conspiracy open, if one exists :-) ? If somebody
>did it to you, what would you do?

But we've *done* that. I certainly have at least. Way back when you
originally started posting and your posts were neither tediously repetitve
nor stupidly long.

But whenever anyone makes any good suggestions you ignore them and start
posting from the begining again. You don't want us to help you - so what do
you want? If you really wanted help you would listen to peoples suggestions

and respond to them. Is this just an attention thing? But I'll try again, because I'm a fool like that.

>o   Tell people about it, go to the police / legal services
>   Done that; those around me either don't believe me, or they
>"sort of" believe but can't do anything about it. As for going
>to the police; I did, over Easter. Discouraging. They must be
>familiar with the occasional person walking into a station with
>this sort of story. "If a psychiatrist says you're imagining
>it, then that's what it is".

You haven't yet given any examples of anything concrete to suggest that this is really happening to you. This, I would imagine, will be the stumbling block for the police. How can they possibly help you when your only evidence is a jumbled mess of TV presenters saying things that could be construed as answers to your comments and the 'feeling' that people are talking about you and watching you?

I seem to recall that last time this was being discussed someone asked if you had been to see a psychiatrist about this - after all if this is really happening then you have can only benefit from being given a clean bill of health. I don't recall an answer.

>   I also went to a firm of solicitors; again, very
>discouraging. Put bluntly, they can't deal with cases where the
>perpetrators aren't well-defined and the existence of the crime
>itself is unprovable.

Well how could they? Who would you sue? The country?

>o   so if that option is out, what's left? well, there's the
>"do nothing" option. To some extent this option works. They've
>spent a lot of money and ultimately achieved nothing except to
>force me out of the country - which has been an own goal for
>them, since now they can't do what they were doing in the UK.
>Expenditure of further resources would feed the pockets of
>their greedy contractors, but is a waste of money as far as the
>employing organization is concerned.

So you are no longer in the uk? And this is not happening anymore?

Then let it go. Just leave it alone and get on with your life. Its just not worth it. There is nothing you can do to prove that this happened whether it did or did not. So forget it. Go and explore the net - when people aren't spamming it with useless repetitve posts there's a lot of interesting and worthwhile things out there to see and do. Likewise real life (I'm told *&).

>completely conventional, I have a good academic and work
>record. Until all this started, I had no mental health
>problems; the diagnosis of illness was only after 2 1/2 years
>of abuse. If they did this to me, they could do this to
>absolutely any British citizen. If this stuff gets out, it
>won't be me that has to worry - it'll be them. They take a

>normal person, lie about him, demonise him, try to force him into killing himself - and this is in a country where the rule of law applies?

If this gets out then *that* will be the time to bring your claims to the foreground.

The only thing ruining your life right now is you, Mike. And the only thing that will make your life any better now is also you. So go and make your life better and show them that they failed.

Claire

>But we've *done* that. I certainly have at least. Way back when you originally started posting and your posts were neither tediously repetitve nor stupidly long.

Once again we're running into a brick wall. The reason I started posting was because I couldn't figure out a way out of the situation, and thought that saying it out into the open would provide a catalyst for one of those "in the know" (there are plenty in this category, and it's a fair bet that some of them are reading this) to speak up.

It hasn't worked, yet. A little more aggressive shit-stirring (excuse expletive) might do the trick. Perhaps Usenet posting is the wrong arena for this sort of activity; although obviously it does have the advantage of rapid feedback.

Thing is, for people to open up, you would have to provide them with a reason why it would be in their interest to do so. There's no obvious way of doing that; to get thinking people to incriminate themselves when they're safe in denying all knowledge is not a trick I can figure out how to do.

>But whenever anyone makes any good suggestions you ignore them and start posting from the begining again. You don't want us to help you - so what do you want? If you really wanted help you would listen to peoples suggestions and respond to them. Is this just an attention thing?
>But I'll try again, because I'm a fool like that.

A "good" suggestion would be one which had the effect of halting the persecution, which so far hasn't happened. If you make a "good" suggestion then damn right I'll stop posting - because then I won't have to.

>You haven't yet given any examples of anything concrete to suggest that this is really happening to you. This, I would imagine, will be the stumbling

>block for the police. How can they possibly help you when your only evidence
>is a jumbled mess of TV presenters saying things that could be construed as
>answers to your comments and the 'feeling' that people are talking about you
>and watching you?

Because, as said previously, concrete proof does not exist. If it existed then I wouldn't be talking to you - if it could be proved, or if those doing it could be found, they wouldn't be able to continue.

What's happened is all conversation. You can't prove conversation, not without a tape recorder, and even then you would have to prove that what they meant corresponded to what you understood.

The psychopath who manages the Applics group at my previous employers played little word games, not only with me but with at least one other person in the group; words which rhyme with swear words, words which are ambiguous, eg "bent", words which rhyme with wank, "sheet" rhymes with shit, end (how was your weak end? being the standard salutation on a Monday morning). Sounds childish, most people would easily tell him to fuck off; except to people with predisposition to depression and the inability to express themselves (this was before I started taking medication), that sort of nastiness is not bearable. After ten months of this I was so ill I was crying constantly, eventually I went into hospital and started on medication. Somebody else he did this to (over a year later!) got so depressed he took an overdose of pills, had to go on antidepressants and left.

And where does the "concrete proof" of this trouble exist? NOWHERE. Even if you had physical evidence, even if you had the presence of mind to record what was said, how could you prove what he actually meant by what he was saying? In some cases of harassment you can prove what was done, because it's undeniable. But when the harassment is done with any presence of mind whatsoever, it becomes difficult. In the case of the wider harassment, the people doing it obviously know what they're about - they must have done similar things to other people before in one form or another, and they know what they can get away with, they know what the police will do nothing about.

>I seem to recall that last time this was being discussed someone asked if you
>had been to see a psychiatrist about this - after all if this is really
>happening then you have can only benefit from being given a clean bill of
>health. I don't recall an answer.

Yes. The reply was of the "neither confirm nor deny" variety. Not much else they can say, is there?

>Well how could they? Who would you sue? The country?

Hmmm, now there's a thought... :-)

>If this gets out then *that* will be the time to bring your claims to the
>foreground.

Wrong way round. It won't get out unless I do something to bring that about; remember, it isn't in THEIR interest for THEIR criminality to be exposed.

Yelling loudly on Usenet might nudge things along in the right direction.

>The only thing ruining your life right now is you, Mike. And the only thing
>that will make your life any better now is also you. So go and make your
>life better and show them that they failed.

Ignoring them would be bliss, but it's not a winning strategy.

There are going to be more of these posts. Sorry. That's the way it is.

>Very unstructured, no proof whatsoever. So why should anyone
>take it seriously? If I said to you, "my next door neighbour eats
>babies", how much credibility would you attach to that?

Well, cos it's true. I was hoping that someone "in the know" would
appear and make some self-revealing comments, but that hasn't
happened. Everyone's keeping quiet. What a pity.

>>This is an agglomeration of articles and replies previously
>>posted to Usenet, so it's a bit hard to read. This posting
>>describes a campaign of character assassination initiated

>Who's character is being assassinated? It isn't clear from the post.
>Are we talking about Grenville Janner? I thought he was a spook
>himself? He's certainly able to hold his own on the issue you cite.

Mine, mainly. The reason for putting that episode at the top of the posting is that they tried to kill two birds with one stone at the Beck trial - they simultaneously put words into the mouth of their invented "witness" to smear Janner, and repeated exactly, word-for-word, stuff which had been said by and about me.

That was the only occasion (the only one recognizable to me, anyway) when they went after another target at the same time. And it's quite lucky they did that - because it could give some pointers to who they might be.

Presumably there are people still around who were involved in that trial, and know what happened. Beck might be dead, but the "witness" would still be around, as would Beck's solicitor.

>>by a group of people or agency within the UK. Although
>>they have never presented their identity, you can draw
>>your own conclusions on that point. There aren't many
>>people with the technical resources and contacts in
>>society to make feasible the sort of deliberate attack
>>on an individual which is described in this article.
>
>There aren't _any_ as far as I am aware.

I'm afraid there are.

>>The most disturbing part of the whole episode is the
>>participation of British institutions and their members, fully
>>comprehending what they do, in what is an act of attempted
>>murder against a British citizen.
>
>The whole society, in fact. From the top to the bottom. They
>wouldn't be trying to tell you to kill yourself by any chance,
>would they?

You got it. I'm a popular guy.

>>After the trial Janner said that "now he knew what it felt like
>>to be a victim of Beck's"; but, it wasn't Beck who set up the
>>attempted character assassination on Janner; the fact that they
>>took a side-swipe with their verbatim repetition shows
>>where the real source is to be found.
>
>The newspapers?

Well, your guess is as good as mine. But what newspaper would send a team after someone for five years? I don't think so, somehow. Of course they could, but it wouldn't be in their commercial interest.

You'd have to look at a corporate entity which would indulge in activity of this type, and the nature of the contacts they have narrows down the search.

>>The goons behind the molestation are lower than the paedophiles
>>they use to convey their propaganda - they use the same
>>strategy of covert abuse, but there is nobody to check their
>>actions, or to bring these criminals to justice.
>
>Ummm.. Janner is a Barrister, a journalist who writes on a wide
>variety of issues, and a long-standing Labour MP. If he's unjustly
>smeared, he's more that capable of setting the record straight.

Janner blamed Beck for the invention. He didn't say anything about it having any other origin. Even had he suspected any other source, he could hardly have pointed the finger without some evidence.

>You say that the media is making similar allegations about you in
>relation to this issue? So, you're accused of child abuse, amd
>the allegation was reported in the media, I assume.

I've been accused of many things although that wasn't one of them. Most of them have been yelled in my face by people on the street in London at some time or other. Bit difficult to misinterpret when that happens.

>What exact;y are they saying about you? (Respond here please. I'm
>leaving the UK tomorrow, so I can't read e-mail.)

It changes with time. Every so often, they sing a new song; so at one point the allegation was homosexuality, at another is was low intelligence, then it degenerated into sexual abuse.

<snip>

>>They invaded my home with their bugs, they repeated what I
>>was saying in the privacy of my home, and they laughed that it
>>was "so funny", that I was impotent and could not even communicate
>>what was going on. Who did this? Our friends on BBC television,
>>our friends in ITN, last but not least our friends in Capital
>>Radio in London and on Radio 1.
>
>How do you know this? Just from what you hear on the radio?

I can't remember if this was mentioned in the "regular" posting, but on a few occasions they set me up with people nearby to talk about me, or more correctly, to talk about somebody who (in their minds) "resembles" me, with actually naming me.

One such occasion was a coach trip to Europe in June 1992.
The "set up" comprised a guy talking to a vacant giggling female
about "this bloke", who was never named. Apparently "they"
(also never named) "found somebody from his school",
"they" "got" him at his house and at a neighbours, and at
a B&B where their target was for one night.

Apart from that, yeah, from "what I hear on the radio". And
from what I see on TV. (I wouldn't be doing my job as a
mentally ill person properly if the TV and radio weren't
talking to me, now, would I?)

>>Oh yeah, I can see it now. All of them banding together, in a united
>>effort against one man. So ITN, the BBC, and Capital all decide to sit
>>round the table and they come up with idea of breaking into someones
>>house, putting bugs everywhere, listening in to his conversation, and
>>shoving it out on the news everyday.
>
>But why would they do this? What possible reason would they have?

But why get at anybody? Victimisation is the pastime practised against
other people; as the scorpion said to the frog, "it's in my nature".

>Are you aware that what you describe is also a common symptom of people
>who are suffering from a psychiatric illness? Have you been to your
>doctor and told him about this? Did he prescribe any medication? Have
>you been taking it, or have you stopped?

Yes, Yes, and Yes respectively. Still taking it. Doing quite well actually.

>>This someone has nothing to do with
>>politics, or business, or entertainment, just an ordinary Joe Bloggs who
>>seems to be extremely paranoid.
>
>Usually a clinical symptom rather than proof of a conspiracy in such
>matters.

>>How did they do this? I'll give you an example. About a year ago,
>>I was listening to Chris Tarrant (Capital Radio DJ among other
>>pursuits) on his radio morning show, when he said, talking about
>>someone he didn't identify, "you know this bloke? he says we're
>>trying to kill him. We should be done for attempted manslaughter"
>>which mirrored something I had said a day or two before.
>>Now that got broadcast to the whole of London - if any recordings
>>are kept of the shows then it'll be there.
>
>And this is supposed to mean... what? Chris Tarrant is in on this plot
>to kill you? It sure sounds like a joke to me. When you start to get
>ill, the mind often makes connections that seem logical and lucid to
>you, but do not to the rest of the world. This is one of those connections.
>They are usually known as delusions.

This is the problem, and there doesn't seem to be any way around it. If a clearly sane person reported this persecution, you might believe him, but probably you'd tell him to go see a doctor to "verify his sanity". If someone with the illness of which you could argue these things to be symptomatic says these things, again, you might believe him, but it would be unlikely - the easiest route is the one you are taking in the above paragraph. The only way I can convince you of what I am saying is by giving precise details of what, when, how - and for most of that stuff is based solely on memory.

To prove it would require an admission from somebody, or else hard proof in the shape of physical evidence such as tape recordings.
Of course, I don't have that.

>The idea of a "pattern", and the notion that if anyone could look
>through your eyes they would see the same thing is very indicative of
>the onset of a psychiatric illness. Schizophrenia and manic depression
>have similar symptoms. I'm not trying to be disrespectful here.
>This may be an illness and it can be managed by the use of medication.
>If it _isn't_ treated, it can lead to terrible tragic consequences.

I'm quite aware what the symptoms would be, and that the reality corresponds to those symptoms.

But if anything, that is an argument which could convince you of the truth of what I'm saying. If they deliberately set out to simulate the symptoms of schizophrenia - in other words, if they know through observation that their target is either suffering from the illness, or is on the borderline and could be pushed in with an appropriate stimulus, then they can feel safe in what they do, since once you are registered as suffering from the illness, people will assign less credibility to assertions that persecution is based in reality.

That this can happen, and people collude by silence, is absolutely horrifying. It is all the more horrifying that it can happen in a country such as Britain which has no history of repression.
Perhaps its happening in the UK is due to the arrogant assumption of moral superiority on the part of those in the media and others involved - we won the last war and we can keep harping on about German and Japanese war crimes, so we can do whatever we like and we'll be right, up to and including destroying the lives of our citizens (as long as we're not caught doing it).

>>That is the level it's at - basically they show they're listening
>>to what you're saying at home, they show they're listening to you
>>listening to them
>
>But why? And why you? Do you realize how much it would cost to keep
>one person under continuous surveillance for five years? Think about
>all the man/hours. Say they _just_ allocated a two man team and a
>supervisor. OK., Supervisor's salary, say, �30,000 a year. Two men,
>�20,000 a year each. But they'd need to work in shifts -- so it would

>be six men at �20,000 (which with on-costs would work out at more like
>�30,000 to the employer.)
>
>So, we're talking �30,000 x 6. �180,000. plus say, �40,000 for the
>supervisor. �220,000. Then you've got the hardware involved. And
>any transcription that needs doing. You don't think the 'Big Boss'
>would listen to hours and hours of tapes, do you.
>
>So, all in all, you couldn't actually do the job for much less than
>a quarter million a year. Over five years. What are you doing that makes
>it worth the while of the state to spend over one and a quarter million
>on you?

Those are pretty much the sort of calculations that went through my head once I stopped to consider what it must be costing them to run this little operation.

The partial answer is, there have been periods when the intensity has been greater, and times when little has happened. In fact, for much of 1993 and the first half of 1994, very little happened. Although I don't think that was for reasons of money - if they can tap into the taxpayer they're not going to be short of resources, are they?

The more complete answer is in the enormity of what they're doing. When countries kill their own people, as a rule, they get found out and all hell breaks loose. This isn't some para shooting Irish teenagers in the back. This is something which permeates English society, which they are ALL responsible for, and which they cannot escape responsibility for.

Relative to the cost to British pride of seeing their country humiliated for the persecution of their own defenceless citizens, isn't is worth the cost of four or five people to try to bring things to a close in the manner they would wish? To the government a million or two is quite honestly nothing - if they can convince themselves of the necessity of what they're doing, money is not going to be the limiting factor.

>>What possible reason? I guess because they think it's amusing to do
>>so.
>
>What? Spend a quarter mil. a year to amuse themselves? And why not
>change every now and again? Why keep watching you? (Unless you _are_
>doing something, and I don't think you are, though you may have some
>deep, dark secret in your past.)

See the above.

===

>>I'm going to try to rationalise what you're telling us. I can think of three
>>possible explanations for what you are experiencing.

>>Another possibility is that you are developing some kind of paranoia. There's
>>no stigma attached to this; we're all paranoid to some extent, although
>>perhaps not to the extent that a doctor would call us paranoid. I think
>>paranoia is quite a straightforward explanation here - you really do believe
>>that all these things are aimed at you; you see people everywhere trying to
>>get at you. Logic suggests that this cannot really be the case.

>I think the evidence leans towards this explanation myself. Why not
>try soc.support.depression and see what some of the people there have
>to say about this? Just to get some more perspective on your perspective,
>so to speak?

Sure, it "leans" towards it. But please at least admit there is a POSSIBILITY of it being very real. And once you've done that, can you come up with some thoughts on methods of proof? I may be missing something in my assessment - there may be a way of proving it, in the face of non-cooperation from the "players".

ID Tracker has been updated to Version 1.9.0

- Added support for the ID Tracker Web Import add-in.
- Corrected issue that prevented the deleting of lockout entries.

ID Tracker Web Import

ID Tracker Web Import is a new add-in for ID Tracker II which allows the importing of data from the internet. If installed, ID Tracker II will prompt to perform a web import when attempting to import or merge new trunk IDs.

Notes:

- Must be installed in the same folder as ID Tracker II.
- Only trunk ID downloads are supported. Conventional systems are not supported.
- Current supports only imports from www.RadioReference.com. You must be a registered Radio Reference user.

The setupkits have been posted in the alt.binaries.radio-scanner newsgroup.

```

Hello:

a. Came across these freq's that were listed as being for "CAP".

140.6375

142.2250
143.7250
143.9000
150.1625
150.5625

Does CAP mean "Civil Air Patrol" or "Combat Air Patrol" ?

Or,... ?

b. BTW: Is there a full list for the N.E. &/or Boston somewhere ?

Thanks,
B.

I got 1 & 2 I could probably do without. 2 is autographed by the late Mr.
Cheek, both in very good shape.

Guess you'd better check into what the Secret Service does.

Get back to me, boy.

Well I vaugely remember George F [located in FLA and into mil comms?] but
have heard no details of this case.
But if the SS was involved a good guess would have to be forgery/counterfeits
of some nature .... Assuming there was no plot to overthrow the U.S.
government.

Bill was a good guy, very knowledgeable and creative.
I corresponded with him quite a bit back in the day, and he will be long
remembered by old school scannists.

Can anyone tell me the difference between trunked and conventional
set-up on a scanner.  New christmas present and would like to learn
more about it.  Anyone out there want to give me a hand?

Thanks in advance,
Betsy

SC has been bragging for quite some time now about No-Coders - but has "yet" to show where "he" has ever been licensed as a ham at all let alone "with" code. I don't care to give my call here - but have in the past and will again if asked. It doesn't prove a thing one way or another. My call - though I'm an extra - happens to be my old KA Novice Call sign. Been an extra quite a while. Went from Novice - Technician (80s) - Advanced - Extra.

It is amazing you guys keep him in entertainment by acknowledging his ridiculous remarks. GET A LIFE - SC -whether we like it or not - CODE IS GONE. You're beating a horse that has been dead quite a while. You've been on this stupid kick for about 5 months now. Don't you have anything better to do?

I Love how some people assume the worst.

I know George and have had him in my home.
I think (personally) this is a case of a few things blown up out of
proportion.
The filed complaint was for 31 people for $5k. Hardly worth the SS
white collar dividison being involved.
Just look at him Ebay ID. 38k feedbacks with 98.3% ++

Remember, you are innocent until proven guilty.

People will be glad to help but you will need to share some more info. Which scanner, including model? Where are you, and what are you trying to scan?

Anyone got a good site,
Or a link to the local action.
Google is not turning up much.

TIA

It would be in the SS jurisdiction if a counterfeit penny is involved, $$
amount is not a factor, and whether it is worth it or not is certainly not
for me to judge.
I know no details at all about this, just saw fit to lay fourth some relevant
observations. Lots of folks think you have to be hatching a plot to murder
the Prez for the SS to get involved, just pointing out that is not the case.

> Just look at him Ebay ID. 38k feedbacks with 98.3% ++

38,000 feedbacks, or was that a typo ?
Don't know him or his ebay ID so have no way of "looking" at him.

Who gives a crap?

That service is WAY overpriced for the 'possible' incident notifications
that come out of it.

Nice way to rip people off.

You can try the Radio Reference page. They have lot's of info there. Unfortunately it has in my case been wrong for over a year so they seem to be way behind change at times, but it's free so it makes a good start.

If they do not have the info, or what they have turns out to be wrong, you can probably search for it with your scanner, but this a time consuming way to do it.

--

Without question, the greatest invention in the history of mankind is beer. Oh, I grant you that the wheel was also a fine invention, but the wheel does not go nearly as well with pizza.

E-4B "Biggs 25" arrives Patrick AFB
``````````````````````````````````

It is Wed, 3:53pm EST (2053z).
  Moments ago E-4B "Biggs 25" landed at Patrick AFB.
  I heard him coming for quite a while. Heard him burning 356.15 WBFM carrier while he was over GA and all the way to Patrick. As he was landing on Patrick's Rnwy 30 (via 133.75), the signal on 356.15 disappeared suddenly, as if a switch had been turned off.
  All the time he was arriving, I also had an open carrier on 311.0, which remained until he was on the ground here.

Betsy,

Congratulations on the new radio, and here's hoping you'll get plenty of enjoyment out of it.

There's somewhat of a learning curve when going from scanning conventional systems to scanning trunked systems. I recommend you Google up some info on the basics of scanning trunked systems and acquaint yourself with that. As for help in getting started on programming trunked systems in your area, depending on where you live, you may (or may not) be able to find basic frequency and talk group info at:

http://www.trunktracker.com/states/database.html

The primary difference between programming conventional and trunked systems into a scanner is this: When you sit down to program a conventional scanner, about the only thing you're concerned with is programming in the right frequencies. You conjure up a list of freqs from somewhere (from the Internet, a local radio club, the store you bought the scanner from, or wherever), and if it's a good list, it lists all the government freqs in town: the police, fire department, EMS, the water department, the dog catcher - all have their frequency or frequencies listed. With conventional systems you simply program them in, hit SCAN, and start listening. When a police officer keys his radio, you'll hear him on (where else?) the police frequency.

With a trunked system, though, EVERYBODY can be on the same trunked radio system and they ALL will use ALL of the frequencies in the system. This is because in a trunked system, when a cop keys a radio, a computer at the control site decides which frequency to send it to, and at the same time sends the other police radios to that frequency to listen...and you'll hear him on that frequency. THIS time. The next time the computer sends somebody to that frequency, it might be the dog catcher instead, while the cop you just heard a minute ago is on another frequency in the same system. Therefore, with a trunked radio system, you have to learn about fleet maps and talk group IDs, which are what allows that computer to tell the difference between the cops and the dog catcher - and which is how you (and your scanner) tell the difference, too.

It takes some getting used to, but keep after it and you'll get the hang of it - and I think that once you do, you'll find that the effort will have been worth it!

Hope this helps.

I'm not the OP, but thanks a ton for that excellent explanation.

I'd kind of like to get a scanner, but I'm afraid that soon after I shell out the $500 they will come along with yet another newfangled technology that is incompatible with the scanner I just bought.

What's the real danger of that? And if I were to get a scanner, what is the latest tech I should look for?

Is "trunking" the only thing I need? Is all trunking equal?

I have an ICOM IC-R7100 receiver/scanner that has a problem. I can receive nothing below 250 mhz. There is no hiss or noise, just like if the squelch was fully turned up, and it is not. It works fine from 250 mhz+ to 762 mhz where it sometimes cuts out as described above. Any idea of what is wrong with it??? Does anyone have a schematic or repair handbook for this radio? Thanks for the help.
Ed

"Atlas 40" & "King 55" dropping PJs at Cape Canaveral now
`````````````````````````````````````````````````````````
It is Sat, 1:45pm EST (1845z).
  Patrick AFB C-130 "King 55" and "Atlas 40" are involved in PJ drops
over Cape Canaveral AFS. King 55 has just informed Atlas 40 that the
ground party is using 321.0 and 251.9 for the drops.
  Both aircraft are being heard on 118.625, 133.8 and 264.8.
  Atlas 40 has just informed the ground party (Gondola Charlie) on
251.9 that they will be making their drops right after King 55 drops
his.

If the reset does'nt work I would suspect the VCO/PLL for the lower
bands is going out of lock. Usually an unlock indication will mute audio.

I have an AV-5 airband antenna [1] hooked-up to my scanners, and it just struck me that (doh!) I didn't tune it before I installed it. Looking at their docs, I was horrified to see that the supplied length of the elements is such that it's way off tune. From my math, it'll be tuned to around 95MHz instead of the 125MHz that would be the rough center of the airband. How big a deal is this? Do I have to get the ladder out again? Or will the losses be managable in an rx-only application?

I don't think I'd worry about it all that much.  It seems to be fairly
broadbanded, so I doubt that in a receive-only environment you would notice
any difference.  I would believe that you would only have an issue if you
were on the very edge of the receiving range for whatever particular station
you wanted to monitor.  In that case, having it "properly tuned" MIGHT get
you that extra tiny bit of signal to make the difference between hearing and
not, but even that is iffy.

this stops anytime Steve robeson k4yz wants it to stop and not before

it is the RIGHT of memeber of the public to defend themselves against
libel indeed the courts over the years have tended to rule that
because I can defend myself in this admittedly ineffective mannerI
have no recourse against the people like k4yz an extra class ham and
VE

I have not misquoted Robeson nor have I commited the other crimes he
charges

complain to the FCC all you like but the comission in unable to
displine Robeson for his behavior on the USENET and therefore I
conclude would be unable to displine ME for defending myself

 MilSat test counts on 267.05 MHz NFM
`````````````````````````````````````
It is Thu, 10:44pm EST (Fri, 0344z).
  More test counts heard on MilSat 267.05 NFM.
  Nice and clear; strong here in Florida.

Allan;
Is there enough analog military satcom activity to warrant putting back
up my Andrew bi-filar helical antenna? If so what direction would I
point it from Oviedo Florida.

Hey folks,
I am a new user to rec.radio.scanner group. I was once a scanner junkie years ago. I had an old 800mhz radio shack scanner. Now I recently purchised a Uniden BC796D Trunker. I read the reviews on the internet and it said this product was not for the "newbie" Heck, I am jumping in with both feet here. I hope you people @ rec.radio.scanner group can help.

Here is my question(s) to the group.
Is there any software I can download that I can use for a nightlogger on my computer?

Is this sucker hard to program? How much radio knowledge should one need to program it? I consider my self to be some what computer tech savy..

I hope I can meet some new freinds with the same or similar Unidens.
Thanks for your time and reading my post.

If you are going to use it for Motorola trunking take it back to the store and get a BCD396D or BCD996T. It will be useless in a few months because of rebanding. If you bought it used you are SOL.

I think it is reasonable to say that ham radio was already destroyed because it has not kept up with change. Eliminating the CW tests will helbring it back from possible extinction.

Who cares it we get lazy people into the hobby? At least we get some people.

For logging and recording you can use IDtracker.
http://personal.bellsouth.net/k/d/kd5eis/IDTracker/IDTracker.htm

Ignore the other post about rebanding as it is completely wrong. Uniden has
committed to support the 796D for rebanding with a firmware update that you

can apply with your computer. Since no Motorola systems have been rebanded yet no one knows exactly what will change. Fiirmware updates offer considerable flexibility but there is no guarantee that any current scanner model will be able to adapt to a rebanded system. Search for rebanding on the Uniden web site for more details on what rebanding is and what scanners they will support.

For programming most people like ARC250.
http://www.butel.nl/bc785/bc250index.html

It is very tedious to program the radio by hand. ARC250 makes it considerably easier.

But that's the whole idea ... to stymie uncensored communications
between rational adults.

That's why with every FCC ruling, the joys of scanning are effectively
reduced in favor of it.

Well, both posters may be right, depending on the area you live in.

The 796 will be able to be reflashed with the proper firmware for 800 MHz. trunking. The rub is if you are in an area that will be using the new 700 MHz. band. This band is not and will not be supported by the 796 even after being reflashed. If your area uses or will use 700 MHz. then you should invest in a 396 or 996.

In Illinois for instance, there are a bunch of sites using 700 MHz right now on the new StarCom21 trunked system that only the 396 or 996 can follow.

I do concur that Arc250 is the way to go for programming and control of the 796. I have 2 of these radios and Arc250 works great!

I know it's off topic, but for some of us, this is news....

Dec 15, 2006 -- In an historic move, the FCC has acted to drop the Morse code requirement for all Amateur Radio license classes. The Commission today adopted a Report and Order (R&O) in WT Docket 05-235. In a break from typical practice, the FCC only issued a public notice at or about the close of business and not the actual Report & Order, so some details -- including the effective date of the R&O -- remain uncertain. Also today, the FCC also adopted an Order on Reconsideration, in WT Docket 04-140 -- the "omnibus" proceeding -- agreeing to modify the Amateur Radio rules in response to an ARRL request to accommodate automatically controlled narrowband digital stations on 80 meters in the wake of rule changes that became effective today at 12:01 AM Eastern Time. The Commission said it will carve out the 3585 to 3600 kHz frequency segment for such operations. Prior to the long-awaited action on the Morse code issue, Amateur Radio applicants for General and higher class licenses had to pass a 5 WPM Morse code test to operate on HF. The Commission said today's R&O eliminates that requirement for General and Amateur Extra applicants.

"This change eliminates an unnecessary regulatory burden that may discourage current Amateur Radio operators from advancing their skills and participating more fully in the benefits of Amateur Radio," the FCC said. The ARRL had asked the FCC to retain the 5 WPM for Amateur Extra class applicants only. The FCC proposed earlier to drop the requirement across the board, however, and it held to that decision in today's R&O. Perhaps more important, the FCC's action in WT Docket 05-235 appears to put all Technician licensees on an equal footing: Once the R&O goes into effect, holders of Technician class licenses will have equivalent HF privileges, whether or not they've passed the 5 WPM Element 1 Morse examination. The FCC said the R&O in the Morse code docket would eliminate a disparity in the operating privileges for the Technician and Technician Plus class licensees. Technician licensees without Element 1 credit (i.e., Tech Plus licensees) currently have operating privileges on all amateur frequencies above 30 MHz.

"With today's elimination of the Morse code exam requirements, the FCC concluded that the disparity between the operating privileges of Technician Class licensees and Technician Plus Class licensees should not be retained," the FCC said in its public notice. "Therefore, the FCC, in today's action, afforded Technician and Technician Plus licensees identical operating privileges."

The wholesale elimination of a Morse code requirement for all license classes ends a longstanding national and international regulatory tradition in the requirements to gain access to Amateur Radio frequencies below

30 MHz. The first no-code license in the US was the Technician ticket, instituted in 1991. The question of whether or not to drop the Morse requirement altogether has been the subject of often-heated debate over the past several years, but the handwriting has been on the wall. A number of countries, including Canada, no longer require applicants for an Amateur Radio license to pass a Morse code test to gain HF operating privileges. The list has been increasing regularly.

The FCC said today's R&O in WT Docket 05-235 comports with revisions to the international Radio Regulations resulting from the International Telecommunication Union (ITU) World Radiocommunication Conference 2003 (WRC-03). At that gathering, delegates agreed to authorize each country to determine whether or not to require that applicants demonstrate Morse code proficiency in order to qualify for an Amateur Radio license with privileges on frequencies below 30 MHz.

Typically, the effective date of an FCC Order is 30 days after it appears in the Federal Register. That would mean the Morse requirement and the revised 80-meter segment for automatically controlled digital stations would likely not go into effect until late January 2007.

The ARRL will provide any additional information on these important Part 97 rule revisions as it becomes available.

Yes, the 796D does not cover 700 MHz and if that band is essential the
original poster should consider the newer models you mentioned. The 700 MHz
issue is not related to rebanding at all since that only affects 800 MHz.

It was destroyed by not regulating it properly.

So their "dispatchers" page every freaking little call on dispatch so they get
credit for bogus crap.  Sorta like green stamps - pay $100 for a 25 cent item.

I am sorry but I missed the first part of this thread.

First of all, I have to say that I have only been dispatching for 1st Responder for about 7-8 months. I came to them via Tac9Radio, of which I dispatched for about three years.

I was and still am very impressed with 1st Responder Wireless, for several reasons.

They are all about Quality versus Quantity. We are only allowed to send out pages that are not confirmed by a unit on scene. No pages sent out based on PD/FD/EMS/ALS dispatch. No simple smoke showing calls dispatched until confirmed by crews entering attack mode or a "working fire" being called by IC. If a dispatcher has a question about whether a call is dispatch worthy, they are encouraged to ask a supervisor. It took me a while, and a few friendly admonishments before I got it down (even though I was a FF for 18 years and even worked in a 911 center for 5 years).

1st Responders dispatcher also frequent hold meetings to discuss issues and training. Virginia state dispatchers are having a meeting this month and the 1st Responder general manager is attending.

So tell me, what is wrong with rewarding dispatchers?

Brian

Would anyone happen to have the manual for a radio shack htx-212 2 meter
rig in either pdf format or in .txt? I am blind, and need to try to figure
out how to set the pl tones on this rig. If you have one, or can point me
to a web site, that would be great. Just e-mail to this address.
Dana@panix.com Tnx.

> the title

You're looking in a mirror, fatboy. Those are all YOUR posts.

> stop lying syaing I eat your ####

I never said you did.

> stop lying about being miiss quoted

You ARE misquoting me. Over and over.

> get a life and get help since you are clearly obessed with staking a
> man sexualy

I have a life. It's called employment. You wouldn't know about
that, would you?

And what is "obessed"...?!?! And "staking" a man sexualy"..?!?!

> the truth I trick you in 1998 when you thrented to MURDER me

You can't trick your way out of a paper bag, fatboy, and I never
threatened to murder you.

And further retelling of same is yet another lie.

> stop this whining and face facts you are the one that is sick with
> your obesstion for ####

What's an "obesstion"?

If you meant OBSESSION, then you're talking to yourself since YOU keep requoting it over and over and using that word blatantly.

> the ruth is you are truly MAD robeson get help

The 'ruth" is...?!?!

I don't know anyone named Ruth in my family.

> and please stop the lie I have seen that you are doing ANYTHING for my
> benifit

You mean your BENEFIT...?!?!

I keep hoping that you'll wake up and realize what a fool you're making of yourself one day. One can always hope.

> and stop lying about the ToS of Google they expressly prohibit your
> cyvervandalism

What is "cyvervandalism"...?!?!

> and stop lying about my Military service I have my DD 214 as I guess
> you do likely yours list section 8 as reason for discharge

The only thing you ever serviced in the military was a drunk soldier through a knothole in the latrine.

I have a BC796D.

The programming software that comes with the radio is pretty bad.
The money spent for software like Butel ARC250 is well worth the expense.

http://www.mods.dk has both the user manual and the service manual for this radio. You do not have to have an account to get a single download per week.

You are the one who claimed to enjoy being raped, Marqueer.

BTW, what happened to your statement that if they drop the code you
were out of here for good? Looks like you lied again!

Thanks very much for all the information. I have gotten out my wallet and put forth the extra money for the Butel ARC250 Pro software. Now I just need to find out how to set up my computer to record as a night logger. And find some groups for local scanner frequencies.

Again, I can't thank you folks enough. I hope someday I can help anyone one of you.

The ARC250 software has a built in recorder feature.
Just make sure you turn on record mode for the channels you want to save.

```

So, I've been setting up a Radio Shack 433 scanner in the basement to pick-up the local airband frequencies. I bought a proper airband antenna, and over the last week, I've had it temporarily mounted to the wall in my basement, and reception has been okay. Today, I finally got around to mounting it on the roof of the house, and now reception is worse! I can barely pick up anything at all. Strange thing is, if I connect my handheld aviation transceiver to the antenna, I can hear great, even at full squelch. But with the 433 (or the 2055 that my wife uses to listen to the cops) I can hardly make out anything. I'm puzzled as to how an antenna-receiver combination that was working tolerably in the basement can now not be working at all with the antenna mounted properly! Any ideas???

Hi all. Just wanted to say thanks to everyone who responded. I got the
manual, then got it into .txt then got a ham to look for a picture of the
rig on the net so he could tell me the button layout. I got all my pl
tones in and everything is rorking just fine. Thanks from Dana in Griffin,
Georgia. n4pge.

Hello. I'm Bill Crowell, W6WBJ, and I've been a ham for 47 years now. I'm a good operator, and I'm here to tell you that Riley Hollingsworth is full of shit. He HAS NOT designated my renewal application for a hearing; he just wanted to defame my by trying to make everyone THINK he had done so. If you carefully read the warning notice which he sent me, you'll note that it says, in pertinent part:

"the issue of renewal of your license has been referred for designation of a hearing"

What this means is:

(1) it hasn't been designated for a hearing yet. It's merely been "referred" for such a designation. No hearing date has been set, nor is it clear that one will EVER be set.

(2) "referred for designation" simply means that Riley the bullshit artist has asked his superiors for permission to take my case to a hearing. It is by no means clear that they will grant his request. Hearings are expensive, and there is no reason to take me to a hearing because I've done nothing wrong. Indeed, judging by the passage of time since he sent me my warning notice, with no hearing deisgnation order yet issued, it looks increasingly unlikely that such permission has been granted.

What we have here, gentlemen, is another example of Riley Hollywood pulling the wool over your eyse by trying to make it appear that he is taking me to a hearing, when in fact he has not done so. You have been used. Abused. When are you going to wake up to what a dirty son of a bitch old Riley is?

You can get Canadian frequency info direct from the Govt. at
http://sd.ic.gc.ca/engdoc/main.jsp
You can download full files for your area, or do searches.  Quite
handy.

Steve

Your aviation transceiver is better quality than the scanners which are
evidently being overloaded. An FM broadcast filter might help -

Also how long a length and of what sort of coax have you used? There
could be quite a loss in the cable.

> I guess you've checked the antenna cable connectors?

Yep, the cable's fine. And it works fine with the handheld, so I think
the overload issue is the most likely culprit. I've got a bandpass
filter on order, so I'll give that a try.

It's about 60 ft of RG-58. Probably ought to be RG-8, but I think it
should be okay.

Well, damnitall, some under-appreciative numbnuts failed to second my
nomination of you, so you get nothing at all beyond the Pineapple. I guess
your k00kery just isn't all that outstanding.

Greetings All!
I have been toying with the idea of building a discone antenna for scanning. I have a couple of junk TV antennas and I think I will make good use of the elements and construct a discone. I have thought about using the UHF end off of one and put it on a small rotor for directional use in the UHF bands. Just some fodder for the brain. Have a great week! Jon in Upstate South Carolina.

Eric Ferguson wrote:
> You might try googling the discone antenna. Has a 10:1 frequency range.

Just keep the VHF too and be sure to turn it vertical. Should make a
great UHF/VHF beam.

Only problems with a BP filter (aside from its gradual skirts, unless it has
5 poles or more) is you will have to disconnect it to listen to other freqs
and its attenuation on the likely culprit, FM broadcast, will be minimal.

The scanners are dedicated to airband (providing feeds to LiveATC.net) so removing the filter isn't an issue. I installed an AOR ABF-125 filter tonight, and the overload problem seems to have been solved. I'm still not overwhelmed with the quality compared to what I get from my airband transceiver, but that's $300 vs. $100, I guess. I might try the FM notch filter, too, and see if that makes things any better, but for now, at least I'm up an running. Thanks to everyone for their help / suggestions...

Also try one of the real cheap FM notch filters from Radio Shack. For me,
it worked better than the expensive PAR one with an FM broadcaster a mile
away.

Make a "Slim-jim" (J-pole) from some twinlead/hookup wire.
Tack it high up in the wall,and call it good.

Greetings!
This is exactly what I am currently using for an outdoor scanner
antenna, a J- pole. Mine is outdoors and was actually cut for the 2
meter ham band, 144-148 mgh, but it works very well on all bands for
receive purposes. You should get very good results on an indoor
version as I know several hams who use a j-pole inside for transmit and
receive. Have yourself a Merry Little Christmas! Jon in Upstate South
Carolina.

HAM isn't as popular as it used to be. All of the old HAMS have either died off or are no longer on the air for various reasons. When a service is threatened due to lack of interest, something must be done to encourage people into the hobby. The FCC decided to eliminate one of the hardest parts of obtaining a ticket in an effort to encourage people to obtain a license and hopefully keep HAM radio alive and well. Why is it I do not hear much code on the bands anymore? It used to be that every ship at sea would communicate via key. Not today. Not in the age of Satellites. So, why would you feel the code should still remain an active part of being a HAM? Do YOU still use code? If so, for what?

Yeah, keep HAM back into the old days and don't evolve with technology. That's the way to do it. It was better in the old days when you had to bust your ass to learn a code that you would probably never use or even listen to.

Time to move forward. With the cost of equipment far more expensive than what CB used to be in the 70's, I seriously doubt HAM will turn into what CB has become. Also, you fail to mention the fact that the FCC DOES monitor and enforce HAM radio unlike CB that's become a zoo.

Anyone can go to the FCC enforcement website and read the many reports of hefty fines imposed on commercial radio and HAM alike.

And before HAM turns into a CB zoo, it would have evolved a lot further than it is today and people still wouldn't be able to buy a HAM toy to use like CB. Enforcement will become a HAM wide effort, whereas, established HAMs will have to keep an eye on new operators to ensure they don't cross the line and if they do, turn them in to the FCC for action. Most HAMS I know can work together to locate the fixed transmission of another HAM.

So, relax. You will probably be gone to the big HAM shack in the sky before HAM goes the way of CB.

```

I installed the PAR FM notch filter tonight, and it made a huge difference over the bandpass filters I'd previously tried. I'm very happy with the quality now, and I can avoid having to upgrade the scanners to real aviation recievers. Thanks again for all the input...

LOL....from what I hear on the bands I would suggest hams police
themselves first before they worry about newcomers.

The pro-code/no-code debates remind me of the Am/SSB debates on the ham
bands back in the 70's.

so what are you SC,a fortune teller,soothsayer,prophet or what?
I have been studying the code for a while now and I know all the
letters and everything
but I am very slow with it yet. My goal has been to take the code test
in January,I have already passed the tech and general tests.But I gotta
tell you,all the crap from guys like you
have really been a turn off. "Laziness,dumbing down,end of ham
radio,all that other ignorant crap from a bunch of these people make me
think why in the world learn the code,I sure would
not want to make a contact with one of these guys.No way my sending

would be good enough for these perfect hams and who needs the grief.But
you have it all figured out and know what the future holds for this
HOBBY.So I may go ahead and take the test next month and I might not.In
the end it wont make any difference will it?I really wish you and those
like you would accept the reality of the way things are and let it go,
enjoy the hobby and stop spreading hate and discontent.You just drive
people away with that junk.

Put the idiots in the kill file. Don't waste your time reading them.

Good luck with with the license testing. Have fun with the hobby code,
phone, digital, and slow scan TV. Ignore the idiots on the air along
with the idiots in the news groups.

PCR Remote - version 0.65.32 Beta is Now Available for downloading from the
homepage:
http://members.cox.net/5150soft/PcrRemote/PcrRemote.html

The Server and Remote software allows you to control your Icom PCR-100,
PCR-1000, PCR-1500 and PCR-2500 over the internet.
Using Audio Brodcast software such as SHOUTcast, Pirate Radio Broadcaster
or Windows Media Encoder will enable you to hear your radio from a remote
location over the internet...

This update has a few changes:
 Dec   16,2006 - Fixed: Remote Users Volume is now Muted when set from
Server.
 Dec   17,2006 - Added: Shotcut keys to Menus.
 Dec   18,2006 - Added: Chat function between Users and Server.
 Dec   18,2006 - Added: Window Heights now adjusted depending on OS used.
 Dec   18,2006 - Added: DSP Settings.
 Dec   19,2006 - -----: Changed the Frequency Centering Indicator.
 Dec   24,2006 - -----: DV & P25 Mode Buttons now display appropriate Tool
Tip Text...
Version 0.65.032 Released 12/25/2006

Regards,
Jay

Hi there, wondering if any police scanner/cb radios exist.  I know it's
illegal to transmit on frequencies outside of CB.  Looking for a Police
Scanner / CB combo type thing though.

Don't know if any other CB's do this or not but I purchased a Motorola
system 500 CB at an estate sale 10 or 15 years ago that will scan all
40 channels and has the controls in the mic. I never could locate a
manual for it and still have not figured out all the features on it. RM~

PS, Still have it and it looks like a new radio as I only used for one
vacation trip.

Lafayette Radio use to make a CB ( 23 channel ) with a tunable  VHF  Hi or
Low band receiver built in ( you had to pick one or the other )

http://hamradiogallery.com/gallery2/main.php?g2_itemId=13286

Have never seen anything made since thats even remotely close.

I would thing the RG58 coax would attenuate the signal enough, if that's
even the problem.

Nope you siad you'd leave once they dropped the code requirement.

> can't do that yet

You'll never be able to do it, retard.

> but you can't tell the truth

Oh, the irony.

saure I will be able to sign kb9rqz/ae soon enough mostly a matter of

finding a test sesion I can easily get to the weather is runing cold
and snow/icey
>
>> but you can't tell the truth

you can't tell the truth that is why you spread Steve version of
christmass cheer

becuase you can't even invent your own lies you need someone to do it
for you

Bolt 21 AARing FL-ANG "FANGs"
`````````````````````````````
~~~~

FL-ANG "FANGs" (F-15s out of Jax IAP) have been up today. Heard them in
AAR with MacDill KC-135 tanker "Bolt 21." They were using the freq
343.0 for boom comms.

Also heard Sealord on 284.5 handing off the FANGs to discrete 376.9.

But "pagans" like you aren't supposed to celebrate Christmas, dumbass.

> becuase you can't even invent your own lies you need someone to do it
> for you

No, anybody could out-wit you, Markie.

-= who knows about it? =-
-=-=-=-=-=-=-=-=-=-=-=-

Many people know, both in the establishment and media, and among the
general public. Despite an absence of its target from the UK for more than
```

two years, the echoes of paranoia can still be heard loud and clear from across the water. When it started in 1990, the only people who knew were those in BBC television who were spying on my home, and a few radio broadcasters. There were a few cases of public harassment, but very little compared to the situation that developed a couple of years later.

The list today includes BBC TV staff (newsreaders such as Martyn Lewis, Michael Buerk, Nicholas Witchell), people from radio stations such as Chris Tarrant of Capital and Radio 1 DJs, people in the print media, but also many people in the general public. All united in a conspiracy which breaks the laws which the UK does have regarding harassment, and all completely uncaring for any semblance of decency or elementary respect for individual rights.

The British police (obviously) do know the nature of the harassment and in all probability the identity of those behind it. Some time ago I made a complaint to my local police station in London, without positive result. The UK police are failing in their duty to see the law enforced in not checking the abuse.

Might be a good time to get some equipment from him cheap. Just make sure you
have it in hand before turning over any money to him!

I'm in Brockville and I just have a "normal" scanner. I can't pickup
the local city police but I can listen to some OPP and the fire dept
is no problem at all.

NASA WB-57F and T-38s today
```````````````````````````

It is Sun, 11:54am EST (1654z).

A few minutes ago, NASA 918 (T-38N #66-8384) and NASA 926 (WB-57F #63-13503) departed Patrick AFB.

NASA 918 is heading to KARA; and NASA 926 is heading to Ellington Field. KARA us Arcadiana RAP in New Iberia LA, and it is usually a waypoint for NASA T-38s heading to Ellington.

NASA 926 worked the Space Shuttle STS-116 launch last night, using the callsign Wave 01. He performed photography from 65,000 feet up. Right now, he is going from FL470 to FL510.

The handoff sequence has been:

133.75
132.65
135.70
126.95
125.075
126.525

From there, they will most likely go to the sequence:

128.225
133.900
124.775

NASA 901 is also up on 126.525.
```````````````````````````

Code by hand/ear is a quaint skill much loved by old geezers. Just like knowing how to use a slide-rule. Interesting for historical reasons... but not very useful otherwise. And old geezers kick the bucket... so in the end change comes by the minds of the young. Welcome to the 21st century, Marconi.

SC, I remember what happened to the net with the introduction of AOL "newbies". So I can relate to your fears. But I think that scenario will only play out if code AND written exams are abolished. I don't think your average CB'er could pass the technician exam without code.

Now, psychology... lazy people as a rule don't have frustration over their laziness. They only get frustrated by biological needs. Why? because they are L A Z Y.

> rule of two.

I don't think CAP is flying with both wings tif they are letting Robesn
near them I do indeed fear for the safety of anyone of any age around
him

Steve is threat to ANYONE around the closer they are physicaly the
greater danger Styeve is to them

Then, if you manage to read/watch all that, try this:
http://www.newamericancentury.org/RebuildingAmericasDefenses.pdf
And Molly Ivins had a few choice words to say about it, weeks before:
http://www.truthout.org/docs_2006/092906B.shtml
Here's Chris Floyd: Fatal Vision: The Deeper Evil Behind the Detainee
Bill: http://www.truthout.org/docs_2006/100206A.shtml

"Q: What's the difference between the Vietnam War and the Iraq War?
A: George W. Bush had a plan to get out of the Vietnam War." -- Anon.

Thread where outing begins: http://tinyurl.com/hojf8
George Pickett Memorial Trophy, Special Ops Cody Memorial Purple Heart,

and the Order of the Holey Sockpuppet winner <wfh_jr@hotmail.com> on outing personal contact info in x-poasted subject lines:
"Plenty of people post under their real names and do not attempt to hide their contact info. You are scared of being 'outed' because you are a pathological abuser of usenet, and people rightly despise you for it. You're afraid of being reported to the authorities or, better, visited by a couple of guys with baseball bats. Other people don't have this obsessive fear. Ward Hardman himself has posted plenty of personal information - nothing that anyone else added was hidden in any way. You're so fucking scared you've built up this whole sick mythology about different categories of bad dudes who 'out' scum like you.

"Meanwhile you are the ugliest pigfucker in the universe. You are the coward without ethics. You call me a 'newbie' - ha! what an asshole you are. Those who want to remain anonymous do so. There is absolutely no way you could identify me, not unless you had the sort of subpoena power that only gets turned on for big-time terrorists. That's because I chose to be anonymous. Some people don't. Only really stupid dicks like you choose the sort of semi-anonymity which leaves you in constant fear.

"What a dickless wonder you are 'Snarky' you fat asshole."

1159678991.838385.310840@m7g2000cwm.googlegroups.com

"When I told Abbie Hoffman that he was the first one who made me laugh since Lenny Bruce died, Hoffman said, "Really? He was my god." The combination of satirical irreverence and sense of justice that Bruce and Hoffman shared was the real spirit behind the Yippies--a term I coined to describe a phenomenon that already existed: an organic coalition of stoned hippies and political activists who engaged in such actions as throwing money on the floor of the New York Stock Exchange, then explaining to reporters the meaning of that symbolism. Folksinger Phil Ochs summed it up: "A demonstration should turn you on, not turn you off." So when journalists link the Yippies with misleading bedfellows, at best it's careless shorthand; at worst it's deliberate demonization. Osama bin Laden wanted an aircraft to crash into the Pentagon. Abbie Hoffman merely wanted to levitate it." -- Paul Krassner, http://tinyurl.com/ehu3v

Shut up Markie. Learn CW. Try to be a real ham and stop pushing your
perverse Queer agenda on the rec.radio groups.

I heard that too. Some nickel ham came in on the frequency with his lid
operating habits and pissed them off. What else were 20 wpm Extras to do
but put that little turd in his proper place, and why you listening to the
extra portions of the bands anyway. Go play with your model Choo-Choo
trains.

And like the SRB's, my skills make me reusable.   External tanks like you
and Lenny have no value after the gas is spent. Use once and release, kind
of like flushing a turd.

I'd like to personally thank all of you for your input, though I don't
know if my current budget will allow the extra $300 or not.

thanks again
Chris

Hi i have a radioshack pro 2042 base scanner. Is this any use any more?
I dont seem to be able to pick much up these days. I have heard there
is an Optoelectronics Interface Board which i can use with my laptop,
but have no idea what it does. Anyone any ideas what i can do with y
scanner to make it of more use?
   cheers

I have a bearcat 800xlt that I hook up to an external antenna and it works fine. I'm trying to figure out a way to be able to move the scanner to a different location (in a house) without having to "hard wire" or to add additional antenna wire. Is there such a thing as a receiver/transmitter that I could connect to the existing antenna - that would "forward" the signal to my scanner no matter where I am in the house??

I'm probably just dreaming - but I thought I'd check it out.

John

Hello !!

What is the best software for the AOR 8200 MK3?

Any comment welcomes

Thanks Everyone!

why don't you just add a walkman or Ipod FM transmitter (broadcasts the
audio of the scanner thru an FM radio) and carry a cheap
FM radio around the house with you.

I have looked around on Google without much success. I am interested in
making my own indoor antenna for my scanner. It must be general coverage and
omni directional. I have wire and coax. Just looking for something that is
going to be better than the telescoping antenna built into the scanner
without going outdoors. If anyone has any ideas or links for websites with
some info on building your own indoor antenna please share :)
Thank You and Best Regards
Bill

Unless you are locked into a do it your self project you might look at the radio shack 20-006 telescoping center loaded antenna. It works as well as anything I have tried except roof mounts. I have one on my Pro 94 and BC895 and it really helps, especially on the lower freqs and air band. RM~

PS, If used on a base scanner with a rear panel bnc connector you will need a bnc right angle adapter.

You might try googling the discone antenna. Has a 10:1 frequency range.
Haven't built one myself (yet), but will try one of these days.

light bulbs work much better if you screw them into your asshole first.
ass juice makes a good conductor.

ok I back four anoter tuff day on the news grupes it my job tast is waht I
do so bringit on you loosers
show-na-to-va (that is the greeting for this time of year as JEW rendered
phonicticaly)

happy new years it means and it can be better one if Wismen Robson and SC a
few just decided to not to be as hateful with the punce gotcha he wonders
why I simple don't bother to ty impoving my spelling do u hav anyting
cognet two say?

you will have all seen the rsults today of K4YZ obessive stalking of
Myself One KB9RQZ

as I said more than a year ago I would not stand for the constant libel of Robeson and few other in NG for more than year we have been "treated" to steve effort to wera me down under his torrent of filth and lies

whe n I saw 100 plus posts on this subject from obviously I could answer them indivualy, unlike Robeson I have life

I may have steamrolled over something other than steve diatribe if I steamrooled over you missing your content for this I am sorry

this message will be sent multitime in hope in may survive

following is at this point is the cut and paste at it full measure bit got afdded as I noted charged made again that I wished to adress

----

Morkie, I will conceed that you know two things that I will never know...What it's like to lick my excrement off of another man's genitals, and the going welfare rates in Michigan. steve goes claiming othermen eat his shit
stop the lying stop the vandalism and stop the bull at this point my server say you have post 8o plus itme titled with shit or a synoym in the title

stop lying syaing I eat your shit

stop lying about being miiss quoted
get a life and get help since you are clearly obessed with staking a man sexualy

the truth I trick you in 1998 when you thrented to MURDER me

stop this whining and face facts you are the one that is sick with your obesstion for shit

the ruth is you are truly MAD robeson get help

and please stop the lie I have seen that you are doing ANYTHING for my benifit

and stop lying about the ToS of Google they expressly prohibit your cyvervandalism

and stop lying about my Military service I have my DD 214 as I guess you do likely yours list section 8 as reason for discharge

I installed a lot of F32T8 fixtures in my basement (24 in total) and have
also had a lot of failures. The cheap ballasts used in these (Home Depot)
fixtures have been the culprit.

Are you quite certain the tubes themselves are going bad?

Both of you are a disgrace to the amateur radio community. In my 40 plus years of ham radio involvement, I have never, ever, once seen such a disgusting display of bad judgment. I will make every effort to notify the FCC of this public posting as a means to challenge your privilege of holding a government broadcasting license. This license is a privilege and not a right, and your activities debase this privilege and the entire amateur radio community.

Cut it out !!!!!

First I have to admit that i am ignorant, having said that, lol....My gf would like a scanner, her dad is on the fire department, and they recently switched over to 800 mhz. So now all I hear are the tones and then assignment of fireground. My question is, what kind of scanner do I need to buy for her to be able to hear the conversations on the 800 Mhz freq. is a conventional scanner with 800 Mhz ok, or do i need trunking? or digital? I have absolutely no idea. please advise =o)

You would need to supply the city or county fire dept that your gf's dad
works for before someone could give you an answer. Most likely it's a trunk
type system.

Dave

have some federal signal [touchmaster utm-4] with option
13 added. this is the top of the line for them. these list for
over $869.50 per the factory. these our [used] pulled out for up date. open
for offer. i have 10 unit's at this time.
also have some mx 7002-seep light bar's. all yellow with arrow stick built
in them/they come with arrow stick control. no switch box for light bar. all
our in real good shape. front light's/side light's/back light's in white.
plus many other light's, open for offer on these light bar's also.
they do have the [black gear] on the rotor's.grat for wrecker/roll
back/saftey/ or chang to the color you need.

It appears that Fire Dispatch is on 154.145  then are switched to 800 mHz
when enroute and on scene.
Go to this website for actual frequencies:
http://www.radioreference.com/modules.php?name=RR&ctid=1251
A scanner that can receive 800mhz would be fine if this is all you want to
do.  You may want to check around other counties or state agencies to see
whether you need a trunking or digital scanner.

Dave

```

Diving into this a little deeper I found this:
All Genesee County police and fire departments, except Flint City, are on
the MPSCS. This also includes all Sheriff's Department operations, MSP,
F.A.N.G., Parks & Recreation, Bishop International Airport Authority and
Animal Control.

This is a Project 25 system which means it's digital. It says they are
simulcasting the 154.145 freq for fire dispatch. It's probably a matter of
time before the Forest Twp is on this system. You would more than likely
need a digtal scanner in the future.

First, you gotta find out if the district/department you gf's dad is in
is transmitting a digital signal or just conventional 800 MHz trunking.

If you go to the following link and do a search, all the freq's as well
as the mode of transmission will be available to you. Then you can
decide which scanner, base or handheld, trunking and/or digital. If it's
a digital signal, be prepared to invest $450 +/- for a scanner. You can
buy them new, or "previously owned".

It would be like living in a nice neighborhood and then the city puts a landfill next to it. Some people will leave, and some people will stay and try to get used to the stink.

Eye no ewe r write.

I'm always afraid when no-codes go up to the ISS because they
might start belching and farting on the two meter rig like
they were on CB or something.

Radio-wise, yes.

All they know how to do is fart around in zero-g.

> > First I have to admit that i am ignorant, having said that, lol....My gf would like a scanner, her dad is on the fire department, and they recently switched over to 800 mhz. So now all I hear are the tones and then assignment of fireground. My question is, what kind of scanner do I need to buy for her to be able to hear the conversations on the 800 Mhz freq. is a conversational scanner with 800 Mhz ok, or do i need trunking? or digital? I have absolutely no idea. please advise =o)
> >
> >
>
> First, you gotta find out if the district/department you gf's dad is in is transmitting a digital signal or just conventional 800 MHz trunking.
>
> If you go to the following link and do a search, all the freq's as well as the mode of transmission will be available to you. Then you can decide which scanner, base or handheld, trunking and/or digital. If it's a digital signal, be prepared to invest $450 +/- for a scanner. You can buy them new, or "previously owned".
>
> www.radioreference.com

So, I went and looked at the link, and it does say that all of genesee county is on a "project 25 standard" this means I would need a digital scanner? or just a trunking? As dave said, dispatch is simulcast on 154.145 that is because they are still using the 'old' fire pagers. I am sorry for all the questions, but like I said I am ignorant when it comes to radio freqs and such. I pasted the frequency information below, I just want to be sure before I make the investment that I get what I need. Even though forest twp is not on the list I am sure that they are using the same countywide system since they assign 'fireground'. Thanks again for all of your help.

DEC	HEX	Mode	Display	Description
2402	962	D	25F911	Central 9-1-1 Fire - Dispatch (Simulcasted on 154.145 MHz)

If it were me I would get a digital scanner from either Radioshack or
Uniden. If you get an analog one it would probably be obsolete within a
year or two. The "D" under mode indicates digital.
Dave

NASA wanted me but I had to turn them down.  To much work to do down
here on earth trying to educate radio amateurs on how to be better
radio amateurs.

It was a struggle. Couldn't get past about 10wpm. My modem needed a
ROM upgrade but that wasn't in the cards.

> >> But that's about it. How'd ya like the boy scouts?

I understand. I don't have have a problem with that aspect of the organization, and since it involved my children, I'd prefer to keep it the way it is. Adults can do what they want.

> given the way my
> private has been invaded and praded by Steve and his freind I suspect
> I need not explain why we disagree about the BSA

But is has nothing to do with the BSA. Robesin is not in the BSA and I wouldn't want him around my children or anyone else's. But he probably has lots of contact with Cadets; hopefully they're using at least the rule of two.

If they're to lazy to learn CW for good radio skills, they might be too lazy to use toilet paper for good hygiene.

I just wish KB9RQZ would stop pushing his gay agenda in the radio groups.
Having to listen to him butcher the english language is bad enough.

There are more hero's on ham radio, but after CW is eliminated, old hero's won't die, they'll just fade away... just fade away.

Dear Mr. Ferguson:

Almost all of Genesee County public-safety has made, or will make, a transition to the State 800 MHz digital system (with the major exception of the City of Flint, which still uses their VHF system). Uniden makes a handheld and a "base" radio for the purpose. I have been using the handheld for a year with good results listening to the Shiawassee system, which re-sends most of Genesee transmissions, as I am on the west side of the county.

Expect to pay close to $500 for a radio that will allow monitoring the state system.

Regards,   Mac

Is there an online scanning frequency guide for Canada? I remember a nice
book they used to publish a few years ago but it has been discontinued.

Thanks!

Begin, Mark, by undoing the damage you have already caused to No-Code
Technicians.

There is hardly an "our number" in the equation. You are the lone crybaby in
this group, Mark.

Your incessant hand-wringing and petulant whining about the CW requirement
is getting old.

Go cry somewhere else. Your complaints are falling on deaf ears.

Well SC, just open the stall next time you're on duty at your job of
restroom attendant at the hamfest. You'll have your answer.  And I ain't
tippin you for that damn "Brut" cologne you hawk!

But SC, you're much more like the solid rocket boosters....once they start
they don't stop, much like your mouth.

I am selling the uniden 100XL for around $50 or best offer. Great for remote
areas with no APCO25 signals or for aircraft frequencies. If you want to buy
the 100XL scanner please email me at ronaldpurdue@yahoo.com thanks.

Give Morkie a few minutes. He lives for Usenet and will, within mere
seconds, drop a Mark Morgan Loaf of fertilizer on all messages.

kookathon on clockwork

Ironic, is it not? A man who spends most of his waking hours and spewing
hundreds of posts weekly on Usenet declares others to be "kooks"?

There is something very wrong with him.

mot of his waking hour

nah yu just don't understand I sit down spend a fe w minute and get up
do soemthing else till I need to take a break

but I declare Sllow Code kook becuase he is clearly insane he claims
the wants to preserve ham Radio and yet he propses thing EVEN HE
ADMITS would kill the ARS if enacted

that is clearly the work of a nut job

still wating on your call sign Mr Bell I note by you current
nickaddress that you are focusing your online existance in harrasing a
man you claim is insane and of no import a picualr endevour
(before you acuse me of the same try and use your pea brain) I am here
to take part in the finsihing of the Code Nocode part  somewhere round
```

the R&O I am outa here (ihaven't decided when exactly I will leave
this cesspool like about a week to 2 weeks after I obtain my own extra
class license (depends on the effective date of R&O and to some extent
on the date it is issues and the exact contents

then you can go back to whatever stalking you were doing before or
seek another bright flame to be drawn too as you have to me

Allow me to try to properly spell your own words, Mork. Like a moth to a
flame. You simply cannot resist, can you? You are predisposed to, as Slow
Code says, "dump" on each and every post made herein. You just cannot help
yourself. You obviously have far too much time on our idle hands.
Apparently my previous post hit Baby Mark on the soft spot on his jumbled
head. Your rejoinder was almost decipherable...almost.

And again, as in posts previous, you challenge me to give my callsign as
"proof" of my existance. For what? Your third grade bent on Machismo? That
is lame, Mark, even for you.

I'll give you my callsign, Mark. Meet me on 17M sometime...legally. I'll
give my call every ten minutes as required. In fact, Mark, I am not all that
far from you, so chatting on 17M even when the band is down should be easy
to do. We can chat there...

Oh, and if r.r.a.p. has turned into a cesspool, look no further than your
own mirror. You are part and parcel of the ruination of this group. In fact,
Mark, you are the MAJOR reason this group has so sadly deteriorated.

Alexander Graham Bell.
CW tested and FCC approved.
callsign to be divulged on 17 meters....

-
nor can he spell his insults correctly if he is going to attack my spellinghis should be beyond repaorch

```

I have to totally agree... The Incident Notification used to be a great hobby for scanner enthusiasts until these guys came around and started to make it a hobby to buy everyone out so that they could charge for something that should be free.

I learned it. I passed it. I see it as irrelevant government hurdle
to be passed. It serves no regulatory purpose in the ARS. No other
mode has a stand alone exam that denies access to HF.

> But that's about it. How'd ya like the boy scouts?
>

Fantastic organization. Lots of activities. I'd recommend
boy/girl/venture scouting to any youth. Keeps them busy and they stay
out of trouble and off of drugs.

I have Issues with the BSA as a organization BB.  given the way my
private has been invaded and praded by Steve and his freind I suspect
I need not explain why we disagree about the BSA

Hell, even with FirePage Ohio, they charge a one time fee for paperwork,
but, after that, it's reasonably inexpensive.

1st Responder is a joke and they know it. They need to 'reward' their
dispatchers... C'mon.....

I'd go for the 4AA rechargeable batteries myself. It is the path of least destruction.

Daron IBN08 and his great team of broadcasters that have been submitting audio files for us to enjoy have been very busy. We had a lot of new files that have been added this last week:

Just an FYI - you may have to highlight and copy the entire link below as sometimes it gets cut off due to the web posting

PA, Westmoreland - House Fire
Description:
Length - 16:19
Just before 1400hrs on 22 November 2006, the Westmoreland EOC Fire Dispatch Desk received a call reporting a house on fire near Rt. 982 in the Kecksburg section of the county. Station 76 was activated with command, and stations 35, 36, 37, 38, 58, and 109 were sent as M/A. Both of the first two units to arrive on scene report heavy smoke

showing. Within minutes, they report flames out the windows and that there is a burned patient needing EMS attention. This area has limited hydrants, and the only two that are usable are very long lays. Command 76 immediately orders a tanker shuttle with dump tank, and asks Dispatch to send additional tankers. While this happens, Station 58 sets up the LZ and the patient is transported away from the scene and flown to a Pittsburgh burn Center. The water supply is weak at first which gives the fire a chance to really boil through the wood frame 2-story, causing extreme exposure hazards to nearby garages and out buildings. The radio traffic gets intense as crews attempt to protect the exposures by putting more hand lines into operation. They eventually use foam to stop the spread and the fire is slowly knocked, however it's almost an hour later before Command places the fire under control. Standby companies are put into place while crews do overhaul and mop up.

San Diego, CA - Shooting with Pursuit
Description: Length - 22:44
On the night of November 24, San Diego Police responded to a fight call, at a party with at least 200 people present, while units were on scene, one gun shot was heard and they saw one person down. They quickly got a suspect description, and an officer saw a vehicle leaving the scene with a possible suspect inside. The vehicle lead them on a short pursuit, before the four suspects inside the car bailed out on foot. Two suspects were caught right away and a search with several K9 units caught another suspect.

Xenia, IL - Water Rescue
Description:
Length - 08:45
Xenia, IL November 30,2006 Water Rescue
Hunter was out during heavy rains, he stayed out later than his friend, he was stranded on other side of a creek, before dark. Around sundown the Sheriff's Department was contacted and then they called Xenia Fire Department, who has a Polaris Ranger type ATV, but was unable to reach the man. They called the Flora/Clay County ESDA Rescue Squad, who responded with their Rescue Alive rescue raft. They were able to cross the creek and bring the man back safe. Clay County Ambulance was also on scene.

Mill Creek, WA - Car and foot pursuit with K9 track
Description:
Length - 12:29
Mill Creek, WA - Mill Creek PD was in pursuit of a car that had 3 robbery suspects in it. The suspects ditched the car and went on foot. Snohomish Co. Sheriff assisted in the foot track along with K9 from Monroe PD. The robbery occurred in King County. At least two suspects we captured.

Westmoreland, PA - House Fire

Description:
Length - 12:02
One day after an unoccupied residential structure caught fire and burned in Manor Twp., Westmoreland County's 9-1-1 line rang again with a caller reporting that the burned out structure was once again on fire. The County Fire Dispatch Desk activated Stations 13 (Command), 87, 57, 3, 106, 10, 14 to respond. Upon arrival, CMD 13 reported the left side of the structure going good, and for the first engine in to lay a hand line to protect the exposure on Side B. Additional tankers were called to the scene to assist. Crews get a good knock on the fire and it is put under control, but they remain on scene for over an hour overhauling and mopping up. The cause for both fires is believed to be arson, and the fire marshal is still investigating.

South Orange, NJ - House Fire
Description: Length - 17:54
Fire started as an attic fire, quickly spread and became fully involved. 1.5 story frame. Assisting towns were Maplewood, Milburn and West Orange. During the recording you will hear command state that the fire is "out of control" and shortly after that a mayday is transmitted. Then an evacuation. Later on they state the house is a total loss. I don't believe anyone was hurt during the fire.

Dear All,

I have a Signal R532 (A classic!) scanner and it has gone faulty. It powers up ok and the display and all buttons work fine, it just seems not to tune. I can change the frequency display with the buttons but this appears to have no effect on the frequency of operation. I can hear some stations but the level is very quiet.

It could be out of alignment? I have had the covers off and it looks like some of the tuning slugs on the coils have been twiddled (not by me!)

I bought it off EBay and was Sold as Seen as I have wanted to add one of these to my collection.

If anyone can fix it for me there is money waiting!!

I phoned Castle Electronics but they said they were unable to repair these as parts no longer available and they don't have the schematics

Thanks for any help/suggestions/offers

Jim G7NKS

p.s. I know as a "real ham" I should do it myself blah blah blah............M3 rant blah........black box....RSCB blah.........dumbing down....

It might need some new sparkplugs. The gaps can foul up after a while.

Thanks for this useful info!  I put it down to an antipodean sense of humour
fuelled by our rather dismal performance in the cricket.

Good morning gentlemen
My name is Roger and I am a ham Italian operator IW2NPQ, I write this
post because from by now almost 2 years to chase the a some DOMINIC
TROISI (email, jimbow65@webtv.net) him to have defrauded me 520 dollars
for a ham I remove ICOM IC 706 MK2Gs!
Me to have paid with paypal.
Being all demonstrable, but after 2 years not to have recovered my
money yet.
Me to never have had problems with sellers and American colleagues...
rather to have another respect of the honor.... apparte this shame of
man.
Me to be right to believe whether to be ham radio also operated him and
to have the certainty that up to 2002 to have written in this forum.
to be able to lend a hand to have the data to be able to find him/it?
After 2 years to be matter of principle... not to be able to exist an
operative ham that to steal to another operative ham.... it doesn't
deserve to be with us.
Me don't believe to ever see my money again but at least to know that
the honest people to be away from him.
Me to have sold my radio to purchase his/her icom 706 and to have
remained 3 months without radio before having had the money to buy
another radio...
Don't want that some other colleague can pass what have passed me for
guilt of that shit man!

Me under to bring transaction happened with paypal to confirm that that
to hardly have writing!

To be able to require or to write to me to impala65_it@yahoo.it
Me to be sure of your help.

With respect Roger.

Well, considering it was posted on numerous LEGITIMATE Newspaper and TV
station websites, I'd say yes...  But you have a right to your opinion...

I have never said anything in support of Nambla woger

it says some pretty stpid thing and few true tone and smaller and of
less

indeeed I don't recall namble ever coming out here in RRAP woger

You might try Lowe Electronics they were the original importers and
still claim to support them: http://www.lowe.co.uk/retail_secondhand.htm
They might have the servicing info, I got the R535 service manual from
there. They also seem to have a steady turnaround of second hand R532
and R535.

Another site with the operating manuals: http://www.airband-radio.co.uk/

Indeed it does help! many thanks. I'll put the spark plug wrench away
now!!

I have already tagged thec website that does the manuals thanx

Best regards

Sure you do, Marquer, you want to convert everybody to your perverted
lifestyle.

> it says some pretty stpid thing and few true tone and smaller and of
> less

What do you care, you do what they condone!

> indeeed I don't recall namble ever coming out here in RRAP woger

You don't even recall your own name, Marqueer, since you never post
under it, either.

Richard;

The scanner needs a 9v power supply which is capable of delivering a minimum of 300 ma so a supply which is capable of delivering 800 ma is well suited for this purpose.

As long as your power supply does not provide more than 9v, your scanner will not be damaged.

A power supply rated well above the current capacity of the device will actually run cooler than one that runs near it's capacity.

Think about a heavy duty car battery. All batteries run at 12 volts, and no battery will damage your cars accessories, but a battery with a higher amperage rating will run more accesories than a battery with a lower rating.

Rick

Don't tell me - it didn't come with either the sparkplugs OR the double A
batts.

yea ........ but  they're  ( those geniuses )   working on the  P-4 /
P-5  DTV smart card crack right now.  they will , no doubt , be done
REAL SOON   but   it won't matter either way as  the  aliens  will
come down and  " save " us first anyway  ( soon as we get those
government " rays " turned off  that keep them away !  ) .

gotta go now,  dropped my stylish aluminum foil hat and realized I'm
late taking my meds as well , dang !! ... I hate it when that happens
!   ( cue  Outer Limits   theme here !!!  )
